 2 resources and by providing a habitat for wildlife and aquatic life. Therefore, it is declared to be the  
 3 public policy of the State of Oregon to encourage economically efficient forest practices that ensure  
 4 the continuous growing and harvesting of forest tree species and the maintenance of forestland for  
 5 such purposes as the leading use on privately owned land, consistent with sound management of soil,  
 6 air, water, fish and wildlife resources and scenic resources within visually sensitive corridors as  
 7 provided in ORS 527.755 and to ensure the continuous benefits of those resources for future gener-  
 8 ations of Oregonians.

9 (2) It is recognized that operations on forestland are already subject to other laws and to reg-
