

**REVENUE IMPACT OF
PROPOSED LEGISLATION
75th Oregon Legislative Assembly
2009 Regular Session
Legislative Revenue Office**

Bill Number:	HB 2929 A
Revenue Area:	School Finance
Economist:	Steve Meyer
Date:	5/04/09

Measure Description:

Allows the Department to adopt a volume-based fee on sand and gravel removal to fund fill and removal administration. Authorizes the Department of State Lands to apply for grants to do studies related to the work of the Department and to coordinating state and federal removal and fill permitting issues. Permits use of Common School Fund dollars to study the fill and removal program. Requires the Department in consultation with Environmental Quality and Geology and Mineral Industries to study the feasibility of a single permit for removal of sand and gravel. Directs an interim report by March 1, 2010 and final report by November 1, 2010 to an interim committee on environment and natural resources.

Revenue Impact (in \$Millions):

	Fiscal Year		Biennium		
	2009-10	2010-11	2009-11	2011-2013	2013-2015
Common School Fund	\$ -1.0	\$ -1.6	\$ -2.6	\$	\$
School districts	\$ Minimal	\$ Minimal	\$ Minimal	\$	\$
Total	\$ -1.0	\$ -1.6	\$ -2.6	\$	\$

Minimal is \$0 to \$-50,000

Impact Explanation:

The impact assumes use of Common School Fund dollars to conduct the studies. The amount needed from the Common School Fund depends on use of fee authority and the availability of private or federal grants or other funds. The timing of study costs is uncertain and could carry over to the 2011-13 biennium.

Creates, Extends or Expands Tax Expenditure: Yes No
