24 (2) If the **Oregon Department of Natural Resources** receives applications for designation of  
25 land as riparian in excess of the maximum established under subsection (1) of this section, prefer-

40        **SECTION 75.** ORS 496.128 is amended to read:

1 (2) The reports required by subsection (1) of this section shall be in such form and contain such

 3 the Governor and the Legislative Assembly may require. Such reports shall include all new or  
 4 amended rules, policies or procedures adopted by the commission **that pertain to wildlife or**  
 5 **commercial fishing** and shall include a summary of significant consultation activity under ORS  
 6 496.164.

7 **SECTION 76.** ORS 496.138 is amended to read:

8 496.138. (1) Consistent with the policy of ORS 496.012, the [*State Fish and Wildlife Commission*]  
 9 **Oregon Natural Resources Commission** shall implement the policies and programs of this state  
 10 for the management of wildlife. These policies and programs shall consider the uses of public and  
 11 private lands and utilize voluntary partnerships with private and public landowners to protect and  
 12 enhance wildlife habitat and effectively manage wildlife. In addition, the commission shall perform  
 13 any other duty vested in it by law.

14 (2) In accordance with the applicable provisions of ORS chapter 183, the commission shall adopt  
 15 such rules and standards as it considers necessary and proper to implement the policy and objec-  
 16 tives of ORS 496.012 and perform the functions vested by law in the commission.

17 (3) Except as provided in ORS 183.335 (5), the commission shall cause a public hearing to be held  
 18 on any proposed rule or standard prior to its adoption. The hearing may be before the commission,  
 19 any designated member thereof or any person designated by and acting for the commission.

20 (4) Before submitting budget requests or information to the Governor pursuant to ORS 291.201  
 21 to 291.222, the commission shall hold a public hearing on proposals for planned expenditures and  
 22 enhancement packages that the commission intends to recommend to the Governor for inclusion in  
 23 the Governor's budget.

24 **SECTION 77.** ORS 496.141 is amended to read:

25 496.141. On or before February 1 of each odd-numbered year, the [*State Department of Fish and*  
 26 *Wildlife*] **Oregon Department of Natural Resources** shall provide to the Joint Committee on Ways  
 27 and Means a complete annual report regarding activities initiated by the department in regard to  
 28 the fish screening program. The report shall include a complete budget analysis of all costs, in-  
 29 cluding in-kind costs associated with the program, the number of screening or by-pass devices in-  
 30 stalled and the size of the diversions on which such devices were installed. The budget analysis shall  
 31 identify all costs associated with the construction and installation of screening or by-pass devices,  
 32 administrative costs and research and development costs associated with the program.

33 **SECTION 78.** ORS 496.146 is amended to read:

34 496.146. In addition to any other duties or powers provided by law, the [*State Fish and Wildlife*  
 35 *Commission*] **Oregon Natural Resources Commission**:

36 (1) May accept, from whatever source, appropriations, gifts or grants of money or other property  
 37 for the purposes of wildlife management, and use such money or property for wildlife management  
 38 purposes.

39 (2) May sell or exchange property owned by [*the*] **this** state and used for wildlife management  
 40 purposes when the commission determines that such sale or exchange would be advantageous to the  
 41 state wildlife policy and management programs.

42 (3) May acquire, introduce, propagate and stock wildlife species in such manner as the com-  
 43 mission determines will carry out the state wildlife policy and management programs.

44 (4) May by rule authorize the issuance of such licenses, tags and permits for angling, taking,  
 45 hunting and trapping and may prescribe such tagging and sealing procedures as the commission

1 determines necessary to carry out the provisions of the wildlife laws or to obtain information for  
2 use in wildlife management. Permits issued pursuant to this subsection may include special hunting  
3 permits for a person and immediate family members of the person to hunt on land owned by that  
4 person in areas where permits for deer or elk are limited by quota. As used in this subsection,  
5 “immediate family members” means husband, wife, father, mother, brothers, sisters, sons, daughters,  
6 stepchildren and grandchildren. A landowner who is qualified to receive landowner preference tags  
7 from the commission may request two additional tags for providing public access and two additional  
8 tags for wildlife habitat programs. This request shall be made to the Access and Habitat Board with  
9 supporting evidence that the access is significant and the habitat programs benefit wildlife. The  
10 board may recommend that the commission grant the request. When a landowner is qualified under  
11 landowner preference rules adopted by the commission and receives a controlled hunt tag for that  
12 unit or a landowner preference tag for the landowner’s property and does not use the tag during the  
13 regular season, the landowner may use that tag to take an antlerless animal, when approved by the  
14 [*State Department of Fish and Wildlife*] **Oregon Department of Natural Resources**, to alleviate  
15 damage that is presently occurring to the landowner’s property.

16 (5) May by rule prescribe procedures requiring the holder of any license, tag or permit issued  
17 pursuant to the wildlife laws to keep records and make reports concerning the time, manner and  
18 place of taking wildlife, the quantities taken and such other information as the commission deter-  
19 mines necessary for proper enforcement of the wildlife laws or to obtain information for use in  
20 wildlife management.

21 (6) May establish special hunting and angling areas or seasons in which only persons less than  
22 18 years of age or over 65 years of age are permitted to hunt or angle.

23 (7) May acquire by purchase, lease, agreement or gift real property and all appropriate interests  
24 therein for wildlife management and wildlife-oriented recreation purposes.

25 (8) May acquire by purchase, lease, agreement, gift, exercise of eminent domain or otherwise  
26 real property and all interests therein and establish, operate and maintain thereon public hunting  
27 areas.

28 (9) May establish and develop wildlife refuge and management areas and prescribe rules gov-  
29 erning the use of such areas and the use of wildlife refuge and management areas established and  
30 developed pursuant to any other provision of law.

31 (10) May by rule prescribe fees for licenses, tags, permits and applications issued or required  
32 pursuant to the wildlife laws, and user charges for angling, hunting or other recreational uses of  
33 lands owned or managed by the commission, unless such fees or user charges are otherwise pre-  
34 scribed by law. Except for licenses issued pursuant to subsection (14) of this section, no fee or user  
35 charge prescribed by the commission pursuant to this subsection shall exceed \$100.

36 (11) May enter into contracts with any person or governmental agency for the development and  
37 encouragement of wildlife research and management programs and projects.

38 (12) May perform such acts as may be necessary for the establishment and implementation of  
39 cooperative wildlife management programs with agencies of the federal government.

40 (13) May offer and pay rewards for the arrest and conviction of any person who has violated  
41 any of the wildlife laws. No such reward shall exceed \$100 for any one arrest and conviction.

42 (14) May by rule prescribe fees for falconry licenses issued pursuant to the wildlife laws, unless  
43 such fees are otherwise prescribed by law. Fees prescribed by the commission pursuant to this sub-  
44 section shall be based on actual or projected costs of administering falconry regulations and shall  
45 not exceed \$250.

1 (15) May establish special fishing and hunting seasons and bag limits applicable only to persons  
2 with disabilities.

3 (16) May adopt optimum populations for deer and elk consistent with ORS 496.012. These popu-  
4 lation levels shall be reviewed at least once every five years.

5 (17) Shall establish a preference system so that individuals who are unsuccessful in controlled  
6 hunt permit drawings for deer and elk hunting have reasonable assurance of success in those  
7 drawings in subsequent years. In establishing the preference system, the commission shall consider  
8 giving additional preference points to persons who have been issued a resident pioneer hunting li-  
9 cense pursuant to ORS 497.102.

10 (18) May sell advertising in [*State Department of Fish and Wildlife*] **Oregon Department of**  
11 **Natural Resources** publications, including annual hunting and angling regulation publications.

12 (19) May, notwithstanding the fees required by ORS 497.112, provide free hunting tags to an  
13 organization that sponsors hunting trips for terminally ill children.

14 (20) Shall, after consultation with the State Department of Agriculture, adopt rules prohibiting  
15 the use of the World Wide Web, other Internet protocols or broadcast or closed circuit media to  
16 remotely control a weapon for the purpose of hunting any game bird, wildlife, game mammal or  
17 other mammal. The rules may exempt the [*State Department of Fish and Wildlife*] **Oregon Depart-**  
18 **ment of Natural Resources** or agents of the department from the prohibition.

19 (21) May adopt rules establishing a schedule of civil penalties, not to exceed \$6,500 per vio-  
20 lation, for violations of provisions of the wildlife laws or rules adopted by the commission under the  
21 wildlife laws. Civil penalties established under this subsection must be imposed in the manner pro-  
22 vided by ORS 183.745 and must be deposited in the [*State Wildlife Fund established under ORS*  
23 *496.300.*] **Oregon Natural Resources Fund. Moneys deposited in the fund under this subsection**  
24 **are continuously appropriated to the Oregon Department of Natural Resources for the pur-**  
25 **pose of carrying out the duties, functions and powers of the department as prescribed by**  
26 **sections 1 (1) and (2) and 5 (1)(a) and (b) of this 2011 Act.**

27 **SECTION 79.** ORS 496.151 is amended to read:

28 496.151. Notwithstanding any other provision of the wildlife laws, the [*State Fish and Wildlife*  
29 *Commission*] **Oregon Natural Resources Commission** by rule shall establish a system for allocat-  
30 ing hunting permits that are limited by maximum number for the taking of deer and elk by nonres-  
31 ident hunters so that a number equal to one-half of the number of those permits issued to  
32 nonresident hunters in the previous year are made available to the holders of registrations issued  
33 pursuant to ORS chapter 704, and who are certified pursuant to ORS 704.060, for the use of the  
34 clients of those registration holders. Such a system shall include but not be limited to:

35 (1) Provisions to prevent misuse of the permits by the registrant or by employees of the regis-  
36 trant.

37 (2) Provisions for revocation and refusal to issue all or any portion of the permits based upon  
38 a commission finding of an emergency situation or biological needs.

39 **SECTION 80.** ORS 496.154 is amended to read:

40 496.154. (1) The [*State Fish and Wildlife Commission shall*] **Oregon Natural Resources Com-**  
41 **mission may** not commence any proceeding to exercise the power of eminent domain to acquire any  
42 real property, or interest therein, that was devoted to farm use on January 1, 1974, unless the  
43 commission first obtains approval therefor from the Joint Committee on Ways and Means, or from  
44 the Emergency Board if the Legislative Assembly is not then in session. Upon a change in the use  
45 of such land from farm use, the commission may acquire such property, and interests therein, by

1 exercise of the power of eminent domain without first obtaining legislative approval therefor. As  
 2 used in this section, “farm use” has the meaning for that term provided in ORS 215.203.

3 (2) The commission [shall] **may** not commence any proceeding as provided in subsection (1) of  
 4 this section unless the commission has obtained approval of its intended use of such property from  
 5 the local governmental agencies having land use planning authority over such lands.

6 **SECTION 81.** ORS 496.156 is amended to read:

7 496.156. (1)(a) In carrying out duties, functions and powers regarding the propagation of  
 8 anadromous fish prescribed in the wildlife laws and the commercial fishing laws, the [*State Fish and*  
 9 *Wildlife Commission*] **Oregon Natural Resources Commission** shall give high priority to expen-  
 10 ditures for propagation assistance by means of transportation of upstream and downstream migrants  
 11 in those areas where dams and other such obstacles present a passage problem to juvenile or adult  
 12 salmon.

13 [(2)] (b) For the purposes of this [section] **subsection**, “transportation” means any method of  
 14 helping anadromous fish to pass dams and other obstacles so as to reduce the mortality associated  
 15 with passage.

16 [(3)] (2) Nothing in subsection (1) of this section prevents the cooperation of the commission  
 17 with the federal government in programs financed pursuant to ORS 506.405.

18 **SECTION 82.** ORS 496.162 is amended to read:

19 496.162. (1) After investigation of the supply and condition of wildlife, the [*State Fish and*  
 20 *Wildlife Commission*] **Oregon Natural Resources Commission**, at appropriate times each year,  
 21 shall by rule:

22 (a) Prescribe the times, places and manner in which wildlife may be taken by angling, hunting,  
 23 trapping or other method and the amounts of each of those wildlife species that may be taken and  
 24 possessed.

25 (b) Prescribe such other restrictions or procedures regarding the angling, taking, hunting, trap-  
 26 ping or possessing of wildlife as the commission determines will carry out the provisions of wildlife  
 27 laws.

28 (2) In carrying out the provisions of subsection (1) of this section, the power of the commission  
 29 includes, but is not limited to:

30 (a) Prescribing the amount of each wildlife species that may be taken and possessed in terms  
 31 of sex, size and other physical characteristics.

32 (b) Prescribing such regular and special time periods and areas closed to the angling, taking,  
 33 hunting and trapping of any wildlife species when the commission determines such action is neces-  
 34 sary to protect the supply of such wildlife.

35 (c) Prescribing regular and special time periods and areas open to the angling, taking, hunting  
 36 and trapping of any wildlife species, and establishing procedures for regulating the number of per-  
 37 sons eligible to participate in such angling, taking, hunting or trapping, when the commission de-  
 38 termines such action is necessary to maintain properly the supply of wildlife, alleviate damage to  
 39 other resources, or to provide a safe and orderly recreational opportunity.

40 (3) Notwithstanding subsections (1) and (2) of this section, except as provided in ORS 498.146  
 41 or during those times and at those places prescribed by the commission for the hunting of elk, the  
 42 commission shall not prescribe limitations on the times, places or amounts for the taking of  
 43 predatory animals. As used in this subsection, “predatory animal” has the meaning [*for*] **given** that  
 44 term provided in ORS 610.002.

45 (4) In carrying out the provisions of this section, before prescribing the numbers of deer and elk

1 to be taken, the commission shall consider:

2 (a) The supply and condition of deer and elk herds;

3 (b) The availability of forage for deer, elk and domestic livestock on public and private range  
4 and forest lands;

5 (c) The recreational opportunities derived from deer and elk populations; and

6 (d) The effects of deer and elk herds on public and private range and forest lands.

7 **SECTION 83.** ORS 496.164 is amended to read:

8 496.164. The [*State Fish and Wildlife Commission and the State Department of Fish and*  
9 *Wildlife*] **Oregon Department of Natural Resources and the Oregon Natural Resources Com-**  
10 **mission** may advise, consult and cooperate with other agencies of this state and political subdivi-  
11 sions, other states or the federal government and private landowners with respect to fish and  
12 wildlife management. The [*commission and the*] department **and the commission** shall provide such  
13 information, recommendations or advice in writing if requested by another state or federal agency  
14 to do so. Technical advice and information shall be based on the best available scientific informa-  
15 tion. Policy or implementation recommendations provided in administrative rulemaking proceedings  
16 shall be based on consideration of all the goals of wildlife management in ORS 496.012, in addition  
17 to applicable scientific information. State agencies, boards or commissions receiving policy or im-  
18 plementation recommendations shall consider such recommendations in the context of their respec-  
19 tive statutory responsibilities, and shall take into account the extent to which such  
20 recommendations are substantiated with the best available scientific information and based on con-  
21 sideration of all of the goals of wildlife management in ORS 496.012.

22 **SECTION 84.** ORS 496.166 is amended to read:

23 496.166. The Legislative Assembly finds, in the interest of all Oregonians, a necessity to improve  
24 Oregon's resource access and wildlife habitat through the further involvement of its [*citizens*] **resi-**  
25 **dents**, through voluntary partnership between the [*State Department of Fish and Wildlife*] **Oregon**  
26 **Department of Natural Resources** and landowners to manage wildlife on private lands and  
27 through support by additional financial revenues.

28 **SECTION 85.** ORS 496.172 is amended to read:

29 496.172. In carrying out the provisions of the wildlife laws with regard to the management of  
30 wildlife that is a threatened species or an endangered species, the [*State Fish and Wildlife Commis-*  
31 *sion*] **Oregon Natural Resources Commission:**

32 (1) Shall conduct investigations of wildlife species native to this state and shall determine  
33 whether any such species is a threatened species or an endangered species.

34 (2) By rule, shall establish and publish, and from time to time may revise, a list of wildlife spe-  
35 cies that are threatened species or endangered species. Listed threatened species or endangered  
36 species shall be protected as provided in ORS 496.182.

37 (3) Shall work cooperatively with state agencies that have land management authority or regu-  
38 latory authority to determine their roles within their statutory obligations in the conservation of  
39 endangered species, as described in ORS 496.182 (8).

40 (4) By rule, shall establish a system of permits for scientific taking of threatened species and  
41 endangered species and shall establish a system of state permits for incidental taking of state-  
42 designated threatened species and endangered species not listed by the federal government under  
43 such terms and conditions as the commission determines will minimize the impact on the species  
44 taken. An incidental taking permit or statement issued by a federal agency for a species listed under  
45 the federal Endangered Species Act of 1973 (P.L. 93-205, 16 U.S.C. 1531), as amended, shall be re-

1 cognized by the state as a waiver of any state protection measures or requirements otherwise ap-  
2 plicable to the actions allowed under the federal permit.

3 (5) Shall cooperate with the State Department of Agriculture in carrying out the provisions of  
4 ORS 564.105.

5 (6) Shall adopt administrative rules to carry out the provisions of ORS 496.171 to 496.182 and  
6 498.026.

7 **SECTION 85a.** ORS 496.176 is amended to read:

8 496.176. (1) The lists of threatened species or endangered species established pursuant to ORS  
9 496.172 (2) shall include:

10 (a) Those species of wildlife listed as of May 15, 1987, as a threatened species or an endangered  
11 species pursuant to the federal Endangered Species Act of 1973 (P.L. 93-205, 16 U.S.C. 1531), as  
12 amended; and

13 (b) Those species determined as of May 15, 1987, by the State Fish and Wildlife Commission to  
14 be threatened species or endangered species.

15 (2) The **Oregon Natural Resources** Commission, by rule, may add or remove any wildlife spe-  
16 cies from either list, or change the status of any species on the lists, upon a determination that the  
17 species is or is not a threatened species or an endangered species.

18 (3) A determination that a species is a threatened species or an endangered species shall be  
19 based on documented and verifiable scientific information about the species' biological status. To list  
20 a species as a threatened species or an endangered species under ORS 496.004 and 496.171 to  
21 496.182, the **Oregon Natural Resources** Commission shall determine that the natural reproductive  
22 potential of the species is in danger of failure due to limited population numbers, disease, predation  
23 or other natural or human actions affecting its continued existence and, to the extent possible, as-  
24 sess the relative impact of human actions. In addition, the commission shall determine that one or  
25 more of the following factors exists:

26 (a) That most populations are undergoing imminent or active deterioration of their range or  
27 primary habitat;

28 (b) That overutilization for commercial, recreational, scientific or educational purposes is oc-  
29 curring or is likely to occur; or

30 (c) That existing state or federal programs or regulations are inadequate to protect the species  
31 or its habitat.

32 (4) Determinations required by subsection (3) of this section shall be made by the **Oregon Na-**  
33 **tural Resources** Commission on the basis of verifiable scientific and other data after consultation  
34 with federal agencies, other interested state agencies, the Natural Heritage Advisory Council, other  
35 states having a common interest in the species and interested persons and organizations.

36 (5) Any person may petition the **Oregon Natural Resources** Commission to, by rule, add, re-  
37 move or change the status of a species on the list:

38 (a) A petition shall clearly indicate the action sought and shall include documented scientific  
39 information about the species' biological status to justify the requested action.

40 (b) Within 90 days of receipt of a petition, the commission shall respond in writing to the  
41 petitioner indicating whether the petition presents substantial scientific information to warrant the  
42 action requested.

43 (c) If the petition is found to present such information, the commission shall commence  
44 rulemaking.

45 (d) A final determination by the commission concerning the action requested in a petition shall

1 be provided within one year from the date of receipt of the petition, with the option for an additional  
 2 12-month extension of time to complete the listing if the commission determines that limited infor-  
 3 mation or other appropriate considerations require the extension.

4 (e) If the petition is denied, the petitioner may seek judicial review as provided in ORS 183.484.

5 (6) The **Oregon Natural Resources** Commission may determine not to list a species as a  
 6 threatened species or an endangered species in any of the following cases:

7 (a) If the species has been listed pursuant to the federal Endangered Species Act of 1973 (P.L.  
 8 93-205, 16 U.S.C. 1531), as amended.

9 (b) If the species is currently on the list as a sensitive species, or is a candidate species or has  
 10 been petitioned for listing pursuant to the federal Endangered Species Act of 1973 (P.L. 93-205, 16  
 11 U.S.C. 1531), as amended.

12 (c) If the species has been determined, pursuant to the federal Endangered Species Act of 1973  
 13 (P.L. 93-205, 16 U.S.C. 1531), as amended, to not qualify as a threatened species or an endangered  
 14 species.

15 (7) Notwithstanding subsections (1) to (5) of this section, the **Oregon Natural Resources** Com-  
 16 mission shall take emergency action to add a species to the list of threatened species or endangered  
 17 species if it determines there is a significant threat to the continued existence of the species within  
 18 the state:

19 (a) The commission shall publish notice of such addition in the Secretary of State's bulletin and  
 20 shall mail notice to affected or interested persons whose names are included on the commission's  
 21 mailing list for such purposes.

22 (b) Such emergency addition shall take effect immediately upon publication in the Secretary of  
 23 State's bulletin and shall remain valid for a period no longer than one year, unless during the period  
 24 the commission completes rulemaking procedures as provided in subsection (5) of this section.

25 (8) The **Oregon Natural Resources** Commission shall periodically review the status of all  
 26 threatened species and endangered species listed under ORS 496.171 to 496.192. Each species shall  
 27 be reviewed at least once every five years to determine whether verifiable scientific information  
 28 exists to justify its reclassification or removal from the list, according to the criteria listed under  
 29 subsections (3) and (4) of this section. If a determination is made to reclassify a species or remove  
 30 it from the list, the commission, within 90 days, shall commence rulemaking to change the status  
 31 of the species.

32 (9) Notwithstanding the provisions of this section, the **Oregon Natural Resources** Commission:

33 (a) May decide not to list a species that otherwise qualifies as a threatened or endangered  
 34 species within this state if the commission determines that the species is secure outside this state  
 35 or the species is not of cultural, scientific or commercial significance to the people of this state.

36 (b) May not include *Branta canadensis leucopareia*, commonly known as the Aleutian Canada  
 37 goose, on the lists of threatened species or endangered species.

38 **SECTION 86.** ORS 496.182 is amended to read:

39 496.182. (1) The burden of protecting and recovering threatened species or endangered species  
 40 can be a significant cost to the [*citizens*] **residents** of this state and it is therefore the policy of this  
 41 state to minimize duplication and overlap between state and federal laws dealing with threatened  
 42 species or endangered species. To this end, nothing in this section is intended to prevent the  
 43 adoption of cooperative state or federal programs when such programs provide protection for listed  
 44 species without significant impact on the primary uses of state lands.

45 (2) At the time the [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commis-**

1 **sion** adds a species to the list of threatened species or endangered species under ORS 496.172, the  
2 commission shall establish by rule quantifiable and measurable guidelines that it considers necessary  
3 to ensure the survival of individual members of the species. These guidelines may include take  
4 avoidance and protecting resource sites such as spawning beds, nest sites, nesting colonies or other  
5 sites critical to the survival of individual members of the species.

6 (3) For threatened species listed under ORS 496.172 and in the absence of an approved endan-  
7 gered species management plan described in subsection (8) of this section for an endangered species,  
8 if a state agency determines that a proposed action on land it owns or leases, or for which it holds  
9 a recorded easement, has the potential to violate the guidelines established under subsection (2) of  
10 this section, it shall notify the [*State Department of Fish and Wildlife*] **Oregon Department of Na-**  
11 **tural Resources**. Within 90 days of such notice, the department shall recommend reasonable and  
12 prudent alternatives, if any, to the proposed action [*which*] **that** are consistent with the guidelines.

13 (4) If a state agency fails to adopt the recommendations made under subsection (3) of this sec-  
14 tion, it shall, after consultation with the department, demonstrate that:

15 (a) The potential public benefits of the proposed action outweigh the potential harm from failure  
16 to adopt the recommendations; and

17 (b) Reasonable mitigation and enhancement measures shall be taken, to the extent practicable,  
18 to minimize the adverse impact of the action on the affected species.

19 (5) When an action under this section is initiated by a person other than a state agency, the  
20 agency shall provide final approval or denial of the proposed action within 120 days of receipt of a  
21 written request for final determination.

22 (6) The provisions of this section do not apply to lands acquired through foreclosures of loans  
23 made pursuant to programs of the Department of Veterans' Affairs.

24 (7) State land owning or managing agencies shall set priorities for establishing endangered spe-  
25 cies management plans required by subsection (8) of this section after consultation with the com-  
26 mission on the level of biological threat and, in consideration of available funds, the immediacy and  
27 seriousness of the threat to any listed species.

28 (8)(a)(A) Within four months of the listing of an endangered species, the commission, in consul-  
29 tation and cooperation with the state land owning or managing agency, shall determine if state land  
30 can play a role in the conservation of endangered species. The commission and the land owning  
31 or managing agency shall consider species biology and geography of the land base to determine if  
32 the species or its habitat is found on state land. If the species or its habitat is not found on state  
33 land, the commission shall determine that state land has no role to play in the conservation of the  
34 species.

