38 or for a renewal license cannot provide the annual gross dollar volume of sales and services for a
39 full calendar year, the department shall base the fee on estimated annual gross sales and services
40 by the establishment. If an establishment whose previous year’s fee was determined using an esti-

42 license year shall be adjusted to reflect the actual annual gross dollar volume of sales and services
43 by the establishment.

44 “**(7) Except as provided in this subsection, the department may not adopt a rule under**
45 **this section to establish a license fee that is more than three percent higher than the license**

3 notwithstanding the three percent limit the department may round the fee amount to the
4 next highest whole dollar amount. Fee schedules adopted under this section may not change
5 the amount of the same license fee more frequently than once each year.

6 **“SECTION 2.** (1) Notwithstanding the amendments to ORS 603.025 by section 1 of this

9 in effect until superseded by license fees established by State Department of Agriculture
10 rules.

11 **“(2)** The department shall adopt initial rules establishing license fees under ORS 603.025
12 to take effect no later than July 1, 2012. For the purpose of adopting initial rules establishing
13 license fees under ORS 603.025, the license fees authorized by ORS 603.025 as set forth in the

17 **“616.706.** (1) Except as otherwise provided in ORS 616.695 to 616.755, a person may not operate

29 With prior approval of the department, the location of a licensed food establishment, or any part
30 of a licensed food establishment, may be moved without the requirement of a new license if there
31 is no change in the ownership or business entity.

38 fee for the previous license year shall be adjusted to reflect the actual gross dollar volume of sales
39 of covered operations by the applicant.

40 “(8) Except as provided in this subsection, the department may not adopt a rule under
41 this section to establish a license fee that is more than three percent higher than the license

37 **“(10) Except as provided in this subsection, the department may not adopt a rule under**
38 **this section to establish a license fee that is more than three percent higher than the fee**
39 **charged during the preceding year for a milk sampler and grader, for a producer-distributor,**
40 **distributor or nonprocessing distributor having the same volume of gross sales and services**
41 **or for a producer having the same volume of gross sales. When adopting a rule establishing**

12 annual gross sales and services by the applicant. If an applicant whose previous year’s fee was de-

12 **“SECTION 19.** ORS 603.031 is amended to read:

13 **“603.031. (1) The State Department of Agriculture may issue licenses under this chapter to one**
14 **or more additional users of a custom processing establishment, custom slaughtering establishment,**
15 **meat seller establishment, nonslaughtering processing establishment or slaughterhouse that is li-**
16 **censed primarily for operation by another person. A license issued to an additional user of an es-**
17 **tablishment described in this subsection shall cover all operations at that establishment by the**
18 **person licensed. Regardless of the number of persons licensed to use an establishment described in**
19 **this subsection, the department may not recognize more than one person as the primary operator**
20 **of the establishment.**

21 **“(2) The department may assess a license fee to an additional user of an establishment described**
22 **in this section, calculated as provided in rules adopted under ORS 603.025. In calculating license**
23 **fees as provided under ORS 603.025, the establishment’s annual gross dollar volume of sales and**
24 **services for an additional user of the establishment is independent of the establishment’s annual**
25 **gross dollar volume of sales for any other user or the primary operator of the establishment.**

26 **“(3) Notwithstanding ORS 603.025, the department may adopt rules to establish the license ex-**
27 **piration, renewal and application dates for additional users of an establishment.**

28 **“(4) The department may adopt rules to determine the responsibilities of an establishment’s**

31 **“(5) A recognized primary operator of an establishment shall notify the department upon the**

33 **establishment. The renting or leasing of an establishment to a person licensed by the department**
34 **as an additional user of the establishment or the expiration or termination of use by a person li-**
35 **censed as an additional user of the establishment does not, by itself, constitute the transfer of a**
36 **business for purposes of ORS 603.027.**

37 **“SECTION 20. Notwithstanding the amendments to ORS 603.031 by section 19 of this 2011**
38 **Act, prior to July 1, 2012, if the State Department of Agriculture has not adopted rules es-**
39 **tablishing license fees under ORS 603.025 the department shall calculate the ORS 603.031 li-**
40 **cence fee as provided in ORS 603.025 as set forth in the 2009 Edition of Oregon Revised**
41 **Statutes.**

42 **“SECTION 21.** ORS 616.708 is amended to read:

43 **“616.708. (1) The State Department of Agriculture may issue licenses under ORS 616.695 to**
44 **616.755 to one or more additional users of a food establishment that is licensed primarily for oper-**
45 **ation by another person. A license issued to an additional user of the food establishment shall cover**

1 all operations at that establishment by the person licensed. Regardless of the number of persons li-
2 censed to use a food establishment, the department may not recognize more than one person as the
3 primary operator of the establishment.

