

The Committee for Community Involvement (CCI) is the leadership group of all Community Participation Organizations in Washington County, representing thousands of interested community members. We strongly endorse this bill and ask the committee to send it out with a "DO PASS" recommendation. We voted to endorse this bill at our meeting on Tuesday, April 20, 2021 with a unanimous vote.

We need community members who understand the basics of government so we can help them interact with county government. We also believe that having a grounding in the basics of how our government works will improve the political climate in the country. Too many people are misled by those who spread disinformation.
