BACKGROUND: The Fraud, Waste and Abuse Government Waste Hotline (800-336-8218) was authorized by the Legislative Assembly with the passage of House Bill 2554 (1995) to provide public employees and citizens an avenue for reporting waste, inefficiency, or abuse in state programs. The law provides confidentiality for any person making a report through the hotline. Furthermore, the report of any resulting investigation remains confidential unless the allegations are substantiated. Upon completion of an investigation that substantiates a caller's report, the Secretary of State Audits Division is required to prepare a written report, which becomes a public record. The division's report, in accordance with the confidentiality provision, does not include the caller's identity.

House Bill 2088 expands the directive to the Audits Division to provide that reports of waste or abuse received by methods other than the Government Waste Hotline are to be processed in the same manner as those received via the hotline. Persons making reports by other methods, such as by mail or via a website created by the Secretary of State for that purpose, would be granted the same confidentiality protection currently provided to those reporting via the hotline.