4 “(2) The department may assess a license fee to an additional user of a food establishment, cal-
5 culated as provided in **rules adopted under** ORS 616.706. In calculating license fees **as provided**
6 under ORS 616.706, the gross sales for an additional user of the food establishment are independent
7 of the gross sales by any other user or the primary operator of the food establishment.

8 “(3) Notwithstanding ORS 616.706, the department may adopt rules to establish the license ex-
9 piration, renewal and application dates for additional users of a food establishment.

10 “(4) The department may adopt rules to determine the responsibilities of a food establishment’s
11 primary operator and additional users of the food establishment under ORS 616.700, 616.735 and
12 616.740.

13 “(5) A recognized primary operator of a food establishment shall notify the department upon the
14 expiration or termination of the rental or lease of the food establishment by an additional user of
15 the establishment. The renting or leasing of a food establishment to a person licensed by the de-
16 partment as an additional user of the establishment or the expiration or termination of use by a
17 person licensed as an additional user of the establishment does not, by itself, constitute the ceasing
18 or discontinuance of operations or business at the food establishment by the primary operator or
19 another additional user for purposes of ORS 616.706.

20 “(6) Subsections (1) to (5) of this section do not apply to a food establishment located in an area
21 that is part of a domestic kitchen.

22 “**SECTION 22. Notwithstanding the amendments to ORS 616.708 by section 21 of this 2011**

30 marily operated by another distributor or producer-distributor. A license issued to an additional
31 user for activities at the milk processing plant may differ in activity type and fluid milk grade from
32 the license issued to the primary operator of the plant. The physical facilities of the milk processing
33 plant must conform to the requirements for all activity types and milk grades for which the primary
34 operator and the additional users of the plant are licensed. Regardless of the number of persons li-
35 censed to use a milk processing plant, the department may not recognize more than one distributor
36 or producer-distributor as the primary operator of the plant.

37 “(2) The department may assess a distributor or producer-distributor license fee to an additional
38 user of a milk processing plant, calculated as provided in **rules adopted under** ORS 621.072. In
39 calculating license fees **as provided** under ORS 621.072, the annual gross dollar volume of sales and
40 services for an additional user of a milk processing plant is independent of the annual gross dollar
41 volume of sales and services for any other user or the primary operator of the plant.

42 “(3) Notwithstanding ORS 621.072, the department may adopt rules to establish the license ex-
43 piration, renewal and application dates for distributors or producer-distributors that are additional
44 users of a milk processing plant.

21 “603.200. Notwithstanding any other provision of law:

22 “(1) In the absence of a contract or other agreement providing otherwise, any processor who

38 **“SECTION 36.** ORS 603.025, as amended by section 1 of this 2011 Act, is amended to read:

39 “603.025. (1) A person may not sell, offer to sell or expose for sale meat products or engage in
40 any other activity described or identified in subsection (4) of this section without first obtaining and
41 maintaining a license for that activity from the State Department of Agriculture. All such licenses
42 shall expire on June 30 next following the date of issuance or on such date as may be specified by
43 department rule. Renewal applications must be postmarked before the expiration date to be timely.

44 “(2) Application for a license required by this section shall be made to the department on forms
45 prescribed by the department and shall contain any information the department deems necessary.

1 The license is personal and nontransferable, with a separate license required for each establishment
2 location. A new license is required each time there is a change in ownership, legal entity or estab-
3 lishment location.

