

Enrolled House Bill 2473

Sponsored by Representative SCHAUFLER

CHAPTER

AN ACT

Relating to electrical trade licensees; creating new provisions; and amending ORS 479.620, 479.630, 479.840 and 479.915.

Be It Enacted by the People of the State of Oregon:

SECTION 1. ORS 479.620 is amended to read:

479.620. Subject to ORS 479.540, a person may not:

(1) Without an electrical contractor’s license, engage in the business of making electrical installations, advertise as or otherwise purport to be licensed to make electrical installations or purport to be acting as a business that makes electrical installations.

(2) Except as provided in ORS 479.630 (10)(c) and (11)(f), direct, supervise or control the making of an electrical installation without a supervising electrician’s license.

(3) Except as provided in subsection (5) of this section, make any electrical installation without a supervising or journeyman electrician’s license.

(4) Perform work on an electrical installation as an apprentice electrician without an electrical apprentice’s license.

(5) Make any electrical installation on a single or multifamily dwelling unit not exceeding three floors above grade, as provided in ORS 479.630 (14), without a limited residential electrician’s license.

(6) Permit or suffer any electrical installation on property which the person owns, controls, manages or supervises to be made by a person not licensed to make such an installation.

[(7) Install, maintain, replace or repair electrical wiring or electrical products on an oil module without a Class I oil module electrician’s license.]

[(8) Perform electrical work on an oil module in the capacity of helper or trainee without a Class II oil module electrician’s license.]

SECTION 2. ORS 479.630 is amended to read:

479.630. If the person pays the applicable examination and license fees required under ORS 479.840 and complies with ORS 479.510 to 479.945 and the rules adopted under ORS 455.117 and 479.510 to 479.945, the Department of Consumer and Business Services shall issue:

(1) An electrical contractor’s license to a person engaging in or carrying on a business of making electrical installations.

(2) A general supervising electrician’s license to a person who:

(a) Passes a written examination prepared by the Electrical and Elevator Board and administered by the department; and

(b) Submits proof satisfactory to the board that the person has had at least four years of experience as a general journeyman electrician or its equivalent, as determined by the board by rule, in installing, maintaining and repairing electrical wires and equipment.

(3) A limited supervising electrician's license to a person who qualifies under this subsection. A person licensed under this subsection is authorized to supervise the class of electrical work included in the branch of the electrical trade and for which the person has passed the examination administered by the department. A person qualifies under this subsection if the person:

(a) Passes a written examination prepared by the board and administered by the department; and

(b) Submits proof satisfactory to the board that the person has had at least four years of specialized experience in a recognized branch of the electrical trade on the journeyman level.

(4) A general journeyman electrician's license to a person who:

(a) Passes a written examination prepared by the board and administered by the department; and

(b) Submits proof satisfactory to the board that:

(A) The person has had at least four years of general experience as an apprentice or its equivalent, as determined by the board by rule, in installing, maintaining and repairing electrical wires and equipment, including not fewer than 1,000 hours in wiring on single or multifamily dwelling units; or

(B) If the person is licensed as a limited residential electrician under subsection (14) of this section, subsequent to receiving that license, the person has worked for at least two years as a limited residential electrician and subsequent to those two years has completed an additional two years' experience as an apprentice or its equivalent, as determined by the board by rule, for that period of apprenticeship time worked exclusively in installing, maintaining and repairing electrical wires and equipment in the commercial and industrial branches of the electrical trade under the supervision of a licensed electrical contractor.

(5) A limited journeyman electrician's license to a person who qualifies under this subsection. A person licensed under this subsection is authorized to perform the class of electrical work included in the branch of the electrical trade for which the person has passed the examination administered by the department. A person qualifies under this subsection if the person:

(a) Passes a written examination prepared by the board and administered by the department; and

(b)(A) **Except as provided in subparagraph (B) of this paragraph**, submits proof satisfactory to the board that the person has had at least four years of specialized experience as an apprentice or its equivalent, as determined by the board by rule, in a recognized branch of the electrical trade[.]; or

(B) If applying for licensing as a limited journeyman sign electrician or limited journeyman stage electrician, submits proof satisfactory to the board that the person has had at least two years of specialized experience as an apprentice or its equivalent, as determined by the board by rule, in the sign or stage branch of the electrical trade.

