Dear committee members,

I'm tired of living in a city with high levels of industrial- and vehicle-generated air pollutants, with my children also going to school in inner-NW Portland and exposed to unhealthy air. This is unacceptable under any circumstance, and especially in a city that prides itself on setting the standards for environmental-consciousness.

Please pass this bill, as a step toward making desperately-needed improvements in the air we all breathe.

Thank you,

Nick Rothenberg