35 (B) If the species or its habitat is found on state land, the land owning or managing agency, in  
36 consultation with the [*State Department of Fish and Wildlife*] **Oregon Department of Natural Re-**  
37 **sources**, shall determine the role its state land shall serve in the conservation of the endangered  
38 species. This role may include, but is not limited to conservation, contribution toward conservation  
39 or take avoidance. To carry out its consulting role under this subsection, the department shall pro-  
40 vide state agencies with an assessment of the conservation needs of the endangered species. In  
41 making this determination, the land owning or managing agency shall balance the statutory re-  
42 quirements, rules and policies applicable to the agency's programs, the social and economic impacts  
43 that conservation would have on the state, the conservation needs of the species, the purpose of the  
44 land and the roles of other ownership categories. The agency shall balance these factors consistent  
45 with the commission's rules related to the biological aspects of species management and the statu-

1 tory obligations of the land owning or managing agency, including the statutory purpose of the land.

2 (C) After determining the role its state land shall serve in conservation of the species, the land  
 3 owning or managing agency, in consultation with the [*State Department of Fish and Wildlife*] **Oregon**  
 4 **Department of Natural Resources** and consistent with the commission's rules related to endan-  
 5 gered species management plans, shall develop and approve an endangered species management plan  
 6 within 18 months from the date the species is first listed as endangered. Endangered species man-  
 7 agement plans shall be based on the statutes, rules and policies applicable to the agency's programs  
 8 and shall take into account any social or economic impacts that the plan may have on the state.  
 9 The land owning or managing agency shall submit the plan to the commission for review and ap-  
 10 proval as provided in subparagraph (D) of this paragraph.

11 (D) The commission shall review the endangered species management plan approved by the land  
 12 owning or managing agency under subparagraph (C) of this paragraph to determine whether the plan  
 13 achieves the role defined for the land under subparagraph (B) of this paragraph. Based on the biol-  
 14 ogy of the endangered species the commission may modify the endangered species management plan  
 15 if necessary to be consistent with the role the land owning or managing agency has defined for the  
 16 land under subparagraph (B) of this paragraph and shall approve the plan as submitted or modified  
 17 within 24 months from the date the species is listed as endangered.

18 (b) For state agencies other than land owning or managing agencies, the commission, in con-  
 19 sultation and cooperation with the agency, shall determine whether the agency can serve a role in  
 20 the conservation of endangered species. If the commission determines that the agency has a role to  
 21 play in conservation of the endangered species, the agency shall determine what role it shall serve  
 22 in conservation of the endangered species. The agency shall make this determination as provided in  
 23 the commission's rules related to the biological aspects of species management and in a manner  
 24 consistent with the agency's statutory obligations.

25 **SECTION 87.** ORS 496.201 is amended to read:

26 496.201. (1) The State of Oregon shall, through the [*State Department of Fish and Wildlife*]  
 27 **Oregon Department of Natural Resources**, provide surplus salmon:

11 496.211. (1) The State of Oregon shall be limited to a once a year provision of salmon pursuant  
 12 to ORS 496.201.

13 (2) If the Indian tribes referred to in ORS 496.201 (1) use salmon provided by the state for this  
 14 purpose in any manner other than that described in ORS 496.201, they shall pay to the [*State De-*  
 15 *partment of Fish and Wildlife*] **Oregon Department of Natural Resources** the prevailing wholesale  
 16 rate per pound of the entire amount of salmon supplied to that tribe or tribes for that year.

 20 pointed by the [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commission**.

21 (2) Three members shall be appointed to represent the broad spectrum of hunters. In making  
 22 appointments pursuant to this subsection, the commission shall consider recommendations from the  
 23 [*State Fish and Wildlife Director*] **Director of the Oregon Department of Natural Resources**.

24 (3) Three members of the board shall be appointed to represent the broad spectrum of agricul-  
 25 ture and timber landowners. In making appointments pursuant to this subsection, the commission  
 26 shall consider recommendations [*from the State Fish and Wildlife Director*] from a list of at least five

 30 board chairperson.

31 (5) A member of the board shall receive no compensation for services as a member. However,  
 32 subject to any applicable law regulating travel and other expenses of state officers and employees,  
 33 a member shall be reimbursed for actual and necessary travel and other expenses incurred in the  
 34 performance of official duties from such moneys as are made available by section 19, chapter 659,  
 35 Oregon Laws 1993.

 7 mission.

8 (3) The [*State Department of Fish and Wildlife*] **Oregon Department of Natural Resources** and  
 9 the board jointly shall submit to each biennial session of the Legislative Assembly a report on ex-  
 10 penditure of funds for the access and habitat programs and on the status of various projects.

11 (4) In recommending access and habitat programs, the board shall:

12 (a) Recommend a mix of projects that provides a balance between access and habitat benefits.

13 (b) Recommend projects that are to be implemented by volunteers under volunteer coordinators  
 14 and nonprofit organizations engaged in approved access and habitat activities.

15 (c) Recommend programs that recognize and encourage the contributions of landowners to

20 (5) All moneys made available for the access and habitat programs from surcharges received  
 21 under section 19, chapter 659, Oregon Laws 1993, and from gifts and grants made to carry out the  
 22 access and habitat programs may be expended only if the board so recommends and the commission  
 23 so approves. Such amounts may be expended:

24 (a) On programs that benefit wildlife by improving habitat. These programs shall be in coordi-  
 25 nation with the Wildlife Division and shall be in addition to programs provided by federal funds.  
 26 These programs may:

27 (A) Be on private lands.

 35 cess.

36 (ii) Controlling access.

37 (iii) Opening vehicle access.

38 (iv) Promoting land exchanges.

39 (v) Promoting proper hunting behavior.

40 (B) Through the acquisition of easements.

10 wildlife resources may form advisory councils, with membership in the same proportion as described  
11 for the board, to discuss and consider access and habitat programs and projects and to make rec-  
12 ommendations thereon to the Access and Habitat Board. When the board considers proposals af-  
13 fecting a region, the board shall consult with the advisory council for that region if one exists.

14 (2) Employees of the [State Department of Fish and Wildlife] **Oregon Department of Natural**  
15 **Resources** or other professional biologists who **have knowledge of wildlife habitat and** are resi-  
16 dents of the various regions may act in an advisory capacity to the various councils.

17 (3) An individual who serves as a member of an advisory council shall receive no compensation  
18 or expenses for service as a member.

19 **SECTION 93.** ORS 496.242 is amended to read:

20 496.242. (1) [Notwithstanding ORS 496.300, all moneys received by the State Fish and Wildlife  
21 Commission] **All moneys received by the Oregon Natural Resources Commission** pursuant to  
22 section 19, chapter 659, Oregon Laws 1993, shall be deposited in the Access and Habitat Board  
23 Subaccount established in the [Fish and Wildlife Account. Moneys in the subaccount may be expended  
24 only for] **Oregon Natural Resources Fund. Moneys deposited in the subaccount under this**  
25 **section are continuously appropriated to the Oregon Department of Natural Resources for**  
26 **payment of expenses related to** the access and habitat programs recommended by the Access and  
27 Habitat Board [for the benefit of the wildlife resources of this state] **pursuant to ORS 496.232.**

28 (2) The [State Department of Fish and Wildlife] **Oregon Department of Natural Resources**  
29 shall credit the subaccount with a sum equal to 15 percent of the other fund budget for the green  
30 forage and Deer Enhancement and Restoration programs in each biennium.

31 (3) The department [shall] **may** not assess its personnel costs in the administration of ORS  
32 496.166 and 496.228 to 496.242 against the subaccount referred to in this section without the prior  
33 approval of the Access and Habitat Board.

34 **NOTE:** Sections 94 and 95 were deleted. Subsequent sections were not renumbered.

35 **SECTION 96.** ORS 496.270 is amended to read:

36 496.270. (1) The Legislative Assembly declares that it is the policy of the State of Oregon to  
37 encourage operators, timber owners and landowners to voluntarily improve fish and wildlife habitat.  
38 In order to carry out this policy, the Legislative Assembly encourages cooperation among operators,  
39 timber owners and landowners and other volunteers.

40 (2) Consistent with the limitations of ORS 105.672 to 105.696, a landowner is not liable in con-  
41 tract or tort for any personal injury, death or property damage that arises out of the use of the land  
42 by:

43 (a) A volunteer conducting a fish and wildlife habitat improvement project; or

44 (b) A participant of a state-funded or federally funded watershed or stream restoration or en-  
45 hancement program.

1 (3) An operator, timber owner or landowner shall not be held liable for any damages resulting  
2 from:

3 (a) A fish and wildlife habitat improvement project done in cooperation and consultation with  
4 the [State Department of Fish and Wildlife or the Oregon Watershed Enhancement Board,] **Oregon**  
5 **Department of Natural Resources** or conducted as part of a forest management practice in ac-  
6 cordance with ORS 527.610 to 527.770, 527.990 and 527.992; or

7 (b) Leaving large woody debris within the waters of this state to protect, retain and recruit  
8 large woody debris for the purposes of fish habitat and water quality improvement.

9 (4) The limitations to liability provided by subsections (2) and (3) of this section do not apply if  
10 the damages, injury or death was caused by willful, wanton or intentional conduct on the part of the  
11 operator, timber owner or landowner or by the gross negligence of the operator, timber owner or  
12 landowner. As used in this subsection “gross negligence” means negligence which is materially  
13 greater than the mere absence of reasonable care under the circumstances, and which is charac-  
14 terized by indifference to or reckless disregard of the rights of others.

15 (5) The limitation on liability provided by subsection (3) of this section does not apply to claims  
16 for death or personal injuries.

17 **SECTION 97.** ORS 496.275 is amended to read:

18 496.275. (1) The Legislative Assembly hereby declares the necessity to review all options and  
19 means for the protection and restoration of Oregon’s salmon resource that promote local economic  
20 development and enjoyment by all [*the citizens*] **residents** of Oregon. Options and means shall in-  
21 clude operation of salmon production facilities, in cooperation with the [State Department of Fish  
22 and Wildlife] **Oregon Department of Natural Resources**, by both public and private nonprofit  
23 agencies as well as by public local partnerships, to meet local production and harvest needs as well  
24 as to help restore and maintain natural salmon spawning populations. Such cooperative production  
25 projects shall be operated using scientifically sound hatchery practices and shall be consistent with  
26 objectives to protect and restore natural fish production.

27 [(2) *The State Department of Fish and Wildlife shall:*]

28 **(2) The department shall:**

29 (a) Review and revise existing state administrative rules so that the different forms of hatchery  
30 production are recognized as a necessary and critical element in the state’s salmon production sys-  
31 tem in order to provide harvest opportunities for Oregon’s [*citizens*] **residents**. In so doing, the de-  
32 partment shall identify low natural production areas and, using genetically compatible stocks  
33 approved by the department, encourage volunteer efforts such as the salmon and trout enhancement  
34 program to maintain and to enhance production.

35 (b) Identify existing private and public salmon production facilities that are currently either  
36 underutilized or subject to decommissioning and that may be appropriate for other forms of opera-  
37 tion.

38 (c) Inventory other appropriate local sites, identify possible types of production facilities, re-  
39 commend stock selection and release size, and assist in securing the acquisition of brood stock ap-  
40 proved by the department that maximizes local production.

41 (d) Investigate and implement ways to improve hatchery smolt survival and reduce predation by  
42 such means as night releases, net pen acclimation, alternate release sites, volitional and other re-  
43 lease strategies, transport and other means that may be effective and consistent with the conserva-  
44 tion of native salmon and genetic resources.

45 (e) Make recommendations on methods by which operations of facilities referred to in this sub-

1 section and subsection (3) of this section can generate revenue for sustainable production, including  
 2 but not limited to state bonding, license surcharges, ad valorem taxes, local economic development  
 3 funds, service districts, sale of excess eggs and salmon, and gifts, grants and donations.

4 (f) Identify needed monitoring and evaluation activities to ensure protection of natural spawning  
 5 fish populations and to assess the contribution of such cooperative projects to public fisheries.

6 (g) Assist in developing, for department approval, plans of operation for such cooperative  
 7 hatchery projects consistent with applicable rules and standards of sound, scientific fish manage-  
 8 ment practice.

9 (3) The department shall encourage and assist in planning hatchery facilities that seek to im-  
 10 plement innovative plans or programs designed to meet production for harvest needs consistent with  
 11 conservation objectives.

12 (4) The [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commission** shall  
 13 approve, prior to implementation, operational plans for any fish propagation facilities operated by  
 14 contractor agreement with other state or federal agencies, local governments, special districts and  
 15 nonprofit organizations.

16 **SECTION 98.** ORS 496.283 is amended to read:

17 496.283. (1) Notwithstanding ORS 506.306, all moneys received by the [*State Fish and Wildlife*  
 18 *Commission*] **Oregon Natural Resources Commission** pursuant to sections 4, 6 and 8, chapter 512,  
 19 Oregon Laws 1989, shall be deposited in a separate subaccount in the [*State Wildlife Fund*] **Oregon**  
 20 **Natural Resources Fund**. Except as provided in subsection (2) of this section, moneys in the sub-  
 21 account may be expended only for [*the department's*] fish restoration and enhancement programs **of**  
 22 **the Oregon Department of Natural Resources that are operated** for the benefit of the fish re-  
 23 sources of this state.

24 (2) Fees collected from salmon ranching permits authorized under ORS 508.700 to 508.745 [*will*]  
 25 **may** not be commingled with public fishery funds collected and deposited in the subaccount [*referred*  
 26 *to*] **described** in this section. Notwithstanding any other provision of law, these funds will be used  
 27 to monitor the effect and impact of private salmon ranching on the fishery resources of Oregon.

28 (3) The department [*shall*] **may** not divert present budgeted funds to other projects as user  
 29 surcharge funds become available and [*shall*] **may** not embark on new programs not vital to the  
 30 restoration of Oregon fisheries as required by Oregon Revised Statutes and administrative rules. The  
 31 department [*shall*] **may** not assess its personnel costs in the administration of chapter 512, Oregon  
 32 Laws 1989, against the subaccount [*referred to*] **described** in this section without the prior approval  
 33 of the Restoration and Enhancement Board.

34 **SECTION 99.** ORS 496.286 is amended to read:

35 496.286. (1) There is established within the [*State Department of Fish and Wildlife*] **Oregon De-**  
 36 **partment of Natural Resources** the Restoration and Enhancement Board, consisting of seven  
 37 members appointed by the [*State Fish and Wildlife Commission*] **Oregon Natural Resources Com-**  
 38 **mission**.

39 (2) Three members shall be appointed to represent the ocean and inland recreational fisheries.  
 40 In making appointments pursuant to this subsection, the commission shall consider recommendations  
 41 from the [*State Fish and Wildlife Director*] **Director of the Oregon Department of Natural Re-**  
 42 **sources**.

43 (3) Three members of the board shall be appointed to represent the commercial troll and gillnet

5 to in subsection (1) of this section for educational, medical, scientific or exhibition purposes if the  
6 organization first obtains a permit from the [*State Fish and Wildlife Commission*] **Oregon Natural  
7 Resources Commission**. The commission may refuse to issue the permit if the commission finds  
8 that the organization requesting the permit has physical facilities for holding the fish that are in-  
9 adequate to prevent their escape from confinement.

10 (3) Subsections (1) and (2) of this section do not prohibit the possession or require a permit for  
11 the possession of live fish that are of the genera *Pygocentrus*, *Serrasalmus* or *Pristobrycon* that are

27 prepared and distributed by the sponsors to the contestants and are administered and enforced by  
28 the sponsors. Such rules shall include, but are not limited to:

29 (a) A requirement that the contestants use aerated live wells or other equipment so that all  
30 reasonable efforts are made to maintain the fish taken in a live and healthy condition.

31 (b) A requirement that all fish caught that are in a healthy condition are immediately returned  
32 to the water where they were caught, after weighing. Black bass may be turned over to the [*State  
33 Department of Fish and Wildlife*] **Oregon Department of Natural Resources** for restocking.

34 (c) A requirement that bass tournament contestants use only artificial or other such prepared  
35 baits.

36 (2) As used in this section, "black bass" means largemouth bass, smallmouth bass, redeye bass,  
37 spotted bass and all other basses of the genus *Micropterus*.

38 (3) The [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commission** may  
39 adopt rules to limit the number of contests and participants, determine the location of contests and  
40 prescribe other terms and conditions regarding the conduct of contests under this section.

41 **SECTION 206.** ORS 498.286 is amended to read:

42 498.286. (1) Except as provided in subsection (2) of this section and ORS 498.279, no person shall  
43 conduct, sponsor or participate in any competition or contest in which any prize of a retail value  
44 of more than \$1,000 is offered for the amount, quality, size, weight or other physical characteristic  
45 of game fish taken.

1 (2) When a prize is offered that exceeds \$1,000 for the amount, quality, size, weight or other  
2 physical characteristic of a game fish taken, the [*State Fish and Wildlife Commission*] **Oregon Na-**  
3 **tural Resources Commission**, by rule, may limit the number of contests and participants, deter-  
4 mine the location of contests and prescribe other terms and conditions regarding the conduct of  
5 contests.

6 **SECTION 207.** ORS 498.301 is amended to read:

7 498.301. It is the policy of the State of Oregon to prevent appreciable damage to game fish  
8 populations or populations of nongame fish that are classified as sensitive species, threatened spe-  
9 cies or endangered species by the [*State Fish and Wildlife Commission*] **Oregon Natural Resources**  
10 **Commission** as the result of the diversion of water for nonhydroelectric purposes from any body  
11 of water in this state.

12 **SECTION 208.** ORS 498.306 is amended to read:

13 498.306. (1) Any person who diverts water from any body of water in this state in which any fish,  
14 subject to the [*State Fish and Wildlife Commission's*] **Oregon Natural Resources Commission's**  
15 regulatory jurisdiction, exist may be required to install, operate and maintain screening or by-pass  
16 devices to provide adequate protection for fish populations present at the water diversion in ac-  
17 cordance with the provisions of this section.

18 (2)(a) The [*State Department of Fish and Wildlife*] **Oregon Department of Natural Resources**  
19 shall establish a cost-sharing program to implement the installation of screening or by-pass devices  
20 on not less than 150 water diversions or 150 cubic feet per second of diverted water per biennium.  
21 The department shall select the water diversions to be screened from the priority listing of diver-  
22 sions established by the department and reviewed by the Fish Screening Task Force. The installation  
23 of a screening or by-pass device may be required only if:

24 (A) The water diversion is 30 cubic feet per second or more;

25 (B) A new water right is issued for the water diversion;

26 (C) The point of water diversion is transferred as described in ORS 540.525;

27 (D) Fewer than 150 persons per biennium volunteer to request such installation on the diver-  
28 sions for which they are responsible; or

29 (E) The Fish Screening Task Force has reviewed and approved the department's request to re-  
30 quire installation of screening or by-pass devices in order to complete the screening of a stream  
31 system or stream reach.

32 (b) The limitations on the number of diversions or cubic feet per second of diverted water to  
33 be screened as provided in this section do not prevent the installation of screening and by-pass de-  
34 vices for diversions by persons responsible for diversions who are willing to pay the full cost of in-  
35 stallating screening and by-pass devices.

36 (c) Cost-sharing program funds may not be provided under this subsection for screening or by-  
37 pass devices on a water diversion involving water rights issued on or after January 1, 1996, unless  
38 the Fish Screening Task Force finds there is good cause to allow an exception. The department shall  
39 give preference to diversions of 30 cubic feet per second or less when making cost-sharing program  
40 funds available.

41 (3) When selecting diversions to be equipped with screening or by-pass devices, the department  
42 shall attempt to solicit persons who may volunteer to request the installation of such devices on the  
43 diversions for which they are responsible. When selecting diversions to be equipped with screening  
44 or by-pass devices, the department shall select those diversions that will provide protection to the  
45 greatest number of indigenous naturally spawning fish possible.

1 (4) If the department constructs and installs the screening or by-pass device, a fee shall be as-  
2 sessed against the person responsible for the diversion in an amount that does not exceed 40 percent  
3 of the construction and installation costs of the device. The fee shall be paid into the Fish  
4 Screening Subaccount. If the person responsible for the diversion constructs and installs the by-pass  
5 or screening device, the person shall be reimbursed from the Fish Screening Subaccount or other  
6 state funds in an amount that does not exceed 60 percent of the actual construction and installation  
7 costs of the device.

8 (5) The department's cost of major maintenance and repair of screening or by-pass devices shall  
9 be paid from the Fish Screening Subaccount.

10 (6) The department is responsible for major maintenance and repair of screening or by-pass de-  
11 vices at water diversions of less than 30 cubic feet per second, and if failure by the department to  
12 perform major maintenance on or repair such devices results in damage or blockage to the water  
13 diversion on which a device has been installed, the person responsible for the water diversion shall  
14 give written notice of such damage or blockage to the department. If within seven days of the notice,  
15 the department fails to take appropriate action to perform major maintenance on or repair the de-  
16 vice, and to repair any damage that has occurred, the person responsible for the water diversion  
17 may remove the device. If an emergency exists that will result in immediate damage to livestock or  
18 crops, the person responsible for the water diversion may remove the screening or by-pass device.  
19 A person required to comply with this section is responsible for minor maintenance and shall, in a  
20 timely manner, notify the department of the need for activities associated with major maintenance.

21 (7) A person who diverts water at a rate of 30 cubic feet per second or more is responsible for  
22 all maintenance of an installed screening or by-pass device.

23 (8) A person required to comply with this section may design, construct and install screening  
24 or by-pass devices adequate to prevent fish from leaving the body of water and entering the diver-  
25 sion or may request the department to design, construct and install such devices. However, if a  
26 person required to comply with this section fails to comply within 180 days after notice to comply  
27 by the department, the department shall design, install, operate and maintain on that person's water  
28 diversion appropriate screening or by-pass devices and shall charge and collect from the person the  
29 actual costs thereof in an amount not to exceed the average cost for diversions of that size.

30 (9) If the diversion requiring screening or by-pass devices is located on public property, the de-  
31 partment shall obtain from the property owner approval or permits necessary for such devices.  
32 Activities of the department pursuant to this section may not interfere with existing rights of way  
33 or easements of the person responsible for the diversion.

34 (10)(a) The department or its agent has the right of ingress and egress to and from those places  
35 where screening or by-pass devices are required, doing no unnecessary injury to the property of the  
36 landowner, for the purpose of designing, installing, inspecting, performing major maintenance on or  
37 repairing such devices.

38 (b) If a screening or by-pass device installed by the department must be removed or replaced  
39 due to inadequate design or faulty construction, the person responsible for the diversion shall bear  
40 no financial responsibility for its replacement or reconstruction.

41 (c) If a screening or by-pass device installed by the person responsible for the diversion must  
42 be removed or replaced due to faulty construction, the person shall bear full financial responsibility  
43 for its replacement or reconstruction.

44 (d) If the person responsible for a diversion on which a screening or by-pass device is installed  
45 fails to conduct appropriate inspection and minor maintenance, the department may perform such

1 activities and charge and collect from the person responsible a fee not to exceed \$150 for each re-  
2 quired visit to the location of the screening or by-pass device.

3 (e) If the department determines that a person must install, operate, maintain, repair or replace  
4 a screening or by-pass device under this section, the department shall notify the person, by regis-  
5 tered mail, of the specific action the person is required to take. The person may request a contested  
6 case hearing before the [*State Fish and Wildlife Commission*] **commission**, to be conducted as pro-  
7 vided in ORS chapter 183.

8 (11) A person may not interfere with, tamper with, damage, destroy or remove in any manner  
9 not associated with regular and necessary maintenance procedures any screening or by-pass devices  
10 installed pursuant to this section.

11 (12) The department may maintain an action to cover any costs incurred by the department  
12 when a person who is required to comply with this section fails to comply. Such action shall be  
13 brought in the circuit court for the county in which the screening or by-pass device is located.

14 (13) Upon receiving notice from the department to comply with this section, a person responsible  
15 for a water diversion may be excused from compliance if the person demonstrates to the Fish  
16 Screening Task Force that:

17 (a) The installation and operation of screening or by-pass devices would not prevent appreciable  
18 damage to the fish populations in the body of water from which water is being diverted.

19 (b) Installation and operation of screening or by-pass devices would not be technically feasible.

20 (c) Installation of screening or by-pass devices would result in undue financial hardship.

21 (14)(a) Not later than January 1, 1996, the department, with the assistance of the Fish Screening  
22 Task Force [*and the Water Resources Department*], shall establish and publish an updated priority  
23 listing of 3,500 water diversions in the state that should be equipped with screening or by-pass de-  
24 vices. Changes may be made to the list whenever deletions are made for any reason. The priority  
25 listing shall include the name and address of the person currently responsible for the water diver-  
26 sion, the location of the diversion, size of the diversion, type of screening or by-pass device required,  
27 estimated costs for construction and installation of screening or by-pass devices for the individual  
28 diversion and species of fish present in the water body. When developing the priority listing, the  
29 department shall base priorities for the installation of screening or by-pass devices on unscreened  
30 diversions on the following criteria:

31 (A) Fish species status.

32 (B) Fish numbers.

33 (C) Fish migration.

34 (D) Diversion size.

35 (E) Diversion amount.

