Prepared By: Kim To, Legislative Fiscal Office

Meeting Date: June 29, 2009

---

**WHAT THE MEASURE DOES:** House Bill 3059 requires the Emergency Medical Services and Trauma Systems Program within the Department of Humans Services (DHS) to maintain the Oregon Trauma Registry. It also requires the Director of the Program to adopt rules for the Registry. The bill authorizes DHS to provide data from the Registry to certain entities for public health purposes.

**EFFECT OF COMMITTEE AMENDMENT:** Resolves conflicts.

**BACKGROUND:** Currently, the Oregon Emergency Medical Services and Trauma Systems (EMS/TS) has no legal authority to use and share twenty years of stored data and future data, or to disclose data to county health departments to improve patient care data or for research purposes. House Bill 3059 establishes the Oregon Trauma Registry clearly in statute and provides legal authority for the EMS/TS program to adopt administrative rules on type of information, criteria and fees. Proponents assert the need to share and make better use of trauma and injury data to improve patient care through quality improvement and data analysis activities.
