Subject: PLEASE Support SB 1530
Date: Friday, January 24, 2020 11:45:55 AM

To Chair Dembrow, Vice Chair Olsen and Members of the Senate Interim Committee on Environment and Natural Resources.

Thank you for your previous sincere yet futile efforts to enact meaningful climate legislation in Oregon.

I have been an insurance broker in Lane County for over thirty years, and to see the legislative process hijacked by renegade Senators during the last session has been quite discouraging to say the least.

The need for meaningful climate action cannot be overstated. I have been to numerous town hall meetings where (mostly) democratic politicians repeat the assertion that climate change is the most serious threat facing Oregon. "The most serious threat."

I want to see a bill that reflects that reality. I want a bill that implements a meaningful cost on CO2 pollution, does not exempt any major polluter and that goes into effect as quickly as possible as required by the best science available. Please see readily available and recent IPCC reports.

Please act now and pass a bill during the upcoming short session. We cannot afford you to fiddle while Australia, California and Oregon burns!

Sincerely,

Harvey Ginsburg
Eugene, OR 97405
