## House Bill 2903

Sponsored by Representatives D EDWARDS, ESQUIVEL, WITT; Representatives BARKER, BARNHART, BONAMICI, BOONE, BRUUN, CLEM, C EDWARDS, GALIZIO, GREENLICK, KOMP, OLSON, RILEY, ROSENBAUM, SHIELDS, WHISNANT, Senators METSGER, PROZANSKI, WALKER

## **SUMMARY**

The following summary is not prepared by the sponsors of the measure and is not a part of the body thereof subject to consideration by the Legislative Assembly. It is an editor's brief statement of the essential features of the measure as introduced.

Requires contractors submitting bids or proposals on state public contracts to certify where services would be performed. Prohibits state agency from awarding contract to contractor that would perform services outside of United States. Provides exceptions. Permits contracting agency to bring civil action for breach of contract.

## A BILL FOR AN ACT

- 2 Relating to state contracting for services performed within United States.
  - Be It Enacted by the People of the State of Oregon:
    - SECTION 1. Section 2 of this 2007 Act is added to and made a part of ORS chapter 279B.
    - SECTION 2. (1) A contractor submitting a bid or proposal to a state agency for a public contract for services shall certify in writing the location where the services are to be performed and whether the contractor contemplates any of the work necessary to provide the services being performed outside of the United States.
    - (2) A state agency may not award a public contract for services that permits the contractor or any subcontractor to perform work under the contract at a site outside the United States, and may not award a public contract for services to a contractor that does not provide the written certification required under subsection (1) of this section, unless:
    - (a)(A) The contractor or its subcontractor provides unique services that cannot be provided by a contractor in the United States; and
    - (B) The particular services are deemed mandatory and central to the core functions of the state agency;
    - (b) The contractor or its subcontractor is a foreign firm hired to market Oregon goods or services to a foreign country;
    - (c) An economic cost factor exists, equalling at least a five percent differential over the life of the contract, that outweighs the economic effect of providing the services within the United States, such that a failure to use the contractor's or its subcontractor's services would result in economic hardship to this state; or
    - (d) The contractor or its subcontractor maintains a significant business presence in the United States and performs less than 10 percent of the work under the contract outside the United States.
  - (3) Every public contract for services to which this section applies must contain the following conditions:
    - (a) The contractor shall comply, throughout the duration of the contract, with the contractor's written certification made under subsection (1) of this section.

- (b) The state agency reserves the right to inspect the performance of the work and the contractor's records to ensure that the contractor complies with the condition described in paragraph (a) of this subsection.
- (4)(a) If, during the term of a public contract, a contractor that has certified that services will be performed in the United States shifts work to a site outside of the United States, the contractor is deemed to be in substantial breach of contract, unless the state agency first determines in writing that extraordinary circumstances require the shift of work.
- (b) If the contractor is in substantial breach of contract under this subsection, the state agency shall:
- (A) Affirm the contract and require the contractor to pay damages in an amount equal to the amount paid by the state agency to the contractor for the work performed outside the United States; or
  - (B) Rescind the contract and demand restitution.
- (c) The state agency may bring a civil action in state or federal court to seek a remedy under this section. The court may award attorney fees and costs to the state agency.
- (5) This section does not apply to the solicitation or award of a public contract for services if the state agency soliciting the contract determines that any requirement of this section would conflict with, or would not be permitted under, an applicable federal law or treaty.
- SECTION 3. Section 2 of this 2007 Act applies only to public contracts for services first advertised, but if not advertised then entered into, on or after the effective date of this 2007 Act.
