Be It Enacted by the People of the State of Oregon:

FINDINGS

SECTION 1. The Legislative Assembly finds and declares that:

(1) **The use of a consensus-based expedited review system for the uniform statewide adoption, implementation, application and enforcement of certain state building code requirements to promote energy efficiency and energy conservation will facilitate and expedite compliance with those state building code requirements by providing a comprehensive source for interpretation of requirements that integrate elements affecting a variety of specialty codes.**

(2) **The establishment of a Construction Industry Energy Board as an advisory board to the Department of Consumer and Business Services is an appropriate means for furthering the goal of facilitating and expediting state building code compliance related to energy efficiency and energy conservation.**

(3) **The creation of a Construction Industry Energy Board will improve state building code compliance with regard to energy efficiency and energy use standards by creating an additional body empowered to enforce those standards.**

(4) **The reorganization of certain existing advisory boards and the realignment of code enforcement responsibilities will enable the Department of Consumer and Business Services to more effectively ensure compliance with state building code specialty codes by increasing the focus of appropriate technical expertise, making the advisory boards more responsive to inquiries regarding code requirements and streamlining code enforcement responsibilities.**

CONSTRUCTION INDUSTRY ENERGY BOARD

SECTION 2. (1) There is established a Construction Industry Energy Board, consisting of seven members. The membership shall consist of the following:

(a) Two members selected by the Electrical and Elevator Board from the members of the Electrical and Elevator Board who have practical experience in the electric industry.

(b) Two members selected by the Residential Structures Board from the members of the Residential Structures Board who have practical experience in the residential structure industry.

(c) Two members selected by the Building Codes Structures Board from the members of the Building Codes Structures Board who have practical experience in construction.

(d) One member who is an employee or officer of the State Department of Energy appointed by the Director of the State Department of Energy.

(2) The Construction Industry Energy Board shall select one of its members as chairperson and another as vice chairperson, for such terms and with duties and powers necessary for the performance of the functions of those positions as the board determines.

(3) Except as provided in section 3 (2) of this 2009 Act, a majority of the members of the board constitutes a quorum for the transaction of business.

(4) The board shall meet at least twice each year, at times and places specified by the Director of the Department of Consumer and Business Services or by the call of a majority of the members.

(5) A member of the board is not entitled to compensation, but at the discretion of the director may be reimbursed from funds available to the Department of Consumer and Business Services for actual and necessary travel and other expenses incurred by the member in the performance of the member's official duties in the manner and amount provided in ORS 292.495.

SECTION 3. (1) The Construction Industry Energy Board may evaluate and approve or disapprove proposed state building code standards relating to the energy use and energy efficiency aspects of the electrical, structural, prefabricated structure and low-rise residential specialty codes. The proposed standards evaluated by the board may include, but need not be limited to, standards regarding energy-conserving technology, construction methods, products and materials. The board shall forward any proposed standards recommended by the board to the Director of the Department of Consumer and Business Services for adoption or rejection by the director.

If the standard relates to a specialty code that is administered by an advisory board described in section 2 (1)(a) to (c) of this 2009 Act, the Construction Industry Energy Board may not recommend the standard to the director unless all of the Construction Industry Energy Board members who are members of the advisory board that administers that specialty code approve of recommending the standard.

(3) Notwithstanding any provision of ORS chapter 446 or 455 or ORS 479.510 to 479.945 or 479.950, the director may adopt or reject a proposed standard recommended by the Construction Industry Energy Board without further consultation of an advisory board. No later than 30 days after the director receives the proposed standard, the director shall initiate a process for considering the approval or rejection of the recommended proposed standard. If the director approves the standard, the director shall file the standard with the Secretary of State under ORS 183.335 as a rule amending the state building code.

(4) The Construction Industry Energy Board shall identify and give notice to the director of the specialty codes that are affected by a recommended proposed standard. If the director adopts the standard as a rule, the rule shall be enforceable as a specialty code provision administered by the board and enforceable by any appropriate advisory board as a provision of the code administered by that advisory board.
