**WHAT THE MEASURE DOES:** Requires that the extension of an irrigation season by the Water Resources Commission be made by rule instead of by order.

**ISSUES DISCUSSED:**

- Administrative Procedures Act requirements related to notice
- Possible use of temporary rulemaking process to respond to requests quickly
- Opportunities for public input through the rulemaking notice and hearing process

**EFFECT OF COMMITTEE AMENDMENT:** No amendment

**BACKGROUND:** Under current law, the Water Resources Commission may extend by order the irrigation season of a subbasin beyond the period established by adjudication, administrative rule or by conditions imposed on a water right permit or certificate. The request to extend a season must come from the Oregon Department of Agriculture. In order to approve a request, the Commission must find that water is available during the period of the proposed extension and that water use during the extended season will not impair instream flows necessary to protect aquatic resources or the maintenance of water quality standards. HB 2098 requires the extension of an irrigation season to be made by rule.
