WHAT THE MEASURE DOES: Establishes new state House and Senate legislative districts (see attached data sheets and maps)

ISSUES DISCUSSED:

- Details of proposed House and Senate plans
- Public input process
- Utilization of independent commission in future
- Recognition of changes in minority populations in state
- Bipartisanship of redistricting work

EFFECT OF COMMITTEE AMENDMENT: No amendment.

BACKGROUND: According to the 2010 United States Census, the population of Oregon is 3,831,074. This is about a 12 percent increase from the 2000 Census. Every ten years, the Legislative Assembly must redraw legislative and congressional district lines based on new U.S. Census data. ORS 188.010 establishes criteria to guide the Legislative Assembly when redrawing district boundaries. According to this statute, each district, as nearly practicable, should: be contiguous; be of equal population; utilize existing geographic or political boundaries; not divide communities of common interest; and be connected by transportation links.

The criteria further state that: 1) no district shall be drawn for the purpose of favoring any political party, incumbent legislator, or other person; 2) no district shall be drawn for the purpose of diluting the voting strength of any language or ethnic minority group; and 3) two state House of Representative districts shall be wholly included within each single state senatorial district.

The deadline for completion of a legislative redistricting plan by the Legislative Assembly is June 30, 2011.
