Subject: Road funds and such

It looks to me like you don't read our Republican rag too well. I admit that if it is concerning anything the Obama Admn has accomplished, you will likely have to go to the sports section. I guess you didn't read that private hiring is on the rise? The Service Industries are expanding? And, we've had the biggest monthly gain since 2000? We are very angry that you are considering handing over our road funds to this Sheriff. We have huge potholes. Its a disgrace. If this Sheriff can't operate on his budget, we need to get someone that can. I live on Anderson Ave, and three times this summer, I sat at the stop sign at Summers Lane for a lengthy time, waiting for the long procession of Sheriff Toys to pass by. I remember a parade about two years ago, the procession of toys was magnificent. I had to ask other bystanders just what some of them were. I guess Rhinos and such. What a display. It was sure different this last parade. One police car in sight. Who on Gods green earth isn't on to that guy by now? Can't you do anything about stopping this continual news coverage of our poorly operated jail? Talk about aiding and abetting the crooks! What kind of thinking is this? About this biomass mess. You need to investigate Aqua Glass. At one time they were around 87 percent over the legal limit of pure styrene that they were pumping into our air. According to the E.P.A. man in Bend. Biomass? Forget it! Myrna and Charley Webb.
