

Good day as an owner of rental property please understand that if relief is supplied to anyone in the chain that it will impact all in the chain. This is no different than the Soldiers and Sailors Relief act.

If our tenants are allowed to not pay rent/Lease payments then how shall we continue to pay mortgages for said property?.

It is not just one group that will be effected it will be Tenants, Owners, Managers, Mortgage holders, Banks... and so on.

Please insure that this gets a comprehensive look at the whole picture and all who will be impacted before any decisions are made.

A wise old saying, "we are all in this together" we are not alone in this and nothing you do does not impact many others.

Most Respectfully
Jim McCain
