Subject: Re: Road funds and such (revision)

My husband and I, and most of the people we talk to, are against handing over any of our road funds to our local sheriff. In our opinion, Evinger should be removed from office. He obviously can't handle our tax monies. I agree with a former D.A. of Klamath County. This man should be ashamed of himself. His ignorance has put the people of Klamath County at great risk. Our local newspaper gave him a great deal of help in that respect. How totally stupid to pound away, every day, about the fact that our criminals are picked up and then released? Why bother to pick them up at all? Why pay officers to pick them up, then turn them loose? This is the kind of idiotic thinking that has gotten us into this mess. Our roads are in bad condition. Every penny in our road fund needs to be used for roads and for nothing else. This County is in deep trouble. In our opinion, we have the wrong people holding down our public offices. We need to start recalling these unqualified people. Our sheriff tops this list. Keep our road funds where they belong.
