

Dear Revenue Committee Members,

My name is Hannah Morse, I am in 6th grade and I think that my Arthur Academy Education is immensely important.

At Arthur Academy, the teachers pay more attention to you. If you need help, they will help you individually with their undivided attention. If you need help with a lot of work, they will use their own time to help you after school. They appreciate you for who you are and what you do. If you get 100% on math homework, they will give you an A+ ticket. If you get 3 A+ tickets, you will get a homework coupon. These positive reinforcements have motivated me to grow and step up to new levels of advancement over the past 4 years.

Arthur Academy has made me a lot smarter in so many different ways, however I can't explain a few. When I came here, I had great grades, but I felt like I would have to work a lot harder than at most schools. I did have to work a lot harder, but it made me feel good. After a while, I was moving to higher groups. In 5th grade, I was moved up so far in math that I got bumped up to Pre-Algebra. I have had some Bs, but mostly As in Algebra. In reading, I'm in the highest group in my class. I am also in the highest group that I can go to in Spelling. I'm really good at comprehension and Reading and writing. Arthur Academy help you learn to work with each other and to realize the good things in life.
