Summary of Subcommittee Action

SB 254-B directs the Department of Education to administer a grant program to provide grants related to accelerated college credit programs. The grants may be awarded for:

- education or training to teachers who will provide or are providing instruction in accelerated college credit programs,
- assisting students in paying for non-examination expenses related to accelerated college credit programs, and
- providing classroom supplies for accelerated college credit programs.

The Accelerated College Credit Account is established in the State Treasury. Moneys within the Account are continuously appropriated to the Department of Education and interest earned is credited to the account. SB 254-B appropriates \$250,000 General Fund for grant awards.

This measure also directs each school district to provide an accelerated college credit program related to English, mathematics and science, and online access to the program to students in grades 9 through 12. The Joint Boards of Education are directed to develop statewide standards for dual credit programs to be implemented by public high schools, community colleges, and state institutions of higher education beginning in the 2013-14 school year. These institutions are directed to annually report on the academic performance of students in the dual credit program.
