26 “(6) Swimming pools, hot tubs or spas used to store heat;

27 “(7) Above ground, uninsulated swimming pools, hot tubs or spas;

28 “(8) Photovoltaic systems installed on recreational vehicles;

29 “(9) Conversion of an existing alternative energy device [or solar electric system] to another type
30 of alternative energy device [or solar electric system];

31 “(10) Repair or replacement of an existing alternative energy device [or solar electric system];

32 “(11) A [solar electric system] **category two alternative energy device**, if the equipment or
33 other property that comprises the [solar electric system] **category two alternative energy device**
34 is [also] the basis for an allowed credit for [an] **a category one** alternative energy device under
35 ORS 316.116;

36 “(12) [An] **A category one** alternative energy device, if the equipment or other property that
37 comprises the **category one** alternative energy device is also the basis for an allowed credit for a
38 [solar electric system] **category two alternative energy device** under ORS 316.116; or

39 “(13) Any other device identified by the State Department of Energy. The department may adopt
40 rules defining standards for eligible and ineligible devices under this section.

41 “**SECTION 33.** ORS 469.176 is amended to read:

42 “469.176. (1) Except for alternative fuel vehicles or related equipment, in order to carry out ORS
43 469.160 to 469.180, the State Department of Energy shall develop performance assumptions and
44 prescriptive measures to determine the eligibility and tax credit amount for alternative energy de-
45 vices [and solar electric systems] constructed or installed in a dwelling.

1 “(2) The department shall use the performance assumptions and prescriptive measures to develop
2 information for the Department of Revenue to use to allow taxpayers to determine their eligibility
3 and tax credit amount. The State Department of Energy may review this information on an annual
4 basis to take into consideration new technology and performance assumption accuracy.

5 “(3) For the purpose of determining the first year energy yield of an alternative energy device,
6 the department shall use the following assumptions and test standards:

7 “(a) Solar Rating and Certification Corporation standard SRCC 100, 200, American Society of
8 Heating, Refrigerating and Air-Conditioning Engineers 93-77, or the American Refrigeration Institute
9 standard 325-85 test at 50 degrees entering water temperature, as appropriate. The testing require-
10 ments under this paragraph shall not apply to an owner-built alternative energy device.

11 “(b) For an alternative energy device used as a source for domestic water heating energy, a hot
12 water use of 75 gallons per day at 120 degrees Fahrenheit. The load of 75 gallons per day at 120
13 degrees Fahrenheit shall be achieved by including conservation measures in the construction or in-
14 stallation of the alternative energy device.

15 “(c) For an alternative energy device used as a source for space heating or cooling, the heating
16 or cooling energy load as determined by a heat loss or gain calculation performed in accordance
17 with the methods established by the American Society of Heating, Refrigerating and Air-
18 Conditioning Engineers. Except for an owner-built or site-built system, an alternative energy device
19 used as a source for domestic hot water heating must meet the SRCC OG 300 systems test or comply
20 with comparable requirements as determined by the department.

21 “(d) For an alternative energy device used as a source for electrical energy, the first year en-
22 ergy yield shall be based upon the electrical energy load of the dwelling as determined according
23 to the procedure established by the department.

24 “(e) For an alternative energy device used as a source for swimming pool, spa or hot tub heat-
25 ing, the first year energy yield shall be based on the heating load of the swimming pool, spa or hot
26 tub as determined according to the procedure established by the department.

27 “**SECTION 34.** ORS 469.180 is amended to read:

28 “469.180. (1) Upon the Department of Revenue’s own motion, or upon request of the State De-
29 partment of Energy, the Department of Revenue may initiate proceedings for the forfeiture of a tax
30 credit allowed under ORS 316.116 or 317.115 if:

31 “(a) The verification was fraudulent because of a misrepresentation by the taxpayer or investor
32 owned utility;

33 “(b) The verification was fraudulent because of a misrepresentation by the contractor;

34 “(c) In the case of [*a solar electric system or*] an alternative energy device other than an alter-
35 native fuel vehicle or related equipment, the [*solar electric system or*] alternative energy device has
36 not been constructed, installed or operated in substantial compliance with the requirements of ORS
37 469.160 to 469.180; or

38 “(d) The taxpayer or investor owned utility failed to consent to an inspection of the constructed
39 or installed alternative energy device [*or solar electric system*] by the State Department of Energy
40 after a reasonable, written request for such an inspection by the State Department of Energy. This
41 paragraph does not apply to an alternative fuel vehicle or to related equipment.

