6 417.342. (1) Family support services are based on the belief that all people, regardless of disa-

8 in the community. **Children have a developmental need to grow up in a family home environ-**
9 **ment.** However, nothing in ORS 417.340 to 417.348 or 417.349 is intended [*to keep a family member*
10 *with a disability or chronic illness in the family home or*] to require any person with a disability or
11 chronic illness to live in the family home.

12 (2) Family support services can provide the support necessary to enable the family to meet the
13 needs of caring for a family member with a disability or chronic illness at home and, subject to
14 available funds, shall be based on the following principles:

15 (a) Family support services may use private and volunteer resources, publicly funded services

17 with a disability or chronic illness.

18 (b) Family support services must be sensitive to the unique needs, strengths and multicultural
19 values of an individual and the family rather than fitting the individual and family into existing
20 services.

21 (c) Family support services must be built on a relationship of respect and trust that recognizes
22 that families are better able to determine their own needs than have their needs determined by the
23 state or a public agency.

24 (d) Family support services shall be provided in a manner that develops comprehensive, respon-
25 sive and flexible support to families in their role as primary caregivers for family members with
26 disabilities or chronic illnesses.

27 (e) Family support services shall focus on the entire family and be responsive to the needs of
28 the individual and the family.

29 (f) Family support services may be needed throughout the lifespan of the individual family
30 member living at home who has a disability or chronic illness.

31 (g) Family support services shall be available to families before they are in crisis.

32 (h) Family support services may be a service option offered to families, but not imposed on them.

33 (i) Family support services shall encourage maximum use of existing social networks and natural
34 sources of support and should encourage community integration.

35 (j) Family support services shall not be confined to a single program or set of services but shall
36 be a philosophy that permeates all programs and services.
