 3 other persons from making an anatomical gift of the individual's body or body part.

4 **SECTION 7.** (1) Except as otherwise provided in subsection (7) of this section and subject
 5 to subsection (6) of this section, in the absence of an express, contrary indication by the

10 (2) A donor's revocation of an anatomical gift of the donor's body or body part under

 12 section 3 or 8 of this 2007 Act from making an anatomical gift of the donor's body or body
 13 part under section 4 or 9 of this 2007 Act.

14 (3) If a person other than the donor makes an unrevoked anatomical gift of the donor's

 18 Act.

19 (4) A revocation of an anatomical gift of a donor's body or body part under section 5 of
 20 this 2007 Act by a person other than the donor does not prohibit another person from making
 21 an anatomical gift of the body or body part under section 4 or 9 of this 2007 Act.

22 (5) In the absence of an express, contrary indication by the donor or other person au-
 23 thorized to make an anatomical gift under section 3 of this 2007 Act, an anatomical gift of
 24 a body part is neither a refusal to give another body part nor a limitation on the making of
 25 an anatomical gift of another body part at a later time by the donor or other person.

26 (6) In the absence of an express, contrary indication by the donor or other person au-
 27 thorized to make an anatomical gift under section 3 of this 2007 Act, an anatomical gift of
 28 a body part for one or more of the purposes set forth in section 3 of this 2007 Act is not a
 29 limitation on the making of an anatomical gift of the body part for any of the other purposes
 30 by the donor or other person under section 4 or 9 of this 2007 Act.

31 (7) If a donor who is an unemancipated minor dies, a parent of the donor who is rea-
 32 sonably available may revoke or amend an anatomical gift of the donor's body or body part.

33 (8) If an unemancipated minor who signed a refusal dies, a parent of the minor who is
 34 reasonably available may revoke the minor's refusal.

35 **SECTION 8.** (1) Subject to subsections (2) and (3) of this section and unless prohibited
 36 by section 6 or 7 of this 2007 Act, an anatomical gift of a decedent's body or body part for
 37 purpose of transplantation, therapy, research or education may be made by any member of
 38 the following classes of persons who is reasonably available, in the following order:

- 4 (j) Any other person having the authority to dispose of the decedent's body.

5 (2) If there is more than one member of a class listed in subsection (1) of this section
 6 entitled to make an anatomical gift, an anatomical gift may be made by a member of the
 7 class unless that member or a person to which the gift may pass under section 10 of this 2007
 8 Act knows of an objection by another member of the class. If an objection is known, the gift
 9 may be made only by a majority of the members of the class who are reasonably available.

10 (3) A person may not make an anatomical gift if, at the time of the decedent's death, a
 11 person in a prior class under subsection (1) of this section is reasonably available to make
 12 or to object to the making of an anatomical gift.

13 **SECTION 9.** (1) A person authorized to make an anatomical gift under section 8 of this
 14 2007 Act may make an anatomical gift by a document of gift signed by the person making
 15 the gift or by that person's oral communication that is electronically recorded or is
 16 contemporaneously reduced to a record and signed by the individual receiving the oral com-
 17 munication.

18 (2) Subject to subsection (3) of this section, an anatomical gift by a person authorized
 19 under section 8 of this 2007 Act may be amended or revoked orally or in a record by any
 20 member of a prior class who is reasonably available. If more than one member of the prior
 21 class is reasonably available, the gift made by a person authorized under section 8 of this
 22 2007 Act may be:

23 (a) Amended only if a majority of the reasonably available members agree to amendment
 24 of the gift; or

25 (b) Revoked only if a majority of the reasonably available members agree to the revoca-
 26 tion of the gift or if they are equally divided as to whether to revoke the gift.

27 (3) A revocation under subsection (2) of this section is effective only if, before an incision
 28 has been made to remove a body part from the donor's body or before invasive procedures
 29 have begun to prepare the recipient, the procurement organization, transplant hospital,
 30 physician or technician knows of the revocation.

31 **SECTION 10.** (1) An anatomical gift may be made to the following persons named in the

38 (2) If an anatomical gift to an individual under subsection (1)(b) of this section cannot
 39 be transplanted into the individual, the body part passes in accordance with subsection (7)
 40 of this section in the absence of an express, contrary indication by the person making the
 41 anatomical gift.