42 “(2) Pursuant to the procedures for a contested case under ORS chapter 183, the Director of the
43 State Department of Energy may order the revocation of a contractor certificate issued under ORS
44 469.170 if the director finds that:

45 “(a) The contractor certificate was obtained by fraud or misrepresentation by the contractor

1 certificate holder;

2 “(b) The contractor’s performance for the alternative energy device [*or solar electric system*] for
3 which the contractor is issued a certificate under ORS 469.170 does not meet industry standards;
4 or

5 “(c) The contractor has misrepresented to the customer either the tax credit program or the
6 nature or quality of the alternative energy device [*or solar electric system*].

7 “(3) If the tax credit allowed under ORS 316.116 or 317.115 for the purchase, construction or
8 installation of an alternative energy device [*or solar electric system*] is ordered forfeited due to an
9 action of the taxpayer or investor owned utility under subsection (1)(a), (c) or (d) of this section, all
10 prior tax relief provided to the taxpayer or investor owned utility shall be forfeited and the De-
11 partment of Revenue shall proceed to collect those taxes not paid by the taxpayer or utility as a
12 result of the tax credit relief under ORS 316.116 or 317.115.

13 “(4) If the tax credit for the construction or installation of an alternative energy device [*or solar*
14 *electric system*] is ordered forfeited due to an action of the contractor under subsection (1)(b) of this
15 section, the Department of Revenue shall proceed to collect, from the contractor, an amount equiv-
16 alent to those taxes not paid by the taxpayer or investor owned utility as a result of the tax credit
17 relief under ORS 316.116 or 317.115. As long as the forfeiture is due to an action of the contractor
18 and not to an action of the taxpayer or utility, the assessment of such taxes shall be levied on the
19 contractor and not on the taxpayer or utility. Notwithstanding ORS 314.835, the Department of Re-
20 venue may disclose information from income tax returns or reports to the extent such disclosure is
21 necessary to collect amounts from contractors under this subsection.

22 “(5) In order to obtain information necessary to verify eligibility and amount of the tax credit,
23 the State Department of Energy or its representative may inspect an alternative energy device [*or*
24 *solar electric system*] that has been purchased, constructed or installed. The inspection shall be made
25 only with the consent of the owner of the dwelling. Failure to consent to the inspection is grounds
26 for the forfeiture of any tax credit relief under ORS 316.116 or 317.115. The Department of Revenue
27 shall proceed to collect any taxes due according to subsection (4) of this section. For electrical
28 generating alternative energy devices [*or solar electric systems*], the State Department of Energy may
29 obtain energy consumption records for the dwelling the device [*or system*] serves, for a 12-month
30 period, in order to verify eligibility and amount of the tax credit.

31 “**SECTION 35.** Section 5a, chapter 832, Oregon Laws 2005, is amended to read:

32 “**Sec. 5a.** A taxpayer may not be allowed a credit under ORS 316.116 if the first tax year for
33 which the credit would otherwise be allowed with respect to an alternative energy device[, *solar*
34 *electric system*] or alternative fuel vehicle or related equipment is on or after January 1, 2016.

35 “**SECTION 36.** **The amendments to ORS 316.116, 469.160, 469.165, 469.170, 469.172, 469.176**

25 “**SECTION 46.** The amendments to section 44 of this 2007 Act by section 45 of this 2007
26 Act become operative on January 2, 2018.

27 “**SECTION 47.** (1) A personal income or corporate income or excise taxpayer is allowed
28 a credit against the taxes that are otherwise due under ORS chapter 316, 317 or 318 for the
29 certified costs of a repower of a nonroad Oregon diesel engine or retrofit of an Oregon diesel
30 engine that occurs after the effective date of this 2007 Act if:

31 “(a) The repower or retrofit has been identified as qualifying for the credit under rules
32 adopted by the Environmental Quality Commission under section 44 of this 2007 Act;

33 “(b) The engine will constitute an Oregon diesel engine; and

34 “(c) The taxpayer has obtained a tax credit cost certification from the Department of
35 Environmental Quality under section 51 of this 2007 Act for the cost of the repower or
36 retrofit.