(6) A limited elevator journeyman license to a person who qualifies under this subsection. A person licensed under this subsection is authorized to install, maintain and repair elevators, including all electrical and mechanical systems. A person qualifies under this subsection if the person has completed an elevator apprenticeship program, including both electrical and mechanical training components, approved by the board by rule and the person submits an application for licensure to the board in writing. A person issued a license under this subsection is exempt from continuing education requirements established under ORS 455.117 and 479.680.

(7) An electrical apprentice's license to a person who has complied with ORS 660.002 to 660.210 as an electrical apprentice.

(8) An electrical apprentice's license to a trainee toward a limited residential electrician's license who has complied with ORS 660.002 to 660.210 as an electrical apprentice.

(9) An electrical apprentice's license to a trainee toward a limited journeyman's license in a recognized branch of the electrical trade who is employed by an employer who also:

(a) Employs a holder of either a general journeyman electrician's license or a limited journeyman electrician's license; and

(b) Conducts an electrical training program in a recognized branch of the electrical trade approved by the board as being a training program that will adequately prepare the trainee for the limited journeyman's license.

(10) A limited maintenance electrician's license to a person who qualifies under this subsection. A person licensed under this subsection is authorized to maintain, repair and replace electrical installations, including electrical components, required on the premises of industrial plants, **and maintain, repair and replace electrical installations on systems that are less than 600 volts phase to phase, including electrical components, required on the premises of** commercial office buildings, buildings occupied by the state or a local government entity or facilities designated by the board. The following apply to this subsection:

(a) A person qualifies under this subsection if the person:

(A) Passes a written examination prepared by the board and administered by the department on repair, replacement and maintenance of equipment of the type and nature normally used in an industrial plant, commercial office building or government building and on the use of testing equipment; and

(B)(i) Completes a two-year training program approved by the board that provides for training and supervision of the trainee or apprentice; or

(ii) Submits proof satisfactory to the board that the person has had sufficient experience and related educational training in the repair, replacement and maintenance of electrical wiring and equipment of the type and nature used in an industrial plant, commercial office building or government building, as determined by the board or by an appropriate local apprenticeship committee recognized by the State Apprenticeship and Training Council.

(b) An annual inspection of the premises upon which electrical work is performed by persons licensed under this subsection shall be made by the electrical inspector for an annual fee determined by the board by rule, based upon the time required for the inspection, payable to the department.

(c) A person licensed under this subsection may be employed directly by the owner, or owner's agent, of any government building or commercial office building. A building owner or owner's agent need not be licensed under this section to supervise a limited maintenance electrician.

(d) The department, in consultation with the board, shall adopt rules defining government buildings and commercial office buildings subject to this subsection.

(11) A limited building maintenance electrician's license to a person who qualifies under this subsection. The following apply to this subsection:

(a) A person licensed under this subsection is authorized to maintain, repair and replace the following electrical installations required on the premises of commercial office buildings, buildings occupied by the state or a local government entity or facilities designated by the board in electrical systems not exceeding 300 volts to ground:

(A) Electrical appliances;

(B) Light switches;

(C) Light fixtures;

(D) Fans;

(E) Receptacles; and

(F) Fluorescent ballasts.

(b) A person qualifies under this subsection if the person:

(A) Passes a written examination prepared by the board and administered by the department on maintenance, repair and replacement of equipment of the type and nature normally used in a commercial office building or government building and on the use of testing equipment; and

(B) Submits proof satisfactory to the board that the person has:

(i) Had sufficient experience in the maintenance, repair and replacement of electrical wiring and equipment of the type and nature normally used in a commercial office building or government building; or

(ii) Completed a one-year training course, with classroom and on-the-job training components approved by the board, on the maintenance, repair and replacement of electrical wiring and equipment of the type and nature normally used in a commercial office building or government building.