36 (F) Any other criteria that the department, in consultation with the Fish Screening Task Force,  
37 considers appropriate.

38 (b) Criteria identified in this subsection shall be given appropriate consideration by the depart-  
39 ment when updating its priority listing. The priority listing will be updated to give the highest pri-  
40 ority to those diversions that save the greatest number of fish and simultaneously protect the  
41 greatest number of threatened or endangered fish species.

42 (c) After the priority listing has been updated, the persons responsible for the diversions on the  
43 list shall be notified that their diversions appear on the list. Such persons also shall be furnished a  
44 description of the fish screening cost-sharing program.

45 (d)(A) The department shall notify, by means of registered mail, each person responsible for the

1 first 250 diversions on the priority listing on or before January 1, 1996. The department shall furnish  
2 information regarding the fish screening cost-sharing program to each person responsible for a di-  
3 version included in the first 250 diversions on the priority listing on or before January 1, 1996. A  
4 person may not be required to install a screening or by-pass device unless previously notified by the  
5 department of the requirement to install such devices.

6 (B) On January 1 of each even-numbered year, the department shall notify each person respon-  
7 sible for a diversion included in the first 250 diversions on the priority listing. However, the de-  
8 partment is not required to notify in a subsequent year any person previously notified. The  
9 department shall include with such notification information regarding the fish screening cost-sharing  
10 program.

11 (C) Before any person is required to install a screening or by-pass device, the department shall  
12 confirm the need for the device through a visual, on-site inspection by appropriate staff of the fish  
13 screening division of the department, or a district biologist of the department.

14 (15) As used in this section:

15 (a) "Behavioral barrier" means a system that utilizes a stimulus to take advantage of natural  
16 fish behavior to attract or repel fish. A behavioral barrier does not offer a physical impediment to  
17 fish movement, but uses such means as electricity, light, sound or hydraulic disturbance to move or  
18 guide fish.

19 (b) "Body of water" includes but is not limited to irrigation ditches, reservoirs, stock ponds and  
20 other artificially created structures or impoundments.

21 (c) "By-pass device" means any pipe, flume, open channel or other means of conveyance that  
22 transports fish back to the body of water from which the fish were diverted but does not include  
23 fishways or other passages around a dam.

24 (d) "Fish screen" means a screen, bar, rack or other barrier, including related improvements  
25 necessary to ensure its effective operation, to provide adequate protection for fish populations  
26 present at a water diversion.

27 (e) "Major maintenance" means all maintenance work done on a screening or by-pass device  
28 other than minor maintenance.

29 (f) "Minor maintenance" means periodic inspection, cleaning and servicing of screening or by-  
30 pass devices at such times and in such manner as to ensure proper operation of the screening or  
31 by-pass device.

32 (g) "Person" means any person, partnership, corporation, association, municipal corporation,  
33 political subdivision or governmental agency.

34 (h) "Screening device" means a fish screen or behavioral barrier.

35 **SECTION 209.** ORS 498.316 is amended to read:

36 498.316. ORS 498.306 does not require the installation of screening or by-pass devices in those  
37 water diversions for which the [*State Fish and Wildlife Commission*] **Oregon Natural Resources**  
38 **Commission**, by contract or other form of agreement with the person diverting the water, has made  
39 such other provision as the commission determines is adequate for the protection of the game fish  
40 in the body of water from which water is being diverted.

41 **SECTION 210.** ORS 498.321 is amended to read:

42 498.321. (1) In order to carry out the provisions of ORS 498.301 and 498.306, the following min-  
43 imum standards and criteria apply to actions of the [*State Fish and Wildlife Commission and the*  
44 *State Department of Fish and Wildlife*] **Oregon Department of Natural Resources and the Oregon**  
45 **Natural Resources Commission** with regard to fish screening or by-pass devices:

1 (a) Standards and criteria shall address the overall level of protection necessary at a given  
2 water diversion and may not favor one technology or technique over another.

3 (b) Standards and criteria shall take into account at least the following factors relating to the  
4 fish populations present at a water diversion:

5 (A) The source of the population, whether native or introduced and whether hatchery or wild.

6 (B) The status of the population, whether endangered, threatened or sensitive.

7 (c) Standards and criteria may take into account the cumulative effects of other water diver-  
8 sions on the fish populations being protected.

9 (d) Design and engineering recommendations shall consider cost-effectiveness.

10 (e) Alternative design and installation proposals must be approved if they can be demonstrated  
11 to provide an equal level of protection to fish populations as those recommended by the department.

12 (2) In order to maximize effectiveness and promote consistency relating to the protection of fish  
13 at nonhydroelectric water diversions, the department shall establish a single organizational entity  
14 to administer all agency activities related to fish screening and by-pass devices.

15 (3) The department shall emphasize cooperative effort and mutual understanding with those re-  
16 sponsible for water diversions that need fish screening or by-pass devices.

24 and expected costs of installing and maintaining the fish screening and by-pass devices.

25 (2) Nothing in subsection (1) of this section is intended to prevent the [*State Department of Fish*

27 the installation and maintenance of fish screening and by-pass projects.

28 **SECTION 212.** ORS 498.341 is amended to read:

2 (1) The person must first obtain from the [*State Fish and Wildlife Commission*] **Oregon Natural**

 4 The commission by rule may limit the number of permits available for any species of food fish.

5 (2) Prior to making any sale pursuant to this section, the person must notify the commission, in  
 6 such manner as the commission prescribes, of the estimated number of food fish on board the boat

15 **SECTION 300.** ORS 508.700 is amended to read:

16 508.700. (1) The [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commission**  
 17 may issue a permit, subject to such restrictions and regulations as the commission deems desirable,

25 **SECTION 301.** ORS 508.705 is amended to read:

26 508.705. (1) Prior to issuance of any permit by the [*State Fish and Wildlife Commission*] **Oregon**

35 (1) [*Which*] **That** may tend to deplete any natural run of anadromous fish or any population of  
 36 resident game fish.

37 (2) [*Which*] **that** may result in waste or deterioration of fish.

38 (3) If the proposed operation is to be located on the same stream or river or tributary thereof  
 39 on which a state or federal fish culture facility is established or is planned to be established.

40 (4) If the proposed operation is not consistent with sound resource management and is not in  
 41 close proximity to the ocean.

42 (5) If the [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commission** deter-  
 43 mines the applicant does not have the financial capability to successfully construct and operate the  
 44 hatchery or may not properly conduct the operation authorized under the permit.

45 **SECTION 303.** ORS 508.715 is amended to read:

1       508.715. Any permit granted by the [*State Fish and Wildlife Commission*] **Oregon Natural Re-**  
2 **sources Commission** pursuant to ORS 508.700 to 508.745 shall contain at least the following con-  
3 ditions:

4       (1) All propagated fish released into state waters shall be marked annually at no less than the  
5 level of marking of the same species of fish by hatcheries operated by the commission for the pur-  
6 pose of determining contributions to ocean fisheries.

7       (2) All propagated coho and chinook salmon released into state waters shall be marked annually,  
8 consistent with subsection (8) of this section, at a minimum level necessary to determine the pro-  
9 portion of straying of hatchery coho and chinook salmon into the spawning beds of natural and  
10 hatchery produced native stocks of salmon. However, the commission shall not require private  
11 hatcheries to meet marking standards that the commission would not apply to its own operations in  
12 similar circumstances.

13       (3) Prior to release into state waters, the fish must be subject to examination by a qualified fish  
14 pathologist approved by the commission to determine that [*they*] **the fish** are not diseased or in-  
15 fected with any disease [*which*] **that**, in the opinion of the commission, may be detrimental to the  
16 state fishery resources. Cost of such examination shall be paid by the permittee. No fish shall be  
17 released without written approval from the commission. The commission may require diseased fish  
18 to be destroyed. The commission shall not suffer civil or criminal liability for any fish destroyed  
19 under this section.

20       (4) The permittee may be authorized by the commission to divert all fish returning to the stream  
21 to an inspection area, the location of such area to be approved by the commission, to examine all  
22 fish for the purpose of identifying propagated fish.

23       (5) Notwithstanding the provisions of ORS chapters 509 and 511, the permittee shall have the  
24 right to take for commercial purposes, only those fish the commission determines were propagated  
25 by the permittee, and the commission's decision is final.

26       (6) It shall be unlawful for the permittee to select stocks of fish or to genetically alter the life  
27 history or habits of propagated fish in a way the [*State Department of Fish and Wildlife*] **Oregon**  
28 **Department of Natural Resources** determines is inconsistent with the provisions of ORS 496.012  
29 or 506.109.

30       (7) It shall be unlawful for the permittee to conduct any activity not authorized by the permit  
31 or fail to conduct activities required by the permit without approval of the commission after public  
32 hearings.

33       (8) The permittee shall pay all reasonable costs incurred by the commission as a result of the  
34 operation of the private hatchery.

35       **SECTION 304.** ORS 508.718 is amended to read:

36       508.718. (1) The Legislative Assembly finds that protecting the natural runs and genetic diversity  
37 of anadromous fish is essential to the long-term health of Oregon's natural resources and sport and  
38 commercial fisheries.

39       (2) Not later than January 1, 1990, the [*State Department of Fish and Wildlife*] **Oregon De-**  
40 **partment of Natural Resources** shall:

41       (a) Develop and implement monitoring programs, consistent with ORS 508.715 (8) at a minimum  
42 level necessary to determine the proportion of straying of hatchery fish into the spawning beds of  
43 natural and hatchery produced native stocks of salmon.

44       (b) Utilizing the best available scientific evidence, adopt rules, after public hearing, that deter-  
45 mine the proportion of straying that by indicator stock is likely to cause deterioration of the genetic

1 diversity and habitat necessary to maintain long-term species viability or that causes a deterioration  
2 of natural or native stocks of salmon.

3 (3) The Legislative Assembly further finds that private hatcheries are a significant part of  
4 Oregon's salmon resource and that the Legislative Assembly relies on the [*State Fish and Wildlife*  
5 *Commission*] **Oregon Natural Resources Commission** to monitor and regulate private hatcheries  
6 in a way that will optimize [*their*] **the** long-term contribution of **private hatcheries** to Oregon's  
7 salmon resource in conformity with the findings under subsection (1) of this section.

8 **SECTION 305.** ORS 508.720 is amended to read:

9 508.720. (1) If the [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commis-**  
10 **sion** finds that the operation described in the permit is not in the best public interest, [*it*] **the**  
11 **commission** shall alter the conditions of the permit to mitigate such adverse effects or may cause  
12 an orderly termination of the operation under the permit. Proceedings to cause such alteration or  
13 termination shall be conducted in accordance with ORS chapter 183. An orderly termination shall  
14 not exceed a four-year period and shall culminate in the revocation of the permit in its entirety.  
15 During this period the permittee may continue to examine and take specified propagated chum  
16 salmon, chinook salmon, silver salmon or pink salmon according to the provisions of the permit but  
17 may not release additional fish.

18 (2) If the commission finds the operation has caused deterioration of the natural run of  
19 anadromous fish or any population of resident game fish in the waters covered by the permit, [*it*]  
20 **the commission** may require the permittee to return the fish populations to the same condition that  
21 existed prior to issuance of the permit. If the permittee fails to take appropriate action, the com-  
22 mission shall take such action and the permittee shall bear any cost incurred by the commission.

23 **SECTION 306.** ORS 508.725 is amended to read:

24 508.725. (1) [*All fish released under ORS 508.700 to 508.745*] During the time [*they*] **all fish re-**  
25 **leased under ORS 508.700 to 508.745** are in the wild, **the fish** will be the property of [*the*] **this**  
26 state and may be taken under angling or commercial fishing laws of this state until [*they*] **the fish**  
27 return to the private hatchery.

28 (2) In carrying out the provisions of ORS 496.162 or 506.129, the [*State Fish and Wildlife Com-*  
29 *mission shall*] **Oregon Natural Resources Commission** may not consider evidence of or argument  
30 regarding the prospect of adverse economic impact on the activities of hatcheries for which permits  
31 have been issued unless the commission determines that it is necessary in order to comply with the  
32 policies set forth in ORS 496.012 or 506.109.

33 **SECTION 307.** ORS 508.730 is amended to read:

34 508.730. After first ensuring that all natural and artificial fish production needs of the [*State*  
35 *Department of Fish and Wildlife*] **Oregon Department of Natural Resources** have been met, the  
36 [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commission** may provide at a  
37 reasonable fee chum salmon, chinook salmon, silver salmon or pink salmon, or the sexual products  
38 therefrom, for the needs of any person granted a permit by the commission pursuant to ORS 508.700  
39 to 508.745 in the following order of priority:

6 508.745. All moneys received by the [*State Fish and Wildlife Commission*] **Oregon Natural Re-**  
7 **sources Commission** under ORS 508.700 to 508.745 except those under ORS 508.735 shall be paid  
8 over to the State Treasurer to be held in a suspense account established under ORS 293.445. After  
9 the payment of costs of administration incurred by the commission in carrying out the provisions  
10 of ORS 508.700 to 508.745, that portion of the balance of the moneys in this suspense account as of

20 Board upon written request of the applicant. The review provided under this subsection shall be in  
21 lieu of any such review by the commission or the [*State Department of Fish and Wildlife*] **Oregon**  
22 **Department of Natural Resources**.

23 (b) Request for review under this subsection shall be on such forms and contain such informa-  
24 tion as the board shall determine. Requests for review shall be accompanied by a \$125 fee, which  
25 fee shall apply toward any applicable permit fees resulting from an order of the board in favor of  
26 the requesting applicant.

27 (4) Orders issued by the board are not subject to review by the commission but may be appealed  
28 as provided in ORS chapter 183.

29 (5) According to the provisions of ORS chapter 183, the board shall adopt such rules as *[it]* **the**  
30 **board** determines necessary to carry out its duties, functions and powers.

31 **SECTION 314.** ORS 508.781 is amended to read:

32 508.781. An individual who obtained the permit required by ORS 508.775 for a particular calen-  
33 dar year is eligible to obtain renewal of the permit in a subsequent calendar year, upon application  
34 and payment of the fees therefor by December 31 of the permit year or by such date as may be  
35 specified by rule of the [*State Department of Fish and Wildlife*] **Oregon Department of Natural**  
36 **Resources**.

37 **SECTION 315.** ORS 508.784 is amended to read:

38 508.784. In making determinations regarding renewal of the permits required by ORS 508.775, the  
39 [*State Department of Fish and Wildlife*] **Oregon Department of Natural Resources** and the Com-  
40 mercial Fishery Permit Board may consider as evidence of permit qualifications or requirements  
41 department records and such receipts, accounts, contracts and other business records of private  
42 parties as the department or the board consider reliable evidence of the qualifications or require-  
43 ments in question.

44 **SECTION 316.** ORS 508.790 is amended to read:

45 508.790. (1) The annual fee for the vessel permit required by ORS 508.775 is:

1 (a) \$26 for resident applicants.

2 (b) \$216 for nonresident applicants.

3 (2) Applications shall be in such form and contain such information as the [*State Department of*  
4 *Fish and Wildlife*] **Oregon Department of Natural Resources**, by rule, may prescribe.

5 **SECTION 317.** ORS 508.792 is amended to read:

6 508.792. (1) Except as provided in subsection (2) of this section, if the number of permits renewed  
7 under ORS 508.781 falls below 200, the [*State Department of Fish and Wildlife*] **Oregon Department**  
8 **of Natural Resources** shall issue permits by a lottery system for vessels that do not meet the re-  
9 quirements of ORS 508.781. However, the number of permits issued pursuant to any such lottery  
10 system shall not increase the number of permits issued to a total number greater than 200.

11 (2) The [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commission** may, in  
12 its discretion, suspend the lottery for up to two years. Suspension shall be based on the commission's  
13 assessment of the condition of the resource and shall account for the recommendations of the Gillnet  
14 Salmon Review Board.

15 **SECTION 318.** ORS 508.793 is amended to read:

16 508.793. (1) The vessel permit required by ORS 508.775 is transferable:

17 (a) To a replacement vessel of the permit holder.

18 (b) To the purchaser of the vessel when the vessel is sold.

19 (2) Notwithstanding subsection (1) of this section, upon request of a permit holder, the [*State*  
20 *Department of Fish and Wildlife*] **Oregon Department of Natural Resources** may authorize trans-  
21 fer of a permit to a replacement vessel owned by an individual other than the permit holder. How-  
22 ever, any transfer of a permit away from a vessel without the written consent of each person holding  
23 a security interest in such vessel is void.

24 (3) A fee of \$100 shall be charged for each transfer of a vessel permit under this section.

25 **SECTION 319.** ORS 508.796 is amended to read:

26 508.796. (1) An individual whose application for renewal of the permit required by ORS 508.775  
27 is denied by the [*State Department of Fish and Wildlife*] **Oregon Department of Natural Resources**  
28 may make written request to the Commercial Fishery Permit Board for review of the denial. The  
29 review provided in this subsection is in lieu of any such review by the department or the [*State Fish*  
30 *and Wildlife Commission*] **Oregon Natural Resources Commission**. The request shall be in such  
31 form and shall contain such information as the board considers appropriate. The request shall be  
32 accompanied by a nonrefundable fee of \$125. Such fees shall apply toward the permit fee of suc-  
33 cessful applicants.

34 (2) In accordance with any applicable provision of ORS chapter 183, the board shall review de-  
35 nials of applications for renewal of permits. Orders issued by the board are not subject to review  
36 by the commission, but may be appealed as provided in ORS 183.480 to 183.500. The board may waive  
37 requirements for renewal of permits if the board finds:

38 (a) That the individual for personal or economic reasons chose to actively commercially fish in  
39 some other fishery during the Columbia River gillnet salmon seasons; or

40 (b) That the individual failed to meet the requirements as the result of illness, accident or other  
41 circumstances beyond the individual's control.

42 (3) In accordance with any applicable provision of ORS chapter 183, the board may promulgate  
43 such rules as it considers necessary to carry out its duties, functions and powers.

44 (4) The board may delegate to the department its authority to waive requirements for renewal  
45 of permits.

1 (5) Notwithstanding any other provision of law, without the prior approval of the Commercial  
2 Fishery Permit Board, a Columbia River gillnet salmon vessel permit acquired as a result of a  
3 waiver pursuant to subsection (2) of this section may not be transferred to another vessel until the  
4 vessel for which the permit was issued has been used in the Columbia River gillnet salmon fishery  
5 for two or more calendar years.

6 **SECTION 320.** ORS 508.807 is amended to read:

7 508.807. (1) An individual who obtained the permit required by ORS 508.801 for a particular  
8 calendar year is eligible to obtain renewal of the permit in a subsequent calendar year upon ob-  
9 taining the annual boat license referred to in ORS 508.285. The permit must be renewed, and the  
10 boat license obtained, not later than December 31 of each year or such date as may be established  
11 by rule of the [*State Department of Fish and Wildlife*] **Oregon Department of Natural Resources**.

12 (2) Notwithstanding any other provision of law, an individual who permanently loses the ser-  
13 vices of a vessel through capsizing, sinking, fire, collision or other catastrophic accident has a pe-  
14 riod of two years from the date of loss to replace the vessel without losing eligibility to renew the  
15 vessel permit.

16 **SECTION 321.** ORS 508.808 is amended to read:

17 508.808. (1) In order to be able to renew the vessel permit in any subsequent year, an individual  
18 is not required to renew the boat license as provided in ORS 508.807 if:

19 (a) In the year prior to renewal there was not an ocean troll salmon season of more than 20  
20 consecutive days between May 1 and July 31 in the Pacific Fisheries Management Council man-  
21 agement area adjacent to the port where the vessel lands fish; and

22 (b) The vessel landed salmon in only one single Oregon port and no other during the preceding  
23 three years in which there was a salmon season of more than 20 consecutive days between May 1  
24 and July 31 in the Pacific Fisheries Management Council management area adjacent to the port.

25 (2) The [*State Department of Fish and Wildlife*] **Oregon Department of Natural Resources**  
26 may, upon written request by the purchaser, refund any amount paid for a boat license for a boat  
27 that qualifies under the provisions of subsection (1) of this section.

28 **SECTION 322.** ORS 508.810 is amended to read:

29 508.810. In making determinations regarding renewal of the permits required by ORS 508.801, the  
30 [*State Department of Fish and Wildlife*] **Oregon Department of Natural Resources** and the Com-  
31 mercial Fishery Permit Board may consider as evidence of permit qualifications or requirements  
32 department records and such receipts, accounts, contracts and other business records of private  
33 parties as the department or the board considers reliable evidence of the qualifications or require-  
34 ments in question.

35 **SECTION 323.** ORS 508.816 is amended to read:

36 508.816. (1) The annual fee for the vessel permit required by ORS 508.801 is:

37 (a) \$35 for resident applicants.

38 (b) \$225 for nonresident applicants.

39 (2) Applications shall be in such form and contain such information as the [*State Department of*  
40 *Fish and Wildlife*] **Oregon Department of Natural Resources**, by rule, may prescribe.

41 **SECTION 324.** ORS 508.819 is amended to read:

42 508.819. (1)(a) Except as provided in subsections (2) and (3) of this section, if the number of  
43 permits renewed under ORS 508.807 falls below 1,000, the [*State Department of Fish and Wildlife*]  
44 **Oregon Department of Natural Resources** shall issue permits by a lottery system for vessels that  
45 do not meet the requirements of ORS 508.807. However, the number of permits issued pursuant to

1 any such lottery system may not increase the number of permits issued to a total number greater  
2 than 1,000.

3 (b) In issuing permits under the lottery system, the department shall issue permits for vessels  
4 based on the following categories:

5 (A) Vessels less than or equal to 30 feet;

6 (B) Vessels greater than 30 feet and less than or equal to 42 feet; or

7 (C) Vessels greater than 42 feet.

8 (c) When a vessel in one category does not renew its permit, only another vessel in the same  
9 category, or a vessel in a category for vessels of a smaller size, may qualify for the permit.

10 (d) When the department holds a lottery under this section, the following fees shall be charged  
11 for each vessel permit that the department issues as a result of the lottery:

12 (A) For vessels less than or equal to 30 feet, \$250.

13 (B) For vessels greater than 30 feet and less than or equal to 42 feet, \$500.

14 (C) For vessels greater than 42 feet, \$750.

15 (2) The [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commission** may, in  
16 its discretion, suspend the lottery for up to two years. Suspension shall be based on the commission's  
17 assessment of the condition of the resource and shall account for the recommendations of the Troll  
18 Salmon Permit Review Board.

19 (3) The department shall consider a permit transferred to, purchased by or otherwise held by the  
20 federal government as a permit renewed under ORS 508.807. A permit transferred to, purchased by  
21 or otherwise held by the federal government is a permit under the limit of 1,000 permits established  
22 by this section.

23 **SECTION 325.** ORS 508.822 is amended to read:

24 508.822. (1) The vessel permit required by ORS 508.801 is transferable:

25 (a) To a replacement vessel of the permit holder.

26 (b) To the purchaser of the vessel when the vessel is sold.

27 (c) Upon request of a permit holder, transfer of a permit to a replacement vessel owned by an  
28 individual other than the permit holder if authorized by the [*State Department of Fish and Wildlife*]  
29 **Oregon Department of Natural Resources**. However, any transfer of a permit away from a vessel  
30 without the written consent of each person holding a security interest in such vessel is void.

31 (2) Permits may be transferred between vessels where both vessels fall within any one of the  
32 following categories:

33 (a) Vessels less than or equal to 30 feet;

34 (b) Vessels greater than 30 feet and less than or equal to 42 feet; or

35 (c) Vessels greater than 42 feet.

36 (3) A permit may be transferred from a vessel that is in one of the categories defined in sub-  
37 section (2) of this section to a vessel that is in a different category provided that no vessel permit  
38 may be transferred to a vessel more than five feet longer than the vessel from which the permit is  
39 being transferred.

40 (4)(a) Notwithstanding subsection (3) of this section and except for transfer to another vessel  
41 owned by the current permit holder, a vessel permit may be transferred to a vessel over 30 feet in  
42 length only if, in the calendar year prior to transfer, the vessel from which the permit is being  
43 transferred was used in the ocean troll salmon fishery in Oregon, Alaska, Washington or California  
44 to take 100 pounds of salmon. The department, by rule, may require proof of vessel ownership prior  
45 to the transfer of a permit away from any vessel. This section shall not be effective in the calendar

1 year following a year in which the number of permits issued pursuant to ORS 508.801 is less than  
2 1,000.

3 (b) A vessel permit may not be transferred more than once in any 12-month period. However,  
4 the Commercial Fishery Permit Board may waive the waiting period for additional transfer if the  
5 board finds that strict adherence to the waiting period would create undue hardship for the indi-  
6 vidual seeking transfer of the permit.

7 (5) Persons requesting the transfer of a permit pursuant to subsection (1)(c) of this section shall  
8 provide to the department copies of documents or state registration for each vessel as proof of the  
9 length and ownership.

10 (6) A fee of \$100 shall be charged for each transfer of a vessel permit under this section.

