

**REVENUE IMPACT OF  
PROPOSED LEGISLATION**  
Seventy-Sixth Oregon Legislative  
Assembly  
2011 Regular Session  
Legislative Revenue Office

Bill Number: HB 3654  
Revenue Area: General Taxation  
Economist: Christine Broniak  
Date: 5/18/11

**Measure Description:**

Modifies criteria for siting winery in exclusive farm use zone.

**Revenue Impact (in \$Millions):**

Indeterminate, See Below

**Impact Explanation:** The measure would allow wineries in mixed farm and forest use areas in addition to exclusive farm use areas. It would allow kitchen and dining facilities instead of a limited service restaurant and a tasting room. Insofar as the measure allows more activities at wineries, additional income and property tax will be collected. Additional wineries in areas of mixed farm and forest use could increase the value of properties and property tax collection revenues. The size of this impact is not known and depends on the number and size of new wineries established as part of this measure.

**Creates, Extends, or Expands Tax Expenditure:** Yes  No
