Background

The following report considers the cost of providing Medicaid services to members who work for an employer in Nevada with 50 or more employees for State Fiscal Year (SFY) 2025. This report is produced annually in accordance with NRS 422.27482, which requires that the Department of Health and Human Services (DHHS), now the Department of Human Services (DHS) and the newly created Nevada Health Authority (NVHA), prepare an annual report listing all employers in Nevada that have 50 or more employees and the number of full-time employees each such employer has who are enrolled in Medicaid.

Federal law does not exclude employed individuals from coverage in Medicaid if they meet the eligibility requirements for Medicaid, including being low income. This includes employed individuals who have an offer of affordable health insurance from their employer. However, as a condition of eligibility in Medicaid, individuals must identify any potential third-party sources of coverage and assign the Medicaid agency the right to pursue third-party liability on their behalf for health care expenses.

Technical Notes and Methodology

To determine if a company had employees enrolled in Medicaid, a list of Medicaid members enrolled during SFY 2025 provided by the DHS Division of Social Services (DSS), formerly Division of Welfare and Supportive Services (DWSS), was matched to records maintained by the Nevada Department of Employment, Training, and Rehabilitation (DETR). This match provided quarterly wage information and identification numbers of the employers for which Medicaid members worked during each quarter of SFY 2025.

Employment data were then further defined using the wage threshold associated with earning minimum wage in Nevada. More specifically, the group of Medicaid members presented in this report represents employees who earned $4,320.00 or more in gross wage earnings for any 12-week consecutive period (one quarter) in SFY 2025, as reported to DETR. This gross quarterly wage represents the SFY 2025 minimum wage of $12 an hour extended to the full-time threshold, which is 30 hours a week. This report considers 30 or more hours a week to be full-time employment as this threshold is also used for other purposes, such as the employer healthcare mandate and work requirements: under P.L. 119-21, unofficially known as the One Big Beautiful Bill Act (OBBBA), work requirements are to be implemented for Medicaid recipients from ages 19 to 64, with some exemptions for pregnant women, primary caretakers of young children, and those with disabilities or mental health conditions.

For those earning more than minimum wage, DSS provided enrollment and recertification data for Medicaid members in SFY 2025 that includes hours worked and salary earned for members. This was used to determine which Medicaid recipients met the full-time threshold of 30 hours a week or more. However, data on hours worked was not previously required to be collected; though it is anticipated that more complete data for hours worked will be available in the future, at the time of this report, this information is not available for 63% of Medicaid recipients. Those employees receiving Medicaid who cannot be conclusively identified as full-time or part-time are still included in this report.

DETR also supplied the employer identification numbers, company names, and addresses for employers in Nevada with 50 or more employees. The wage file and employer file were then combined to identify which Medicaid members were employed by companies with 50 or more employees. It is important to note that a Medicaid member may have had more than one employer during SFY 2025.

The total cost to Nevada Medicaid represents the actual cost to the State, but the cost associated with each company considers the year's cost of the employees and dependents of that company and are duplicated across companies when an individual is employed by multiple employers during the fiscal year. As such, these company costs will not add up to the same amount as the cost to the State.

To determine the dependents of Medicaid members who worked for a company with 50 or more employees, corresponding case IDs (ICIs) were identified for the list of Medicaid members who work for companies with 50 or more employees and all other members of the case were counted.

To determine whether an employer offered health coverage benefits, staff matched the employer's Employer Identification Number (EIN) against the Department of Labor's Employee Benefits Security Administration's database of Form 5500 filings. A value of 4A in line 8b on Form 5500 indicates that the employer offers a health benefits plan and a value of 4U in line 8b on Form 5500 indicates that the employer has a collective-bargained welfare arrangement. However, not all employers need to file a Form 5500, and those that do not may also offer health benefits to their employees. The Division of Insurance does not currently track which employers offer health insurance benefits unless there is a consumer complaint.

