

**REVENUE IMPACT OF
PROPOSED LEGISLATION**
75th Oregon Legislative Assembly
2009 Regular Session
Legislative Revenue Office

Bill Number:	SB 503
Revenue Area:	School Finance
Economist:	Steve Meyer
Date:	3/03/09

Measure Description:

Allows a merged school district exceeding 8,500 weighted students to continue to qualify for small high school additional student weight in the school equalization formula for 4 years. Applies to a small high school that qualifies prior to merger but would become disqualified because the weighted students of the merged district exceeds the limit of 8,500. Takes effect on passage.

Revenue Impact (in \$Millions):

	Fiscal Year		Biennium		
	2009-10	2010-11	2009-11	2011-2013	2013-2015
School Districts	\$	\$	\$	\$	\$
Education Service Districts	\$ 0	\$ 0	\$ 0	\$ 0	\$ 0
Total	\$	\$	\$	\$	\$

Impact Explanation:

There is no initial impact. If there is a future merger such as Klamath County and Klamath City school districts, the bill would allow the merged district to maintain small high school additional student weight. Small high school weighted students and district funding would not decrease because of the merged district's size. Consequently school formula revenue would not shift from the merged district to all other school districts.

Creates, Extends, or Expands Tax Expenditure: Yes No
