Measure Description:

Changes the calculation of payments to public charter schools.

Government Unit(s) Affected:

School Districts, Department of Education (ODE)

Summary of Fiscal Impact:

Costs related to the measure are anticipated to be minimal - See explanatory analysis.

Analysis:

SB 624 with the -1 amendment changes the calculation of payments to public charter schools from weighted average daily membership (ADMw) to extended weighted average daily membership (extended ADMw).

Although the administrative work required to comply with this measure can be absorbed with existing staff and resources by the Department of Education (ODE) and school districts, and passage of the measure would not change the overall amount of State School Fund, passage of the measure could change the formula distribution amounts among school districts.
