

Oregon Transparency Website

Sean McSpaden, Oregon Deputy State CIO
December 11, 2012

Background

- ▶ House Bill 2500 passed in 2009
 - (ORS 184.483–184.488)
- ▶ Established a nine (9) member Transparency Oregon Advisory Commission
 - Role: To advise and make recommendations to DAS regarding the creation, contents and operation of, and enhancements to, the Oregon transparency website.
 - Responsibility – Commission must report to the Legislative Assembly not later than January 15 of each odd-numbered year regarding
 - Enhancements made to the Oregon transparency website during the previous two calendar years
 - Possible future enhancements to the website

Background

- ▶ HB2500 required DAS to deploy and then update the Oregon Transparency Website by January 1 of each year
- ▶ Required agency submission and DAS posting of reports on Oregon Transparency Website
 - Budget Information
 - Revenues
 - Expenditures
 - Contracts
 - State Workforce Information (Compensation)
 - Other Data– e.g. performance audits, benchmarks

Oregon Transparency: get to know state government

home

What's transparency all about?

This Web site is a tool to help you get to know your state government. Its purpose is to show you how government works, what your taxes buy, and how purchasing decisions occur. Don't let all this spreadsheet overblowing you! A good place to start is the 2009-2010 budget. If you have questions about agency-specific information, contact that agency. If you have comments about or suggestions for additions to this site, email us at transparency@oregon.gov. More help is on its way.

Oregon Tax Expenditures

Introduction

Tax Expenditure Reports

Tax Expenditures Related to Economic Development

Introduction

Tax Expenditure Defined

The 1035 Budget Accountability Act defines a tax expenditure as:

any law of the Federal Government or of this state that exempts, in whole or in part, certain persons, income, property, or the income or property of the individual or the estate of an individual, including, but not limited to tax deductions, tax credits, tax exclusions, tax deferrals, tax reductions, tax exemptions, tax deferrals, preferential tax rates and tax credits.

The term "tax expenditure" derives from the parallel between these tax provisions and direct government expenditures. For example, a program to encourage businesses to purchase pollution abatement equipment could be structured with an incentive in the form of a tax credit or a direct payment by the state to businesses. Tax expenditures can be viewed as: (1) providing financial assistance to certain groups of taxpayers, (2) providing economic incentives that encourage specific taxpayer behavior, or (3) simplifying or reducing the costs of tax administration. While the third of these policy objectives eliminates inefficiencies within the tax code, the first two could be implemented with direct expenditures rather than "tax expenditures."

Tax Expenditure Reports

This biennial report, as required by the Governor's recommendation, will detail, in the Legislature's budget session, the provisions of Oregon tax laws that impact special treatment to a group of taxpayers, such as exclusions, credits, deductions, and exemptions. The report describes each provision and provides revenue loss estimates and evaluations of effectiveness. The report also includes summary tables that group the tax expenditures according to tax program and budget program/function.

Introduction

The purpose of Oregon's Education Service Districts is defined in Oregon law (Oregon Revised Statutes 333.334-333.338). Education Service Districts are created by Oregon's final legislative act each year. The purpose of the law is to create a system that has maintained but changed the responsibilities and names of Oregon's mid-level education service entity.

Throughout the history of Oregon's regional services system, local governance and state statutes concerning the mission of ESDs has remained somewhat constant. Education Service Districts assist school districts and the State of Oregon in achieving Oregon's education goals by providing equitable educational opportunities for all of Oregon's public school students.

Today, each ESD provides regional services to its component school districts, primarily in areas that the school districts alone would not be able to adequately and equitably provide. Examples would be high technology, systems and children with severe disabilities who qualify under the category of high cost but low incidence. These services are basically offered within four large categories: Special Needs Children, School Improvement, Technology and Administrative services.

Today, there are 19 ESDs serving Oregon's 36 counties.

ESD Revenues (Money coming in)

Funding Overview

Education service districts in Oregon are funded through multiple funding sources: property taxes, state and federal contracts and grants, state timber receipts, and the State School Fund (SSF).

ESD's General Fund funding comes from a set amount per K-12 student (Average Daily Membership weighted). This amount is made up of property taxes at a unique permanent tax rate. Other general fund sources are state timber tax receipts and the Oregon State School Funds (SSF).