Cost data was pulled using the members' Medicaid ID and members' aid category code at the date of payment. The Centers for Medicare and Medicaid Services (CMS) reimburses each state for a percentage of its total Medicaid expenditures. This percentage, which varies by state and population, is called the Federal Medical Assistance Percentage (FMAP). FMAP is computed from a formula that considers the average per capita income for each state relative to the national average. The FMAP was determined by the members' aid category code on a claim when the claim was paid. FMAPs are used in determining the amount of federal matching funds for state expenditures for assistance payments for certain social services, and state medical and medical insurance expenditures. The Social Security Act requires the Secretary of Health and Human Services to calculate and publish the FMAPs each year. Nevada's FMAP was 60.22% during federal FY 2025, reduced from the federal FY 2024 value of 60.77%.

Methodological Changes from Previous Reports

It is important to note that the methodology outlined above for SFY 2025 differs from the methodology used for SFY 2024 and earlier in two important ways:

First, the inclusion of work hours and the 30 hour per week full-time filter, due to the planned implementation of the P.L. 119-21 work requirement is new. The full-time filter excludes those employees who never met the 30 or more hour per week full-time threshold during the sample period. It reduces the sample population by about 17%.

Second, previous editions of this report set the inclusion threshold at minimum wage for a full 40-hour workweek, which would have been $5,760 per quarter for SFY 2025. This would have been a significant increase from $4,920 per quarter in SFY 2024, owing to the end of the multi-tier minimum wage system bringing the minimum from $10.25 to $12.00 an hour. As it is, the reduction to $4,320 per quarter, representing 30 or more hours per week, for this edition of the report increases the included population of employees by about 14% and of dependents by about 9%. More importantly, this also raises the per member per year cost to Medicaid.

Because of the above major differences, care must be taken when comparing SFY 2025 figures to previous fiscal year's figures; SFY 2025 figures in the included charts will be shown in alternate colors.

Key Findings

- Coverage Overview:
  In State Fiscal Year 2025, Nevada Medicaid provided coverage for 133,934 full-time employees working at companies with 50 or more employees, along with 141,545 of their dependents. This totals 275,479 individuals, representing a 27.6% decrease from SFY 2024. The decline is primarily attributed to changes in eligibility criteria and data methodology.
- Cost of Care:
  Nevada Medicaid spent approximately $948.9 million on health care for these full-time employees and their dependents in SFY 2025, which is 15.4% less than in SFY 2024. The overall cost reduction was driven by a 27.6% reduction in the number of people covered. Average cost per member per year, on the other hand, increased by 16.9%, rising from $2,948 in SFY 2024 to $3,445 in SFY 2025, offsetting the reduction from reduced headcount.
- Demographics:
  - A significant majority (79%) of Medicaid-covered employees and dependents in this category reside in Clark County, compared to 73% of Nevada's general population; Clark County is thus slightly overrepresented.
  - Hispanics make up the largest share of Medicaid recipients with 39% of covered employees and 44% of covered dependents. Hispanics make up 37% of the general Medicaid population.
  - Non-Hispanic Black recipients are most heavily represented relative to their share of the general population, making up 23% of employees and 22% of dependents, compared to 9.3% of the general population.
  - The covered employee population skews younger: over 50% are under age 35, and more than 75% are under age 45. Among dependents, over 83% are minors under the age of 18.
- Major Employers:
  - Amazon.com Services Inc. remains the leading employer of Medicaid-covered individuals, a position it has held since SFY 2020, with 10,140 employees and dependents in SFY 2025. However, this represents a 44% decrease from SFY 2024, a sharper decline than observed in the broader labor market.
  - Wal-Mart Associates Inc., previously the top employer from SFY 2017 to SFY 2019, has been second since SFY 2020. Its Medicaid-covered employee count dropped 24% since SFY 2024.
  - Clark County School District has consistently ranked third among top employers of Medicaid recipients since SFY 2020.
  - The State of Nevada has risen in rank for both Medicaid-related costs and headcount, moving from eighth in SFY 2022 to fourth in SFY 2025.
  - Gaming establishments in the top 20 employers saw declines in both rank and Medicaid costs and headcount. Notably, Wynn Las Vegas LLC dropped from 4th to 9th and Aria Resort & Casino LLC fell from 10th to 21st. These shifts may reflect new labor agreements on the Las Vegas Strip, but many casino employees are still near the minimum thresholds for this report, suggesting that work hours may be strategically managed to limit benefits eligibility.
- Eligibility:
  - 66% of employees are covered through the Adult Expansion to Medicaid.
  - 75% of dependents are covered through Original Medicaid programs.