4 “(3) In addition to other license requirements of this section, if an applicant for a license under
5 subsection (4)(c) of this section has an average weekly dollar value of meat animal purchases that
6 exceeds \$10,000, the applicant shall submit with the application a surety bond with one or more
7 corporate sureties authorized to do business in this state, or an irrevocable letter of credit issued
8 by an insured institution, as defined in ORS 706.008. The bond or letter of credit shall be in an
9 amount equal to twice the average daily value of meat animal purchases during the preceding cal-
10 endar year, or the amount of \$20,000, whichever amount is greater. The department shall prescribe
11 the form for the bond or letter of credit. A bond or letter of credit is subject to department approval
12 and must be conditioned upon faithful performance by the licensee of all obligations to the producers
13 of meat animals arising from the sale of meat animals by producers to the licensee.

14 “(4) Each of the following activities must be licensed, and the fee established by the department
15 paid with the license application:

16 “(a) Operation of a meat seller establishment. A license under this section allows only the meat
17 products preparation described in ORS 603.010 (8).

18 “(b) Operation of a nonslaughtering processing establishment. A license under this section al-
19 lows selling meat products at the same location without obtaining the license described in paragraph
20 (a) of this subsection.

21 “(c) Operation of a slaughterhouse. A license under this section allows selling meat products
22 at the same location without obtaining the license described in paragraph (a) of this subsection.

23 “(d) Operation of a custom slaughtering establishment or custom processing establishment. A
24 license under this section does not allow selling meat products without first obtaining and main-
25 taining the license described in paragraph (a) of this subsection.

26 “(e) Operation of a slaughterhouse, custom slaughtering establishment or custom processing es-
27 tablishment wherein only poultry or rabbits are slaughtered or prepared. A license under this sec-

29 described in paragraph (a) of this subsection.

30 “(5) The license required by this section shall be displayed at all times in a conspicuous manner
31 at the address shown on the license.

32 “(6) The department may adopt rules establishing license fee schedules for establishments li-
33 censed under this section. The department may determine the license fee for an establishment based
34 upon the annual gross dollar volume of sales and services by the applicant. In establishing the
35 amount of the license fee for an establishment, the State Department of Agriculture shall use the
36 annual gross dollar volume of sales and services by that establishment within Oregon during the
37 prior calendar year or, if the establishment maintains sales and service records on a fiscal basis, the
38 prior fiscal year. If the establishment applying for an original license or for a renewal license cannot
39 provide the annual gross dollar volume of sales and services for a full calendar year, the department
40 shall base the fee on estimated annual gross sales and services by the establishment. If an estab-
41 lishment whose previous year’s fee was determined using an estimated gross sales and services fig-
42 ure applies for renewal of that license, the fee for the previous license year shall be adjusted to
43 reflect the actual annual gross dollar volume of sales and services by the establishment.

44 “(7) *[Except as provided in this subsection, the department may not adopt a rule under this section*
45 *to establish a license fee that is more than three percent higher than the license fee charged during the*

1 preceding year for an establishment of the same type and having the same volume of gross sales and
2 services. When adopting a rule establishing a license fee, notwithstanding the three percent limit the
3 department may round the fee amount to the next highest whole dollar amount.] Fee schedules adopted
4 under this section may not change the amount of the same license fee more frequently than once
5 each year.

6 **“SECTION 37.** ORS 616.706, as amended by section 3 of this 2011 Act, is amended to read:

7 “616.706. (1) Except as otherwise provided in ORS 616.695 to 616.755, a person may not operate
8 a food establishment without first obtaining and thereafter maintaining a license under this section.
9 A person shall make an application for a license to the State Department of Agriculture on forms
10 prescribed by the department. Each license shall expire on June 30 next following the date of issu-
11 ance or on such date as may be specified by department rule.

12 “(2) The department may, subject to the applicable provisions of ORS chapter 183, suspend, re-
13 voke or refuse to issue a license if the licensee has violated any of the provisions of ORS 616.695
14 to 616.755 or rules adopted under ORS 616.695 to 616.755.

15 “(3) A license is personal to the applicant and may not be transferred. A new license is neces-
16 sary if the business entity of the licensee is changed, or if the membership of a partnership is
17 changed, irrespective of whether or not the business name is changed.