37 “(2) The maximum amount of the tax credit allowed under this section is limited to:

38 “(a) 25 percent of the certified cost of each qualifying repower; and

39 “(b) 50 percent of the certified cost of each qualifying retrofit.

40 “(3) The amount of the tax credit allowed to the taxpayer under this section in any one
41 tax year may not exceed the tax liability of the taxpayer for the tax year.

42 “(4) Any tax credit that is allowed under this section, but limited by subsection (3) of this
43 section, and that is not used by the taxpayer in a particular tax year may be carried forward
44 and offset against the taxpayer’s tax liability as prescribed in subsection (3) of this section
45 for the next succeeding tax year. Any credit remaining unused in the next succeeding tax

1 year may be carried forward and offset against the taxpayer's tax liability as prescribed in
2 subsection (3) of this section for the second succeeding tax year. Any credit remaining un-
3 used in the second succeeding tax year may be carried forward and offset against the tax-
4 payer's tax liability as prescribed in subsection (3) of this section for the third succeeding
5 tax year, but may not be carried forward for any tax year thereafter.

6 “(5) The credit allowed under this section is not in lieu of any depreciation or amorti-
7 zation deduction for the engine to which the taxpayer otherwise may be entitled for purposes
8 of ORS chapter 316, 317 or 318. The taxpayer's adjusted basis for determining gain or loss
9 may not be decreased by any tax credits allowed under this section.

10 “(6)(a) The Department of Revenue may disallow the credit allowed under this section if
11 the department finds that the credit was obtained by fraud or misrepresentation, or if the
12 department learns that the engine that was the subject of the qualifying repower or retrofit
13 was destroyed by arson committed by the taxpayer, or if the engine no longer meets the
14 requirements for obtaining the tax credit.

15 “(b) If the tax credit is disallowed pursuant to this subsection, notwithstanding ORS
16 314.410 or other law, all prior tax relief provided to the taxpayer shall be forfeited, the de-
17 partment shall proceed to collect those taxes not paid by the taxpayer as a result of the prior
18 granting of the credit and the taxpayer shall be denied any further credit provided under this
19 section.

20 “(c) The department may perform activities necessary to ensure that recipients of the
21 tax credit comply with applicable requirements.

22 “(7)(a) A nonresident individual shall be allowed the credit computed in the same manner
23 and subject to the same limitations as the credit allowed a resident by this section. However,
24 the credit shall be prorated using the proportion provided in ORS 316.117.

25 “(b) If a change in the taxable year of a taxpayer occurs as described in ORS 314.085, or
26 if the Department of Revenue terminates the taxpayer's taxable year under ORS 314.440, the
27 credit allowed by this section shall be prorated or computed in a manner consistent with ORS
28 314.085.

29 “(c) If a change in the status of a taxpayer from resident to nonresident or from non-
30 resident to resident occurs, the credit allowed by this section shall be determined in a man-
31 ner consistent with ORS 316.117.

32 “(8) The taxpayer shall claim the credit on a form prescribed by the Department of Re-
33 venue containing the information required by the Department of Revenue. The taxpayer shall
34 maintain the tax credit cost certification issued by the Department of Environmental Quality
35 under section 51 of this 2007 Act in the records of the taxpayer for the length of time pre-
36 scribed by the Department of Revenue and shall provide a copy of the cost certification to
37 the Department of Revenue if requested.

38 “(9) A taxpayer may not claim a credit under this section and ORS 315.304 with respect
39 to the same diesel engine or group of diesel engines. A taxpayer may claim a credit under
40 this section and under ORS 469.185 to 469.225 with respect to the same diesel engine or group
41 of diesel engines if the taxpayer and diesel engines otherwise meet the requirements to be
42 allowed a tax credit under ORS 469.185 to 469.225.

43 “SECTION 48. (1) A person that has obtained a tax credit cost certification from the
44 Department of Environmental Quality under section 51 of this 2007 Act may transfer the cost
45 certification to a personal income or corporate income or excise taxpayer in exchange for

1 consideration from the taxpayer.

2 “(2) In order for a credit under section 47 of this 2007 Act to be claimed by a person that
3 does not own the repowered or retrofitted engine that qualifies for the credit, the person
4 that received the tax credit cost certification and the taxpayer that will claim the credit
5 must jointly file a cost certification transfer notice with the Department of Revenue to
6 transfer the cost certification to the taxpayer. The transfer notice shall be on a form pre-
7 scribed by the department and shall contain any information required by the department.