Results

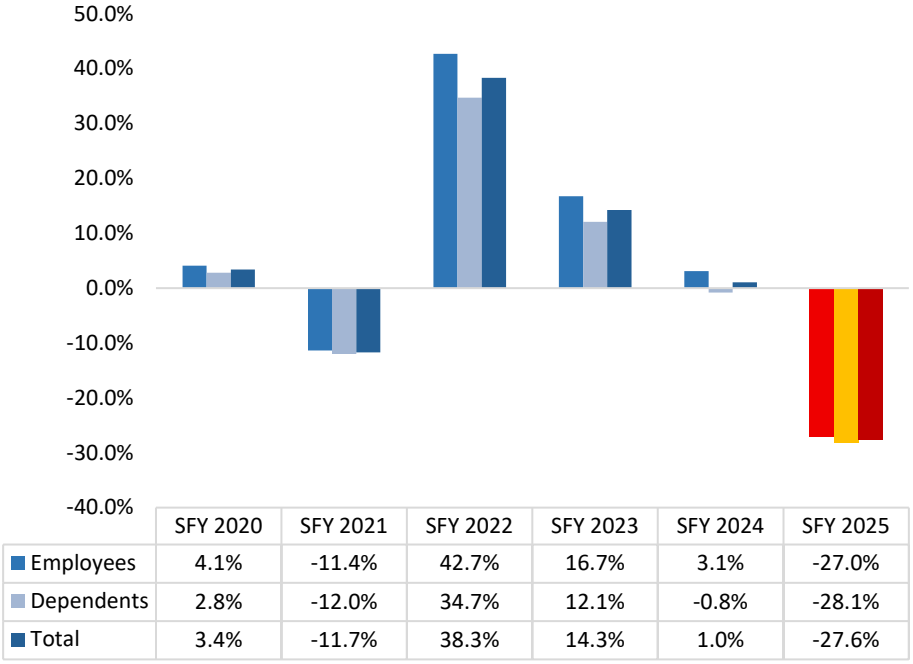
In SFY 2025, there were 133,934 full-time employees covered by Medicaid who worked for companies with 50 or more employees, who had 141,545 associated dependents, for a total of 275,479 individuals covered (Figure 1).

Figure 1. Number of Employees and Dependents on Medicaid, SFY 2020 to SFY 2025

	SFY 2020	SFY 2021	SFY 2022	SFY 2023	SFY 2024	SFY 2025
Employees	120,561	106,836	152,450	177,982	183,534	133,934
Dependents	149,420	131,494	177,174	198,615	196,988	141,545
Total	269,981	238,330	329,624	376,597	380,522	275,479

As mentioned in the Methodology section of this report, new work requirements set to begin January 1, 2027, as mandated by the One Big Beautiful Bill Act (OBBBA) will cause the number of employees and their dependents counted in this report to decline considerably going forward; on the other hand, the 30-hours' minimum wage threshold, new for SFY 2025, is less restrictive than that used in previous editions of this report and will include more Medicaid recipients. Thus, the reported SFY 2025 numbers in this report are shown in alternate colors to highlight that they are not directly comparable to the SFY 2024 and earlier numbers because of this change in eligibility. Taking these changes together, the reported number of employees and their dependents fell by 27.6% from SFY 2024 to SFY 2025 (Figure 2).

Figure 2. Growth Rate of Employees and Dependents on Medicaid, SFY 2020 to SFY 2025



In SFY 2025, the cost of providing health care to full-time employees was $575,109,855 and the cost for providing health care to their dependents was $373,795,157. Combining these results, the total cost to Medicaid for providing health care for these individuals was $948,905,011 (Figure 3). This is a decline of 15.4% in the total cost to Medicaid from SFY 2024 to 2025 (Figure 4).

