

REVENUE IMPACT OF PROPOSED LEGISLATION

74th Oregon Legislative Assembly
2007 Regular Session
Legislative Revenue Office

Bill Number:	HB 2617-A
Revenue Area:	Fees
Economist:	Mazen Malik
Date:	04/24/2007

Measure Description:

Authorizes the Department of Agriculture (ODA) to issue a license to one or more additional users of a custom processing, slaughtering, meat seller, non-slaughtering, dairy, or bakery establishment that is licensed primarily for operation by another person. Requires ODA to recognize one person as primary operator. Authorizes ODA to assess license fees to additional users of establishment based on annual gross dollar volume of sales and services for the additional user of the facility.

Revenue Impact:

Minimal impact of less than \$50,000 a biennium.

Impact Explanation:

HB 2617-A would allow ODA to license multiple businesses of the same license type (e.g. bakeries, meat processing) to produce or market their products from a single location or facility. Current law allows the Oregon Department of Agriculture to issue a license to only one person at a particular food processing establishment or facility. Although this will be for three different types of licenses, the amounts are not expected to be more than a 100. The resultant is small amounts of revenue.