42 (3) If an anatomical gift of one or more specific body parts or of all body parts is made
 43 in a document of gift that does not name a person described in subsection (1) of this section
 44 but identifies the purpose for which an anatomical gift may be used, the following rules ap-
 45 ply:

1 (a) If the body part is an eye and the gift is for the purpose of transplantation or therapy,
2 the gift passes to the appropriate eye bank.

3 (b) If the body part is tissue and the gift is for the purpose of transplantation or therapy,
4 the gift passes to the appropriate tissue bank.

5 (c) If the body part is an organ and the gift is for the purpose of transplantation or
6 therapy, the gift passes to the appropriate organ procurement organization as custodian of
7 the organ.

8 (d) If the body part is an organ, an eye or tissue and the gift is for the purpose of re-
9 search or education, the gift passes to the appropriate procurement organization.

10 (4) For the purposes of subsection (3) of this section, if there is more than one purpose
11 of an anatomical gift set forth in the document of gift but the purposes are not set forth in
12 any priority, the gift must be used for transplantation or therapy, if suitable. If the gift
13 cannot be used for transplantation or therapy, the gift may be used for research or educa-
14 tion.

15 (5) If an anatomical gift of one or more specific body parts is made in a document of gift
16 that does not name a person described in subsection (1) of this section and does not identify
17 the purpose of the gift, the gift may be used only for transplantation or therapy, and the gift
18 passes in accordance with subsection (7) of this section.

19 (6) If a document of gift specifies only a general intent to make an anatomical gift by
20 words such as “donor,” “organ donor” or “body donor” or by a symbol or statement of sim-
21 ilar import, the gift may be used only for transplantation or therapy, and the gift passes in
22 accordance with subsection (7) of this section.

23 (7) For purposes of subsections (2), (5) and (6) of this section, the following rules apply:

24 (a) If the body part is an eye, the gift passes to the appropriate eye bank.

25 (b) If the body part is tissue, the gift passes to the appropriate tissue bank.

26 (c) If the body part is an organ, the gift passes to the appropriate organ procurement
27 organization as custodian of the organ.

28 (8) An anatomical gift of an organ for transplantation or therapy, other than an ana-
29 tomical gift under subsection (1)(b) of this section, passes to the organ procurement organ-
30 ization as custodian of the organ.

31 (9) If an anatomical gift does not pass pursuant to subsections (1) to (8) of this section
32 or the decedent’s body or body part is not used for transplantation, therapy, research or
33 education, custody of the body or body part passes to the person under obligation to dispose
34 of the body or body part.

35 (10) A person may not accept an anatomical gift if the person knows that the gift was
36 not effectively made under section 4 or 9 of this 2007 Act or if the person knows that the
37 decedent made a refusal under section 6 of this 2007 Act that was not revoked. For purposes
38 of this subsection, if a person knows that an anatomical gift was made on a document of gift,
39 the person is deemed to know of any amendment or revocation of the gift or any refusal to
40 make an anatomical gift on the same document of gift.

41 (11) Except as otherwise provided in subsection (1)(b) of this section, sections 1 to 22 of
42 this 2007 Act do not affect the allocation of organs for transplantation or therapy.

43 **SECTION 11.** (1) The following persons shall make a reasonable search of an individual
44 who the persons reasonably believe is dead or near death for a document of gift or other
45 information identifying the individual as a donor or as an individual who made a refusal:

2 the individual; and

3 (b) If no other source of the information is immediately available, a hospital, as soon as
4 practicable after the individual's arrival at the hospital.

5 (2) If a document of gift or a refusal to make an anatomical gift is located by the search
6 required by subsection (1)(a) of this section and the individual or deceased individual to whom
7 it relates is taken to a hospital, the person responsible for conducting the search shall send
8 the document of gift or the refusal to the hospital.

9 (3) A person is not subject to criminal or civil liability for failing to discharge the duties
10 imposed by this section but may be subject to administrative sanctions.

11 **SECTION 12.** (1) A document of gift need not be delivered during the donor's lifetime to
12 be effective.

13 (2) Upon or after an individual's death, a person in possession of a document of gift or
14 a refusal to make an anatomical gift with respect to the individual shall allow examination
15 and copying of the document of gift or the refusal by a person authorized to make or object
16 to the making of an anatomical gift with respect to the individual or by a person to whom
17 the gift could pass under section 10 of this 2007 Act.