Figure 3. Total Cost to Medicaid

	SFY 2020	SFY 2021	SFY 2022	SFY 2023	SFY 2024	SFY 2025
Total Cost to Medicaid	$737,153,147	$758,756,963	$1,203,245,054	$1,453,601,914	$1,121,748,948	$948,905,011
Cost of Employees	$433,686,928	$471,010,521	$742,830,100	$896,420,827	$679,554,096	$575,109,855
Cost of Dependents	$303,466,220	$287,746,441	$460,414,954	$557,181,087	$442,194,852	$373,795,157

Figure 4. Growth Rate of Cost of Health Care to Employees and Dependents on Medicaid, SFY 2020 to SFY 2025

	SFY 2020	SFY 2021	SFY 2022	SFY 2023	SFY 2024	SFY 2025
Employees	2.8%	8.6%	57.7%	20.7%	-24.2%	-15.4%
Dependents	-2.8%	-5.2%	60.0%	21.0%	-20.6%	-15.5%
Total	0.4%	2.9%	58.6%	20.8%	-22.8%	-15.4%

The changing population of employees and dependents on Medicaid is also associated with changing costs of providing Medicaid coverage to that population. The rises in cost of providing health care for employees and their dependents of 58.6% from SFY 2021 to SFY 2022 and another 20.8% from SFY 2022 to SFY 2023 were associated with large increases in caseload. However, the 22.8% decline in cost from SFY 2023 to SFY 2024 came against an increase in caseload of 1.0%, indicating a decrease in utilization and per member per year cost, largely due to the continuous coverage during the COVID-19 Public Health Emergency (PHE). The recent work requirements change, on the other hand, lowers enrollment by considerably more than it does total cost, indicating that its associated cost reduction is driven by its impact on enrollment.

Medicaid is a jointly funded program by the state and the federal government. The federal government's financial contribution to the program is determined by the Federal Medical Assistance Percentage (FMAP). The FMAP is calculated based on the state's per capita income relative to the national average income. FMAP splits are based on paid date and determined by the members' aid category code on a paid claim's net payment. Most FMAPs are subject to annual federal fiscal year (FFY) updates by the Centers for Medicare and Medicaid Services (CMS). However, due to the end of the PHE and the resulting reduction in federal emergency funds, there were two FMAP decreases in FFY 2023, from 6.2 percentage points (as during the PHE) before March 31, 2023, down to 5 percentage points through June 30, 2023, and down again to 2.5 percentage points through September 30, 2023. As of January 1, 2024, the FMAP rate increase granted as part of the 2020 Families First Coronavirus Response Act (FFCRA) was phased out altogether; Nevada's general FMAP percentage then returned to 60.77% during FFY 2024, as determined by the standard formula. Nevada's FMAP declined a bit further in FFY 2025, to 60.22%, with the Children's Health Insurance Program (CHIP) FMAP rate (for Nevada Check Up) going from 72.54% to 72.15%.

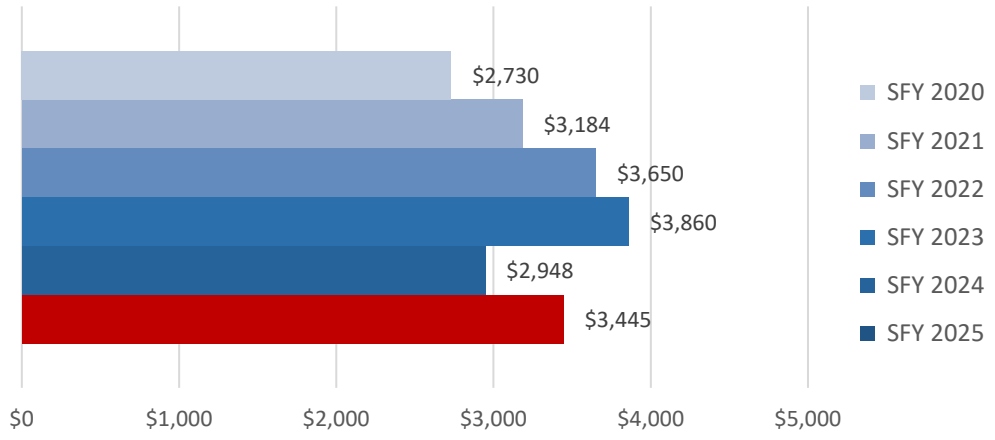
In SFY 2025, the federal government contributed $480,893,222 (83.6%) of the total cost of providing health care to these employees, while the State incurred $94,216,632 (16.4%) to the same group. The federal cost for providing health care to the dependents of these employees was $254,318,514 (68.0%), while the state cost for these dependents was $119,476,643 (32.0%) (Figure 5).

