House Revenue Committee Members

TO WHOM IT MAY CONCERN

I am writing in support of HB 3397 - Charter School Funding Equity.

I am requesting the Legislators support HB 3397. We live in your district and our grandchild attends Cascade Heights Public Charter school. It is an outstanding school and it is an excellent experience for him. He gets lots of one on one assistance in the classroom and he has very high quality teachers who work very hard to help the children succeed.

It is important that Oregon public charter school children receive this funding to be able to continue to achieve this high quality education in the future.

Thank you for supporting HB 3397.

Sincerely,

Ann Swindler
