8 Laws 2009; and appropriating money.

9 Whereas almost 70 percent of inmates in Oregon prisons need treatment for drug and alcohol
10 problems; and

11 Whereas the number of Oregon eighth graders who have had an alcoholic drink in the past 30
12 days is nearly twice the national average; and

2 Whereas Oregon has an opportunity to dramatically improve the well-being of its entire popu-
3 lation through effective, comprehensive evidence-based alcohol and drug abuse prevention programs;
4 and

5 Whereas many prevention programs in the state do not follow best practices established through
6 scientifically sound randomized testing; and

7 Whereas the state lacks a clear long-term strategy for prevention and treatment backed by a
8 coordinated budgeting process; and

9 Whereas addiction is a chronic disease and must be treated with a continuum of care; and

10 Whereas alcohol and drug recovery services should be founded on evidence-based and tribal-
11 based practices that are administered with fidelity and also take into consideration the needs of
12 disparate populations; and

13 Whereas a recovery-oriented system of care must include physical and mental health as well as
14 addictions; and

15 Whereas policies must encourage collaboration across systems of care so that individuals and
16 their families receive services that are necessary to recovery; now, therefore,

43 plan and applications for funds to implement ORS 417.705 to 417.801 and 419A.170. The local com-