18 “(4) The license shall cover all operations of the person licensed, under one entity or ownership.
19 With prior approval of the department, the location of a licensed food establishment, or any part
20 of a licensed food establishment, may be moved without the requirement of a new license if there
21 is no change in the ownership or business entity.

22 “(5) The license shall be posted in a conspicuous place in the main office of the food establish-
23 ment. Duplicate copies of the license shall be conspicuously posted in branch offices, warehouses
24 and other places owned or operated by the licensee at locations other than the main office. A license
25 is automatically canceled if the food establishment ceases or discontinues operations or business.

26 “(6) The department may adopt rules establishing license fee schedules for a food establishment:

27 “(a) That is part of a domestic kitchen;

28 “(b) That is a retail food store;

29 “(c) That is a warehouse; or

30 “(d) That is other than part of a domestic kitchen, retail food store or warehouse.

31 “(7) The department may determine the license fee for a food establishment described in sub-
32 section (6)(b) to (d) of this section based upon the gross sales by the applicant. In establishing the
33 amount of a license fee based upon gross sales by an applicant, the department shall use the annual
34 gross dollar volume of sales of covered operations by that applicant within Oregon during the prior
35 calendar year or, if the applicant maintains sales records on a fiscal basis, the prior fiscal year. If
36 the applicant applying for an original license or for a renewal license cannot provide the annual
37 gross dollar volume of sales of covered operations for a full calendar year, the department shall base
38 the fee on estimated annual gross sales of covered operations by the applicant. If an applicant whose
39 previous year’s fee was determined using an estimated gross sales of covered operations figure ap-
40 plies for renewal of that license, the fee for the previous license year shall be adjusted to reflect the
41 actual gross dollar volume of sales of covered operations by the applicant.

42 “(8) *[Except as provided in this subsection, the department may not adopt a rule under this section*
43 *to establish a license fee that is more than three percent higher than the license fee charged during the*
44 *preceding year for a food establishment of the same type and having the same volume of gross sales.*
45 *When adopting a rule establishing a license fee, notwithstanding the three percent limit the department*

1 *may round the fee amount to the next highest whole dollar amount.] License fee schedules adopted*
2 *under this section may not change the amount of the same license fee more frequently than once*
3 *each year.*

4 “**SECTION 38.** ORS 619.031, as amended by section 5 of this 2011 Act, is amended to read:

5 “619.031. (1) A person may not operate an animal food slaughtering establishment or processing
6 establishment without first obtaining a license for the establishment from the State Department of
7 Agriculture.

8 “(2) The department may adopt rules establishing license fee schedules for establishments li-
9 censed under this section. The department may determine the license fee for an establishment based
10 upon the annual gross dollar volume of sales and services by the applicant. In establishing the
11 amount of the license fee for an applicant, the department shall use the annual gross dollar volume
12 of sales and services by that applicant within Oregon during the prior calendar year or, if the ap-
13 plicant maintains sales and service records on a fiscal basis, the prior fiscal year. If the applicant
14 applying for an original license or for a renewal license cannot provide the annual gross dollar
15 volume of sales and services for a full calendar year, the department shall base the fee on estimated
16 annual gross sales and services by the applicant. If an applicant whose previous year’s fee was de-
17 termined using an estimated gross sales and services figure applies for renewal of that license, the
18 fee for the previous license year shall be adjusted to reflect the actual gross dollar volume of sales
19 and services by the applicant. The license shall expire on June 30 next following the date of issu-
20 ance or on such date as may be specified by department rule.

21 “(3) *[Except as provided in this subsection, the department may not adopt a rule to establish a li-*
22 *cence fee that is more than three percent higher than the license fee charged during the preceding year*
23 *for an establishment of the same type and having the same volume of gross sales and services. When*
24 *adopting a rule establishing a license fee, notwithstanding the three percent limit the department may*
25 *round the fee amount to the next highest whole dollar amount.] Fee schedules adopted under this*
26 *section may not change the amount of the same license fee more frequently than once each year.*

27 “(4) The provisions of ORS 603.025 (2) and (5), 603.034 (1) and (2), 603.045 (7) and 603.075 shall
28 apply to animal food slaughtering establishments or processing establishments. Except as provided
29 in this subsection, the remainder of the provisions of ORS chapter 603 do not apply to such estab-
30 lishments.