8 “(3) The cost certification transfer notice shall be filed with the Department of Revenue
9 prior to the first tax year for which a credit will be claimed under section 47 of this 2007 Act.
10 A transfer is not allowed under this section if the transferor has claimed any portion of the
11 credit allowed under section 47 of this 2007 Act.

12 “SECTION 49. Sections 47 and 48 of this 2007 Act apply to diesel engine repower and
13 retrofit tax credit cost certifications issued in tax years beginning on or after January 1,
14 2008.

15 “SECTION 50. (1) The Environmental Quality Commission shall adopt rules to implement
16 this section and sections 47, 48 and 51 of this 2007 Act, including rules:

17 “(a) Imposing a nonrefundable application fee of \$50 for applications for cost certification
18 of repowers or retrofits that qualify for the tax credit allowed under section 47 of this 2007
19 Act.

20 “(b) Imposing a nonrefundable application processing fee. The amount of the fee shall
21 be the amount that in the judgment of the commission is needed for the Department of En-
22 vironmental Quality to recoup its expenses in administering the tax credit cost certification
23 under section 51 of this 2007 Act.

24 “(2) The Environmental Quality Commission shall consult with the Department of Re-
25 venue prior to adopting or amending rules under this section.

26 “SECTION 51. (1) A person seeking a tax credit under section 47 of this 2007 Act or a
27 person seeking to transfer a tax credit cost certification under section 48 of this 2007 Act
28 shall first apply to the Department of Environmental Quality for certification of the cost of
29 a repower or retrofit of an engine that qualifies for the tax credit under section 47 of this
30 2007 Act.

31 “(2) The application must contain the following information:

32 “(a) The name, address and taxpayer identification number of the taxpayer;

33 “(b) A statement that the engine on which the repower or retrofit was performed is
34 owned by the applicant and is intended to be an Oregon diesel engine;

35 “(c) A description of the technologies used in the repower or retrofit that are sufficient
36 for the department to determine if the repower or retrofit qualifies for the tax credit;

37 “(d) Invoices or other documentation of the cost and payment of the repower or retrofit;
38 and

39 “(e) Any other information required by the department or required under rules adopted
40 by the Environmental Quality Commission.

41 “(3) The taxpayer shall file the application within one year following the date of the in-
42 voice for the qualifying repower or retrofit. The application may not be accepted unless the
43 application includes payment of the nonrefundable fees imposed under rules adopted under
44 section 50 of this 2007 Act.

45 “(4) The department shall consider completed applications and determine if the applica-

1 tion describes a repower or retrofit that qualifies for a tax credit under section 47 of this
2 2007 Act and, if qualified, the certified cost of the repower or retrofit. In determining the
3 amount of a tax credit under this section, the department shall reduce the incremental cost
4 of a qualifying repower or retrofit by the value of any existing financial incentive that di-
5 rectly reduces the cost of the qualifying repower or retrofit, including tax credits, grants,
6 loans or any other public financial assistance. The department shall send written notice of
7 the certified cost to the taxpayer. The department may not certify more than \$3 million of
8 tax credits under this section during each calendar year.

9 “(5) If the department determines that a repower or retrofit does not qualify for a tax
10 credit under section 47 of this 2007 Act or certifies a lesser amount than was sought in the
11 application, the taxpayer may appeal the determination as a contested case under ORS
12 chapter 183.

13 “(6) The department shall deposit fees collected under this section in a miscellaneous
14 receipts account established in the State Treasury for the benefit of the department.
15 Amounts in the account are continuously appropriated to the department for the purpose
16 of reimbursing the department for expenses incurred in administering this section.

18 “**SECTION 53.** Section 28, chapter 618, Oregon Laws 2003, is amended to read:

19 “**Sec. 28.** (1) As used in this section and section 29, **chapter 618, Oregon Laws 2003** [*of this*
20 *2003 Act*]:

21 “(a) ‘Combined weight’ has the meaning given that term in ORS 825.005.