11 **SECTION 326.** ORS 508.825 is amended to read:

12 508.825. (1) An individual whose application for renewal or transfer of the permit required by  
13 ORS 508.801 is denied by the [*State Department of Fish and Wildlife*] **Oregon Department of Na-**  
14 **tural Resources** may make written request to the Commercial Fishery Permit Board for review of  
15 the denial. The review provided in this subsection is in lieu of any such review by the department  
16 or the [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commission**. The request  
17 shall be in such form and shall contain such information as the board considers appropriate. The  
18 request shall be accompanied by a nonrefundable fee of \$125. Such fee shall apply toward the permit  
19 fee of successful applicants.

20 (2) In accordance with any applicable provision of ORS chapter 183, the board shall review de-  
21 nials of applications for renewal or transfer of permits. Orders issued by the board are not subject  
22 to review by the commission, but may be appealed as provided in ORS 183.480 to 183.540. The board  
23 may waive requirements for renewal or transfer of permits if the board finds that the individual fails  
24 to meet the requirements as the result of illness, accident or other circumstances beyond the  
25 individual's control.

26 (3) In accordance with any applicable provision of ORS chapter 183, the board may promulgate  
27 such rules as it considers necessary to carry out its duties, functions and powers.

28 (4) The board may delegate to the department its authority to waive requirements for renewal  
29 or transfer of permits.

30 **SECTION 327.** ORS 508.828 is amended to read:

31 508.828. Notwithstanding ORS 508.801 to 508.825, 508.880, 508.883 and 508.889 to 508.910, subject  
32 to ORS 508.316, a vessel not having a permit may in an emergency and with the approval of the  
33 [*State Department of Fish and Wildlife*] **Oregon Department of Natural Resources** land salmon  
34 by purchase of a single delivery license.

35 **SECTION 328.** ORS 508.852 is amended to read:

36 508.852. In making determinations regarding renewal of the permits required by ORS 508.840, the  
37 [*State Department of Fish and Wildlife*] **Oregon Department of Natural Resources** and the Com-  
38 mercial Fishery Permit Board may consider as evidence of permit qualifications or requirements  
39 department records and such receipts, accounts, contracts and other business records of private  
40 parties as the department or the board considers reliable evidence of the qualifications or require-  
41 ments in question.

42 **SECTION 329.** ORS 508.861 is amended to read:

43 508.861. The [*State Department of Fish and Wildlife*] **Oregon Department of Natural Re-**  
44 **sources** may establish by rule a lottery system for issuing permits to vessels that do not meet the  
45 requirements of ORS 508.849. The department, by rule, shall determine the number of permits and

1 the criteria for issuance.

2 **SECTION 330.** ORS 508.867 is amended to read:

3 508.867. (1) Notwithstanding ORS 508.755 (6)(b) and (c), an individual whose application for re-  
4 newal of the permit required by ORS 508.840 is denied by the [*State Department of Fish and*  
5 *Wildlife*] **Oregon Department of Natural Resources** may make written request to the Commercial  
6 Fishery Permit Board for review of the denial. The review provided in this subsection is in lieu of  
7 any such review by the department or the [*State Fish and Wildlife Commission*] **Oregon Natural**  
8 **Resources Commission**. The request shall be in such form and shall contain such information as  
9 the board considers appropriate. The request shall be accompanied by a nonrefundable fee of \$125.  
10 Such fee shall apply toward the permit fee of successful applicants.

11 (2) In accordance with any applicable provision of ORS chapter 183, the board shall review de-  
12 nials of applications for renewal of permits. Orders issued by the board are not subject to review  
13 by the commission, but may be appealed as provided in ORS 183.480 to 183.540. The board may waive  
14 requirements for renewal of permits if the board finds that the individual for personal or economic  
15 reasons chooses to actively fish the permit vessel in some other ocean fishery or if the board finds  
16 that the individual fails to meet the requirements as the result of illness, accident or other circum-  
17 stances beyond the individual's control.

18 (3) In accordance with any applicable provision of ORS chapter 183, the board may promulgate  
19 such rules as it considers necessary to carry out its duties, functions and powers.

20 (4) The board may delegate to the department the authority to waive eligibility requirements for  
21 renewal of permits.

22 **SECTION 331.** ORS 508.883 is amended to read:

23 508.883. (1) Notwithstanding ORS 508.880, an individual who holds valid commercial fishing  
24 permits required by or issued pursuant to the laws of the states of Washington or California to take  
25 pink shrimp may land pink shrimp in this state that were taken in the ocean pink shrimp fishery  
26 without the permit required by ORS 508.880 if the vessel possesses a single delivery license referred  
27 to in ORS 508.285. However, a single delivery license may be used to land pink shrimp only once in  
28 a 12-month period as established by rule of the [*State Fish and Wildlife Director*] **Director of the**  
29 **Oregon Department of Natural Resources**.

30 (2) Subsection (1) of this section shall apply to a vessel registered under the laws of another  
31 state only while laws or administrative rules are operative in that state that contain, in substance  
32 or effect, provisions similar to the provisions of subsection (1) of this section.

33 **SECTION 332.** ORS 508.892 is amended to read:

34 508.892. (1) An individual who obtained the permit required by ORS 508.880 for a particular  
35 calendar year is eligible to obtain renewal of the permit in a subsequent calendar year upon appli-  
36 cation and payment of the fees therefor and upon obtaining the annual boat license referred to in  
37 ORS 508.285. The permit must be applied for, and the boat license obtained, not later than December  
38 31 of each year or such date as may be established by rule of the [*State Department of Fish and*  
39 *Wildlife*] **Oregon Department of Natural Resources**.

40 (2) An individual who permanently loses the services of a vessel through capsizing, sinking, fire,  
41 collision or other catastrophic accident shall remain eligible to obtain a vessel permit for a re-  
42 placement vessel for two years from the date of loss.

43 **SECTION 333.** ORS 508.895 is amended to read:

44 508.895. In making determinations regarding renewal of the permits required by ORS 508.880, the  
45 [*State Department of Fish and Wildlife*] **Oregon Department of Natural Resources** and the Com-

1 commercial Fishery Permit Board may consider as evidence of permit qualifications or requirements  
2 department records and such receipts, accounts, contracts and other business records of private  
3 parties as the department or the board considers reliable evidence of the qualifications or require-  
4 ments in question.

5 **SECTION 334.** ORS 508.901 is amended to read:

6 508.901. (1) The annual fee for the vessel permit required by ORS 508.880 is:

8 (b) \$290 for nonresident applicants.

9 (2) Applications shall be in such form and contain such information as the [*State Department of*  
10 *Fish and Wildlife*] **Oregon Department of Natural Resources**, by rule, may prescribe.

11 **SECTION 335.** ORS 508.904 is amended to read:

12 508.904. (1) Except as provided in subsection (2) of this section, if the number of permits renewed  
13 under ORS 508.892 falls below 150, the [*State Department of Fish and Wildlife*] **Oregon Department**  
14 **of Natural Resources** shall issue permits by lottery systems for vessels that do not meet such re-  
15 quirements, first among those individuals who landed pink shrimp pursuant to a single delivery li-  
16 cense referred to in ORS 508.285, and then among all other individuals making application therefor.  
17 However, the number of permits issued pursuant to any such lottery system may not increase the  
18 total number of permits issued beyond 150.

19 (2) The department shall consider a permit transferred to, purchased by or otherwise held by the  
20 federal government as a permit renewed under ORS 508.892. A permit transferred to, purchased by  
21 or otherwise held by the federal government is a permit under the limit of 150 permits established  
22 by this section.

23 **SECTION 336.** ORS 508.910 is amended to read:

24 508.910. (1) An individual whose application for renewal of the permit required by ORS 508.880  
25 is denied by the [*State Department of Fish and Wildlife*] **Oregon Department of Natural Resources**  
26 may make written request to the Commercial Fishery Permit Board for review of the denial. The  
27 review provided in this subsection is in lieu of any such review by the department or the [*State Fish*  
28 *and Wildlife Commission*] **Oregon Natural Resources Commission**. The request shall be in such  
29 form and shall contain such information as the board considers appropriate. The request shall be  
30 accompanied by a nonrefundable fee of \$125. Such fee shall apply toward the permit fee of successful  
31 applicants.

32 (2) In accordance with any applicable provision of ORS chapter 183, the board shall review de-  
33 nials of applications for renewal of permits. Orders issued by the board are not subject to review  
34 by the commission, but may be appealed as provided in ORS 183.480 to 183.540. The board may waive  
35 requirements for renewal of permits if the board finds that the individual fails to meet the require-  
36 ments as the result of illness, accident or other circumstances beyond the individual's control.

37 (3) In accordance with any applicable provision of ORS chapter 183, the board may promulgate  
38 such rules as it considers necessary to carry out its duties, functions and powers.

39 (4) The board may delegate to the department its authority to waive requirements for renewal  
40 of permits.

41 **SECTION 337.** ORS 508.915 is amended to read:

42 508.915. The [*State Fish and Wildlife Director*] **Director of the Oregon Department of Natural**  
43 **Resources** shall work with the appropriate authorities in the States of California and Washington  
44 to negotiate reciprocal agreements that would allow vessels registered under the laws of those  
45 states to land pink shrimp in Oregon to the same extent that vessels registered in Oregon may land

1 pink shrimp in California or Washington.

2 **SECTION 338.** ORS 508.921 is amended to read:

3 508.921. The Legislative Assembly finds that the Oregon ocean Dungeness crab fishery is over-  
4 capitalized. This overcapitalization has led to economic destabilization of the ocean Dungeness crab  
5 industry and the coastal communities relying on the crab harvest and can cause excessive harvest-  
6 ing pressure on Oregon's ocean Dungeness crab resources. Since the state legislatures of  
7 Washington and California have enacted programs restricting participation in the ocean Dungeness  
8 crab fishery, the possibility of increased effort in Oregon coastal waters by displaced vessels is in-  
9 creased. Notwithstanding any other provision of the commercial fishing laws, in order to promote  
10 the economic well-being of the Oregon ocean Dungeness crab industry and the coastal communities  
11 relying on the harvest, to protect the livelihood of participants in the Oregon ocean Dungeness crab  
12 fishery who have historically and continuously participated in the ocean Dungeness crab fishery and  
13 to prevent a concentration of fishing effort, the [*State Fish and Wildlife Commission*] **Oregon Na-  
14 tural Resources Commission** by rule shall establish a system for restricting participation in the  
15 Oregon ocean Dungeness crab fishery.

16 **SECTION 339.** ORS 508.931 is amended to read:

17 508.931. (1) The system established under ORS 508.921 shall provide initial eligibility for vessels  
18 to participate in the ocean Dungeness crab fishery seasons established by the [*State Fish and  
19 Wildlife Commission*] **Oregon Natural Resources Commission**, beginning on December 1, 1995,  
20 with a transferable ocean Dungeness crab permit only if:

21 (a) The vessel for which application is made was continuously licensed pursuant to ORS 508.260  
22 for the calendar years 1991 through 1994, and was used in the ocean Dungeness crab fishery to  
23 lawfully land into Oregon ports at least 500 pounds of ocean Dungeness crab in each of two crab  
24 fishing seasons between December 1, 1988, and December 31, 1994;

25 (b) The vessel for which application is made was under construction between December 1, 1988,  
26 and August 14, 1991, for the purpose of ocean Dungeness crab fishing in waters of this state, and  
27 the vessel lawfully landed into Oregon ports at least 500 pounds of ocean Dungeness crab in each  
28 of two crab fishing seasons between December 1, 1988, and December 31, 1994, and was licensed as  
29 an Oregon vessel from the date of completion;

30 (c) The vessel for which application is made was used in the ocean Dungeness crab fishery to  
31 lawfully land into Oregon ports at least 500 pounds of ocean Dungeness crab in each of two crab  
32 fishing seasons between December 1, 1991, and December 31, 1994, and is owned by a person who,  
33 prior to December 31, 1994, sold a vessel that was used prior to sale in the ocean Dungeness crab  
34 fishery to lawfully land into Oregon ports at least 500 pounds of ocean Dungeness crab in each of  
35 two crab fishing seasons between December 1, 1988, and December 31, 1994, and who, as a condition  
36 of the sale, retained the sold vessel's commercial fishing rights to fish for ocean Dungeness crab in  
37 the ocean waters of Oregon;

38 (d) The vessel for which application is made was continuously licensed pursuant to ORS 508.260  
39 for the calendar years 1991 through 1994, was used in the ocean Dungeness crab fishery to lawfully  
40 land into Oregon ports at least 10,000 pounds of ocean Dungeness crab in one crab fishing season  
41 between December 1, 1988, and December 31, 1994, and the owner of the vessel on December 31,  
42 1994, demonstrates possession of one or more vessel licenses described in ORS 508.260 in each of  
43 10 separate years during the period December 1, 1980, to December 31, 1994; or

44 (e) The vessel for which application is made was licensed pursuant to ORS 508.260 during 1994,  
45 is 26 feet or less in length and was used in the ocean Dungeness crab fishery to lawfully land into

1 Oregon ports at least 100 pounds of ocean Dungeness crab in at least one crab fishing season be-  
 2 tween December 1, 1988, and December 31, 1994.

3 (2) As used in this section:

4 (a) "Crab fishing season" is the time period from December 1 of one year through August 14 of  
 5 the next year.

6 (b) "Owner" includes any ownership interest in a vessel, including interests arising from part-  
 7 nership or corporation.

8 **SECTION 340.** ORS 508.936 is amended to read:

9 508.936. (1) The system established under ORS 508.921 shall include provisions to make the  
 10 vessel ocean Dungeness crab permit required by ORS 508.926 transferable:

11 (a) To another vessel; or

12 (b) To the purchaser of the vessel when the vessel is sold.

13 (2) The vessel to which a permit is transferred may not be:

14 (a) More than 10 feet longer than the vessel from which the permit is transferred; or

15 (b) More than 99 feet in length.

16 (3) Notwithstanding subsection (2) of this section, a permit issued to a vessel:

17 (a) Under ORS 508.931 (1)(e) shall be transferred only to a vessel that is 26 feet or less in length.

18 (b) May not be transferred to a vessel that is more than 10 feet longer than the vessel for which  
 19 the permit was held on January 1, 2006. However, the Commercial Fishery Permit Board may waive  
 20 the length restriction in this paragraph if the board finds that strict adherence to the length re-  
 21 striction would create undue hardship, as that term is defined by rule by the [*State Fish and Wildlife*  
 22 *Commission*] **Oregon Natural Resources Commission**, for the individual seeking transfer of the  
 23 permit.

24 (4) Transfer of a permit under this section is subject to the approval of the [*State Department*  
 25 *of Fish and Wildlife*] **Oregon Department of Natural Resources** according to such rules as the  
 26 [*State Fish and Wildlife*] commission may adopt. Any transfer of a permit from a vessel without the  
 27 written consent of each person holding a security interest in the vessel is void.

28 (5) For purposes of this section, the length of a vessel shall be determined by the manufacturer's  
 29 specification of overall length, United States Coast Guard documentation stating overall length or  
 30 a survey of overall length by a certified marine surveyor, as the [*State Fish and Wildlife*] commission  
 31 by rule shall establish.

32 (6) A fee of \$100 shall be charged for each transfer of a vessel permit under this section.

33 **SECTION 341.** ORS 508.941 is amended to read:

34 508.941. (1) The system established under ORS 508.921 shall include any other provisions for  
 35 participation that the [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commis-**  
 36 **sion** considers appropriate.

37 (2) Any determination by the commission regarding the eligibility of a vessel to participate in  
 38 the ocean Dungeness crab commercial fishery or to transfer participation rights is subject to review  
 39 by the Commercial Fishery Permit Board, in accordance with ORS chapter 183. The board may  
 40 waive the eligibility requirements contained in ORS 508.931 if the board finds that the individual  
 41 fails to meet the requirements as the result of illness, fire, sinking, accident or other circumstances  
 42 beyond the individual's control. In making a determination of eligibility under this section, the board  
 43 shall consider the applicant's history of participation in the Oregon ocean Dungeness crab fishery.  
 44 If a vessel for which application is made is owned by a person who has served in the Armed Forces  
 45 of the United States and the person establishes that a service-related disability prevented the person

1 from lawfully landing crab in two seasons during the prescribed time period, there is a rebuttable  
2 presumption in favor of issuing an illness waiver for one of the two seasons of lawfully landing crab  
3 in Oregon required under ORS 508.931 so as to require the landing of crab in only one season during  
4 the prescribed time period. The rebuttable presumption created by this subsection may be overcome  
5 only by clear and convincing evidence that the service-related disability of the person did not pre-  
6 vent the person from lawfully landing crab in two seasons during the prescribed time period. Orders  
7 issued by the board are not subject to review by the commission, but may be appealed as provided  
8 in ORS 183.480 to 183.540.

9 (3) A commercial fishing vessel that holds a valid Washington or California permit to fish for  
10 ocean Dungeness crab shall be eligible to participate in the Oregon ocean Dungeness crab fishery  
11 provided there is reciprocal statutory authority in Washington or California that provides for equal  
12 access for vessels holding Oregon ocean Dungeness crab permits to Washington or California  
13 coastal waters and Washington waters of the Columbia River. If such reciprocal statutory authority  
14 exists, a vessel licensed by Washington or California is eligible to participate in accordance with  
15 rules that establish reciprocal border agreements that recognize traditional fishing patterns.

16 (4) The annual fee to participate in the ocean Dungeness crab fishery is:

17 (a) \$125 for resident applicants.

18 (b) \$290 for nonresident applicants.

19 **SECTION 342.** ORS 508.945 is amended to read:

20 508.945. (1) Notwithstanding any other provision of the commercial fishing laws and except as  
21 provided in subsection (4) of this section, a person may not operate a vessel for:

22 (a) Landing black rockfish or blue rockfish in a fishery without a black rockfish and blue  
23 rockfish vessel permit issued under ORS 508.947; or

24 (b) Landing nearshore fish in a fishery without a black rockfish and blue rockfish vessel permit  
25 with a nearshore fish endorsement issued under ORS 508.947.

26 (2)(a) The [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commission** may  
27 prescribe by rule the type of fishing gear that a vessel required to have a permit under this section  
28 shall use to land black rockfish, blue rockfish or nearshore fish.

29 (b) The commission may not prescribe a rule under this subsection that allows a vessel to use:

30 (A) Diving gear.

31 (B) Pots, unless a vessel was issued a pot endorsement in the Interim Nearshore Fisheries Plan  
32 through the Developmental Fisheries Program enacted by the commission.

33 (3) Notwithstanding any other provision of the commercial fishing laws, a wholesaler, canner  
34 or buyer may not buy or receive black rockfish, blue rockfish or nearshore fish taken in a fishery  
35 from a vessel for which the permit required by this section has not been issued, unless the black  
36 rockfish, blue rockfish or nearshore fish were taken pursuant to subsection (4)(a), (b) or (c) of this  
37 section.

38 (4) A person may operate a vessel without a permit required by this section if the person:

39 (a) For only one landing per day, lands no more than 15 pounds of black rockfish, blue rockfish,  
40 nearshore fish or a combination of black rockfish, blue rockfish or nearshore fish and if the black  
41 rockfish, blue rockfish and nearshore fish:

42 (A) Make up 25 percent or less of the total poundage of the landing; and

43 (B) Are landed with fishing gear that is legal to use in the fishery in which the black rockfish,  
44 blue rockfish or nearshore fish are landed;

45 (b) Operates a vessel in the ocean troll salmon fishery pursuant to ORS 508.801 to 508.825 and

1 the person lands black rockfish, blue rockfish or a combination of black rockfish and blue rockfish  
2 in the same landing in which the person lands a salmon under the permit required by ORS 508.801  
3 to 508.825. The black rockfish or blue rockfish landed under this paragraph must be landed dead.  
4 A person who lands black rockfish and blue rockfish under this paragraph may land up to the  
5 greater of:

6 (A) 30 black rockfish or 30 blue rockfish per landing or a combination of 30 black rockfish and  
7 blue rockfish per landing; or

8 (B) 100 pounds of black rockfish, blue rockfish or a combination of black rockfish and blue  
9 rockfish per landing;

10 (c) Operates a vessel in the west coast groundfish trawl fishery pursuant to federal regulations  
11 and lands no more than 1,000 pounds of black rockfish, blue rockfish or a combination of black  
12 rockfish and blue rockfish per calendar year and if the black rockfish and blue rockfish:

13 (A) Make up 25 percent or less of the total poundage of each landing; and

14 (B) Are landed dead; or

15 (d) Is a nonprofit aquarium or has contracted with a nonprofit aquarium to land black rockfish,  
16 blue rockfish or nearshore fish for the purpose of displaying or conducting research on the black  
17 rockfish, blue rockfish or nearshore fish.

18 (5) Notwithstanding the amounts set forth in subsection (4)(b) of this section, the [*State Fish and*  
19 *Wildlife Commission*] **Oregon Natural Resources Commission** may change the amounts of black  
20 rockfish, blue rockfish or the combination of black rockfish and blue rockfish allowed to be landed  
21 under subsection (4)(b) of this section by rule based on an assessment of the resource.

22 **SECTION 343.** ORS 508.947 is amended to read:

23 508.947. (1) The [*State Department of Fish and Wildlife*] **Oregon Department of Natural Re-**  
24 **sources** may issue a black rockfish and blue rockfish vessel permit to an owner of a vessel that  
25 landed a minimum of 750 pounds of nontrawl caught black rockfish, blue rockfish or nearshore fish  
26 in any one calendar year between January 1, 1995, and January 1, 2001, or in the six-month period  
27 between January 1, 2001, and July 1, 2001, for delivery to a fish processor licensed pursuant to ORS  
28 508.025.

29 (2) The department may issue a black rockfish and blue rockfish vessel permit with a nearshore  
30 fish endorsement to an owner of a vessel that was issued a permit under the Interim Nearshore  
31 Fisheries Plan through the Developmental Fisheries Program.

32 (3) The department may renew a black rockfish and blue rockfish vessel permit or a black  
33 rockfish and blue rockfish vessel permit with a nearshore fish endorsement if the vessel made a  
34 minimum of five commercial fish landings during the calendar year prior to the request for renewal  
35 for delivery to a fish processor licensed pursuant to ORS 508.025.

36 (4) Permits issued under this section expire on December 31 of each year or on such date as  
37 may be specified by department rule. An owner of a vessel with a permit must submit a renewal  
38 application to the department by January 1 of each year or by such date as may be specified by  
39 department rule. If the owner of a vessel with a permit does not timely submit a renewal application,  
40 the department shall, not more than 30 days after the application was due, send to the owner by  
41 certified letter a notice of the failure to submit the renewal application. An owner may submit a late  
42 application to renew a permit not more than 90 days after the application was due if the owner pays  
43 a \$150 late fee in addition to the fee required in ORS 508.949.

44 (5) In making determinations regarding initial eligibility for and renewal of a permit issued un-  
45 der this section, the department may consider department records and receipts and accounts, con-

1 tracts and other business records of private parties that the department considers reliable.

2 (6) Except as provided in ORS 508.955, new vessel permits may not be issued under this section  
3 after December 30, 2005.

4 **SECTION 344.** ORS 508.949 is amended to read:

5 508.949. (1) The annual fee for a black rockfish and blue rockfish vessel permit or a black  
6 rockfish and blue rockfish vessel permit with a nearshore fish endorsement issued under ORS  
7 508.947 is \$100.

8 (2) Applications for a permit shall be in such form and contain such information as the [*State*  
9 *Department of Fish and Wildlife*] **Oregon Department of Natural Resources**, by rule, may pre-  
10 scribe.

11 (3) All fees collected under this section and ORS 508.505 (1)(b) and 508.947 shall be placed into  
12 the Black Rockfish, Blue Rockfish and Nearshore Species Research Account established in ORS  
13 508.951.

14 **SECTION 345.** ORS 508.951 is amended to read:

15 508.951. (1) There is established a Black Rockfish, Blue Rockfish and Nearshore Species Re-  
16 search Account in the State Treasury, separate and distinct from the General Fund. Interest on  
17 moneys in the account shall be credited to the account.

18 (2) The account shall consist of moneys deposited into the account by the [*State Department of*  
19 *Fish and Wildlife*] **Oregon Department of Natural Resources** from fees collected for the value of  
20 black rockfish, blue rockfish or nearshore fish at the point of landing pursuant to ORS 508.505 (1)(b)  
21 and black rockfish and blue rockfish vessel permit fees and late fees collected under ORS 508.947  
22 and 508.949. The moneys in the account are continuously appropriated to the [*State Department of*  
23 *Fish and Wildlife*] **department** for gathering and analyzing data and conducting research on the  
24 black rockfish and blue rockfish fishery and the nearshore species fishery.

25 **SECTION 346.** ORS 508.953 is amended to read:

26 508.953. (1) An owner of a vessel that has a black rockfish and blue rockfish vessel permit or  
27 a black rockfish and blue rockfish vessel permit with a nearshore fish endorsement shall keep a log  
28 book that includes:

29 (a) The amount of food fish that are caught;

30 (b) The date on which the food fish are caught;

31 (c) The species of food fish that are caught by the vessel; and

32 (d) Any other information that the [*State Department of Fish and Wildlife*] **Oregon Department**  
33 **of Natural Resources** may prescribe.

34 (2) The [*State Department of Fish and Wildlife*] **department** shall:

37 (b) Present a report on the black rockfish and blue rockfish fishery and the nearshore species  
38 fishery, including the summary prepared in paragraph (a) of this subsection, to the [*State Fish and*  
39 *Wildlife Commission*] **Oregon Natural Resources Commission** during a public meeting held by July  
40 1.