31 “(5) Notwithstanding subsection (1) of this section, a person licensed by the department under
32 ORS chapter 603 to slaughter meat animals and subject to federal meat inspection, or a person li-
33 censed by the department under ORS chapter 603 to slaughter only poultry and rabbits and subject
34 to federal poultry inspection, or a person licensed by the department under ORS chapter 603 as a
35 nonslaughtering processor may, without being required to obtain an additional license, also sell or
36 dispose of meat products as animal food provided that such licensees also comply with the provisions
37 of subsection (6) of this section, ORS 619.010 to 619.026 and 619.036 to 619.066.

38 “(6) In accordance with the provisions of ORS chapter 183, the department may promulgate rules
39 necessary to carry out and enforce any procedures or measures to protect the health of the animals
40 that are fed or intended to be fed the meat products sold or disposed of by animal food slaughtering
41 establishments or processing establishments, and to protect the health of other animals in this state.
42 In addition to the provisions of ORS 619.046, for the purposes of this section the department shall
43 take into consideration:

44 “(a) The provisions of ORS chapter 596.

45 “(b) The procedures necessary to ensure that meat products that are only fit for or destined for

1 animal consumption are not sold for human consumption.

2 “(7) A person licensed as provided by this section:

3 “(a) May not sell, hold or offer for sale any carcass of a meat animal or part thereof that is unfit
4 for or unwholesome as animal food.

5 “(b) May not sell, hold or offer for sale a carcass of a meat animal or part thereof for human
6 consumption.

7 “(c) Shall keep complete and accurate records of the meat animals purchased for slaughter, in-
8 cluding but not limited to their description, brands if any, date of purchase and the name and ad-
9 dress of the person from whom the animals were purchased.

10 “(d) Shall keep complete and accurate records of the sale of all meat animal carcasses or parts
11 of meat animal carcasses, including the name and address of the purchaser.

12 “(e) Shall comply with the provisions of ORS 619.026.

13 “**SECTION 39.** ORS 621.072, as amended by section 7 of this 2011 Act, is amended to read:

14 “621.072. (1) The State Department of Agriculture shall issue a license to use a grade desig-

16 “(a) Makes written application for a license on forms provided by the department;

17 “(b) Pays the designated license fee;

18 “(c) Is engaged in the business of producing or distributing fluid milk; and

19 “(d) Meets the requirements of the particular grade designation for which application is made.

20 “(2) If a person carries on the activities of a producer and a producer-distributor, the person
21 must obtain a separate license for each of those activities. If a producer-distributor manufactures
22 products from both grade A fluid milk and grade B fluid milk at the same premises, the producer-
23 distributor must obtain separate licenses for grade A product manufacturing activity and grade B
24 product manufacturing activity.

25 “(3) Licenses issued under this section shall be personal and not transferable.

26 “(4) Each milk hauler, milk receiver or other person who grades fluid milk as fit or unfit for
27 processing as fluid milk due to quality, odor, flavor or wholesomeness must first obtain a license
28 from the department authorizing that person to sample and grade fluid milk. Each applicant for a
29 milk sampler’s and grader’s license shall, by written examination, demonstrate an adequate knowl-
30 edge of milk sanitation as it relates to the sampling, grading and handling of fluid milk and cream
31 for analysis. The department shall give examinations for licenses at such times and places as ap-
32 pears to be necessary and practicable.

33 “(5) Before and after issuing a license to a person as a producer, producer-distributor, distribu-
34 tor or nonprocessing distributor of fluid milk, the department shall, as it deems necessary, inspect
35 the physical facilities of the applicant’s dairy, milk processing plant or distribution center and in-
36 vestigate other factors the department determines may relate to the production, processing or dis-
37 tribution of fluid milk. The physical facilities must conform to the production, processing or
38 distribution requirements for the fluid milk grade designation sought or held.

