To the Judiciary Committee:

I am the grandmother of a very intelligent five-year-old and an adorable one and a half-year-old. I am appalled to think they must begin to attend schools where anyone with a concealed handgun license can enter their school without acknowledging his/her weapon, without being questioned. Please vote to make it possible for school districts to decide for themselves whether to allow guns in their schools. I am convinced this will make it more possible to enhance the safety of my grandchildren and everyone else's, as well.

Thank you very much.

Sincerely,

Susan S. Baker
