No on HB 2110, HB 2231, HB2533, and HB 2385 Tobacco taxes are already too high

Taxes are already too high. The legislature should be looking for places to cut costs rather than raising taxes. This is particularly bad in bad economic times.

The tobacco taxes are highly regressive.

You are unlikely to get the revenues you are projecting. The tax base is already shrinking. Large increases in taxes will just accelerate that process.

Businesses will lose revenue from sales of non-tobacco items when smokers decide to purchase tobacco products out of state.

HB 2385, if passed, would cause real problems for the retailers. The retailers in the high tax counties would see sales drop significantly. It is easy to go across county lines to make purchases.

Please vote no on all of these bills.