39 “(6) Each license issued under this section expires on June 30 next following the date of its is-
40 suance unless sooner revoked and may be renewed upon application of the licensee. Each applica-

42 “(7) The department may adopt rules establishing license fee schedules for:

43 “(a) Milk samplers and graders;

44 “(b) Producer-distributors, distributors and nonprocessing distributors; and

45 “(c) Producers.

1 “(8) The department may determine the license fee for a producer-distributor, distributor or
2 nonprocessing distributor based upon the annual gross dollar volume of sales and services by the
3 applicant. In establishing the amount of the license fee for an applicant under this subsection, the
4 department shall use the annual gross dollar volume of sales and services by that applicant within
5 Oregon during the prior calendar year or, if the applicant maintains sales and service records on
6 a fiscal basis, the prior fiscal year. If the applicant applying for an original license or for a renewal
7 license cannot provide the annual gross dollar volume of sales and services for a full calendar year,
8 the department shall base the fee on estimated annual gross sales and services by the applicant. If
9 an applicant whose previous year’s fee was determined using an estimated gross sales and services
10 figure applies for renewal of that license, the fee for the previous license year shall be adjusted to
11 reflect the actual gross dollar volume of sales and services by the applicant.

12 “(9) The department may determine the license fee for a producer based upon the annual gross
13 sales by the applicant. In establishing the amount of the license fee for an applicant under this
14 subsection, the department shall use the annual gross sales by that applicant within Oregon during
15 the prior calendar year or, if the applicant maintains sales records on a fiscal basis, the prior fiscal
16 year. If the applicant applying for an original license or for a renewal license cannot provide the
17 annual gross sales for a full calendar year, the department shall base the fee on estimated annual
18 gross sales by the applicant. If an applicant whose previous year’s fee was determined using an es-
19 timated gross sales figure applies for renewal of that license, the fee for the previous license year
20 shall be adjusted to reflect the actual gross sales by the applicant.

21 “(10) *[Except as provided in this subsection, the department may not adopt a rule under this section*
22 *to establish a license fee that is more than three percent higher than the fee charged during the pre-*
23 *ceding year for a milk sampler and grader, for a producer-distributor, distributor or nonprocessing*
24 *distributor having the same volume of gross sales and services or for a producer having the same*
25 *volume of gross sales. When adopting a rule establishing a license fee, notwithstanding the three per-*
26 *cent limit the department may round the fee amount to the next highest whole dollar amount.] Fee*
27 *schedules adopted under this section may not change the amount of the same license fee more fre-*
28 *quently than once each year.*

29 “(11) A distributor or producer-distributor must obtain a license and pay license fees for each
30 physical facility used to produce, process or distribute fluid milk. A person is not required to obtain
31 a distributor or producer-distributor license to act as a milk hauler or to operate receiving or
32 transfer stations in conjunction with a milk processing plant.

33 “(12) The department may refuse to issue or renew, or may suspend or revoke, a license for any
34 violation of this section or ORS 621.062, 621.070, 621.076, 621.084, 621.088, 621.117, 621.122 or 621.259
35 or processes or standards established under ORS 621.060 or 621.083.

36 “**SECTION 40.** ORS 621.166, as amended by section 9 of this 2011 Act, is amended to read:

37 “621.166. (1) As used in this section, ‘mobile milk tanker’ means a tank or other receptacle that
38 attaches to a bulk tank truck or other equipment and is used to transport fluid milk, milk or milk
39 products.

40 “(2) Application for a dairy products plant license shall be made to the State Department of
41 Agriculture on forms provided by the department. Each license and each annual renewal shall expire
42 on June 30 next following its issuance or on such date as may be specified by department rule. Dairy
43 products plant licenses are personal and are not transferable.

44 “(3) Each dairy products plant shall submit a separate fee established by the department for
45 each mobile milk tanker. The fee does not apply to a mobile milk tanker owned and operated by a

1 dairy products plant while transporting dairy products from the dairy products plant to wholesale
2 or retail outlets for those products.

3 “(4) The department may adopt rules establishing license fee schedules for:

4 “(a) Mobile milk tankers; and

5 “(b) Dairy products plants.

