

House Bill 2635

Sponsored by Representative ROBLAN (Pre-session filed.)

SUMMARY

The following summary is not prepared by the sponsors of the measure and is not a part of the body thereof subject to consideration by the Legislative Assembly. It is an editor's brief statement of the essential features of the measure **as introduced**.

Provides that person may not administer immunization against hepatitis B to child under 10 years of age unless person has provided parent or guardian with vaccine package insert containing information on risks of immunization and parent or guardian has consented in writing to immunization of child.

Declares emergency, effective on passage.

A BILL FOR AN ACT

Relating to immunization against hepatitis B; and declaring an emergency.

Be It Enacted by the People of the State of Oregon:

SECTION 1. A person may not administer an immunization against hepatitis B to a child who is under 10 years of age unless:

(1) The person has provided the parent or guardian of the child with a copy of the vaccine package insert that contains information on the side effects and negative reactions that may result from administration of the immunization to the child; and

(2) The parent or guardian of the child has consented in writing to the administration of the immunization to the child.

SECTION 2. This 2011 Act being necessary for the immediate preservation of the public peace, health and safety, an emergency is declared to exist, and this 2011 Act takes effect on its passage.

NOTE: Matter in **boldfaced** type in an amended section is new; matter [*italic and bracketed*] is existing law to be omitted. New sections are in **boldfaced** type.
