

I am emailing about the coyote kill bill. This sort of thing must be stopped. To me it seems to a senseless act. Some of these animals can suffer in pain. Just one second of suffering is one second to much. I used to have auto and home owners insurance thru Country Companies. I dropped them once I learned they sponsored this deplorable act. It's sad to think that these animals are killed just for the pleasure of humans.

Thank you for your time,
Barbara