6 “(5) The department may determine the license fee for a dairy products plant based upon the
7 annual gross dollar volume of sales and services by the applicant. In establishing the amount of the
8 license fee for an applicant, the department shall use the annual gross dollar volume of sales and
9 services by that applicant within Oregon during the prior calendar year or, if the applicant main-
10 tains sales and service records on a fiscal basis, the prior fiscal year. If the applicant applying for
11 an original license or for a renewal license cannot provide the annual gross dollar volume of sales
12 or services for a full calendar year, the department shall base the fee on estimated annual gross
13 sales and services by the applicant. If an applicant whose previous year’s fee was determined using
14 an estimated gross sales and services figure applies for renewal of that license, the fee for the pre-
15 vious license year shall be adjusted to reflect the actual gross dollar volume of sales and services
16 by the applicant.

17 “(6) *[Except as provided in this subsection, the department may not adopt a rule under this section*
18 *to establish a license fee that is more than three percent higher than the fee charged during the pre-*
19 *ceding year for an equivalent mobile milk tanker or for a dairy products plant having the same volume*
20 *of gross sales and services. When adopting a rule establishing a license fee, notwithstanding the three*
21 *percent limit the department may round the fee amount to the next highest whole dollar amount.]* Fee
22 schedules adopted under this section may not change the amount of the same license fee more fre-
23 quently than once each year.

24 “**SECTION 41.** ORS 625.180, as amended by section 11 of this 2011 Act, is amended to read:

28 “(a) A bakery distributor;

29 “(b) A domestic kitchen bakery; or

30 “(c) A bakery other than a domestic kitchen bakery.

31 “(3) The department may determine the license fee for a bakery or bakery distributor based upon
32 the annual gross sales by the applicant. In establishing the amount of the license fee for a bakery
33 or bakery distributor, the department shall use the annual gross sales by that bakery or distributor
34 within Oregon during the prior calendar year or, if the bakery or distributor maintains sales records
35 on a fiscal basis, the prior fiscal year. If the bakery or distributor applying for an original license
36 or for a renewal license cannot provide the annual gross sales for a full calendar year, the depart-
37 ment shall base the fee on estimated annual gross sales by the bakery or distributor. If a bakery
38 or distributor whose previous year’s fee was determined using an estimated gross sales figure applies
39 for renewal of that license, the fee for the previous license year shall be adjusted to reflect the ac-
40 tual gross sales by the bakery or distributor.

41 “(4) *[Except as provided in this subsection, the department may not adopt a rule under this section*
42 *to establish a license fee that is more than three percent higher than the license fee charged during the*
43 *preceding year for a bakery distributor having the same volume of gross sales or for a bakery of the*
44 *same type and having the same volume of gross sales. When adopting a rule establishing a license fee,*
45 *notwithstanding the three percent limit the department may round the fee amount to the next highest*

1 whole dollar amount.] Fee schedules adopted under this section may not change the amount of the
2 same license fee more frequently than once each year.

3 “**SECTION 42.** ORS 628.240, as amended by section 13 of this 2011 Act, is amended to read:

5 State Department of Agriculture. The department may adopt rules establishing a license fee for a
6 refrigerated locker plant. *[Except as provided in this subsection, the department may not adopt a rule*
7 *under this section to establish a license fee that is more than three percent higher than the fee charged*
8 *during the preceding year. When adopting a rule establishing a license fee, notwithstanding the three*
9 *percent limit the department may round the fee amount to the next highest whole dollar amount.]* The
10 department may not change the amount of the refrigerated locker plant license fee more frequently

28 beverage manufacturer shall apply to the State Department of Agriculture for a license for each
29 plant operated by such person. The application shall be in such form and contain such information
30 as the department may prescribe.

31 “(2) The department may adopt rules establishing license fee schedules for nonalcoholic
32 beverage manufacturers. The department may determine the license fee for a manufacturer based

34 a manufacturer, the department shall use the annual gross sales by that manufacturer within Oregon
35 during the prior calendar year or, if the manufacturer maintains sales records on a fiscal basis, the
36 prior fiscal year. If the manufacturer applying for an original license or for a renewal license cannot
37 provide the annual gross sales for a full calendar year, the department shall base the fee on esti-