41 **SECTION 347.** ORS 508.955 is amended to read:

42 508.955. (1) The [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commission**  
43 may establish by rule a lottery for issuing permits to vessels under ORS 508.947.

44 (2) A vessel may qualify for the lottery if the vessel:

45 (a) Has a boat license issued pursuant to ORS 508.260 for the current year; and

1 (b) Had a boat license issued pursuant to ORS 508.260 for the previous year.

2 (3) Based on an assessment of the resource, the commission may:

3 (a) Suspend the lottery for up to two years; and

4 (b) Renew a suspension of the lottery every two years.

5 (4) The commission shall establish by rule a threshold number of permits below which the  
6 **Oregon Department of Natural Resources** shall issue permits through the lottery.

7 **SECTION 348.** ORS 508.960 is amended to read:

8 508.960. (1) A person whose application for issuance, renewal or transfer of a permit under ORS  
9 508.947 is denied by the [*State Department of Fish and Wildlife*] **Oregon Department of Natural**  
10 **Resources** may make written request to the Commercial Fishery Permit Board for review of the  
11 denial. The review provided in this subsection is in lieu of any such review by the department or  
12 the [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commission**. The request  
13 shall be in such form and shall contain such information as the board considers appropriate. The  
14 request shall be accompanied by a nonrefundable fee of \$125, which shall apply toward the permit  
15 fee if the application is approved.

16 (2) In accordance with the applicable provisions of ORS chapter 183, the board shall review  
17 denials of applications for issuance, transfer or renewal of permits. Orders issued by the board are  
18 not subject to review by the commission, but may be appealed as provided in ORS 183.480 to 183.540.  
19 The board may waive requirements for renewal or transfer of permits if the board finds that the

21 yond the person's control.

22 (3) In accordance with the applicable provisions of ORS chapter 183, the board may promulgate  
23 such rules as it considers necessary to carry out its duties, functions and powers under this section.

24 **SECTION 349.** ORS 509.015 is amended to read:

25 509.015. (1) In addition to the penalty prescribed by ORS 506.991, upon conviction of a violation  
26 of ORS 509.011, the court may order the forfeiture of the boat, vessel, vehicle and fishing gear un-  
27 lawfully used, in the manner provided by ORS 506.695 and 506.700, and the clear proceeds of the  
28 property forfeited shall be deposited with the State Treasury in the Common School Fund.

29 (2) All food fish taken, transported or possessed in violation of ORS 509.011 are subject to sei-  
30 zure by the [*State Fish and Wildlife Director*] **Director of the Oregon Department of Natural**

35 *mykiss*, including steelhead trout are game fish, and shall be managed to provide recreational angl-  
36 ing for the people and to protect wild native stocks. Recognizing that rainbow trout are sometimes  
37 intermingled with food fish, the [*State Fish and Wildlife Commission*] **Oregon Natural Resources**  
38 **Commission** shall regulate to minimize the incidental catch of rainbow trout that may be taken  
39 under subsection (2) of this section by commercial fishing gear, including but not limited to regu-  
40 lations as to season, gear and area.

41 (2) Any rainbow trout, *Oncorhynchus mykiss*, including steelhead trout taken as an incidental  
42 catch, by any person fishing commercially shall be returned immediately to the water and shall not

4 angling, shall immediately return such salmon alive to the water.

5        (2) It is unlawful to:

6        (a) Take, buy, sell or possess immature salmon less than 20 inches or mature salmon less than  
7 15 inches in length, taken in any waters of this state, at any time or in any manner except by an-

9        (b) Take, molest, kill or injure, in any manner at any time, or expose for sale or have in pos-  
10 session, except for the purpose of propagation when authorized by law, any spawning salmon.

11        (3) Notwithstanding subsections (1) and (2) of this section it is lawful to take precocious salmon  
12 commonly called jack salmon less than 15 inches in length from the waters of this state, except the  
13 Pacific Ocean and to buy, sell or possess such salmon.

14        (4) To further protect immature salmon the [*State Fish and Wildlife Commission*] **Oregon Na-**  
15 **tural Resources Commission** may establish by rule a minimum size for any species of salmon  
16 which is greater than 20 inches.

17        **SECTION 352.** ORS 509.075 is amended to read:

18        509.075. If the [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commission**  
19 or its authorized representatives finds that food fish about to be processed, packed, canned, pre-  
20 served in ice or sold in the open market are unfit for human consumption, it or they shall notify the  
21 packer or possessor of such fish of the fact. If, in spite of any warning given to such packer or  
22 possessor, such fish are packed, demand shall be made upon the packer to keep such fish separate  
23 and apart from the balance of the output or pack of the packer, and a full report shall be made of  
24 the matter to both the state and the federal health authorities.

25        **SECTION 353.** ORS 509.110 is amended to read:

26        509.110. (1) All transportation companies, common carriers or other persons or agencies trans-  
27 porting food fish, fresh, frozen, salted, smoked, kippered or preserved in ice, shall require of the  
28 shipper, before accepting such shipments, a signed statement in writing showing:

29        (a) The name of the consignor or shipper.

30        (b) The name of the consignee.

31        (c) The net weight in pounds of each species of fish in the shipment, in the whole or round, or  
32 dressed.

33        (d) The date of the shipment.

34        (2) The [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commission** may re-  
35 quire such statement to be forwarded to its office.

36        (3) The [*State Fish and Wildlife Director*] **Director of the Oregon Department of Natural**  
37 **Resources** or the authorized representative of the director may at any time examine the records  
38 of any such transportation companies, common carriers or other persons or agencies, for the purpose  
39 of enforcing this section.

40        **SECTION 354.** ORS 509.115 is amended to read:

41        509.115. It is unlawful, without written authority from the [*State Fish and Wildlife Commission*]  
42 **Oregon Natural Resources Commission**, to place in any of the waters of this state any species  
43 or variety of fish whatsoever which are inimical to or destructive of food fish.

44        **SECTION 355.** ORS 509.120 is amended to read:

45        509.120. It is unlawful to use or permit to be used in any of the waters of this state any elec-

1 trical device, appliance or current which in any manner has a tendency to retard, scare, frighten  
 2 or obstruct any food fish in their migrations or movements in such waters without first having ob-  
 3 tained the consent of and a permit from the [*State Fish and Wildlife Director*] **Director of the**  
 4 **Oregon Department of Natural Resources.**

5 **SECTION 356.** ORS 509.140 is amended to read:

6 509.140. (1) Whenever in the course of removing any obstruction in any waters of this state, or  
 7 in constructing any foundations for dams, bridges or other structures, or in carrying on any trade  
 8 or business, any person, municipal corporation, political subdivision or governmental agency desires  
 9 to use explosives or any substances deleterious to fish, such person, municipal corporation, political  
 10 subdivision or governmental agency shall make application to the [*State Fish and Wildlife Commis-*  
 11 *sion*] **Oregon Natural Resources Commission** for a permit to use the explosives or substances in  
 12 such waters.

13 (2) If the commission finds it necessary that the explosives or substances be used, it may make  
 14 an order granting such person, municipal corporation, political subdivision or governmental agency  
 15 the right to use the explosives or substances and shall:

16 (a) Designate the places and period within which the explosives or substances may be used; and

17 (b) Prescribe such precautions as will save fish from injury.

18 (3) It is unlawful to disregard such order or fail to obtain such order or permit before using  
 19 explosives or substances deleterious to fish.

20 **SECTION 357.** ORS 509.150 is amended to read:

21 509.150. Nothing in ORS 509.125 to 509.155 prevents the [*State Fish and Wildlife Commission*]  
 22 **Oregon Natural Resources Commission** from using any explosives or substances deleterious to  
 23 fish for the purpose of destroying German carp or any other predatory fish inimical to food fish, or  
 24 from carrying out any of the commercial fishing laws.

25 **SECTION 358.** ORS 509.216 is amended to read:

26 509.216. (1) Except as provided in subsection (2) of this section, it is unlawful to take food fish  
 27 by means of fixed fishing gear or seines in any of the waters of this state.

28 (2) The [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commission** by rule  
 29 may permit fixed fishing gear or seines for the taking of certain species of food fish other than  
 30 salmon or steelhead from the waters of this state. In enacting any such rule the commission shall  
 31 give due consideration to [*insuring*] **ensuring** that the use of such fishing gear will not restrict the  
 32 free migration or impair the ultimate supply of salmon or steelhead. Any salmon or steelhead taken  
 33 as an incidental catch in operation of such gear shall immediately, with care and the least possible  
 34 injury to the salmon or steelhead, be released and transferred to the water without violence.

35 **SECTION 359.** ORS 509.230 is amended to read:

36 509.230. (1) Subject to the conditions provided in this section, ORS 509.216 and ORS chapter 513,  
 37 it is unlawful to have in possession any food fish taken in the waters of the Pacific Ocean outside  
 38 the territorial jurisdiction of this state by means of any fishing gear except as provided by law or  
 39 rule of the [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commission**, for:

40 (a) The purpose of commercially packing, canning or preserving the fish.

41 (b) The manufacture of fish meal, fish oil or other fish products or by-products.

42 (c) Sale as fresh fish for general consumption.

43 (d) Bait.

44 (2) It is also unlawful to take any salmon for commercial purposes in any of the waters of the  
 45 Pacific Ocean within the jurisdiction of this state or over which this state has concurrent jurisdic-

tion by means of any fishing gear other than by “troll.”

**SECTION 360.** ORS 509.240 is amended to read:

509.240. It is lawful to operate or use a net consisting of a single nylon or cotton web of a mesh not less than 14 inches, taut measure, hung or attached to not to exceed two lead lines combined and used as a single line and a single cork line, in any of the waters of this state, during any season or period closed to commercial fishing by law or by rule of the [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commission**, for the purpose of clearing away or removing snags or similar obstructions from gillnet drifts and other suitable or desirable fishing areas.

**SECTION 361.** ORS 509.245 is amended to read:

509.245. Any person desiring to operate a snagging net as provided in ORS 509.240 shall, before operating or attempting to so operate such net, obtain from the [*State Fish and Wildlife Director*] **Director of the Oregon Department of Natural Resources** a snagging permit by forwarding a written request to the office of the [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commission** specifically providing:

(1) The particular gillnet drift, fishing ground or other area to be cleared;

(2) The waters in which located;

(3) The mesh size of the snagging net to be used; and

(4) The dates on which or within which the proposed snagging operations will be carried on. In specifying any such dates, no one notice is valid for a period of more than 30 days from the date thereof.

**SECTION 362.** ORS 509.580 is amended to read:

509.580. As used in ORS 509.580 to 509.590, 509.600 to 509.645 and 509.910:

(1) “Artificial obstruction” means any dam, diversion, culvert or other human-made device placed in the waters of this state that precludes or prevents the migration of native migratory fish.

(2) “Construction” means:

(a) Original construction;

(b) Major replacement;

(c) Structural modifications that increase storage or diversion capacity; or

(d) For purposes of culverts, installation or replacement of a roadbed or culvert.

(3) “Emergency” means unforeseen circumstances materially related to or affected by an artificial obstruction that, because of adverse impacts to a population of native migratory fish, requires immediate action. The [*State Fish and Wildlife Director*] **Director of the Oregon Department of Natural Resources** may further define the term “emergency” by rule.

(4) “Fundamental change in permit status” means a change in regulatory approval for the operation of an artificial obstruction where the regulatory agency has discretion to impose additional conditions on the applicant, including but not limited to licensing, relicensing, reauthorization or the granting of new water rights, but not including water right transfers or routine maintenance permits.

(5) “In-proximity” means within the same watershed or water basin and having the highest likelihood of benefiting the native migratory fish populations directly affected by an artificial obstruction.

(6) “Native migratory fish” means those native fish that migrate for their life cycle needs and that are listed in the rules of the [*State Fish and Wildlife Director*] **Oregon Department of Natural Resources**.

(7) “Net benefit” means an increase in the overall, in-proximity habitat quality or quantity that

1 is biologically likely to lead to an increased number of native migratory fish after a development  
2 action and any subsequent mitigation measures have been completed.

3 (8) "Oregon Plan" means the guidance statement and framework described in ORS 541.405.

4 **SECTION 363.** ORS 509.585 is amended to read:

5 509.585. (1) It is the policy of the State of Oregon to provide for upstream and downstream  
6 passage for native migratory fish and the Legislative Assembly finds that cooperation and collab-  
7 oration between public and private entities is necessary to accomplish the policy goal of providing  
8 passage for native migratory fish and to achieve the enhancement and restoration of Oregon's native  
9 salmonid populations, as envisioned by the Oregon Plan. Therefore, except as provided in ORS  
10 chapter 509, fish passage is required in all waters of this state in which native migratory fish are  
11 currently or have historically been present.

12 (2) Except as otherwise provided by this section or ORS 509.645, a person owning or operating  
13 an artificial obstruction may not construct or maintain any artificial obstruction across any waters  
14 of this state that are inhabited, or historically inhabited, by native migratory fish without providing  
15 passage for native migratory fish.

16 (3) The [*State Department of Fish and Wildlife*] **Oregon Department of Natural Resources**  
17 shall complete and maintain a statewide inventory of artificial obstructions in order to prioritize  
18 enforcement actions based on the needs of native migratory fish. This prioritization shall include,  
19 but need not be limited to, the degree of impact of the artificial obstruction on the native migratory  
20 fish, the biological status of the native migratory fish stocks in question and any other factor es-  
21 tablished by the department by rule. The department shall establish a list of priority projects for  
22 enforcement purposes. Priority artificial obstructions are subject to the [*State Fish and Wildlife*  
23 *Commission's*] authority **of the Oregon Natural Resources Commission** as provided in ORS  
24 509.625. Unless requested by persons owning or operating an artificial obstruction, the department  
25 shall primarily direct its enforcement authority toward priority projects, emergencies and projects  
26 described in subsection (4) of this section. The priority project list shall be subject to periodic re-  
27 view and amendment by the department and to formal review and amendment by the commission  
28 no less frequently than once every five years.

29 (4) A person owning or operating an artificial obstruction shall, prior to construction, funda-  
30 mental change in permit status or abandonment of the artificial obstruction in any waters of this  
31 state, obtain a determination from the department as to whether native migratory fish are or his-  
32 torically have been present in the waters. If the department determines that native migratory fish  
33 are or historically have been present in the waters, the person owning or operating the artificial  
34 obstruction shall either submit a proposal for fish passage to the department or apply for a waiver  
35 pursuant to subsection (7) of this section. Approval of the proposed fish passage facility or of the  
36 alternatives to fish passage must be obtained from the department prior to construction, permit  
37 modification or abandonment of the artificial obstruction.

38 (5) Consistent with the purpose and goals of the Oregon Plan, the department shall seek coop-  
39 erative partnerships to remedy fish passage problems and to ensure that problems are corrected as  
40 soon as possible. The department and the person owning or operating the artificial obstruction are  
41 encouraged to negotiate the terms and conditions of fish passage or alternatives to fish passage,  
42 including appropriate cost sharing. The negotiations may include, but are not limited to, consider-  
43 ation of equitable factors.

44 (6) The department shall submit a proposed determination of the required fish passage or alter-  
45 natives to fish passage to the commission for approval. The determination may be the result of the

1 negotiations described in subsection (5) of this section or, if no agreement was reached in the ne-  
2 gotiations, a determination proposed by the department. If a protest is not filed within the time pe-  
3 riod specified in ORS 509.645, the proposed determination shall become a final order.

4 (7)(a) The commission shall waive the requirement for fish passage if the commission determines  
5 that the alternatives to fish passage proposed by the person owning or operating the artificial ob-  
6 struction provide a net benefit to native migratory fish.

7 (b) Net benefit to native migratory fish is determined under this subsection by comparing the  
8 benefit to native migratory fish that would occur if the artificial obstruction had fish passage to the  
9 benefit to native migratory fish that would occur using the proposed alternatives to fish passage.  
10 Alternatives to fish passage must result in a benefit to fish greater than that provided by the arti-  
11 ficial obstruction with fish passage. The net benefit to fish shall be determined based upon condi-  
12 tions that exist at the time of comparison.

13 (c) The [*State Fish and Wildlife Director*] **Director of the Oregon Department of Natural**  
14 **Resources** shall develop rules establishing general criteria for determining the adequacy of fish  
15 passage and of alternatives to fish passage. The general criteria shall include, but not be limited to:

16 (A) The geographic scope in which alternatives must be conducted;

17 (B) The type and quality of habitat;

18 (C) The species affected;

19 (D) The status of the native migratory fish stocks;

20 (E) Standards for monitoring, evaluating and adaptive management;

21 (F) The feasibility of fish passage and alternatives to fish passage;

22 (G) Quantified baseline conditions;

23 (H) Historic conditions;

24 (I) Existing native migratory fish management plans;

25 (J) Financial or other incentives and the application of incentives;

26 (K) Data collection and evaluation; and

27 (L) Consistency with the purpose and goals of the Oregon Plan.

28 (d) To the extent feasible, the department shall coordinate its requirements for adequate fish  
29 passage or alternatives to fish passage with any federal requirements.

30 (8) A person owning or operating an artificial obstruction may at any time petition the com-  
31 mission to waive the requirement for fish passage in exchange for agreed-upon alternatives to fish  
32 passage that provide a net benefit to native migratory fish as determined in subsection (7) of this  
33 section.

34 (9)(a) Artificial obstructions without fish passage are exempt from the requirement to provide  
35 fish passage if the commission:

36 (A) Finds that a lack of fish passage has been effectively mitigated;

37 (B) Has granted a legal waiver for the artificial obstruction; or

38 (C) Finds there is no appreciable benefit to providing fish passage.

39 (b) The commission shall review, at least once every seven years, the artificial obstructions ex-  
40 empted under this subsection that do not have an exemption expiration date to determine whether  
41 the exemption should be renewed. The commission may revoke or amend an exemption if it finds  
42 that circumstances have changed such that the relevant requirements for the exemption no longer  
43 apply. The person owning or operating the artificial obstruction may protest the decision by the  
44 commission pursuant to ORS 509.645.

45 (10) If the fundamental change in permit status is an expiration of a license of a federally li-

1 censed hydroelectric project, the commission's determination shall be submitted to the Federal En-  
 2 ergy Regulatory Commission as required by ORS 543A.060 to 543A.410.

3 (11) To the extent that the requirements of this section are preempted by the Federal Power  
 4 Act or by the laws governing hydroelectric projects located in waters governed jointly by Oregon  
 5 and another state, federally licensed hydroelectric projects are exempt from the requirements of this  
 6 section.

7 (12) A person subject to a decision of the **Oregon Natural Resources** Commission under this  
 8 section shall have the right to a contested case hearing according to the applicable provisions of  
 9 ORS chapter 183.

10 **SECTION 364.** ORS 509.590 is amended to read:

11 509.590. (1) The [*State Fish and Wildlife Director*] **Director of the Oregon Department of**  
 12 **Natural Resources** shall establish a Fish Passage Task Force to advise the director and the [*State*  
 13 *Department of Fish and Wildlife*] **Oregon Department of Natural Resources** on matters related to  
 14 fish passage in Oregon, including but not limited to funding, cost sharing and prioritization of ef-  
 15 forts. The director shall determine the members and the specific duties of the task force by rule.

16 (2) The department shall provide staff necessary for the performance of the functions of the task  
 17 force.

18 (3) A member of the task force may not receive compensation for services as a member of the  
 19 task force. In accordance with ORS 292.495, a member of the task force may receive reimbursement  
 20 for actual and necessary travel or other expenses incurred in the performance of official duties.

21 (4) The task force shall report semiannually to the appropriate legislative committee with re-  
 22 sponsibility for salmon restoration or species recovery, to advise the committee on matters related  
 23 to fish passage.

24 **SECTION 365.** ORS 509.595 is amended to read:

25 509.595. The [*State Fish and Wildlife Director*] **Director of the Oregon Department of Natural**  
 26 **Resources** shall report to the Governor, the Speaker of the House of Representatives, the President  
 27 of the Senate and the appropriate legislative committee with responsibility for salmon restoration  
 28 or species recovery:

29 (1) Prior to the adoption of rules relating to fish passage;

30 (2) Prior to the establishment of the general criteria for determining the adequacy of fish pas-  
 31 sage and of alternatives to fish passage required to be established under ORS 509.585 (7)(c); and

32 (3) Semiannually on the progress that the director has made in implementing ORS 509.580 to  
 33 509.590.

34 **SECTION 366.** ORS 509.600 is amended to read:

35 509.600. (1) A person may not willfully or knowingly destroy, injure or take fish within 600 feet  
 36 of any fishway, except as permitted by subsection (2) of this section. Actions that violate this section  
 37 include, but are not limited to:

38 (a) Hindering, annoying or disturbing fish entering, passing through, resting in or leaving such  
 39 fishway, or obstructing the passage of fish through the fishway at any time or in any manner.

40 (b) Placing anything in the fishway.

41 (c) Using any fishing gear within 600 feet of the fishway.

42 (d) Taking fish at any time anywhere within 600 feet of the fishway.

43 (e) Doing any injury to the fishway.

44 (2) The [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commission** may by  
 45 rule or by issuance of permits authorize the taking of fish within 600 feet of any fishway.

1        **SECTION 367.** ORS 509.610 is amended to read:

2        509.610. (1) Subject to ORS 509.645, when the [*State Department of Fish and Wildlife*] **Oregon**  
3 **Department of Natural Resources** requires fish passage to be provided pursuant to ORS 509.585,  
4 the person owning or operating an artificial obstruction shall keep the fish passage in such repair  
5 as to provide adequate fish passage of native migratory fish at all times.

6        (2) Each day of neglect or refusal to comply with subsection (1) of this section, after notification  
7 in writing by the department, constitutes a separate offense.

8        (3) A person owning or operating an artificial obstruction is responsible for maintaining, moni-  
9 toring and evaluating the effectiveness of fish passage or alternatives to fish passage.

10       **SECTION 368.** ORS 509.620 is amended to read:

11       509.620. If, in the judgment of the [*State Department of Fish and Wildlife*] **Oregon Department**  
12 **of Natural Resources**, fish passage is not functioning as intended or is inadequate, as constructed  
13 under ORS 509.585, the [*State Fish and Wildlife Commission*] **Oregon Natural Resources Com-**  
14 **mission** may condemn the fish passage and order new fish passage installed in accordance with  
15 plans and specifications determined by the department.

16       **SECTION 369.** ORS 509.625 is amended to read:

17       509.625. (1) The [*State Department of Fish and Wildlife*] **Oregon Department of Natural Re-**  
18 **sources** may determine or ascertain by inspection of any artificial obstruction whether it would be  
19 advisable to construct fish passage, or order the construction pursuant to ORS 509.585 of fish pas-  
20 sage, at the artificial obstruction. Without affecting other remedies to enforce the requirement to  
21 install fish passage, if the [*State Fish and Wildlife Commission*] **Oregon Natural Resources Com-**  
22 **mission** determines that an emergency exists, the commission may order the construction, pursuant  
23 to ORS 509.585, of fish passage in the waters of this state inhabited by native migratory fish as  
24 deemed adequate to provide passage for native migratory fish.

25       (2) Where fish passage has previously been constructed with or without the approval of the  
26 commission and has proved useless or inadequate for the purposes for which it is intended, the  
27 commission may improve or rebuild such fish passage. However, such construction or reconstruction  
28 shall not interfere with the prime purpose of the artificial obstruction. This subsection may not be  
29 construed to require the improvement or rebuilding of fish passage by the commission.

30       (3)(a) The commission may order a person owning or operating an artificial obstruction on the  
31 priority list created pursuant to ORS 509.585 who has been issued a water right, owners of lawfully  
32 installed culverts or owners of other lawfully installed obstructions to install fish passage or to  
33 provide alternatives to fish passage if the commission can arrange for nonowner or nonoperator  
34 funding of at least 60 percent of the cost.

35       (b) Notwithstanding paragraph (a) of this subsection, the commission may order installation of  
36 fish passage or alternatives to fish passage without regard to funding sources:

37       (A) If the person owning or operating the artificial obstruction is already subject to an obli-  
38 gation to install fish passage or to provide alternatives to fish passage under ORS 509.585;

39       (B) If the commission declares an emergency under this section; or

40       (C) If the person owning or operating the artificial obstruction has not been issued a water right  
41 or if the artificial obstruction has been otherwise unlawfully installed.

42       (4) If a person who owns or operates an artificial obstruction and who is required to provide fish  
43 passage under ORS 509.585 fails to provide fish passage in the manner and time required by the  
44 [*State Department of Fish and Wildlife*] **department**, the commission may remove, replace or repair  
45 the artificial obstruction or any parts of the obstruction at the expense of the owner or operator.

1        **SECTION 370.** ORS 509.630 is amended to read:

2        509.630. The [*State Department of Fish and Wildlife*] **Oregon Department of Natural Re-**  
 3 **sources** may determine or ascertain by inspection of any natural obstruction whether it would be  
 4 advisable to construct fish passage over or around such natural obstruction. If it is deemed advis-  
 5 able the [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commission** may con-  
 6 struct fish passage that provides adequate passage for native migratory fish in the waters of this  
 7 state inhabited by native migratory fish.

