Childcare Workers Call for COVID-19 Emergency Care:

Direct Assistance to Programs and Establishment of Emergency Childcare During COVID-19 Crisis

Dear Governor Kate Brown and the Oregon Legislature's Committee on Coronavirus Response,

To preserve the sanctity of our signatures and endorsements, we're submitting our original petition below, created before the mandate released by Gov. Brown earlier today. We are glad to see safe ratios and practices prioritized in Oregon's strategy towards providing emergency care for essential workers. It's impossible for large scale national chains to completely meet Oregon's childcare needs, so we again underscore the NEED for small childcare programs and centers to be fully supported financially to meet the needs of the community and preserve the continued existence of these programs after the COVID-19 crisis is under control. We also emphasize the need for rent forgiveness for all workers at this time to ensure that childcare may be reserved only for those workers who are essential to our survival.

March 19, 2020

Dear Governor Kate Brown,

We are writing to you on behalf of all Oregon early childhood educators and the populations they serve. We stand with the <u>National Association for the Education of Young Children</u> (NAEYC) as well as multiple national organizations who are calling for a swift closure of schools, and emergency measures taken to establish emergency care programs for essential workers. During the current COVID-19 pandemic, the most responsible path forward for Oregon is to close down all extraneous childcare business and prioritize all of our resources towards responsibly caring for children of essential workers until the pandemic is under control. We are writing with the intention to highlight points from NAEYC's statement, as well as points that address the specific needs of all those connected to the early childcare community in Oregon.

Childcare is an essential, foundational resource for any healthy society to function and thrive. Early childhood educators -- before, during, and after this pandemic -- care for their community's most vulnerable members in order for caregivers to be able to provide for their families, as they simultaneously work within the many systems necessary for our society to function. In Oregon, childcare workers do this job for about 1/3 of the pay that kindergarten teachers receive. Without early childcare programs and the people they employ, society as we know it would stop.

During this global pandemic, childcare workers and their allies are standing together to demand a better response to this crisis in order to ensure a better future for all. Kate Brown and Amy Joyce, we are calling on you and the Oregon state government to:

• Mandate the closure of all normal operations of early childcare programs in Oregon in order to "flatten the curve" of COVID-19.

- Establish emergency care programs for the children of essential workers, using existing programs that are willing and able to do this safely and effectively. We stand behind the model outlined in NAEYC's list of recommendations to all state governments as the essential model moving forward with establishing these programs, and expect that the category of "essential workers" will include grocery store workers, sanitation workers, and other workers necessary for the continued function of our society's basic needs.
- Not eliminate or suspend ratio requirements. Do not create new, untested, and unlicensed child care programs that will compromise the health and safety of children, their families, and the community at large.
- Directly assist child care operations by providing a stimulus package to ALL childcare programs, regardless of their ability to provide emergency care. This will ensure that all teachers are paid regardless of their ability to provide emergency care. Provide "hazardous duty" pay for all childcare workers and providers who continue to serve essential workers during this pandemic.
- Grant rent and mortgage forgiveness/abatement for all care programs during the COVID-19 crisis in order to assist them in maintaining payroll for staff.
- Grant rent and mortgage forgiveness/abatement to all working class people, ensuring that they are able to make the safe (and necessary) choice to stay home with their children, without threat of having insufficient funds for the basic need of housing. Do not allow for rent debt to accrue as this would only delay the harmful effects of the crisis, not provide security.

Directly funding early childcare programs is the only way to ensure that our society holds itself together during this crisis. It is also the only way to ensure that childcare programs and infrastructure are able to get back on their feet once the COVID-19 pandemic ends.

Childcare workers want to help our community. We want to do it strategically, and in a manner that doesn't leave anyone behind. Just like everybody else in essential care fields, we are experts at what we do. It is because of this that we know keeping us open for "business as usual" is not only dangerous, but the worst possible use of our time, resources, health, and abilities. Let those of us who are able to do so care for the children and families who need it most, and let us do it safely, efficiently, and effectively.

It is neither fair nor sustainable to expect low-income childcare workers to take on more of a burden during this pandemic. Maintaining business as usual at this time puts us, our students, and our whole community at risk. Those of us that are healthy, able, and positioned to do so, are willing to continue working to provide the essential service that is childcare to all other essential workers who are helping Oregon move towards a healthier future.

Signed, PDX Childcare Labor Alliance Growing Seeds Workers Union PDX Childcare Collective You can read the NAEYC Statement <u>"Child Care is Essential and Needs Emergency Support to</u> <u>Survive</u>" here.
