Subject: Major improvements nec on LC 19
Date: Friday, January 24, 2020 12:13:46 PM

Elected officials,

I support a strong Cap and Invest bill. HB 2020 was very strong, while LC 19 needs improvements. It gives away too much to giant corporations and will not make a strong dent in our Carbon use and abuse. Time is running out here.

Sincerely,

Robin Bloomgarden