18 **SECTION 13.** (1) When a hospital refers an individual at or near death to a procurement
19 organization, the organization shall make a reasonable search of the records of the Depart-
20 ment of Transportation and any donor registry that it knows exists for the geographical area
21 in which the individual resides to ascertain whether the individual has made an anatomical
22 gift.

23 (2) A procurement organization must be allowed reasonable access to information in the
24 records of the Department of Transportation to ascertain whether an individual at or near
25 death is a donor.

26 (3) When a hospital refers an individual at or near death to a procurement organization,
27 the organization may conduct any reasonable examination necessary to ensure the medical
28 suitability of a body part that is or could be the subject of an anatomical gift for transplan-
29 tation, therapy, research or education from a donor or a prospective donor. During the ex-
30 amination period, measures necessary to ensure the medical suitability of the body part may
31 not be withdrawn unless the hospital or procurement organization knows that the individual
32 expressed a contrary intent.

33 (4) Unless otherwise prohibited by law, at any time after a donor's death, the person to
34 whom a body part passes under section 10 of this 2007 Act may conduct any reasonable ex-
35 amination necessary to ensure the medical suitability of the body or body part for its in-
36 tended purpose.

37 (5) Unless otherwise prohibited by law, an examination under subsection (3) or (4) of this
38 section may include an examination of all medical and dental records of the donor or pro-
39 spective donor.

40 (6) Upon the death of a minor who was a donor or had signed a refusal, unless a pro-
41 curement organization knows the minor is emancipated, the procurement organization shall
42 conduct a reasonable search for the parents of the minor and provide the parents with an
43 opportunity to revoke or amend the anatomical gift or revoke the refusal.

44 (7) Upon referral by a hospital under subsection (1) of this section, a procurement or-
45 ganization shall make a reasonable search for any person listed in section 8 of this 2007 Act

1 having priority to make an anatomical gift on behalf of a prospective donor. If a procurement
2 organization receives information that an anatomical gift to any other person was made,
3 amended or revoked, it shall promptly advise the other person of all relevant information.

4 (8) Subject to sections 10 (9) and 20 of this 2007 Act, the rights of the person to whom a
5 body part passes under section 10 of this 2007 Act are superior to the rights of all others
6 with respect to the body part. The person may accept or reject an anatomical gift in whole
7 or in part. Subject to the terms of the document of gift and sections 1 to 22 of this 2007 Act,
8 a person who accepts an anatomical gift of an entire body may allow embalming, burial or
9 cremation and use of remains in a funeral service. If the gift is of a body part, the person
10 to whom the body part passes under section 10 of this 2007 Act, upon the death of the donor
11 and before embalming, burial or cremation, shall cause the body part to be removed without
12 unnecessary mutilation.

13 (9) Neither the physician who attends the decedent at death nor the physician who de-
14 termines the time of the decedent's death may participate in the procedures for removing
15 or transplanting a body part from the decedent.

16 (10) A physician or technician may remove from the body of a donor a donated body part
17 that the physician or technician is qualified to remove.

18 SECTION 14. Each hospital in this state shall enter into agreements or affiliations with
19 procurement organizations for coordination of procurement and use of anatomical gifts.

20 SECTION 15. (1) A person who acts in accordance with sections 1 to 22 of this 2007 Act
21 or with the applicable anatomical gift law of another state, or attempts in good faith to do
22 so, is not liable for the act in a civil action, criminal prosecution or administrative proceed-
23 ing.

24 (2) Neither the person making an anatomical gift nor the donor's estate is liable for any
25 injury or damage that results from the making or use of the gift.

26 (3) In determining whether an anatomical gift has been made, amended or revoked under
27 sections 1 to 22 of this 2007 Act, a person may rely upon representations of an individual
28 listed in section 8 (1)(b), (c), (d), (e), (f), (g) or (h) of this 2007 Act relating to the individual's
29 relationship to the donor or prospective donor unless the person knows that the represen-
30 tation is untrue.

31 SECTION 16. (1) A document of gift is valid if executed in accordance with:

32 (a) Sections 1 to 22 of this 2007 Act;

33 (b) The laws of the state or country where it was executed; or

34 (c) The laws of the state or country where the person making the anatomical gift was
35 domiciled, had a place of residence or was a national at the time the document of gift was
36 executed.

