

## Introduction

*On behalf of the Oregon Society of CPAs' Taxation Strategic Interest Team, it is with honor and pleasure we present to you  
An Analysis of Changes in Federal Tax Laws for the Years 2009 and 2010.*

### **Oregon Society of CPAs (OSCPA) Legislative Analysis**

This OSCPAs Legislative Analysis presents all Federal tax law changes that have been enacted since the Legislature adjourned from the previous session. Oregon has a long history of conforming to the Internal Revenue Code, but in doing so each Legislative Assembly analyzes the implications of Federal law changes that have been enacted since the last legislative session. Our committee has been presenting the Legislature with this analysis for many years. Our primary objective is to be a technical resource for the Legislature and, secondarily, to promote taxpayer compliance by striving to keep Oregon tax law tied to the Internal Revenue Code. This connection can either be accomplished by using "fixed date conformity" or a "permanent connection."

Oregon's "permanent connection" applies only to the definition of taxable income. Typically, we will recommend that Federal changes to provisions that fall outside the definition of taxable income also be changed to conform to the Internal Revenue Code. Some examples of the types of items requiring a law change are tax credits, estimated tax provisions and net operating loss rules.

For years beginning prior to January 1, 2011, Oregon is connected to federal law as of December 31, 2009. For years beginning on or after January 1, 2011, Oregon is permanently connected to the Internal Revenue Code. In past Legislative sessions, Oregon specifically disconnected from the following Federal taxable income provisions:

- 1) The domestic production activities deduction (otherwise known as the manufacturing or section 199 deduction).
- 2) The exclusion from income for Federal subsidies for prescription drugs.
- 3) Section 179 expensing is tied to Federal law as in effect on December 31, 2008. The maximum deduction for Oregon in 2010 is \$134,000 and phases out when assets placed in service exceed \$530,000.
- 4) Bonus depreciation and increased depreciation for passenger automobiles is not available for Oregon purposes.
- 5) Discharge of indebtedness: the election to spread Section 108 cancellation of debt income over a 5-year period is not available for Oregon taxpayers as Oregon is tied to Federal law as in effect on December 31, 2008.

## **AN ANALYSIS OF CHANGES RESULTING FROM THE :**

### SECTION A

*General Reconnect: Oregon automatically reconnects to the Federal change as long as the connection date is updated to December 31, 2010. Items with an asterisk (\*) are likely differences resulting from the current December 31, 2009, tie date. Oregon generally subscribes to the provisions being amended, and therefore, we do not recommend any change. No modification is necessary to tie to the Federal change.*

### SECTION B

*No ORS change necessary: No change is necessary to the ORS. This provision affects a credit, penalty or administrative rule which applies only to the federal tax system, does not apply to the determination of taxable income, or is automatically modified by provisions in the ORS. Oregon does not automatically adopt these provisions, however, no modification of ORS is necessary.*