8        **SECTION 371.** ORS 509.635 is amended to read:

9        509.635. (1) The fishways over the falls in the Willamette River, near Oregon City, are under the  
 10 care and control of the [*State Fish and Wildlife Commission*] **Oregon Natural Resources Com-**  
 11 **mission**, which may make any extensions, additions, alterations or repairs to the same that become  
 12 necessary.

13        (2) The commission, or its duly authorized representatives, may remove any artificial ob-  
 14 structions placed in the Willamette River above the falls which would prevent the free passage of  
 15 fish up the river.

16        **SECTION 372.** ORS 509.645 is amended to read:

17        509.645. (1) A person owning or operating an artificial obstruction may request alternative dis-  
 18 pute resolution at any point in the process of determining fish passage requirements.

19        (2) A person owning or operating an artificial obstruction may file a protest with the [*State Fish*  
 20 *and Wildlife Commission*] **Oregon Natural Resources Commission** within 30 days from the receipt  
 21 of the [*State Department of Fish and Wildlife*] **Oregon Department of Natural Resources** deter-  
 22 minations under ORS 509.585. The person shall identify the grounds for protesting the department's  
 23 determinations.

24        (3) The commission may, after sufficient opportunity for public review and comment, approve,  
 25 deny or modify the proposed determinations.

26        **SECTION 373.** ORS 509.910 is amended to read:

27        509.910. (1) The [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commission**  
 28 may maintain an action for an injunction to enjoin and restrain any person, municipal corporation,  
 29 political subdivision or governmental agency of this state from violating any of the provisions of  
 30 ORS 509.130, 509.140, 509.505, 509.585, 509.610 and 509.625.

31        (2) Any action authorized by this section shall be tried in the circuit court of the county in  
 32 which the violation occurs or in Marion or Multnomah County.

33        (3) If the defendant is a corporation with its principal office and place of business in a county  
 34 other than in which the waters flow or are situated, such action shall be deemed an action of local  
 35 nature and service of summons made on a corporation in any county where the corporation has its  
 36 principal office and place of business. If it is a foreign corporation, service may be made on the  
 37 statutory agent but if there is no such statutory agent then upon the Secretary of State as in other  
 38 cases provided by law.

39        **SECTION 374.** ORS 511.070 is amended to read:

40        511.070. It shall be lawful for the [*State Fish and Wildlife Commission*] **Oregon Natural Re-**  
 41 **sources Commission** by rule to establish a season for commercial fishing for chum salmon and the  
 42 incidental take of salmon in Tillamook Bay. Such season may not exceed 30 calendar days total  
 43 length each year and may only be between October 25 and December 5. Fishing areas under this  
 44 section shall be limited to:

45        (1) Tillamook Bay except that portion of Hathaway Slough above a line extended due south from

1 a point on the northerly bank or shoreline of the slough 1,000 feet downstream from the Southern  
2 Pacific railroad trestle.

3 (2) The Miami River below a line drawn across the Miami River due north and south through  
4 a point 1,000 feet west from the northwest corner of the Southern Pacific railroad bridge crossing  
5 the Miami River.

6 (3) The Kilchis River below a point at the intersection of the Kilchis River by the section line  
7 between sections 11 and 12, township 1 south, range 10 west of the Willamette Meridian.

8 (4) The Wilson River below a point 500 feet below the bridge crossing the Wilson River in sec-  
9 tion 13, township 1 south, range 10 west of the Willamette Meridian.

10 (5) The Tillamook River below a point 100 feet below the mouth of Frasier Slough.

11 **SECTION 375.** ORS 513.020 is amended to read:

12 513.020. In order that all fish or parts thereof suitable for human consumption may be conserved  
13 and used for that purpose, and to provide sanitary methods and prevent waste in the use, sale,  
14 packing, preserving, manufacturing, processing or other handling of fish or fish products, other than  
15 salmon, the [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commission** may  
16 control and regulate fishing boats, barges, lighters or tenders, receptacles or vehicles containing fish  
17 or fishing gear, fish reduction plants or plants where fish products are manufactured, in so far as  
18 may be necessary to insure the taking, catching, delivery of fish, canning, packing, preserving, re-  
19 duction of and manufacture of fish products or by-products in a wholesome and sanitary manner, and  
20 to prevent deterioration or waste of any fish.

21 **SECTION 376.** ORS 513.030 is amended to read:

25 packed, preserved, manufactured, bought or sold, or board and inspect any fishing boat, barge,  
26 lighter or tender, receptacle or vehicle, containing fish, for the purpose of examining any fish or fish  
27 products and to ascertain the amount of fish received, or kind and amount of fish products packed  
28 or manufactured and the number and size of containers or cans for fish products purchased, re-  
29 ceived, used or on hand.

30 **SECTION 377.** ORS 513.040 is amended to read:

31 513.040. The [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commission**  
32 may:

33 (1) Control, regulate and establish, by order, the proportion or percentage of sardines, pilchards,  
34 herring or other species of fish other than salmon, to be used for reduction purposes or the manu-  
35 facture of fish flour, fish meal, fish scrap, fertilizer or oil, and may further, through such order,  
36 specifically name or prescribe the particular species of fish which may be used for reduction pur-  
37 poses, food for animals or other purposes.

38 (2) Exercise full jurisdiction and control over the processing, packing or preserving of sardines,  
39 and prescribe and specify the process to be used in the canning of such fishes in order to assure a  
40 quality product and prevent the use of certain substitute oils resulting in inferior grades.

41 **SECTION 378.** ORS 538.150 is amended to read:

42 538.150. The waters of Hackett Creek, a tributary of the Sandy River located in Clackamas  
43 County, and of the tributaries of Hackett Creek, are withdrawn from appropriation or condemnation  
44 and shall not be diverted or interrupted for any purpose whatsoever, except for protecting fish life  
45 therein by the [*State Fish and Wildlife Commission*] **Oregon Natural Resources Commission**.

1        **SECTION 379.** ORS 538.170 is amended to read:

2        538.170. (1) Except as provided in subsection (2) of this section, the waters of Johnson Creek, a  
3 tributary of the Willamette River and located in Multnomah and Clackamas Counties and all  
4 tributaries thereof, except flows of Crystal Springs Creek and its tributaries in excess of 10 cubic  
5 feet per second measured at the mouth of Crystal Springs Creek:

6        (a) Are withdrawn from appropriation or condemnation; and

7        (b) Shall not be diverted or interrupted for any purpose whatsoever, except for the purpose of  
8 protecting fish life therein by the [*State Department of Fish and Wildlife*] **Oregon Department of**  
9 **Natural Resources** or for the purpose of developing hydroelectric power not to exceed 25 theoret-  
10 ical horsepower if such hydroelectric development does not diminish perennial streamflow required  
11 for the maintenance of fish life.

12        (2) The tributaries withdrawn from appropriation and condemnation, but not the main channel,  
13 of Johnson Creek are open to appropriation and storage from December 1 to June 1 of each year.  
14 Water stored during this period may be used at any time.

15        **SECTION 380.** ORS 538.210 is amended to read:

16        538.210. ORS 538.200 shall not prevent the condemnation for public park purposes of any lands

18 of such lands in or to the waters of the creeks or streams; nor prevent the condemnation of any  
19 lands through which any of the streams flow, for the purpose of establishing, maintaining and op-  
20 erating thereon salmon fish culture work, nor prevent the [*State Fish and Wildlife Commission*]  
21 **Oregon Natural Resources Commission** from appropriating any waters for fish culture work; nor  
22 prevent the appropriation, for irrigation purposes, of waters between the Union Pacific Railroad  
23 tracks and the Columbia River that flow from any of the streams other than Herman Creek; pro-

32 County, is granted the exclusive right to use for municipal purposes all the waters of Big Butte  
33 Creek, a tributary of Rogue River situated in Jackson County, and of the springs at the head which  
34 form the creek, and of its tributaries. The City of Medford, any of its officers, and others on its  
35 behalf may appropriate all the waters for these purposes and an application therefor may be made  
36 for the benefit of the city, either by it in its own name, or by any of its officers or by any other  
37 person on its behalf. No person shall appropriate or be granted a permit to use any of the waters  
38 except as provided in this section, and for the use and benefit of the city. But the City of Medford  
39 may, under this grant, divert such waters from their watershed and convey them to the city and  
40 elsewhere for use by it for municipal purposes, either within or without the city limits. All of such  
41 waters are withdrawn from future appropriation, except for such use and benefit of the City of  
42 Medford; provided however, that the Eagle Point Irrigation District may establish and use an addi-  
43 tional point of diversion below the diversion point in use on April 1, 1953, under its permit number  
44 6396 which authorizes the appropriation of not to exceed 100 cubic feet per second.

45 (2) Subject to rights existing on July 21, 1953, to the use of the waters of Big Butte Creek, and

1 of the springs at the head which form the creek, and of its tributaries, including the rights granted  
 2 in subsection (1) of this section to the City of Medford to the use of such waters and the right of  
 3 future appropriation of such waters, the Eagle Point Irrigation District is granted the right to ap-  
 4 propriate and use up to and including 100 cubic feet per second of the waters of Big Butte Creek,  
 5 using the diversion site of the Eagle Point Irrigation District existing on April 1, 1953, for the pur-  
 6 pose of generating electric energy; provided, however, that not less than 10 cubic feet per second  
 7 of said waters shall be permitted to pass said diversion point and remain in the channel of said  
 8 stream at all times other than times when said waters are diverted for irrigation purposes. The  
 9 Eagle Point Irrigation District may:

10 (a) Enter into such contracts and perform such other acts as it deems necessary or desirable for  
 11 the generation of electric energy and the construction and maintenance of facilities for the gener-  
 12 ation of electric energy.

13 (b) Enter into such arrangements as it deems proper for the use, sale or distribution of the  
 14 electric energy which is generated.

15 (3) In performing any of the acts under subsection (2) of this section, the Eagle Point Irrigation  
 16 District shall not be deemed a public utility as defined in ORS 757.005.

17 (4) Subsections (1) and (2) of this section shall not prevent the appropriation of the waters of  
 18 Clark Creek, in Jackson County, for the development of hydroelectric power not to exceed two  
 19 megawatts if the facility will be constructed and operated in compliance with recommendations by  
 20 the [State Department of Fish and Wildlife] **Oregon Department of Natural Resources** concerning  
 21 fish conservation, including streamflow requirements based upon biological criteria.

22 **SECTION 384.** ORS 541.405 is amended to read:

23 541.405. (1) As used in this section when referring to salmonid recovery:

24 (a) "Listed unit" means one population or a group of populations of a species, such as an  
 25 evolutionarily significant unit, that has been listed as threatened or endangered under the federal  
 26 Endangered Species Act of 1973 (P.L. 93-205), as amended, or under ORS 496.171 to 496.192.

27 (b) "Native fish" means a fish indigenous to Oregon and not introduced. Naturally produced fish  
 28 and hatchery produced fish are both native fish if the fish are indigenous to Oregon and not intro-  
 29 duced.

30 (c) "Naturally produced" means a fish that reproduces and completes its full life cycle in its  
 31 natural habitat. Naturally produced progeny of hatchery fish are naturally produced.

32 (d) "Population" means a group of fish that:

33 (A) Originates and reproduces in a particular area at a particular time;

34 (B) Does not interbreed to any substantial degree with any other group reproducing in a dif-  
 35 ferent area or in the same area at a different time; and

36 (C) Is composed of naturally produced fish, hatchery produced fish or a combination of both.

37 (e) "Recovery" means that a proportion of the constituent populations of naturally produced  
 38 native fish belonging to a listed unit are sufficiently abundant, productive and diverse in life histo-  
 39 ries and distribution such that the listed unit as a whole is likely to be self-sustaining into the  
 40 foreseeable future.

41 (f) "Self-sustaining" means having a sufficient proportion and distribution of constituent popu-  
 42 lations:

43 (A) Likely to survive prolonged periods of habitat, oceanic, climatic and environmental condi-  
 44 tions that are detrimental to a population; and

45 (B) Having habitat of sufficient quality and quantity likely to provide survival rates adequate

1 to maintain associated ecological, cultural and economic benefits.

2 (2) The Legislative Assembly finds that the efforts of many Oregonians have resulted in the  
3 creation of the Oregon Plan, and recognizes that the Oregon Plan is guided by the following mission  
4 and goals:

5 (a) The mission of the Oregon Plan is to restore the watersheds of Oregon and to recover the  
6 fish and wildlife populations of those watersheds to productive and sustainable levels in a manner  
7 that provides substantial ecological, cultural and economic benefits.

8 (b) The goals of the Oregon Plan that guide the [citizens] **residents** of Oregon in achieving the  
9 mission of the Oregon Plan are the:

10 (A) Establishment and maintenance of an infrastructure that provides long-term continuity in  
11 leadership, direction and oversight of watershed restoration and species recovery.

12 (B) Continued opportunity for a wide range of natural resource uses that are consistent with  
13 watershed restoration and species recovery.

14 (C) Implementation of existing laws and environmental regulations to achieve the mission before  
15 enacting new laws and environmental regulations.

16 (D) Development and maintenance of funding for programs to protect and restore watersheds.

17 (E) Development of expectations for the sustainability of interrelated natural resources that  
18 accurately reflect a scientific understanding of the physical and biological constraints of the  
19 ecosystem.

20 (F) Enhancement of habitat available to support healthy populations of fish and wildlife  
21 throughout the state.

22 (G) Production of populations of threatened or endangered species to achieve levels of natural  
23 production consistent with overall restoration goals.

24 (H) Establishment of a science-based system that supports evaluation of the Oregon Plan and  
25 provides a basis for making appropriate future changes to management programs.

26 (I) Coordination of activities and programs among federal, state and local governments and other  
27 entities.

28 (J) Use of voluntary and collaborative processes to achieve the mission of the Oregon Plan  
29 whenever possible.

30 (3) The Oregon Plan is a comprehensive program for the protection and recovery of species and  
31 for the restoration of watersheds throughout this state. The Oregon Plan combines the regulatory  
32 and other actions of state and federal agencies and local governments with voluntary watershed  
33 restoration by private landowners and others. The Oregon Plan includes, but is not limited to:

34 (a) Programs and policies found in the following statutes:

35 (A) ORS 196.600 to 196.905;

5 (b) Commitments of state agencies in the form of measures;  
6 (c) Actions of local governments and federal agencies taken in coordination with the state and  
7 consistent with the purposes of the Oregon Plan;  
8 (d) Voluntary activities undertaken by watershed councils, soil and water conservation districts,  
9 landowners and other entities and consistent with the purposes of the Oregon Plan;

11 tivities performed under the Oregon Plan;  
12 (f) Programs and activities identified to address a coordinated approach for the recovery of na-  
13 tive salmonid populations within Oregon;  
14 (g) The guidance statement and framework provided by the healthy streams partnership devel-  
15 oped to provide cooperative solutions and voluntary approaches to improving the water quality of  
16 streams and to achieve healthy streams throughout Oregon; and  
17 (h) Programs for the restoration and enhancement of multiple species and of the habitat of those  
18 species.
- 19 (4) The Oregon Plan is subject to modification and alteration to enhance program efforts con-  
20 sistent with appropriate guidance principles developed by the Legislative Assembly.
- 21 (5) The purpose of the Oregon Plan is to enhance, restore and protect Oregon's native salmonid  
22 populations, watersheds, fish and wildlife habitat and water quality, while sustaining a healthy  
23 economy.
- 24 (6) The Oregon Plan shall:
- 25 (a) Provide for coordination of local, state, federal and tribal agency responsibilities and au-  
26 thorities for native salmonid, watershed and habitat restoration throughout Oregon.
- 27 (b) Rely on watershed councils and soil and water conservation districts, which are directed to  
28 cooperate in the development of local watershed plans that assess watershed conditions and create  
29 watershed action plans and strategies for the implementation of the local watershed action plans.
- 30 (c) Focus state policies and resources on achieving native salmonid recovery and watershed  
31 restoration while sustaining a healthy economy and environment.
- 32 (7) The Oregon Plan shall focus on aiding the recovery of species listed as threatened or en-  
33 dangered under the federal Endangered Species Act or under ORS 496.171 to 496.192 until such time  
34 as recovery is achieved. Once recovery has been achieved for any species listed as threatened or  
35 endangered under ORS 496.171 to 496.192, the Governor shall direct the [*State Fish and Wildlife*  
36 *Commission*] **Oregon Natural Resources Commission** to begin rulemaking, as provided in ORS  
37 496.176, to remove the species from the list created pursuant to ORS 496.172. Upon recovery, ade-  
38 quate measures pursuant to the Oregon Plan shall remain in place, as necessary, to help a species  
39 avoid a return to threatened or endangered status.
- 40 (8)(a) The Governor, or the Governor's designee, shall negotiate with federal officials to obtain  
41 assurances to the effect that compliance with the Oregon Plan and the programs and policies found  
42 in the statutes listed in subsection (3) of this section and implementation of related state programs  
43 and policies will satisfy federal requirements imposed by the federal Endangered Species Act. Spe-  
44 cifically, the Governor, or the Governor's designee, shall seek an exemption to the requirements of  
45 16 U.S.C. 1533(d), shall seek to enter into a cooperative agreement pursuant to 16 U.S.C. 1535(c) or

1 shall seek to obtain a permit that allows the incidental taking of species under 16 U.S.C. 1539(a).

2 (b) State agencies responsible for implementing the programs and policies found in the statutes  
3 listed in subsection (3) of this section shall work with the Governor, or the Governor's designee, and

5 permit specified in paragraph (a) of this subsection.

6 **SECTION 385.** ORS 541.423 is amended to read:

7 541.423. (1) As used in this section, "stewardship agreement" means an agreement voluntarily  
8 entered into and signed by a landowner, or representative of the landowner, and the State Depart-  
9 ment of Agriculture or the [*State Board of Forestry*] **Oregon Natural Resources Commission** that  
10 sets forth the terms under which the landowner will self-regulate to meet and exceed applicable  
11 regulatory requirements and achieve conservation, restoration and improvement of fish and wildlife  
12 habitat or water quality.

13 (2) The [*State Department of Agriculture and the State Board of Forestry*] **department and the**  
14 **commission** may, individually or jointly, enter into stewardship agreements with landowners.

16 (a) An incentive for landowners to provide for conservation, restoration and improvement of fish  
17 and wildlife habitat or water quality;

18 (b) A mechanism to coordinate, facilitate and memorialize a landowner's compliance with the  
19 requirements of state and federal regulatory schemes; and

20 (c) A mechanism to combine or coordinate multiple incentive programs among agencies and  
21 levels of government to:

22 (A) Improve the delivery of financial and technical assistance to landowners engaged in con-  
23 servation activities;

33 parcels of eligible land; and

34 (J) Give landowners an increased level of regulatory certainty.

35 (4) The [*State Board of Forestry and the State Department of Agriculture, in consultation with the*

37 cedures and criteria for stewardship agreements. The procedures and criteria shall include, but need  
38 not be limited to:

39 (a) The certification of a land management plan which shall, at a minimum, include:

40 (A) A comprehensive description and inventory of the subject property, its features and uses;  
41 and

42 (B) A prescription for the protection of resources that exceeds land management practices,  
43 standards and activities otherwise required by law and that is designed to achieve conservation,  
44 restoration and improvement of fish and wildlife habitat or water quality.

45 (b) A requirement that each landowner subject to a stewardship agreement demonstrate a clear

1 capability to carry out the provisions of the land management plan and have a past record of good  
2 compliance with applicable laws and regulations regarding land use and management.

3 (5) Each government agency that is a party to a stewardship agreement shall conduct periodic  
4 audits on lands subject to the stewardship agreement to determine whether the land management

14 *culture or the State Board of Forestry*] **department or the commission** may provide a landowner  
15 with an increased level of regulatory certainty regarding state rules. The stewardship agreement  
16 may identify specific voluntary landowner actions that exceed regulatory requirements. In return,  
17 the [*State Department of Agriculture or the State Board of Forestry*] **department or the commission**  
18 may agree to exempt the landowner from future changes to a specific rule.

19 (8) The [*State Department of Agriculture and the State Board of Forestry*] **department and the**  
20 **commission** may, individually or jointly, make a binding determination that activities undertaken  
21 by a particular landowner, or a representative of the landowner, as part of a stewardship agreement  
22 are consistent with the purposes and policies of any relevant Safe Harbor Agreements or Candidate  
23 Conservation Agreements entered into between the State of Oregon and agencies of the United  
24 States Government, pursuant to the federal Endangered Species Act of 1973 (P.L. 93-205, 16 U.S.C.  
25 1531 et seq.) and federal regulations.

27 564.105. The Director of Agriculture has the responsibility to protect and conserve the native  
28 plants of this state that are threatened species or endangered species. In carrying out that respon-  
29 sibility, the director:

30 (1) Shall conduct investigations of plant species native to this state and determine whether any  
31 such species is a threatened species or an endangered species.

32 (2) By rule, shall establish and publish, and from time to time may revise, a list of plant species  
33 that are threatened species or endangered species.

34 (3) By rule, shall establish programs for the protection and conservation of plant species that  
35 are threatened species or endangered species. As used in this subsection, "conservation" means the  
36 use of methods and procedures necessary to bring a species to the point at which the measures  
37 provided under ORS 564.105 to 564.120 are no longer necessary. The methods and procedures in-  
38 clude, but are not limited to, activities associated with scientific resources management such as re-  
39 search, census, law enforcement, habitat acquisition and maintenance, propagation and  
40 transplantation.

41 (4) By rule, shall establish a system of permits for scientific taking of threatened species and  
42 endangered species under terms and conditions that the director determines will minimize the im-  
43 pact on the species taken.

44 (5) Shall cooperate with the [*State Fish and Wildlife Commission*] **Oregon Natural Resources**  
45 **Commission** in carrying out the provisions of ORS 496.172.

 27 **sources**, after consultation with the State Marine Board, the State Department of Agriculture and  
 28 the Department of State Police, shall report biennially to the Legislative Assembly on efforts to  
 29 prevent aquatic invasive species from entering this state and may include in the report suggested  
 30 legislation necessary to more effectively prevent aquatic invasive species from entering this state.

31 (2) Reports to the Legislative Assembly required under this section must be made in accordance  
 32 with ORS 192.245.

30 (2) Each plan adopted under subsection (1) of this section shall be prepared in cooperation with  
31 and with the concurrence of all cities within the county that have lands within their respective  
32 boundaries that are adjacent or contiguous to Bear Creek.

33 (3) After the adoption of a plan under subsection (1) of this section, the governing body of a city  
34 in Jackson County or of Jackson County may apply to the [*State Parks and Recreation Department*]  
35 **Oregon Natural Resources Commission** under ORS 390.255 for grants of money to be used by the  
36 city or county in the acquisition of lands or any interests therein to carry out any such plan.

37 **SECTION 477.** ORS 390.255 is amended to read:

38 390.255. (1) The [*State Parks and Recreation Department*] **Oregon Natural Resources Com-**  
39 **mission** may enter into agreements with cities in Jackson County and with Jackson County and  
40 make grants of money from such funds as may be available therefor to assist them in acquiring any  
41 lands or any interest therein for scenic, park and recreational purposes in accordance with a plan  
42 adopted by the governing body of Jackson County. The grants of money that may be made by the  
43 department for the acquisition of any lands or interests shall not be less than 50 percent of such  
44 acquisition cost subject to availability of funds therefor. All remaining costs, including but not lim-  
45 ited to future operation and maintenance costs, shall be borne by the city or county in a manner

1 satisfactory to the department. No grant of money shall be made by the department under this sub-  
 2 section for any lands or interests acquired by a city or county prior to July 22, 1973.

3 (2) The department may require such information, as it considers advisable, from a city or the  
 4 county applying for a grant of money under ORS 390.250 (3). The department may impose such  
 5 conditions on the agreements entered into under subsection (1) of this section and on the use of  
 6 moneys granted pursuant thereto as the department considers necessary in carrying out the state  
 7 policy declared in ORS 390.010.

8 **SECTION 478.** ORS 390.280 is amended to read:

9 390.280. In addition to the other duties of the [*State Parks and Recreation Department*] **Oregon**  
 10 **Department of Natural Resources**, the department shall:

11 (1) Make grants to cities, counties and rural fire protection districts to reimburse [*them*] **the**  
 12 **cities, counties and rural fire protection districts** for funds used to make capital acquisitions for  
 13 and pay expenses incurred in providing lifesaving services along the ocean shore as provided in ORS  
 14 390.285 and 390.290.

15 (2) Determine the eligibility of a city, county or rural fire protection district for, and the  
 16 amounts of, such matching fund grants.

17 (3) Establish and adopt minimum standards for lifesaving services at such places.

18 (4) Advise governing bodies how to acquire and qualify for matching fund grants.

19 (5) Adopt rules to carry out ORS 390.270 to 390.290.

20 **SECTION 479.** ORS 390.285 is amended to read:

21 390.285. (1) To obtain a grant for reimbursement of the expenses incurred in providing lifesaving  
 22 services along the ocean shore, a governing body of a city, county or rural fire protection district  
 23 shall file with the [*State Parks and Recreation Department*] **Oregon Department of Natural Re-**  
 24 **sources** a request for reimbursement of funds used during the prior fiscal year for capital acqui-  
 25 sitions made and to pay expenses incurred for direct program costs in providing such services. The  
 26 request shall include:

27 (a) A detailed statement of the funds expended for such services or capital acquisitions during  
 28 the prior fiscal year, and shall indicate the source of such funds; and

29 (b) Such other information as may be required by the department.