37 (2) If a document of gift is valid under this section, the law of this state governs the in-
38 terpretation of the document of gift.

39 (3) A person may presume that a document of gift or amendment of an anatomical gift
40 is valid unless that person knows that it was not validly executed or was revoked.

41 SECTION 17. (1) The Department of Human Services may establish or contract for the
42 establishment of a donor registry.

43 (2) The Department of Transportation shall cooperate with a person who administers any
44 donor registry that this state establishes, contracts for or recognizes for the purpose of
45 transferring to the donor registry all relevant information regarding a donor's making,

1 amending or revoking an anatomical gift.

2 (3) A donor registry must:

3 (a) Allow a donor or other person authorized under section 3 of this 2007 Act to include
4 on the donor registry a statement or symbol that the donor has made, amended or revoked
5 an anatomical gift;

6 (b) Be accessible to a procurement organization to allow the procurement organization
7 to obtain relevant information on the donor registry to determine, at or near death of the
8 donor or a prospective donor, whether the donor or prospective donor has made, amended
9 or revoked an anatomical gift; and

10 (c) Be accessible for purposes of this subsection seven days a week on a 24-hour basis.

11 (4) Personally identifiable information on a donor registry about a donor or prospective
12 donor may not be used or disclosed without the express consent of the donor, prospective
13 donor or person who made the anatomical gift for any purpose other than to determine, at
14 or near death of the donor or prospective donor, whether the donor or prospective donor has
15 made, amended or revoked an anatomical gift.

16 (5) This section does not prohibit any person from creating or maintaining a donor reg-
17 istry that is not established by or under contract with the state. Any such registry must
18 comply with subsections (3) and (4) of this section.

19 **SECTION 18.** (1) As used in this section:

20 (a) "Advance directive" has the meaning given that term in ORS 127.505.

21 (b) "Declaration" means a record signed by a prospective donor specifying the circum-
22 stances under which a life support system may be withheld or withdrawn from the prospec-
23 tive donor.

24 (2) If a prospective donor has a declaration or advance directive, measures necessary to
25 ensure the medical suitability of an organ for transplantation or therapy may not be withheld
26 or withdrawn from the prospective donor, unless the declaration or advance directive ex-
27 pressly provides to the contrary.

28 **SECTION 19.** (1) A medical examiner shall cooperate with procurement organizations to
29 maximize the opportunity to recover anatomical gifts for the purpose of transplantation,
30 therapy, research or education.

31 (2) If a medical examiner receives notice from a procurement organization that an ana-
32 tomical gift might be available or was made with respect to a decedent whose body is under
33 the jurisdiction of the medical examiner and a post-mortem examination is going to be per-
34 formed, unless the medical examiner denies recovery in accordance with section 20 of this
35 2007 Act, the medical examiner or designee shall conduct a post-mortem examination of the
36 body or the body part in a manner and within a period compatible with its preservation for
37 the purposes of the gift.

38 (3) A body part may not be removed from the body of a decedent under the jurisdiction
39 of a medical examiner for transplantation, therapy, research or education unless the body
40 part is the subject of an anatomical gift. The body of a decedent under the jurisdiction of the
41 medical examiner may not be delivered to a person for research or education unless the body
42 is the subject of an anatomical gift. This subsection does not preclude a medical examiner
43 from performing the medicolegal investigation upon the body or body parts of a decedent
44 under the jurisdiction of the medical examiner.

45 **SECTION 20.** (1) Upon request of a procurement organization, a medical examiner shall

1 release to the procurement organization the name, contact information and available medical
2 and social history of a decedent whose body is under the jurisdiction of the medical examiner.
3 If the decedent's body or body part is medically suitable for transplantation, therapy, re-
4 search or education, the medical examiner shall release post-mortem examination results to
5 the procurement organization. The procurement organization may make a subsequent dis-
6 closure of the post-mortem examination results or other information received from the
7 medical examiner only if relevant to transplantation or therapy.

8 (2) The medical examiner may conduct a medicolegal examination by reviewing all med-
9 ical records, laboratory test results, X-rays, other diagnostic results and other information
10 that any person possesses about a donor or prospective donor whose body is under the ju-
11 risdiction of the medical examiner that the medical examiner determines may be relevant to
12 the investigation.