Figure 5. Total Cost Breakdown by Federal and State Share

	Employees	%	Dependents	%	Total	%
Federal Share	$480,893,222.13	83.6%	$254,318,514.39	68.0%	$735,211,736.52	77.5%
State Share	$94,216,632.22	16.4%	$119,476,642.84	32.0%	$213,693,275.06	22.5%
Total	$575,109,854.57		$373,795,156.70		$948,905,011.27	

The annual average cost for this subset of Medicaid members and their dependents rose from $2,948 per member in 2024 to $3,445 per member in SFY 2025, with the 16.9% rise offsetting SFY 2024's 23.6% decrease (Figure 6).

Figure 6. Annual Average Cost per Member, SFY 2020 to SFY 2025



Though costs per member rose significantly, companies with 50 or more total employees had an average of just 28 full-time employees and 25 associated dependents on Medicaid in SFY 2025, a nearly 33% decline from SFY 2024 (though, as previously discussed, the 2024 numbers contained part-time employees as well). Jointly, the increase in per member cost and the decrease in average number of employees and dependents per company led to a lower average overall cost to Medicaid of $187,958 per company annually (Figure 7).

Figure 7. Annual Average Cost per Employer, SFY 2020 to SFY 2025

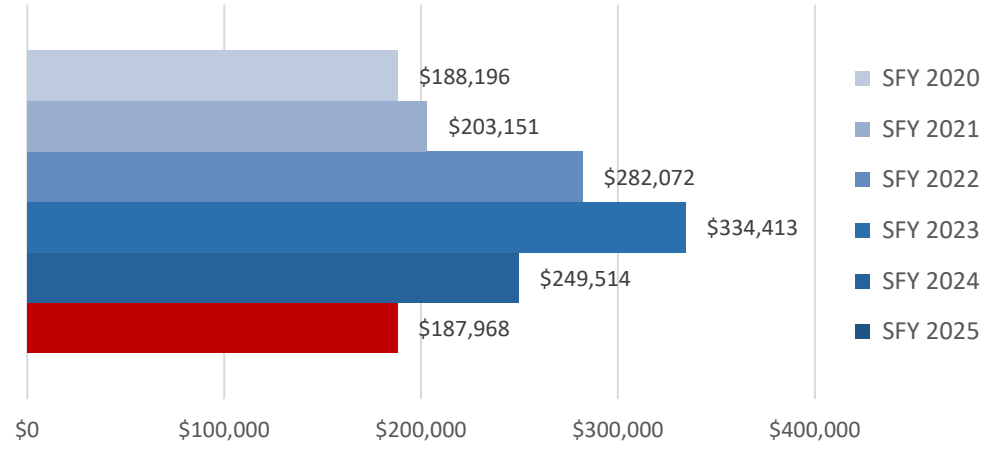


Figure 8 below displays the companies who made up the top 30 employers when ranked by the total cost to Medicaid. This average is highly skewed by the top few employers, with Amazon.com Services Inc. being larger in Medicaid-enrolled count than the 2nd largest, Wal-Mart Associates, Inc., by nearly 45%, and the gap between the 3rd and 4th ranks being more than a factor of two. By number of Medicaid recipients, the top 30 employers are significantly smaller than last year: Amazon.com Services Inc. has 44% fewer employees receiving Medicaid than in SFY 2024, Tesla Inc. has 13% fewer, with the average decline over the top 20 being about 33%. The costs have declined by less—about 22% on average.

