Subject: Defending the Constition

Please do not make legal law abiding citizens criminals. We do not need more rights taken away from us. Laws on the books are not being enforced sufficiently. If they were we would not need to make law abiding citizens criminals.

Guns do not kill people, it is the evil in the hearts of men that is not paid attention to that is killing people.

Rather than punish law abiding citizens, make new laws to more severly punish those that use guns in the comission of a crime.

We are not a kinder more gentle people, political correctness is moral complacency.

Our legislators are not defending the Constition as they are sworn to do.

Thank you
Larry Webster
Ontario, Or.