13 (3) A person who has any information requested by a medical examiner pursuant to
14 subsection (2) of this section shall provide that information as expeditiously as possible to
15 allow the medical examiner to conduct the medicolegal investigation within a period com-
16 patible with the preservation of body parts for the purpose of transplantation, therapy, re-
17 search or education.

18 (4) If an anatomical gift has been or might be made of a body part of a decedent whose
19 body is under the jurisdiction of the medical examiner and a post-mortem examination is not
20 required, or the medical examiner determines that a post-mortem examination is required
21 but that the recovery of the body part that is the subject of an anatomical gift will not in-
22 terfere with the examination, the medical examiner and procurement organization shall co-
23 operate in the timely removal of the body part from the decedent for the purpose of
24 transplantation, therapy, research or education.

25 (5) If an anatomical gift of a body part from the decedent under the jurisdiction of the
26 medical examiner has been or might be made, but the medical examiner initially believes that
27 the recovery of the body part could interfere with the post-mortem investigation into the
28 decedent's cause or manner of death, the medical examiner shall consult with the procure-
29 ment organization, or physician or technician designated by the procurement organization,
30 about the proposed recovery. After consultation, the medical examiner may allow the re-
31 covery.

32 (6) Following the consultation under subsection (5) of this section, in the absence of
33 mutually agreed-upon protocols to resolve conflict between the medical examiner and the
34 procurement organization, if the medical examiner intends to deny recovery, the medical
35 examiner or designee, at the request of the procurement organization, shall attend the re-
36 moval procedure for the body part before making a final determination not to allow the
37 procurement organization to recover the body part. During the removal procedure, the
38 medical examiner or designee may allow recovery by the procurement organization to pro-
39 ceed, or, if the medical examiner or designee reasonably believes that the body part may be
40 involved in determining the decedent's cause or manner of death, deny recovery by the pro-
41 curement organization.

42 (7) If the medical examiner or designee denies recovery under subsection (6) of this sec-
43 tion, the medical examiner or designee shall:

- 44 (a) Explain in a record the specific reasons for not allowing recovery of the body part;
- 45 (b) Include the specific reasons in the records of the medical examiner; and

1 (c) Provide a record with the specific reasons to the procurement organization.

2 (8) If the medical examiner or designee allows recovery of a body part under subsections
 3 (4), (5) or (6) of this section, the procurement organization, upon request, shall cause the
 4 physician or technician who removes the body part to provide the medical examiner with a
 5 record describing the condition of the body part, a biopsy, a photograph and any other in-
 6 formation and observations that would assist in the post-mortem examination.

7 (9) If a medical examiner or designee is required to be present at a removal procedure
 8 under subsection (6) of this section, upon request the procurement organization requesting
 9 the recovery of the body part shall reimburse the medical examiner or designee for the ad-
 10 ditional costs incurred in complying with subsection (6) of this section.

11 **SECTION 21.** (1) Except as otherwise provided in subsection (3) of this section, a person
 12 commits the crime of purchase or sale of a body part for transplantation or therapy if the
 13 person, for valuable consideration, knowingly purchases or sells a body part for transplan-
 14 tation or therapy if removal of the body part from an individual is intended to occur after
 15 the individual's death.

16 (2) Purchase or sale of a body part for transplantation or therapy is a Class C felony.

17 (3) A person may charge a reasonable amount for the removal, processing, preservation,
 18 quality control, storage, transportation, implantation or disposal of a body part.

19 **SECTION 22.** (1) A person commits the crime of alteration of a document of gift if the
 20 person, in order to obtain a financial gain, intentionally falsifies, forges, conceals, defaces
 21 or obliterates a document of gift, an amendment or revocation of a document of gift or a
 22 refusal.

23 (2) Alteration of a document of gift is a Class C felony.

24 **SECTION 23.** The provisions of sections 1 to 22 of this 2007 Act modify, limit and super-
 25 sede the Electronic Signatures in Global and National Commerce Act, 15 U.S.C. 7001 et seq.,
 26 but do not modify, limit or supersede section 101(a) of the Electronic Signatures in Global
 27 and National Commerce Act, 15 U.S.C. 7001, or authorize electronic delivery of any of the
 28 notices described in section 103(b) of the Electronic Signatures in Global and National Com-
 29 merce Act, 15 U.S.C. 7003(b) as in effect January 1, 2008.