Figure 8. Top 30 Employers by Number of Employees and Dependents on Medicaid, SFY 2025

		Employees on Medicaid			Dependents on Medicaid			Total Employees and Dependents on Medicaid			
Rank	Company Name	Number	State Cost	Federal Cost	Number	State Cost	Federal Cost	Number	State Cost	Federal Cost	Cost

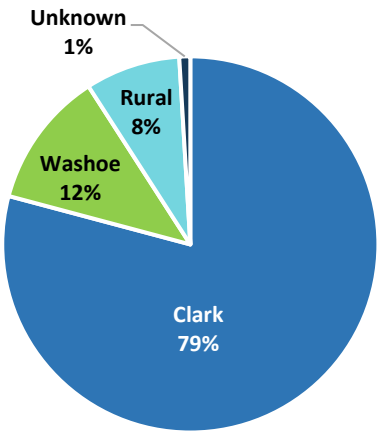
Employee Demographics

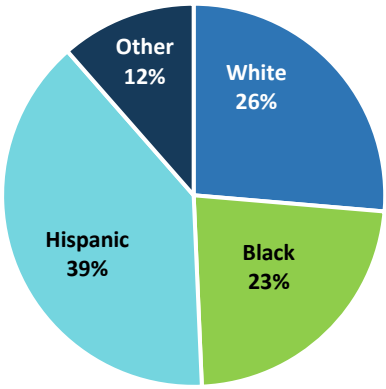
Most of the Nevada Medicaid members employed by companies with 50 or more total employees lived in Clark County (79%), with 12% in Washoe County and 8% in the rural counties. Region of residence was unknown (including missing, invalid, and out-of-state addresses) for 1% of these members (Figure 9).

Figure 9. Employees on Medicaid by Region



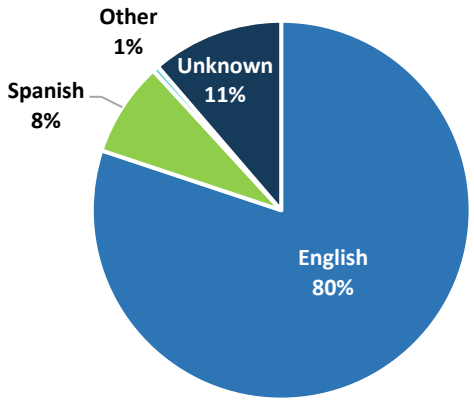
Thirty-nine percent (39%) were Hispanic, 26% were White, 23% were Black, and 12% were of another race/ethnicity (Figure 10).

Figure 10. Employees on Medicaid Demographics by Race/Ethnicity



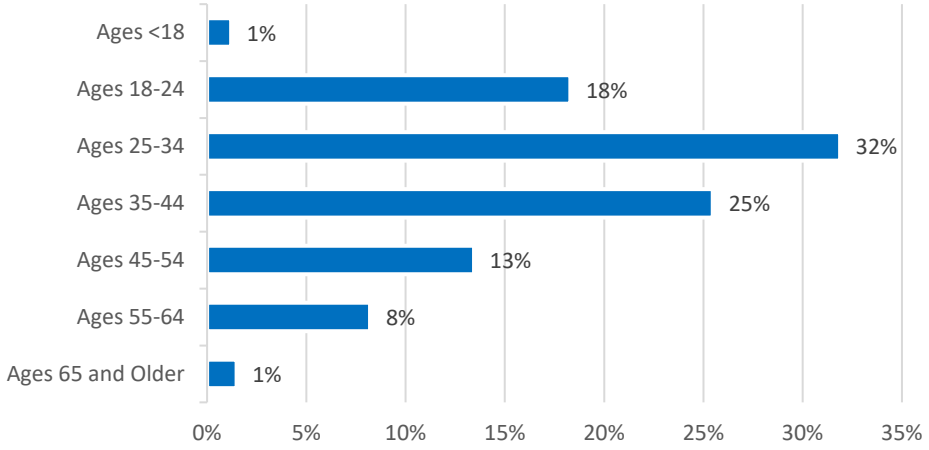
Most of these Medicaid members spoke English as a primary language (80%), with 8% listing Spanish as their primary spoken language and less than 1% listing another language. Finally, 11% had an unknown primary spoken language (Figure 11). This is a notable increase in Spanish speaker representation from 5% in 2024, which likely reflects a greater proportion of low-income Spanish speakers in full-time employment.