30 (2) To be entitled to continue to receive a grant for reimbursement as authorized by ORS 390.270  
 31 to 390.290, the city, county or rural fire protection district with its request to the department shall  
 32 submit a report of the capital acquisitions made and the lifesaving services provided during the  
 33 previous year.

34 **SECTION 480.** ORS 390.290 is amended to read:

35 390.290. (1) Expenditures made from city, county or rural fire protection district funds to provide  
 36 lifesaving services along the ocean shore shall be reimbursed by the [*State Parks and Recreation*  
 37 *Department*] **Oregon Department of Natural Resources** in accordance with this section.

38 (2) Within the limit of the funds available therefor, there shall be paid to an applicant city,  
 39 county or rural fire protection district, on account of expenditures subject to reimbursement, 75

 41 fiscal year.

42 (3) Upon approval of a request of a governing body, the department shall enter into a matching  
 43 fund relationship to reimburse the funds used to pay expenses of providing such lifesaving services.

44 (4) When approved by the department, claims by a city or county for reimbursement under sub-  
 45 sections (2) and (3) of this section shall be presented for payment and paid from the City and County

1 Subaccount of the [*State Parks and Recreation Department Fund*] **Oregon Natural Resources Fund**  
 2 in the manner other claims against that account are paid[;]. However, if in any fiscal year the ag-  
 3 gregate amount of the grants approved exceeds the funds available in that subaccount for the pur-  
 4 poses of ORS 390.270 to 390.290, the department shall prorate the available funds among the grants  
 5 approved.

6 (5) When approved by the department, claims by a rural fire protection district under sub-  
 7 sections (2) and (3) of this section shall be presented for payment and paid from the Fire Protection  
 8 District Subaccount of the [*State Parks and Recreation Department Fund*] **Oregon Natural Re-**  
 9 **sources Fund** in the manner other claims against that account are paid. However, if in any fiscal  
 10 year the aggregate amount of the grants approved exceeds the funds available in that subaccount  
 11 for the purposes of ORS 390.270 to 390.290, the department shall prorate the available funds among  
 12 the grants approved.

13 **SECTION 481.** ORS 390.300 is amended to read:

14 390.300. (1) The Tillamook Forest Recreation Trust Account is established as a subaccount in  
 15 the Parks Donation Trust Fund established pursuant to ORS 390.153. All gifts or donations of money  
 16 received by the state for purposes of developing or implementing the recreation plan described in  
 17 section 1, chapter 889, Oregon Laws 1991, shall be deposited with the State Treasurer and credited  
 18 to the subaccount.

19 (2) Moneys in the Tillamook Forest Recreation Trust Account subaccount are continuously ap-  
 20 propriated to the [*State Parks and Recreation Department*] **Oregon Department of Natural Re-**  
 21 **sources** for the purposes specified in the gift or donation or, if no purpose is specified, for purposes  
 22 consistent with the recreation plan [*established under ORS 390.295 and this section*].

23 **SECTION 482.** ORS 390.314 is amended to read:

24 390.314. (1) The Legislative Assembly finds that, to protect and preserve the natural, scenic and  
 25 recreational qualities of lands along the Willamette River, to preserve and restore historical sites,  
 26 structures, facilities and objects on lands along the Willamette River for public education and en-  
 27 joyment and to further the state policy established under ORS 390.010, it is in the public interest  
 28 to develop and maintain a natural, scenic, historical and recreational greenway upon lands along the  
 29 Willamette River to be known as the Willamette River Greenway.

30 (2) In providing for the development and maintenance of the Willamette River Greenway, the  
 31 Legislative Assembly:

32 (a) Recognizing the need for coordinated planning for such greenway, finds it necessary to pro-  
 33 vide for development and implementation of a plan for such greenway through the cooperative ef-  
 34 forts of the state and units of local government.

35 (b) Recognizing the need of the people of this state for existing residential, commercial and ag-  
 36 ricultural use of lands along the Willamette River, finds it necessary to permit the continuation of  
 37 existing uses of lands that are included within such greenway; but, for the benefit of the people of  
 38 this state, also to limit the intensification and change in the use of such lands so that such uses  
 39 shall remain, to the greatest possible degree, compatible with the preservation of the natural, scenic,  
 40 historical and recreational qualities of such lands.

41 (c) Recognizing that the use of lands for farm use is compatible with the purposes of the  
 42 Willamette River Greenway, finds that the use of lands for farm use should be continued within the  
 43 greenway without restriction.

44 (d) Recognizing the need for central coordination of such greenway for the best interests of all  
 45 the people of this state, finds it necessary to place the responsibility for the coordination of the

1 development and maintenance of such greenway in the [*State Parks and Recreation Department*]

2 **Oregon Department of Natural Resources.**

3 (e) Recognizing the lack of need for the acquisition of fee title to all lands along the Willamette  
4 River for exclusive public use for recreational purposes in such greenway, finds it necessary to limit  
5 the area within such greenway that may be acquired for state parks and recreation areas and for  
6 public recreational use within the boundaries of units of local government along the Willamette  
7 River.

8 **SECTION 482a.** ORS 390.318 is amended to read:

9 390.318. (1) The [*State Parks and Recreation Department*] **Oregon Department of Natural Re-**  
10 **sources**, in cooperation with units of local government that have lands along the Willamette River  
11 within their respective boundaries, shall prepare a plan for the development and management of the  
12 Willamette River Greenway as described in ORS 390.314. Such plan may be prepared for segments  
13 of the Willamette River and may be submitted as segments for approval under ORS 390.322. Such  
14 plan shall specify the boundaries of the Willamette River Greenway and the lands and interests in  
15 land situated within such boundaries to be acquired in the development of such greenway. There  
16 shall be included within the boundaries of the Willamette River Greenway all lands situated within  
17 150 feet from the ordinary low water line on each side of each channel of the Willamette River and  
18 such other lands along the Willamette River as the department and units of local government con-  
19 sider necessary for the development of such greenway; however, the total area included within the  
20 boundaries of such greenway shall not exceed, on the average, 320 acres per river mile along the  
21 Willamette River. The Willamette River Greenway shall also include all islands and all state parks  
22 and recreation areas situated along the Willamette River; however, for the purposes of computing  
23 the maximum acreage of lands within such greenway, the acreage of lands situated on such islands  
24 and within such state parks and recreation areas shall be excluded.

25 (2) The plan prepared pursuant to subsection (1) of this section, shall depict, through the use  
26 of descriptions, maps, charts and other explanatory materials:

27 (a) The boundaries of the Willamette River Greenway.

28 (b) The boundaries of lands acquired or to be acquired as state parks and recreation areas under  
29 ORS 390.338.

30 (c) The lands and interests in lands acquired or to be acquired by units of local government  
31 under ORS 390.330 to 390.360.

32 (d) Lands within the Willamette River Greenway for which the acquisition of a scenic easement,  
33 as provided in ORS 390.332, is sufficient for the purposes of such greenway.

34 (3) The plan shall include the location of all known subsurface mineral aggregate deposits situ-  
35 ated on lands within the boundaries of the Willamette River Greenway.

36 **SECTION 483.** ORS 390.322 is amended to read:

37 390.322. (1) Following the preparation of the plan or any segment thereof under ORS 390.318, the  
38 [*State Parks and Recreation Department shall submit such plan or segment to the Land Conservation*  
39 *and Development Commission. The commission shall investigate and review such*] **Oregon Natural**  
40 **Resources Commission shall investigate and review the** plan or segment as [*it*] **the commission**  
41 considers necessary. If the commission finds that the plan or segment complies with ORS 390.310 to  
42 390.368, [*it*] **the commission** shall approve the plan or segment. If the commission finds revision of  
43 any part of the submitted plan or segment to be necessary, [*it*] **the commission** may revise the plan  
44 or segment [*itself or require such revision by the department and units of local government*] **or may**  
45 **require the appropriate units of local government to revise the plan or segment.**

1 (2) Upon approval of the plan for the Willamette River Greenway or segment thereof, the com-  
 2 mission shall cause copies of such plan or segment to be filed with the recording officer for each  
 3 county having lands within the Willamette River Greenway situated within its boundaries. Such plan  
 4 or segment filed as required by this subsection shall be retained in the office of the county recording  
 5 officer open for public inspection during reasonable business hours.

6 (3) If the plan for the Willamette River Greenway is prepared and approved in segments, the  
 7 total of all such approved segments shall constitute the plan for the Willamette River Greenway for  
 8 the purposes of ORS 390.310 to 390.368. The department and units of local government, with the  
 9 approval of the commission, may revise the plan for the Willamette River Greenway from time to  
 10 time.

11 **SECTION 484.** ORS 390.330 is amended to read:

12 390.330. (1) The [*State Parks and Recreation Department*] **Oregon Department of Natural Re-**  
 13 **sources** may enter into agreements with units of local government and make grants of money to  
 14 assist units of local government in acquiring lands or any interest in lands situated within the  
 15 boundaries of the Willamette River Greenway for exclusive public use for scenic and recreational  
 16 purposes and to assist units of local government in preserving and restoring historical sites, struc-  
 17 tures, facilities and objects on lands along the Willamette River as may be determined by the de-  
 18 partment to be in accordance with the plan approved under ORS 390.322 and to further the purposes  
 19 of the Willamette River Greenway as set forth in ORS 390.314. Each such agreement shall provide  
 20 for the transfer by the department to the unit of local government of any scenic or public easement  
 21 acquired by the department under ORS 390.310 to 390.368 with respect to lands acquired by the unit  
 22 of local government under this section. The grants of money that may be made by the department  
 23 for any property or property rights or for the initial preservation and restoration of historical sites,  
 24 structures, facilities and objects shall not exceed 50 percent of the cost thereof. All remaining costs,  
 25 including future operation and maintenance, shall be borne by the unit or units of local government  
 26 in a manner satisfactory to the department. No grant of money shall be made by the department for  
 27 property acquired by any unit of local government prior to June 30, 1967, or for costs incurred by  
 28 any unit of local government prior to October 5, 1973, in the preservation and restoration of his-  
 29 torical sites, structures, facilities and objects.

30 (2) Except as provided in subsection (3) of this section, a unit of local government is not au-  
 31 thorized, for the purposes of this section, to acquire water rights or installations used in connection  
 32 with such water rights or to acquire any property or property rights by condemnation.

33 (3) A city, in the acquisition of any property or property rights within the boundaries of the  
 34 Willamette River Greenway with grants of money made under this section, may use any power of  
 35 condemnation otherwise provided by law for use by the city in such acquisition.

36 **SECTION 485.** ORS 390.332 is amended to read:

37 390.332. (1) Except as otherwise provided in subsection (4) of this section, the [*State Parks and*  
 38 *Recreation Department*] **Oregon Department of Natural Resources** may acquire scenic easements  
 39 on any lands situated within 150 feet from the ordinary low water line on each side of each channel  
 40 of the Willamette River and on any lands situated within 150 feet from the ordinary low water line  
 41 of each island within the Willamette River. The department may acquire such easements by any  
 42 method, including but not limited to the exercise of the power of eminent domain.

43 (2) Each scenic easement acquired under subsection (1) of this section shall:

44 (a) Be designed to preserve the vegetation along the Willamette River and the natural and sce-  
 45 nic qualities of the lands subject to such easements and authorize the department, at its own ex-

1 pense, to engage in natural vegetative landscaping on such lands to enhance the natural and scenic  
2 qualities of such lands.

3 (b) Require the owner of the lands subject to such easement to carry on the use of such lands  
4 in a manner to preserve the existing vegetation and natural and scenic qualities of such lands and  
5 require the repair by the department, at its own expense, of any damage resulting from natural  
6 causes to vegetation on such lands.

7 (c) Not provide for public access or use of the lands subject to such easement, if such easement  
8 was acquired by the department through the exercise of the power of eminent domain.

9 (d) Provide that any subsequent farm use, as defined in ORS 215.203 (2), of the land subject to  
10 such easement is compatible with the purposes of the Willamette River Greenway and that any re-  
11 strictions on the use of the land under such easement are suspended while such land is devoted to  
12 such farm use.

13 (e) Prevent the change in use of the lands subject to such easements except with the consent  
14 of the department and in accordance with the conditions imposed with such consent. The consent  
15 of the department and the conditions imposed therewith shall be in accordance with the intent and  
16 purposes of the Willamette River Greenway.

17 (3) Each scenic easement acquired under this section on lands that, on the date of the acqui-  
18 sition of such easement, were a part of a larger tract of land not subject to a scenic easement under  
19 ORS 390.310 to 390.368, shall provide for the right of the department to acquire fee title to the lands  
20 subject to such easement upon a change in the use of the lands in the remainder of such tract that  
21 is inconsistent with such scenic easement under ORS 390.310 to 390.368.

22 (4) The department may not acquire, through the exercise of the power of eminent domain, sce-  
23 nic easements under subsection (1) of this section on any lands that on October 5, 1973, were de-  
24 voted to farm use, as defined in ORS 215.203 (2) or were a portion of a larger tract of land under  
25 single ownership that is devoted to such use. Upon a change in the use of any such lands from farm  
26 use, the department may acquire scenic easements in such lands as provided in ORS 390.334. Noth-  
27 ing in this subsection is intended to limit the power of the department to acquire, by any means  
28 other than the exercise of the power of eminent domain, a scenic easement on lands described in this  
29 subsection while such lands are devoted to such farm use.

30 **SECTION 486.** ORS 390.334 is amended to read:

31 390.334. (1) Except as otherwise provided in subsection (2) of this section, after the date of the  
32 approval of the plan for the Willamette River Greenway or any segment thereof under ORS 390.322,  
33 the [*State Parks and Recreation Department*] **Oregon Department of Natural Resources** may ac-  
34 quire scenic easements in any lands described in such plan or segment pursuant to ORS 390.318  
35 (2)(d). Each such easement may be acquired by any means, including but not limited to the exercise  
36 of the power of eminent domain.

37 (2) The department shall not acquire, through the exercise of the power of eminent domain,  
38 scenic easements in any lands situated within the boundaries of the Willamette River Greenway that  
39 are devoted to farm use on October 5, 1973, while such lands remain devoted to farm use. Upon a  
40 change in the use of any such lands from farm use, the department may acquire scenic easements  
41 in such lands as provided in subsection (1) of this section. Nothing in this subsection is intended  
42 to limit the power of the department to acquire, by any means other than the exercise of the power  
43 of eminent domain, a scenic easement on lands described in this subsection while such lands are  
44 devoted to such farm use. For the purpose of this subsection, "farm use" has the meaning given that  
45 term in ORS 215.203 (2).

1 (3) Each scenic easement acquired under subsection (1) of this section shall:

2 (a) Specify the use of the land existing on the date of the acquisition of the easement and permit  
3 the continuation of such use while the land is subject to such easement.

4 (b) With respect to scenic easements acquired through the exercise of the power of eminent  
5 domain, not provide for any rights of public access to or use of such lands under such easements.

6 (c) Provide that any subsequent farm use, as defined in ORS 215.203 (2), of the land subject to  
7 such easement is compatible with the purposes of the Willamette River Greenway and that any re-  
8 strictions on the use of the land under such easement are suspended while such land is devoted to  
9 such farm use.

10 (d) Prevent the change in use of the lands subject to such easements except with the consent  
11 of the department and in accordance with the conditions imposed with such consent. The consent  
12 of the department and the conditions imposed therewith shall be in accordance with the intent and  
13 purposes of the Willamette River Greenway.

14 (4) In addition to a scenic easement acquired by the department under this section, the depart-  
15 ment may acquire, by any means other than the exercise of the power of eminent domain, a public  
16 easement providing for public access and use of such lands.

17 (5) At any time after the approval of the plan for the Willamette River Greenway or any seg-  
18 ment thereof under ORS 390.322, the department may acquire, by any means other than the exercise  
19 of the power of eminent domain, lands or interests therein that are situated outside the boundaries  
20 of the Willamette River Greenway or the segment thereof as approved. Each such acquisition shall  
21 be designed to preserve the natural or scenic character of such lands in conjunction with the lands  
22 within the boundaries of the Willamette River Greenway.

23 **SECTION 487.** ORS 390.338 is amended to read:

24 390.338. (1) Notwithstanding ORS 390.121, the [*State Parks and Recreation Department*] **Oregon**  
25 **Department of Natural Resources** may [*only*] exercise the power of eminent domain **only** in the  
26 acquisition of lands or interests therein that are situated within the boundaries of the Willamette  
27 River Greenway for state parks or recreation areas in the parcels of land described in section 8a,  
28 chapter 558, Oregon Laws 1973.

29 (2) If any land acquired by the department under subsection (1) or (4) of this section is a part  
30 of a larger tract of land devoted to farm use on the date of the acquisition of such portion of the  
31 tract and such acquisition would render uneconomic an otherwise economic farming unit on the  
32 whole tract of land, upon the request of the owner of such tract of land, the department shall pur-  
33 chase the entire tract of land. The department shall, whenever practicable, acquire the remainder  
34 of any such tract of land with state funds so that the subsequent disposition of any such land will  
35 not be subject to restrictions imposed under agreements made for the receipt of nonstate funds  
36 otherwise available for the acquisition of such lands.

37 (3) The department may dispose of lands acquired pursuant to subsection (2) of this section that  
38 are located outside the boundaries of the Willamette River Greenway as it considers advisable.  
39 However, the disposition of any such lands must comply with the laws of this state and the appli-  
40 cable provisions of any agreement by which the department acquired funds for the purchase of such  
41 lands.

42 (4) Notwithstanding ORS 390.121, the department may [*only*] acquire, by any means other than  
43 the exercise of eminent domain, for state parks and recreation areas, **only** lands and interests in  
44 lands that are situated within the boundaries of the Willamette River Greenway and that are situ-  
45 ated outside the boundaries of the parcels of land described in section 8a, chapter 558, Oregon Laws

1 1973.

2 (5) In the acquisition of any lands pursuant to subsections (1), (2) and (4) of this section, the  
3 department shall include in the compensation and damages, if any, paid for such lands:

4 (a) As a part of the compensation, in valuing such lands as a whole, paid for any such lands  
5 acquired without condemnation proceedings initiated as provided in ORS 35.235, the estimated mar-  
6 ket value of economically extractable subsurface mineral aggregate deposits of reasonably foresee-  
7 able demand known to exist in such lands or shown by the owner to exist in such lands.

8 (b) As a part of the compensation and damages, if any, in valuing such lands as a whole, for the  
9 appropriation of any such lands, acquired by the department after the commencement of condemna-  
10 tion proceedings under ORS 35.235 but not pursuant to an award in a condemnation action initiated  
11 under ORS 35.245, the estimated market value of economically extractable subsurface mineral ag-  
12 gregate deposits of reasonably foreseeable demand agreed upon by the department and the owner  
13 of lands so acquired.

14 (c) As a part of the true value and damages, in valuing such lands as a whole, for the appro-  
15 priation of such lands acquired by award in a condemnation action initiated under ORS 35.245, the  
16 estimated market value of economically extractable subsurface mineral aggregate deposits of rea-  
17 sonably foreseeable demand alleged in the answer of the defendant made pursuant to ORS 35.295  
18 and proved by the defendant as a matter of defense to be a part of the true value of such lands so  
19 acquired.

20 (6) This section does not apply to the acquisition of any lands or interests therein acquired for  
21 state parks or recreation areas prior to October 5, 1973, and to any lands or interests in land subject  
22 to a legally enforceable option held by the state on October 5, 1973, for the purposes of the acqui-  
23 sition of such lands or interests for state parks and recreation areas.

24 **SECTION 488.** ORS 390.340 is amended to read:

25 390.340. The [*State Parks and Recreation Department*] **Oregon Department of Natural Re-**  
26 **sources** shall make and promulgate rules and regulations that it considers necessary in carrying  
27 out ORS 390.310 to 390.368.

28 **SECTION 489.** ORS 390.350 is amended to read:

29 390.350. Units of local government may enter into agreements with the [*State Parks and Recre-*  
30 *ation Department*] **Oregon Department of Natural Resources** and with each other in carrying out  
31 the purposes of the Willamette River Greenway, and may accept and use gifts and grants from the  
32 department or others.

33 **SECTION 490.** ORS 390.360 is amended to read:

34 390.360. All lands or interests in lands acquired and all historical sites, structures, facilities and  
35 objects preserved and restored by the units of local government pursuant to ORS 390.330 with grants  
36 of money from the [*State Parks and Recreation Department*] **Oregon Department of Natural Re-**  
37 **sources**, may be used only for the purposes of the Willamette River Greenway as set forth in ORS

11 (3) Within 45 days after the hearing the director shall enter an order containing findings of fact  
 12 and conclusions of law. The order shall rescind, affirm or modify the director's original order. Ap-  
 13 peals from the director's final order may be taken to the Court of Appeals in the manner provided  
 14 by ORS 183.482.

15 (4) A permit granted by the director may be suspended by the director during the pendency of  
 16 the proceedings before the director and any appeal. The director shall not suspend the permit unless  
 17 the person aggrieved or adversely affected by grant of permit makes a showing before the director  
 18 by clear and convincing evidence that commencement or continuation of the improvement would  
 19 cause irreparable damage and would be inconsistent with ORS 390.610, 390.620 to 390.676, 390.690  
 20 and 390.705 to 390.770.

21 **SECTION 508.** ORS 390.660 is amended to read:

22 390.660. The [*State Parks and Recreation Department*] **Oregon Department of Natural Re-**  
 23 **sources** is hereby directed to protect, to maintain and to promulgate rules governing use of the  
 24 public of property that is subject to ORS 390.640, property subject to public rights or easements  
 25 declared by ORS 390.610 and property abutting, adjacent or contiguous to those lands described by  
 26 ORS 390.615 that is available for public use, whether such public right or easement to use is ob-  
 27 tained by dedication, prescription, grant, state-ownership, permission of a private owner or other-  
 28 wise.

29 **SECTION 509.** ORS 390.663 is amended to read:

30 390.663. (1) If the [*State Parks and Recreation Director*] **Director of the Oregon Department**  
 31 **of Natural Resources** determines that any improvement is being made on property within the ocean  
 32 shore without a permit issued under ORS 390.650, or in a manner contrary to the conditions set out  
 33 in the permit, the director may:

34 (a) Investigate, hold hearings, make orders and take action, as provided in ORS 390.620 to  
 35 390.676, as soon as possible.

36 (b) For the purpose of investigating conditions relating to such improvements, through the em-  
 37 ployees or the duly authorized representatives of the [*State Parks and Recreation Department*]  
 38 **Oregon Department of Natural Resources**, enter at reasonable times upon any private or public  
 39 property.

40 (c) Conduct public hearings in accordance with ORS chapter 183.

41 (d) Publish findings and recommendations as they are developed relative to public policies and  
 42 procedures necessary for the correction of conditions or violations of ORS 390.620 to 390.676.

43 (e) Give notice of any proposed order relating to a violation by personal service or by mailing  
 44 the notice by registered or certified mail to the person or governmental body affected. Any person  
 45 aggrieved by a proposed order of the director may request a hearing within 20 days of the date of

1 personal service or mailing of the notice. Hearings shall be conducted under the provisions of ORS  
2 chapter 183 applicable to contested cases, and judicial review of final orders shall be conducted in  
3 the Court of Appeals according to ORS 183.482. If no hearing is requested or if the party fails to  
4 appear, a final order shall be issued upon a prima facie case on the record of the department.

5 (f) Take appropriate action for the enforcement of any rules or final orders. Any violation of  
6 ORS 390.620 to 390.676 or of any rule or final order of the director under ORS 390.620 to 390.676  
7 may be enjoined in civil abatement proceedings brought in the name of the State of Oregon. In any  
8 such proceedings, the director may seek and the court may award a sum of money sufficient to  
9 compensate the public for any destruction or infringement of any public right of navigation, fishery  
10 or recreation resulting from such violation. Proceedings brought by the director shall set forth, if  
11 applicable, the dates of notice and hearing and the specific rule or order of the director, together  
12 with the facts of noncompliance, the facts giving rise to the public nuisance and a statement of the  
13 damages to any public right of navigation, fishery or recreation, if any, resulting from such vio-  
14 lation.

15 (2) In addition to the administrative action the director may take under subsection (1) of this  
16 section, the director may enter an order requiring any person to cease and desist from any violation  
17 if the director determines that such violation presents an imminent and substantial risk of injury,  
18 loss or damage to the ocean shore.

19 (3) An order under subsection (2) of this section:

20 (a) May be entered without prior notice or hearing.

21 (b) Shall be served upon the person by personal service or by registered or certified mail.

22 (c) Shall state that a hearing will be held on the order if a written request for hearing is filed  
23 by the person subject to the order within 10 days after receipt of the order.

24 (d) Shall not be stayed during the pendency of a hearing conducted under subsection (4) of this  
25 section.