30 **SECTION 24.** ORS 97.130 is amended to read:

31 97.130. (1) Any individual of sound mind who is 18 years of age or older, by completion of a
 32 written signed instrument or by preparing or prearranging with any funeral service practitioner li-
 33 censed under ORS chapter 692, may direct any lawful manner of disposition of the individual's re-
 34 mains. Except as provided under subsection (6) of this section, disposition directions or disposition
 35 prearrangements that are prepaid or that are filed with a funeral service practitioner licensed under
 36 ORS chapter 692 shall not be subject to cancellation or substantial revision.

37 (2) A person within the first applicable listed class among the following listed classes that is
 38 available at the time of death or, in the absence of actual notice of a contrary direction by the
 39 decedent as described under subsection (1) of this section or actual notice of opposition by com-
 40 pletion of a written instrument by a member of the same class or a member of a prior class, may
 41 direct any lawful manner of disposition of a decedent's remains by completion of a written instru-
 42 ment:

43 (a) The spouse of the decedent.

44 (b) A son or daughter of the decedent 18 years of age or older.

4 (g) The personal representative of the estate of the decedent.

5 (h) The person nominated as the personal representative of the decedent in the decedent's last
6 will.

7 (i) A public health officer.

8 (3) The decedent or any person authorized in subsection (2) of this section to direct the manner
9 of disposition of the decedent's remains may delegate such authority to any person 18 years of age
10 or older. Such delegation shall be made by completion of the written instrument described in sub-
11 section (7) of this section. The person to whom the authority is delegated shall have the same au-
12 thority under subsection (2) of this section as the person delegating the authority.

13 (4) If a decedent or the decedent's designee issues more than one authorization or direction for
14 the disposal of the decedent's remains, only the most recent authorization or direction shall be
15 binding.

16 (5) A donation of anatomical gifts under [ORS 97.952 or 97.954] **sections 1 to 22 of this 2007**
17 **Act** shall take priority over directions for the disposition of a decedent's remains under this section
18 only if the person making the donation is of a priority under subsection (1) or (2) of this section the
19 same as or higher than the priority of the person directing the disposition of the remains.

20 (6) If the decedent directs a disposition under subsection (1) of this section and those financially
21 responsible for the disposition are without sufficient funds to pay for such disposition or the estate
22 of the decedent has insufficient funds to pay for the disposition, or if the direction is unlawful, the
23 direction shall be void and disposition shall be in accordance with the direction provided by those
24 persons given priority in subsection (2) of this section and who agree to be financially responsible.

25 (7) The signature of the individual shall be required for the completion of the written instrument
26 required in subsection (3) of this section. The following form or a form substantially similar shall
27 be used by all individuals:

(1) Direct and authorize disposition of the remains of the decedent pursuant to ORS 97.130 and incur expenses for the funeral, burial or other disposition of the remains in a manner suitable to the condition in life of the decedent. Only those funeral expenses necessary for a plain and decent funeral and disposition of the remains of the decedent may be paid from the estate if the assets are insufficient to pay the claims of the Department of Human Services for the net amount of public assistance, as defined in ORS 411.010, paid to or for the decedent and for care and maintenance of any decedent who was at a state institution to the extent provided in ORS 179.610 to 179.770.

 2 If the fiduciary is a guardian appointed solely by reason of the minority of the protected person, the
 3 fiduciary's authority terminates upon the protected person attaining 18 years of age.

4 (2) Resignation or removal of a fiduciary does not discharge the fiduciary until a final report
 5 or accounting has been approved by the court, any surety exonerated and the fiduciary discharged
 6 by order of the court.

7 (3) A guardian retains the authority to direct disposition of the remains of a deceased protected
 8 person if the guardian is unaware of any contact during the 12-month period immediately preceding
 9 the death of the protected person between the protected person and any person with priority over
 10 the fiduciary to control disposition of the remains under ORS 97.130 or to make an anatomical gift
 11 under [ORS 97.954] **section 8 of this 2007 Act.**

 18 and, whenever appropriate, shall arrange for training and education of the protected person.
 19 Without regard to custodial rights of the protected person, the guardian shall take reasonable care
 20 of the person's clothing, furniture and other personal effects unless a conservator has been ap-

 31 gift of all or any part of the body of the protected person.

32 (e) The guardian of a minor has the powers and responsibilities of a parent who has legal cus-
