

Hello,

We have 4 rental units in Josephine County. That rental income comprises 70% of our income. If it comes down to it, we are willing to work with our tenants as much as possible, but if it comes down to no rent coming in, we will not be able to maintain our units, continue to pay the water bills, continue to pay the insurance, the property taxes, the mortgage. There will be 4 rentals negatively impacted. There will be 5 families impacted; 4 renters, and 1 landlord. We will be unable to continue to supply housing with no money coming in.

Any relief packages need to be for both renters and landlords.

Thank you for your time.

Best regards,

Carol Hoon
