## **DEPARTMENT OF ENVIRONMENTAL QUALITY AND ENVIRONMENTAL QUALITY COMMISSION**

**SECTION 10.** The Department of Environmental Quality shall:

(1) Maintain and make available on its website the following lists, which must be updated by the first day of each month:

(a) A list of registered manufacturers and their brands;

(b) A list of brands for which no manufacturer has registered; and

(c) A list that identifies which manufacturers are in compliance with sections 2 to 13 of this 2007 Act.

(2) Review and approve manufacturer plans that comply with section 5 of this 2007 Act and are submitted annually by manufacturers choosing to implement a manufacturer program for recycling covered electronic devices.

(3)(a) Determine the return share and return share by weight for each calendar year for each manufacturer. The return share shall be determined by dividing the total weight of covered electronic devices of that manufacturer's brands by the total weight of covered electronic devices for all manufacturers' brands. The return share by weight shall be determined by multiplying the return share for each such manufacturer by the total weight in pounds of covered electronic devices, including orphan devices, collected from covered entities the previous calendar year.

(b) For 2008 and 2009, determine the return share and return share by weight for each manufacturer based on the best available public return share data and public weight data from within the United States for covered electronic devices from covered entities. For subsequent years, the return share of covered electronic devices for each manufacturer shall be based on the most recent annual sampling or count of covered electronic devices. For

subsequent years, the total weight in pounds of covered electronic devices shall be based on the total weight of covered electronic devices, including orphan devices, determined by the department.

(c) By May 1 of each year, provide to each manufacturer that had a return share determined under this section its return share and its return share by weight for the following year.

(4) Establish a state contractor program for the collection, transportation and recycling of covered electronic devices from covered entities in this state. The state contractor program shall:

(c) Provide for covered entities, free of charge, convenient and available collection services and sites for covered electronic devices in both rural and urban areas;

(d) Advertise and promote collection opportunities statewide and on a regular basis; and

(e) Conduct a statistically significant sampling or actual count of the covered electronic devices collected and recycled by the state contractor program during each calendar year using a methodology approved by the department and prepare a report no later than March 1 of the following calendar year that includes:

(A) A list of all brands identified during the sampling or count;

(B) The weight of covered electronic devices identified for each brand during the sampling or count; and

(C) The total weight of covered electronic devices, including orphan devices, collected from covered entities in the state by the state contractor program during the previous calendar year.

(5) Determine a manufacturer's annual registration fee for purposes of section 4 (2) of this 2007 Act using national market data prorated for Oregon based on statewide population.

(6) Determine the recycling fee to be paid under section 7 of this 2007 Act by each manufacturer that participates in the state contractor program established pursuant to subsection (4) of this section. The department shall determine the recycling fees as follows:

(a) For each manufacturer except those described in paragraph (b) of this subsection, the department shall determine the recycling fee based on the manufacturer's annual return share and return share by weight as determined under subsection (3) of this section.

(b) For each manufacturer whose manufacture of covered electronic devices as defined in section 2 (3)(a)(C) of this 2007 Act exceeds its manufacture of covered electronic devices as defined in section 2 (3)(a)(A) and (B) of this 2007 Act, the department shall determine the recycling fee based on the total return share and return share by weight determined under subsection (3) of this section of all manufacturers described in this paragraph, allocated according to each manufacturer's percentage of the total number of covered electronic devices described in section 2 (3)(a)(C) of this 2007 Act sold in this state the previous calendar year. The department may use national sales data to determine the percentages. The department may assess a surcharge on the annual registration fee for manufacturers described in this paragraph to pay any added costs to the department in making the determinations.

(7) Maintain on its website information on collection opportunities for covered electronic devices, including collection site locations and hours. The information must be made available in a printable format for retailers.

(8) Report biennially to the Legislative Assembly on the operation of the statewide system for collection, transportation and recycling of covered electronic devices.

**SECTION 11.** The Environmental Quality Commission may adopt rules as necessary to implement sections 2 to 13 of this 2007 Act.

**SECTION 12.** Fees collected by the Department of Environmental Quality under sections 2 to 13 of this 2007 Act shall be deposited in the State Treasury to the credit of the Covered Electronic Devices Account established under section 13 of this 2007 Act.

**SECTION 13.** The Covered Electronic Devices Account is established separate and distinct from the General Fund. Interest earned by the account shall be credited to the account. Moneys in the account are continuously appropriated to the Department of Environmental Quality and may be used only to pay the costs of implementing sections 2 to 13 of this 2007 Act and enforcing the prohibition in ORS 459.247 relating to disposal of covered electronic devices.

**SECTION 14.** (1) The Department of Environmental Quality shall evaluate any federal law that establishes a national program for the collection and recycling of electronic devices.

(2) If the department determines that the federal law substantially meets or exceeds the requirements and intent of sections 2 to 13 of this 2007 Act, the department shall include information on the federal law in the next biennial report to the Legislative Assembly pursuant to section 10 of this 2007 Act.

(5)(a) **Each disposal site operator shall establish and implement, in accordance with any permit requirements established by the Department of Environmental Quality, a program reasonably designed to prevent acceptance of covered electronic devices for disposal. If an operator operates the disposal site in conformity with the program, the operator is presumed to have complied with the provisions of this section that prohibit knowingly accepting covered electronic devices for disposal.**
