

Dear Sir(s),

I realize evictions are hard on the renters. If I don't get the rent payment, I have to continue to make water & sewer payments. I have to conduct safety repairs, make mortgage payment, insurance payments and yard care payments. I have 11 units. I am not a large corporation. I can not do this for more than a month. I am retired. I have rentals because SS payment are not enough to live on. I have a small pension, which makes it livable. Making the for-mentioned payments are outside of my income w/out my rental payments! Please consider this, when you are trying to take care of my renter's hardships!

Respectfully,

JRC Investments, LLC
