11 “**SECTION 1.** ORS 414.018 is amended to read:

12 “414.018. **Legislative intent.** (1) It is the intention of the Legislative Assembly to achieve the
13 goals of universal access to an adequate level of high quality health care at an affordable cost.

14 “(2) The Legislative Assembly finds:

15 “(a) A significant level of public and private funds is expended each year for the provision of
16 health care to Oregonians;

17 “(b) The state has a strong interest in assisting Oregon businesses and individuals to obtain
18 reasonably available insurance or other coverage of the costs of necessary basic health care ser-
19 vices;

20 “(c) The lack of basic health care coverage is detrimental not only to the health of individuals
21 lacking coverage, but also to the public welfare and the state’s need to encourage employment
22 growth and economic development, and the lack results in substantial expenditures for emergency
23 and remedial health care for all purchasers of health care including the state; and

24 “[*(d) The use of managed health care systems has significant potential to reduce the growth of*
25 *health care costs incurred by the people of this state.*]

26 “**(d) The use of integrated and coordinated health care systems has significant potential**
27 **to reduce the growth of health care costs incurred by the people of this state.**

28 “**(3) The Legislative Assembly finds that achieving its goals of improving health, in-**
29 **creasing the quality, reliability, availability and continuity of care and reducing the cost of**
30 **care requires an integrated and coordinated health care system in which:**

31 “**(a) Medical assistance recipients, other than residents in long term care, and individuals**
32 **who are fully eligible for both Medicare and Medicaid participate.**

33 “**(b) Health care services, other than Medicaid-funded long term care services, are deliv-**
34 **ered through coordinated care contracts that use alternative payment methodologies to fo-**
35 **cus on prevention, improving health equity and reducing health disparities, utilizing patient**

1 centered primary care homes, evidence-based practices and health information technology
2 to improve health and health care.

3 “(c) High quality information is collected and used to measure health outcomes, health
4 care quality and costs and clinical health information.

5 “(d) Communities and regions are accountable for improving the health of their commu-
6 nities and regions, reducing avoidable health gaps among different cultural groups and
7 managing health care resources.

8 “(e) Care and services emphasize preventive services and services supporting individuals
9 to live independently at home or in their community.

10 “(f) Services are person centered, and provide choice, independence and dignity reflected
11 in individual plans and provide assistance in accessing care and services.

12 “(g) Interactions between the Oregon Health Authority and coordinated care organiza-
13 tions are done in a transparent and public manner.

14 “(h) Moneys provided by the federal government for medical education are allocated to
15 the institutions that provide the education.

16 “(4) The Legislative Assembly further finds that there is an extreme need for a skilled,
17 diverse workforce to meet the rapidly growing demand for community-based health care. To
18 meet that need, this state must:

19 “(a) Build on existing training programs; and

20 “(b) Provide an opportunity for frontline care providers to have a voice in their
21 workplace in order to effectively advocate for quality care.

22 “(5) As used in subsection (3) of this section:

23 “(a) ‘Community’ means the groups within the geographic area served by a coordinated
24 care organization and includes groups that identify themselves by age, ethnicity, race, eco-
25 nomic status, or other defining characteristic that may impact delivery of health care ser-
26 vices to the group, as well as the governing body of each county located wholly or partially
27 within the coordinated care organization’s service area.

28 “(b) ‘Region’ means the geographical boundaries of the area served by a coordinated care
29 organization as well as the governing body of each county that has jurisdiction over all or
30 part of the coordinated care organization’s service area.

31 “SECTION 2. ORS 414.620 is amended to read:

32 “414.620. **Establishment of Oregon Integrated and Coordinated Health Care Delivery Sys-**
33 **tem.** (1) There is established the Oregon **Integrated and Coordinated** Health Care [*Cost Contain-*
34 *ment*] **Delivery** System. The system shall consist of state policies and actions that [*encourage price*
35 *competition among health care providers, that monitor services and costs of the health care system in*
36 *Oregon, and that maintain the regulatory controls necessary to assure quality and affordable health*
37 *services to all Oregonians. The system shall also include contracts with providers on a prepaid*
38 *capitation basis for the provision of at least hospital or physician medical care, or both, to eligible*
39 *persons as described in ORS 414.025.] **make coordinated care organizations accountable for care**
40 **management and provision of integrated and coordinated health care for each organization’s**
41 **members, managed within fixed global budgets, by providing care so that efficiency and**
42 **quality improvements reduce medical cost inflation while supporting the development of re-**
43 **gional and community accountability for the health of the residents of each region and**
44 **community, and while maintaining regulatory controls necessary to ensure quality and af-**
45 **fordable health care for all Oregonians.***

1 “(2) The Oregon Health Authority shall seek input from groups and individuals who are
2 part of underserved communities, including ethnically diverse populations, geographically
3 isolated groups, seniors, people with disabilities and people using mental health services, and
4 shall also seek input from providers, coordinated care organizations and communities, in the
5 development of strategies that promote person centered care and encourage healthy behav-
6 iors, healthy lifestyles and prevention and wellness activities and promote the development
7 of patients’ skills in self-management and illness management.

8 “(3) The authority shall regularly report to the Oregon Health Policy Board, the Gover-
9 nor and the Legislative Assembly on the progress of payment reform and delivery system
10 change including:

11 “(a) The achievement of benchmarks;

12 “(b) Progress toward eliminating health disparities;

13 “(c) Results of evaluations;

14 “(d) Rules adopted;

15 “(e) Customer satisfaction;

16 “(f) Coordinated care organization models of care;

17 “(g) Use of patient centered primary care homes;

18 “(h) The involvement of local governments in governance and service delivery; and

19 “(i) Other developments with respect to coordinated care organizations.

20 “SECTION 3. Adding to ORS chapter 414. Sections 4 to 8, 10 to 15 and 17 of this 2011 Act
21 are added to and made a part of ORS chapter 414.

21 high health care needs, multiple chronic conditions, mental illness or chemical dependency

24 visits and hospital admissions.

25 “(13) Members have a choice of providers within the coordinated care organization’s

1 **“SECTION 5. Alternative payment methodologies. (1) The Oregon Health Authority shall**

13 **“(2) The authority shall encourage coordinated care organizations to utilize alternative**