Figure 11. Primary Language Spoken by Employees on Medicaid



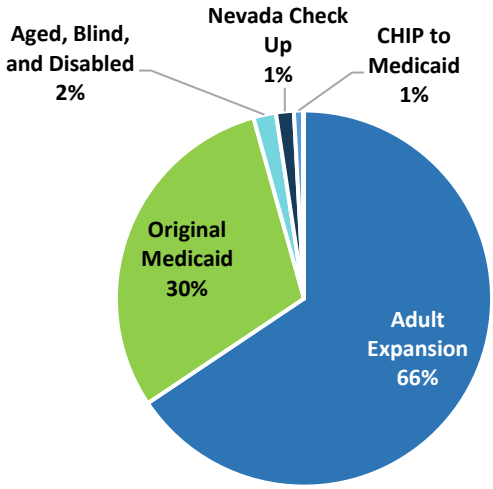
Eighteen percent (18%) of the Medicaid members employed by companies with 50 or more total employees were 18-24 years old, 32% were 25-34 years old, 25% were 35-44 years old, 13% were 45-54 years old, 8% were 55-64 years old, and 1% were 65 years old or older. Age was listed as less than 18 for 1% of these members (Figure 12).

Figure 12. Age of Employees on Medicaid



Thirty percent (30%) of these Medicaid members were eligible under original Medicaid eligibility rules, 2% were eligible under the Aged, Blind, and Disabled category, 1% were eligible under Nevada Check-up, and 1% were eligible under CHIP to Medicaid (Figure 13). Most of these Medicaid members were eligible for Medicaid under the Adult Expansion budget category (66%), but fewer than for SFY 2024 (down from 71%). This is the main category affected by tightened eligibility rules such as the work requirement, which may be behind this decline. Additionally, these employed members in the Adult Expansion population working for a company with 50 or more employees make up 23.9% of all individuals on adult expansion Medicaid in SFY 2025.

Figure 13. Employee Medicaid Eligibility Budget Categories*

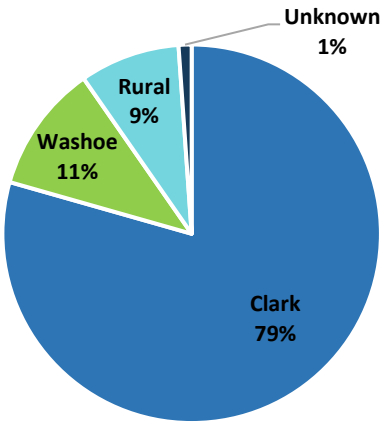


**Budget Categories that are not displayed here made up less than 1% of this caseload. These include Waiver, County Match, Child Welfare, and Child Welfare – State Only.*

Dependent Demographics

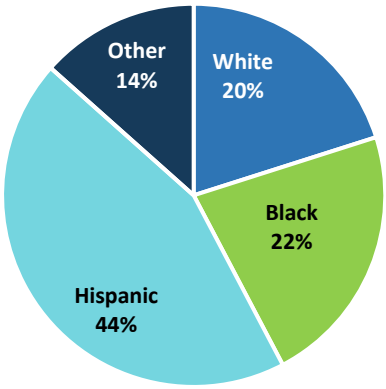
The distribution of county of residence for dependents of these Medicaid members employed by companies with 50 or more total employees is close to that of the employees themselves: 79% live in Clark County, 11% in Washoe County, 9% in the remainder of the state, and 1% have unknown, invalid, or out-of-state address information (Figure 14).

Figure 14. Dependents on Medicaid by Region



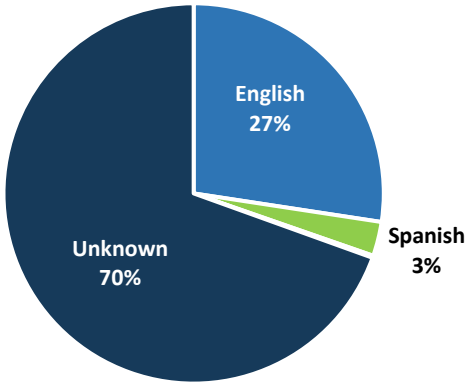
Forty-four percent (44%) were Hispanic, 20% were White, 22% were Black, and 14% were another race/ethnicity, for a slightly greater proportion of Hispanics among dependents than among employees (Figure 15).

