

Submitter: David Wall
On Behalf Of: Mr Oregon Opposes SB 1550
Committee: Senate Committee On Education
Measure: SB1550

I OPPOSE [SB 1550].

The Oregon Department of Education should be reclassified as the Department of Indoctrination.

Over the past few Legislative sessions, the Oregon Legislature has significantly "Dumbed Down" educational content, grading, scholarship, and grade promotion to hoist the "WOKE" indoctrination on our society. "WOKE" is a characteristic of communism masquerading as socialism.

The Department of Education and especially, the Teachers Standards and Practices Commission should be considered candidates for budgetary extinction.

Oregon schools structures are crumbling, Teachers cannot be replaced-retention and recruitment is taking its expected toll, Parents are justifiably angry over schools becoming Indoctrination Camps; where sexual perversion education in all its' despicable forms appear to be job one.

Eliminate the Teachers Standards and Practices Commission and significantly pare-down the Department of Education.

Reinstate Mandatory: Proficiency in English, Physical Fitness, scholarship, grades, [United States of America History, with emphasis on Constitution, Bill of Rights], Computer Code Programing, Artificial Intelligence Programing, Science, Technology, Math, Reading and Writing, Music, Theater, Art, [a second language of choice such as Chinese (both Mandarin and or Cantonese), Spanish and or additional languages], Trades [Electrical, Plumbing Carpentry and et cetera] to be determined through Parental control of School Districts.

Immediately end-with extreme prejudice; social promotions, all "WOKE" ideologies, Critical Race Theory, The 1619 Project, Diversity Equity and Inclusion programs, the use of pronouns and any other repulsive degenerate ideologies I have accidently omitted.

David S. Wall

Mr. Oregon Concurr, "Oregon schools used to be; well funded and the educational content was highly respected."
