Dear Representatives,

I am an adjunct instructor at two colleges, MHCC and Chemeketa CC,respectively, since 1996 and 1997. I am also on PERS. The impact created if I qualify for this proposed health insurance would be so significant. As you know, adjunct faculty make up the majority of the faculty in our public universities. It is my belief that providing health coverage to this group of public employees would have life changing effects.

Thank you,

Pat Barrett
