**Subject:** Ref: HB2351

This is my first time addressing an issue that effects our citizens, and like most citizens I think -whats the use-. We expect our leaders to make decision's on our behalf, and address issue's that have positive effects on our lives. When i see elected citizens about to consider a back door tax, (HB2351) and other issues that are detrimental to the lives and pocketbooks of us (-whats the use- citizens), it makes me angry, and disillusioned with our leadership.

Please vote no on HB2351.

I would like this put in a bill folder for public record

James Perkey
