

To whom it may concern,

I support HB 4107. I am an Oregon resident who thinks this former whites-only state has a great opportunity to undo the systemic racism that is caused by subtle restrictions on things like hairstyles.

I am also a person deeply mistrustful of the technology required to be a cashless society. I am a stay-at-home-mom who is on a budget. I prefer to use cash. When I buy a Street Roots newspaper, I use cash. When I ride the bus, I use cash. When I give my kids allowance, I use cash. I want them to use cash until they understand it better and are out on their own.

I am lucky to have a choice. Many poor people *must* use cash & coins. Having a store that doesn't accept cash would restrict those people who are already pretty limited with what they can do with cash.

Again, I fully support HB 4107.

Thank you,
Amy Iannone