Figure 15. Dependents on Medicaid Demographics by Race/Ethnicity



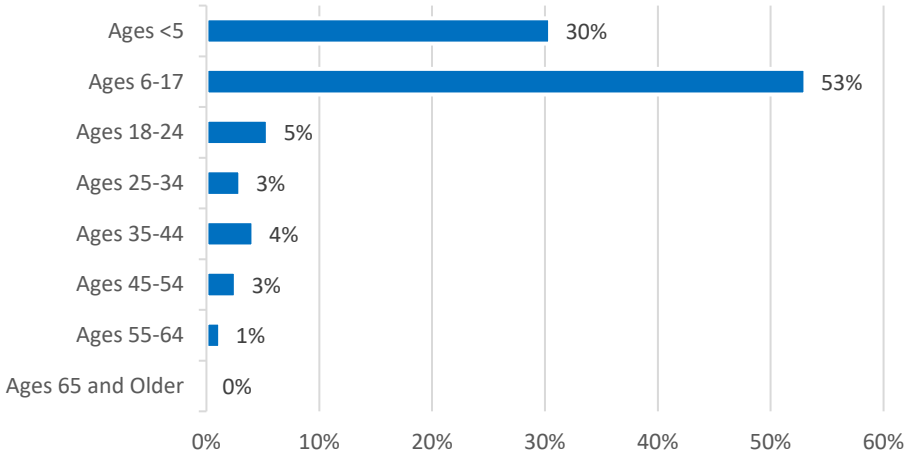
Language information is unavailable for most dependents (70%). Thirty percent (27%) speak English as a primary language; 3% listed Spanish as their primary spoken language (Figure 16).

Figure 16. Primary Language Spoken by Dependents on Medicaid



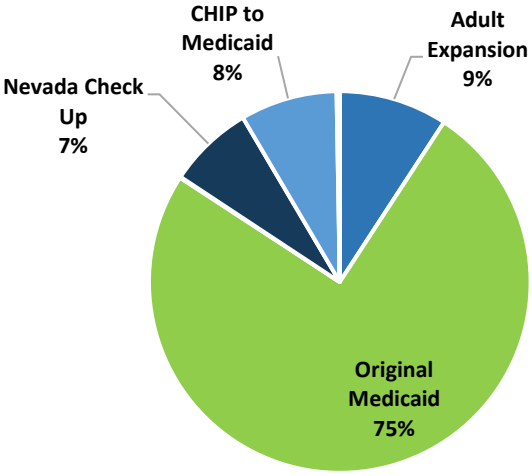
Thirty percent (30%) of the dependents were 0-5 years old, 53% were 6-17 years old, and the remaining 17% were 18 years old or older (Figure 17).

Figure 17. Age of Dependents on Medicaid



Most of the dependents were eligible for Medicaid under the Original Medicaid budget category (75%). An additional 9% were eligible under Adult Expansion, 7% were eligible under Nevada Check Up, and 8% were eligible under CHIP to Medicaid (Figure 18). The dependents in the original Medicaid population make up 25.3% of all individuals in the Original Medicaid category in SFY 25; the proportion in this category is higher than SFY 2024 (up from 70%), with the decrease coming from the Adult Expansion category (down from 14%). Medicaid dependents can be of any age, but some eligibility categories are restricted to certain age groups: Nevada Check Up and CHIP to Medicaid are for child dependents specifically and they are more likely to be eligible for Original Medicaid, whereas adult dependents are more likely to gain eligibility through Adult Expansion. For dependents under the age of 18, 82% are eligible under Original Medicaid, 8% through Nevada Check Up, 9% through CHIP to Medicaid, and less than 1% across all other categories, while fully 56% of adult dependents are eligible through Adult Expansion.

Figure 18. Dependent Medicaid Eligibility Budget Categories*



**Budget Categories that are not displayed here made up less than 1% of this caseload. These include Aged, Blind, and Disabled, Waiver, County Match, Child Welfare, and Child Welfare – State Only.*