(c) An annual inspection of the premises upon which electrical work is performed by persons licensed under this subsection shall be made by the electrical inspector for an annual fee determined by the board by rule, based upon the time required for the inspection, payable to the department, or the inspection shall be performed under an electrical master permit program.

(d) Building owners may perform work regulated by this subsection and for which a license is required under this subsection without obtaining a license.

(e) A person who owns more than 50 percent of a corporation that controls a building is a building owner.

(f) A person licensed under this subsection may be employed by the owner of a commercial office building or the owner's agent. A building owner or owner's agent need not be licensed under this section to supervise a limited building maintenance electrician.

(12) A limited maintenance specialty contractor license to a person who qualifies under this subsection. A person licensed under this subsection is authorized to engage in the electrical work related to the repair, service, maintenance, installation or replacement of existing, built-in or permanently connected appliances, fluorescent ballasts or similar equipment and to employ individuals to engage in that work. This subsection does not authorize the installation of appliances, ballasts or other equipment if there is no existing installation of similar equipment. A person qualifies under this subsection if the person submits:

(a) Proof satisfactory to the board that the person has had sufficient experience in the type of work permitted under the license issued under this subsection; and

(b) Maintains with the board a current list of all individuals employed by the person to engage in work permitted under this subsection.

(13) A limited pump installation specialty contractor license to a person who qualifies under this subsection. A person licensed under this subsection is authorized to engage in electrical work related to the testing, repair, service, maintenance, installation or replacement of new or existing pump equipment for potable or irrigation water systems, sump pumps, effluent pumps and ground water pumps on residential and agricultural property, to employ individuals to engage in such work. A person qualifies under this subsection if the person:

(a) Submits proof satisfactory to the board that the person has had sufficient experience in the type of work permitted under the license issued under this subsection; and

(b) Maintains with the board a current list of all individuals employed by the person to engage in work permitted under this subsection.

(14) A limited residential electrician's license to a person who qualifies under this subsection. A person licensed under this subsection is authorized to perform the class of electrical work included in the branch of the electrical trade for which the person has passed the examination administered by the department and approved by the board. However, a person licensed under this subsection shall perform the electrical work allowed by the license only on single and multifamily dwelling units not exceeding three floors above grade. For purposes of this subsection, the first floor of a building is the floor that is designed for human habitation and that has 50 percent or more of its perimeter level with or above finished grade of the exterior wall line. A person qualifies under this subsection if the person:

(a) Has received the same number of hours of electrical safety training as required by rule for an electrical apprentice or its equivalent and who has received training in electrical theory;

(b) Submits documented proof to the board of at least two years of apprenticeship or trainee experience in residential wiring of single and multifamily dwelling units or its equivalent, as determined by the board by rule; and

(c) Passes a written examination prepared by the board and administered by the department.

[(15) A Class I or Class II oil module electrician's license to a person who passes a written examination prepared by the board and administered by the department.]

[(16)] **(15)** A limited renewable energy contractor license to a person who:

(a) Employs at least one full-time renewable energy technician; and

(b) Does not engage in electrical work other than work that may be performed by a limited renewable energy technician. A limited renewable energy contractor may not make, direct, supervise or control the making of an electrical installation unless the contractor is licensed for that activity.

[(17)] **(16)** A limited renewable energy technician license to a person who qualifies under this subsection. A person qualifies for licensing as a limited renewable energy technician if the person completes a two-year apprenticeship program and passes an examination approved by the board. A person licensed under this subsection may, while in the employ of a licensed electrical contractor or a limited renewable energy contractor:

(a) Install, maintain, replace or repair electrical wiring and electrical products that convey or operate on renewable electrical energy not exceeding 25 kilowatts AC; and

(b) Make electrical installations not exceeding 25 kilowatts AC:

(A) On devices using renewable energy involving wind, solar energy systems, micro-hydroelectricity, photovoltaic systems or fuel cells.

(B) Up to the load side of an inverter.