23 “(c) ‘Truck’ means a motor vehicle or combination of vehicles that has a combined weight of

25 “(2) A taxpayer who owns a truck that is registered in Oregon under the provisions of ORS
26 chapter 803 or 826 and that has a diesel engine that was purchased in Oregon on or after [*the ef-*
27 *fective date of this 2003 Act*] **the effective date of this 2007 Act**, and that is certified by the federal
28 Environmental Protection Agency to emit [*oxides of nitrogen*] **particulate matter** at the rate of
29 [2.5] **0.01** grams per brake horsepower-hour or less, is allowed a credit against the taxes otherwise
30 due under ORS chapter 316, if the taxpayer is a resident individual, or against the taxes otherwise
31 due under ORS chapter 317, if the taxpayer is a corporation. The total amount of the credit under
32 this section depends on the number of trucks owned by the taxpayer prior to the purchase, as fol-
33 lows:

34 “(a) 1 to 10 trucks, \$925 for each qualifying engine purchased.

35 “(b) 11 to 50 trucks, \$705 for each qualifying engine purchased.

37 “(d) More than 100 trucks, \$400 for each qualifying engine purchased.

38 “(3) Notwithstanding subsection (2) of this section, a taxpayer may not claim a credit under this
39 section of more than \$80,000 for purchases in any one year.

40 “(4) A credit may not be allowed under this section unless the taxpayer claiming the credit
41 complies with rules adopted by the [*Department of*] Environmental Quality **Commission** and the
42 Department of Revenue as provided in section 29, **chapter 618, Oregon Laws 2003** [*of this 2003*
43 *Act*].

44 “(5) Except as provided under subsection (6) of this section, the credit allowed in any one year
45 may not exceed the tax liability of the taxpayer.

1 “(6) Any tax credit otherwise allowable under this section that is not used by the taxpayer in
2 a particular tax year may be carried forward and offset against the taxpayer’s tax liability for the
3 next succeeding tax year. Any credit remaining unused in the next succeeding tax year may be
4 carried forward and used in the second succeeding tax year, any credit not used in the second suc-
5 ceeding tax year may be carried forward and used in the third succeeding tax year and any credit
6 not used in the third succeeding tax year may be carried forward and used in the fourth succeeding
7 tax year but may not be carried forward for any tax year thereafter.

8 “(7)(a) The credit provided by this section is not in lieu of any depreciation or amortization de-
9 duction for the truck to which the taxpayer otherwise may be entitled under ORS chapter 316 or
10 317 for the tax year.

11 “(b) The taxpayer’s adjusted basis for determining gain or loss may not be further decreased by

15 if it finds, by order, that the credit was obtained by fraud or misrepresentation.

16 “(b) If the tax credit is disallowed pursuant to this subsection, notwithstanding ORS 314.410 or
17 other law, all prior tax relief provided to the taxpayer shall be forfeited and the Department of
18 Revenue shall proceed to collect those taxes not paid by the taxpayer as a result of the prior
19 granting of the credit.

20 “(c) If the tax credit is disallowed pursuant to this subsection, the taxpayer shall be denied any
21 further credit provided under this section from and after the date that the order of disallowance
22 becomes final.

23 “(9) If the engine is destroyed by fire, flood, natural disaster or act of God before all of the
24 credit has been used, the taxpayer may nevertheless claim the credit as if no destruction had taken
25 place. In the event of fire, if the fire chief of the fire protection district or unit determines that the
26 fire was caused by arson, as described in ORS 164.315 and 164.325, by the taxpayer or by another
27 at the taxpayer’s direction, then the fire chief shall notify the Department of Revenue. If the tax-

29 subsection (8) of this section.

30 “(10)(a) A nonresident individual shall be allowed the credit computed in the same manner and
31 subject to the same limitations as the credit allowed a resident by this section. However, the credit
32 shall be prorated using the proportion provided in ORS 316.117.

33 “(b) If a change in the taxable year of a taxpayer occurs as described in ORS 314.085, or if the

16 “(5) The Department of Revenue may disallow, in whole or in part, a claim for credit under
17 section 28 [*of this 2003 Act*], **chapter 618, Oregon Laws 2003**, upon the Department of Revenue’s
18 determination that, under section 28 [*of this 2003 Act*], **chapter 618, Oregon Laws 2003**, the tax-
19 payer is not entitled to the credit or is entitled to only a portion of the amount claimed.

20 “(6) The Department of Environmental Quality shall charge a fee of [*\$15*] **\$50** for each engine
