

Dear Representatives and guests. My name is Ansen Lackner.

I am 5 years old and I am in Kindergarten at the Arthur Academy Charter School in Woodburn Oregon.

I am a very good reader. At my school I go to the 1<sup>st</sup> grade class for reading group so I do not get bored in Kindergarten reading group.

I think at regular public school I would get bored. At regular public school you have to stay in your own class.

I know a lot of schools need more money right now.

I do not think giving them Arthur Academy's money is the answer to their problem.

It will only help them a little, and it will hurt us a lot.

I would like to invite the principals from other schools to come to my class with me for a day, so they can see that there is a new and better way.

Thank you very much for letting me read to you today.