(C) To connect generators that are sized to facilitate the inverter in an off-grid system.

SECTION 3. ORS 479.840 is amended to read:

479.840. (1) Upon receipt of the following fee, the Department of Consumer and Business Services shall issue or renew a license or permit applied for under ORS 479.510 to 479.945:

(a) \$125 for an electrical contractor license for each place of business operated by the applicant.

(b) \$125 for a limited energy contractor or limited sign contractor license.

(c) \$25 for a pump specialty contractor or limited maintenance specialty contractor license.

(d) \$150 for an elevator contractor license.

(e) \$100 for a license for a:

(A) General journeyman electrician;

(B) General supervising electrician;

(C) Limited supervising industrial electrician;

(D) Limited supervising manufacturing plant electrician;

[(E) Limited journeyman industrial electrician;]

[(F)] **(E)** Limited maintenance industrial electrician;

[(G)] **(F)** Limited maintenance manufactured dwelling or recreational vehicle electrician; **or**

[(H)] **(G)** Limited journeyman manufacturing plant electrician.]; *or*]

[(I) Limited journeyman railroad electrician.]

(f) \$50 for a license for a:

(A) Limited elevator journeyman;

(B) Class A or Class B limited energy technician;

(C) Limited journeyman sign electrician;

[(D) Limited journeyman sign service electrician;]

[(E)] **(D)** Limited journeyman stage electrician; or

[(F)] **(E)** Limited building maintenance electrician.

(g) \$10 for the right to take the written qualifying examination.

(2) The Electrical and Elevator Board shall set uniform permit fees, by rule, not to exceed the cost of administration.

(3) The fees provided for in this section do not apply to persons paying inspection fees under the terms of ORS 479.560 (3) or 479.630 (10).

(4) Each electrical contractor may furnish to the department a corporate surety bond to be approved by the department, an irrevocable letter of credit issued by an insured institution as defined in ORS 706.008 or a cash bond under procedures approved by the department, in the sum of \$2,000 guaranteeing the payment of all fees provided for under ORS 479.510 to 479.945. Before commencing any electrical job an electrical contractor who has a current bond or letter of credit under this subsection may apply to the department for a working permit which shall cost an amount estab-

lished by the department by rule. The working permit shall authorize the electrical contractor to commence work. The total of all fees due for permits for each job, and the time such fees are payable, shall be determined by the department by administrative rule under ORS 479.730. The contractor shall keep the bond or letter of credit in force at all times. Any cancellation or revocation of the bond or letter of credit shall revoke and suspend the license issued to the principal until such time as a new bond or letter of credit shall be filed and approved. The department may bring an action against the surety named in the bond or the letter of credit issuer with or without joining in such action the principal named in the bond or letter of credit.

SECTION 4. ORS 479.915 is amended to read:

479.915. (1) An applicant for a Class B limited energy technician license must:

- (a) Submit proof satisfactory to the Electrical and Elevator Board that the person has:
 - (A) At least two years of experience as an apprentice in limited energy electrical activity; or
 - (B) At least two years of experience equivalent to an apprenticeship in limited energy electrical activity and completed a board-approved 32-hour training program; and
- (b) Pass a written examination approved by the board and administered by the Department of Consumer and Business Services.

(2) An applicant for a Class A limited energy technician license must:

- (a) Submit proof satisfactory to the board that the person has completed at least [four] **three** years of experience as an apprentice, or the equivalent as determined by the board by rule, in a recognized branch of the electrical trade; and
- (b) Pass a written examination prepared by the board and administered by the department.
- (3) The board shall determine the adequacy of any training program for qualification under the requirements of this section and ORS 479.910 and section 1, chapter 728, Oregon Laws 2001.
- (4) The department shall issue a Class A limited energy technician license to a person who qualifies under subsection (2) of this section and pays the required fees.

SECTION 5. A Class I or Class II oil module electrician's license, limited journeyman railroad electrician license or limited journeyman industrial electrician license that is in effect on the effective date of this 2007 Act shall expire at the end of the license term and may not be renewed.