26 (4) If a person subject to an order under subsection (2) of this section files a timely demand for  
27 hearing, the director shall hold a contested case hearing according to the applicable provisions of  
28 ORS chapter 183. If the person fails to request a hearing, the order shall be entered as a final order  
29 upon prima facie case made on the record of the department.

30 (5) [Neither] The director, **or a** [nor any] duly authorized representative of the department, **is**  
31 **not** [shall be] liable for any damages a person may sustain as a result of a cease and desist order  
32 issued under subsection (2) of this section.

33 (6) The state and local police shall cooperate in the enforcement of any order issued under  
34 subsection (2) of this section and shall require no further authority or warrant in executing or en-  
35 forcing such order. If any person fails to comply with an order issued under subsection (2) of this  
36 section, the circuit court of the county in which the violation occurred or is threatened shall compel  
37 compliance with the director's order in the same manner as with an order of that court.

38 (7) As used in this section, "violation" means making an improvement on property within the  
39 ocean shore without a permit or in a manner contrary to the conditions set out in a permit issued  
40 under ORS 390.650.

41 **SECTION 510.** ORS 390.666 is amended to read:

42 390.666. If the [State Parks and Recreation Director] **Director of the Oregon Department of**  
43 **Natural Resources** finds that a person or governmental body holding a permit issued under ORS  
44 390.650 is making an improvement on property within the ocean shore contrary to the conditions  
45 set out in the permit, the director may revoke, suspend or refuse to renew such permit. The director

1 may revoke a permit only after giving notice and opportunity for a hearing as provided in ORS  
2 183.415 to 183.430, 183.440 to 183.460 and 183.470.

3 **SECTION 511.** ORS 390.669 is amended to read:

4 390.669. (1) In addition to any enforcement action taken under ORS 390.663, civil proceedings  
5 to abate alleged public nuisances under ORS 390.661 may be instituted in the name of the State of  
6 Oregon upon relation of the [*State Parks and Recreation Director*] **Director of the Oregon De-**  
7 **partment of Natural Resources** or by any person in the person's name.

8 (2) Before beginning any action under subsection (1) of this section, a person other than the  
9 director shall provide to the director 60 days' notice of the intended action. A person other than the  
10 director may not begin an action under subsection (1) of this section if the director has commenced  
11 and is diligently prosecuting civil, criminal or administrative proceedings in the same matter.

12 (3) The director may institute an action in the name of the State of Oregon for a temporary  
13 restraining order or preliminary injunction if a threatened or existing public nuisance under ORS  
14 390.661 creates an emergency that requires immediate action to protect the public health, safety or  
15 welfare. The director [*shall not be*] **is not** required to furnish a bond in such proceeding.

16 (4) The [*State Parks and Recreation Commission, the State Parks and Recreation Director and the*  
17 *employees or duly authorized representatives of the State Parks and Recreation Department shall not*  
18 *be*] **director, Oregon Natural Resources Commission and employees or duly authorized rep-**

20 a defendant may sustain as a result of an injunction, restraining order or abatement order issued  
21 under this section.

22 (5) A case filed under this section shall be given preference on the docket over all other civil  
23 cases except those given an equal preference by statute.

24 (6) In any action brought under this section, the plaintiff may seek and the court may award a  
25 sum of money sufficient to compensate the public for any destruction or infringement of any public  
26 right of navigation, fishery or recreation resulting from an existing public nuisance under ORS  
27 390.661. [*Any money*] **Moneys** received by the plaintiff under this subsection shall be deposited in  
28 [*an account of the State Parks and Recreation Department for use by the department*] **the Oregon**  
29 **Natural Resources Fund. Moneys deposited in the fund under this subsection are contin-**  
30 **uously appropriated to the Oregon Department of Natural Resources for use by the depart-**  
31 **ment** in administering the ocean shore program.

32 **SECTION 512.** ORS 390.672 is amended to read:

33 390.672. (1) If any person or governmental body, through negligence, violates ORS 390.640, the  
34 [*State Parks and Recreation Director*] **Director of the Oregon Department of Natural**  
35 **Resources**, in a proceeding brought pursuant to ORS 390.669, may seek and the court may award  
36 double a sum of money sufficient to compensate the public for any destruction or infringement of  
37 any public right of navigation, fishery or recreation resulting from such violation.

38 (2) If any person or governmental body intentionally violates ORS 390.640, the director, in a  
39 proceeding brought pursuant to ORS 390.669, may seek and the court may award treble a sum of  
40 money sufficient to compensate the public for any destruction or infringement of any public right  
41 of navigation, fishery or recreation resulting from such violation.

42 (3) An award made pursuant to this section shall be in addition to and not in lieu of any crim-  
43 inal penalties imposed for a violation of ORS 390.640.

44 (4) In any action brought under ORS 390.669, the court shall award to the prevailing party the  
45 costs of suit and reasonable attorney fees at trial and on appeal. Subject to the provisions of ORS

1 20.140, any costs and attorney fees so awarded to the director shall be deposited in [*an account of*  
 2 *the State Parks and Recreation Department*] **the Oregon Natural Resources Fund** to offset the  
 3 director's expenses of bringing such action.

4 **SECTION 513.** ORS 390.674 is amended to read:

5 390.674. (1) Civil penalties under ORS 390.992 shall be imposed as provided in ORS 183.745.

6 (2) The provisions of this section are in addition to and not in lieu of any other penalty or  
 7 sanction provided by law. An action taken by the [*State Parks and Recreation Director*] **Director**  
 8 **of the Oregon Department of Natural Resources** under this section may be joined by the director  
 9 with any other action taken against the same person under ORS 390.995 (1).

10 (3) Any civil penalty recovered under this section shall be deposited [*into an account of the State*  
 11 *Parks and Recreation Department*] **in the Oregon Natural Resources Fund. Moneys deposited in**  
 12 **the fund under this subsection are continuously appropriated to the Oregon Department of**  
 13 **Natural Resources** for use by the department in administration of the ocean shore program.

14 **SECTION 514.** ORS 390.676 is amended to read:

15 390.676. (1) The [*State Parks and Recreation Director*] **Director of the Oregon Department of**  
 16 **Natural Resources** shall adopt by rule the amount of civil penalty that may be imposed for a par-  
 17 ticular violation under ORS 390.992.

18 (2) In imposing a penalty under the schedule adopted under subsection (1) of this section, the  
 19 director shall consider the following factors:

20 (a) The past history of the person incurring a penalty in taking all feasible steps or procedures  
 21 necessary or appropriate to correct any violation.

22 (b) Any prior violations of statutes, rules, orders and permits pertaining to waters of this state.

23 (c) The impact of the violation on public interests in navigation, fishery and recreation.

24 (d) Any other factors determined by the director to be relevant and consistent with the policy  
 25 of ORS 390.610.

26 (3) The penalty imposed under this section may be remitted or mitigated upon such terms and  
 27 conditions as the director determines to be proper and consistent with the policy of ORS 390.610.  
 28 Upon the request of the person incurring the penalty, the director shall consider evidence of the  
 29 economic and financial condition of the person in determining whether a penalty shall be remitted  
 30 or mitigated.

32 390.678. (1) The [*State Parks and Recreation Department*] **Oregon Department of Natural Re-**  
 33 **sources** may establish zones on the ocean shore where travel by motor vehicles or landing of any  
 34 aircraft except for an emergency shall be restricted or prohibited. After the establishment of a zone  
 35 and the erection of signs or markers thereon, no such use shall be made of such areas except in  
 36 conformity with the rules of the department.

37 (2) Proceedings to establish a zone:

38 (a) May be initiated by the department on its own motion; or

39 (b) Shall be initiated upon the request of 20 or more landowners or residents or upon request  
 40 of the governing body of a county or city contiguous to the proposed zone.

41 (3) A zone shall not be established unless the department first holds a public hearing in the vi-

4 **sources** may issue permits under ORS 390.650 to 390.659 for pipelines, cable lines and other conduits  
5 across and under the ocean shore, state recreation areas and the submerged lands adjacent to the  
6 ocean shore, upon payment of just compensation by the permittee. A permit issued under this sub-  
7 section is not a sale or lease of tide and overflow lands within the scope of ORS 274.040.

8 (2) Whenever the issuance of a permit under subsection (1) of this section will affect lands  
9 owned privately, the [*State Parks and Recreation*] department shall withhold the issuance of the  
10 permit until the permittee obtains from the private owner an easement, license or other written  
11 authorization that meets the approval of the [*State Parks and Recreation*] department, except as to  
12 the compensation to be paid to the private owner.

13 (3) All permits issued under this section are subject to conditions that will ensure safety of the

20 (2) The collection of natural products for the purpose of trade, sale or resale shall be subject  
21 to the permit provisions and standards of ORS 390.650 and 390.655. Permits shall provide for the  
22 payment of just compensation by the permittee as provided by rule adopted under subsection (4) of  
23 this section.

24 (3) No archaeological object associated with an archaeological site, as [*those terms*] **both** are  
25 defined in ORS 358.905, shall be removed from the ocean shore except as provided in ORS 358.920  
26 and 390.235.

27 (4) Rules or permits shall be made or granted by the [*State Parks and Recreation Department*  
28 *only after consultation with the State Fish and Wildlife Commission, the State Department of Geology*  
29 *and Mineral Industries and the Department of State Lands*] **Oregon Department of Natural Re-**  
30 **sources**. Rules and permits shall contain provisions necessary to protect the areas from any use,  
31 activity or practice inimicable to the conservation of natural resources or public recreation.

32 (5) The terms, royalty and duration of a permit under this section are at the discretion of the  
33 [*State Parks and Recreation*] department. A permit is revocable at any time in the discretion of the  
34 department without liability to the permittee.

35 (6) Whenever the issuance of a permit under this section will affect lands owned privately, the  
36 [*State Parks and Recreation*] department shall withhold the issuance of such permit until such time  
37 as the permittee shall have obtained an easement, license or other written authorization from the  
38 private owner, which easement, license or other written authority must meet the approval of the  
39 department, except as to the compensation to be paid to the private owner.

40 **SECTION 518.** ORS 390.729 is amended to read:

41 390.729. (1) A person may not operate a Class I all-terrain vehicle on the ocean shore unless the  
42 person obtains a permit from the [*State Parks and Recreation Department*] **Oregon Department of**  
43 **Natural Resources** as provided in this section.

44 (2) The department may issue a permit for the operation of a Class I all-terrain vehicle on the  
45 ocean shore if the operator of the vehicle holds a permit issued under ORS 390.570, if the vehicle

1 has a current operating permit issued under ORS 390.580 and if the vehicle will be used to meet the  
2 transportation needs of:

- 3 (a) Individuals with disabilities;
- 4 (b) Emergency response or emergency aid workers; or
- 5 (c) Biologists, wildlife monitors or other natural resources workers.

6 (3) Application for a permit issued under this section shall be in a form determined by the de-  
7 partment. The department shall specify the information to be contained in the application, the re-  
8 newal period and the manner in which the permit must be displayed.

9 (4) The department may not charge for a permit issued under this section.

10 **SECTION 519.** ORS 390.755 is amended to read:

11 390.755. (1) The [*State Parks and Recreation Department*] **Oregon Department of Natural Re-**  
12 **sources** is directed to periodically reexamine the [*line*] **lines** of vegetation as established and de-  
13 scribed by ORS 390.770 for the purpose of obtaining information and material suitable for a  
14 re-evaluation and re-definition, if necessary, of [*such line*] **the lines** so that the private and public  
15 rights and interest in the ocean shore [*shall be*] **are** preserved.

16 (2) The [*State Parks and Recreation*] department may, from time to time, recommend to the  
17 Legislative Assembly adjustment of the [*line*] **lines** described in ORS 390.770.

18 **NOTE:** Section 520 was deleted. Subsequent sections were not renumbered.

19 **SECTION 521.** ORS 390.805 is amended to read:

20 390.805. As used in ORS 390.805 to 390.925, unless the context requires otherwise:

21 (1) "Related adjacent land" means all land within one-fourth of one mile of the bank on the side  
22 of Waldo Lake, or a river or segment of river within a scenic waterway, except land that, in the  
23 [*State Parks and Recreation Department's*] judgment **of the Oregon Department of Natural Re-**  
24 **sources**, does not affect the view from the waters within a scenic waterway.

25 (2) "Scenic easement" means the right to control the use of related adjacent land, including air  
26 space above such land, for the purpose of protecting the scenic view from waters within a scenic  
27 waterway; but such control does not affect, without the owner's consent, any regular use exercised  
28 prior to the acquisition of the easement, and the landowner retains the right to uses of the land not  
29 specifically restricted by the easement.

30 (3) "Scenic waterway" means Waldo Lake, or a river or segment of river that has been desig-  
31 nated as such in accordance with ORS 390.805 to 390.925 or any subsequent Act, and includes re-  
32 lated adjacent land.

33 **SECTION 522.** ORS 390.835 is amended to read:

34 390.835. (1) It is declared that the highest and best uses of the waters within scenic waterways  
35 are recreation, fish and wildlife uses. The free-flowing character of these waters shall be maintained  
36 in quantities necessary for recreation, fish and wildlife uses. [*No*] **A** dam, [*or*] reservoir[,] or other  
37 water impoundment facility [*shall*] **may not** be constructed on waters within scenic waterways.  
38 [*No*] **A** water diversion facility [*shall*] **may not** be constructed or used except by right previously  
39 established or as permitted by the [*Water Resources Commission*] **Director of the Oregon Depart-**  
40 **ment of Natural Resources**, upon a finding that such diversion is necessary to uses designated in  
41 ORS 536.310 (12), and in a manner consistent with the policies set forth under ORS 390.805 to  
42 390.925. [*The Water Resources Commission shall administer and enforce the provisions of this sub-*  
43 *section.*]

44 (2) Filling of the beds or removal of material from or other alteration of the beds or banks of  
45 scenic waterways for purposes other than recreational prospecting not requiring a permit shall be

1 prohibited, except as permitted by the director [*of the Department of State Lands*] upon a finding that  
 2 such activity would be consistent with the policies set forth under ORS 390.805 to 390.925 for scenic  
 3 waterways and in a manner consistent with the policies set forth under ORS 196.800 to 196.825 and  
 4 196.845 to 196.870 for removal of material from the beds and banks and filling of any waters of this  
 5 state. [*The Director of the Department of State Lands shall administer and enforce the provisions of*  
 6 *this subsection.*]

7 **(3) The director shall administer and enforce the provisions of subsections (1) and (2) of**  
 8 **this section.**

9 [(3)(a)] **(4)(a)** Upon a finding of emergency circumstances, the director [*of the Department of State*  
 10 *Lands*] may issue a temporary permit for the removal, filling or alteration of the beds or banks  
 11 within a scenic waterway. [*The temporary permit shall include conditions developed after consultation*  
 12 *with the State Department of Fish and Wildlife and the State Parks and Recreation Department.*]

13 (b) As used in this subsection, “emergency circumstances” exist if prompt action is necessary  
 14 to prevent irreparable harm, injury or damage to persons or property.

15 [(4)] **(5)** Any person adversely affected or aggrieved by the grant or denial of a permit under  
 16 subsection (2) or [(3)] **(4)** of this section may appeal in accordance with the procedure set forth in  
 17 ORS 196.835.

18 [(5)] **(6)** Nothing in ORS 390.805 to 390.925 affects the authority of the [*State Fish and Wildlife*  
 19 *Commission*] **Oregon Department of Natural Resources or the Oregon Natural Resources**  
 20 **Commission** to construct facilities or make improvements to facilitate the passage or propagation  
 21 of fish, **to exercise other responsibilities in managing fish and wildlife resources** or [*to exercise*  
 22 *other responsibilities in managing fish and wildlife resources. Nothing in ORS 390.805 to 390.925 af-*  
 23 *fects the authority of the Water Resources Commission*] to construct and maintain stream gauge  
 24 stations and other facilities related to the [*commission’s duties in*] administration of the water laws.

25 [(6)] **(7)** Upon a finding of necessity under subsection (1) of this section, the [*Water Resources*  
 26 *Commission*] **director** may issue a water right for human consumption not to exceed 0.005 cubic feet  
 27 per second per household, or livestock consumption uses not to exceed one-tenth of one cubic foot  
 28 per second per 1,000 head of livestock, as designated in ORS 536.310 (12) within or above a scenic  
 29 waterway if the [*Water Resources Commission*] **director** makes the following findings:

30 (a) That issuing the water right does not significantly impair the free-flowing character of these  
 31 waters in quantities necessary for recreation, fish and wildlife.

32 (b) That issuing the water right is consistent with provisions pertaining to water appropriation  
 33 and water rights under ORS chapters 536 and 537 and rules adopted thereunder.

34 (c) That construction, operation and maintenance of the diversion system will be carried out in  
 35 a manner consistent with the purposes set forth in ORS 390.805 to 390.925.

36 (d) If the water right is for human consumption, an additional finding that:

37 (A) The applicant cannot reasonably obtain water from any other source;

38 (B) Denial of the water right would result in loss of reasonable expectations for use of the  
 39 property; and

40 (C) The system installed to divert water shall include monitoring equipment to permit water use  
 41 measurement and reporting.

42 (e) If the water right is for livestock consumption, an additional finding that:

43 (A) The right is necessary to prevent the livestock from watering in or along the stream bed;

44 (B) The applicant cannot reasonably obtain water from any other source; and

45 (C) The applicant has excluded livestock from the stream and its adjacent riparian zone.

1 [(7)] (8) In making the findings required under subsection [(6)] (7) of this section, the [*Water*  
2 *Resources Commission*] **director** shall consider the existing or potential cumulative impacts of issu-  
3 ing the water right.

4 [(8)] (9) The [*Water Resources Commission*] **director** may not allow human consumption and  
5 livestock uses authorized under subsection [(6)] (7) of this section in excess of a combined cumula-  
6 tive total of one percent of the average daily flow or one cubic foot per second, whichever is less,  
7 unless:

8 [(a) *The Water Resources Commission, the State Parks and Recreation Department, the State De-*  
9 *partment of Fish and Wildlife, the Department of Environmental Quality and the Department of State*  
10 *Lands unanimously agree to exceed that amount; and*]

11 **(a) The Department of Environmental Quality agrees to exceed that amount; and**

12 (b) Exceeding that amount will not significantly impair the free-flowing character of these wa-  
13 ters in quantities necessary for recreation, fish and wildlife.

14 [(9)(a)] (10)(a)(A) The provisions of this section [*shall*] **do** not apply to a water right application  
15 for the use of ground water as defined in ORS 537.515, except upon a finding by the [*Water Re-*  
16 *sources*] director based on a preponderance of evidence that the use of ground water will measurably  
17 reduce the surface water flows necessary to maintain the free-flowing character of a scenic  
18 waterway in quantities necessary for recreation, fish and wildlife.

19 [(b)] (B) The [*Water Resources Department*] **Oregon Department of Natural Resources** shall  
20 review every application for the use of ground water to determine whether to make the finding  
21 specified in [*paragraph (a) of this subsection*] **subparagraph (A) of this paragraph**. The finding  
22 shall be based upon the application of generally accepted hydrogeologic methods using relevant and  
23 available field information concerning the proposed use.

24 [(c)] (C) In making the determination required by [*paragraph (a) of this subsection, the Water*  
25 *Resources Department*] **subparagraph (A) of this paragraph, the director** shall consider the timing  
26 of projected impacts of the proposed use in relation to other factors, including but not limited to[:]  
27 changing climate, recharge, incidental precipitation, out-of-stream appropriations and return flows.

28 [(d)] (D) If the [*Water Resources*] director makes the finding specified in [*paragraph (a) of this*  
29 *subsection, the Water Resources*] **subparagraph (A) of this paragraph, the director** shall issue an  
30 order denying the application unless:

31 [(A)] (i) Mitigation is provided in accordance with subsection [(10)] (11) of this section; or

32 [(B)] (ii) The applicant submits evidence to overcome the finding under [*paragraph (a) of this*  
33 *subsection*] **subparagraph (A) of this paragraph**.

34 [(e)] (E) Except as provided under subsection (13) of this section, if the [*Water Resources*] di-  
35 rector does not make the finding specified in [*paragraph (a) of this subsection, the Water Resources*]  
36 **subparagraph (A) of this paragraph, the director** shall issue an order approving the application  
37 if the application otherwise meets the requirements of ORS 537.505 to 537.795.

38 [(f)] (F) A protest of any order issued under this subsection may be filed in the same manner  
39 as a protest on any application for a right to appropriate ground water.

40 [(g)] (G) Each water right permit and certificate for appropriation of ground water issued after  
41 July 19, 1995, for which a source of appropriation is within or above a scenic waterway shall be  
42 conditioned to allow the regulation of the use if analysis of data available after the permit or cer-  
43 tificate is issued discloses that the appropriation will measurably reduce the surface water flows  
44 necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for  
45 recreation, fish and wildlife in effect as of the priority date of the right or as those quantities may

1 be subsequently reduced.

2 [(h)] **(H)** *[Nothing in this subsection shall]* **This subsection does not** limit the use of ground  
3 water for a use exempted under ORS 537.545.

4 **(b) As used in this subsection, “measurably reduce” means that the use authorized under**  
5 **this subsection will individually or cumulatively reduce surface water flows within the scenic**  
6 **waterway in excess of a combined cumulative total of one percent of the average daily flow**  
7 **or one cubic foot per second, whichever is less, unless:**

8 **(A) The Department of Environmental Quality agrees to exceed that amount; and**

9 **(B) Exceeding that amount will not significantly impair the free-flowing character of**  
10 **these waters in quantities necessary for recreation, fish and wildlife.**

11 [(10)] **(11)** The *[Water Resources Commission or Water Resources]* director shall consider miti-  
12 gation measures and may include mitigation measures as conditions in any water right permit or  
13 certificate to ensure the maintenance of the free-flowing character of the scenic waterway in quan-  
14 tities necessary for recreation, fish and wildlife.

15 [(11)] **(12)** The *[Water Resources Commission and the Water Resources]* director **and the Oregon**  
16 **Natural Resources Commission** shall carry out their responsibilities under ORS 536.220 to 536.590  
17 with respect to the waters within scenic waterways in conformity with the provisions of this section.

18 [(12) *As used in this section, “measurably reduce” means that the use authorized under subsection*  
19 *(9) of this section will individually or cumulatively reduce surface water flows within the scenic*  
20 *waterway in excess of a combined cumulative total of one percent of the average daily flow or one cubic*  
21 *foot per second, whichever is less, unless:]*

22 [(a) *The Water Resources Department, the State Parks and Recreation Department, the State De-*  
23 *partment of Fish and Wildlife, the Department of Environmental Quality and the Department of State*  
24 *Lands unanimously agree to exceed that amount; and]*

25 [(b) *Exceeding that amount will not significantly impair the free-flowing character of these waters*  
26 *in quantities necessary for recreation, fish and wildlife.]*

27 (13) Before authorizing an appropriation that will reduce streamflows within a scenic waterway  
28 in amounts up to but not exceeding the amounts described in subsection [(12)] **(9)(b)** of this section,  
29 the *[Water Resources]* director shall find:

30 (a) That the appropriation will not significantly impair the free-flowing character of these waters  
31 in quantities necessary for recreation, fish and wildlife.

32 (b) That the appropriation is consistent with provisions pertaining to water appropriations and  
33 water rights under ORS chapters 536 and 537 and the rules adopted thereunder.

34 (c) That construction, operation and maintenance of the appropriation will be carried out in a  
35 manner consistent with the purposes set forth in ORS 390.805 to 390.925.

36 (14) *[No placer mining shall be]* **Placer mining is not** permitted on waters within scenic  
37 waterways other than recreational placer mining.

38 (15) *[No person shall]* **A person may not** be required to obtain a permit for recreational pros-  
39 pecting resulting in the fill, removal or other alteration of less than one cubic yard of material at  
40 any one individual site and, cumulatively, not more than five cubic yards of material from within the  
41 bed or wet perimeter of any single scenic waterway in a single year. Recreational prospecting shall  
42 not occur at any site where fish eggs are present.

43 (16) *[No provision of this section shall be construed to]* **This section does not** exempt recre-  
44 ational placer mining on a scenic waterway, other than recreational prospecting not requiring a  
45 permit, from compliance with the provisions of ORS 196.800 to 196.825 and 196.845 to 196.870 or

1 rules adopted pursuant to ORS 196.800 to 196.825 and 196.845 to 196.870.

2 (17) Recreational placer mining, other than recreational prospecting not requiring a permit,  
3 [*shall*] **may** not:

4 (a) Dam or divert a waterway or obstruct fish passage;

5 (b) Include nozzling, sluicing or digging outside the wet perimeter of the stream, nor extend the  
6 wet perimeter;

7 (c) Include movement of boulders, logs, stumps or other woody material from the wet perimeter  
8 other than movement by hand and nonmotorized equipment;

9 (d) Involve the disturbance of rooted or embedded woody plants, including trees and shrubs, re-  
10 gardless of their location;

11 (e) Include excavation from the streambank;

12 (f) Fail to level pits, piles, furrows or potholes outside the main channel of the waterway upon  
13 leaving the site;

14 (g) Include operation of a suction dredge without a suction dredge waste discharge permit from  
15 the Department of Environmental Quality including, but not limited to, a prohibition against dredg-  
16 ing during periods when fish eggs could be in the dredging site gravel;

17 (h) Be conducted on federal lands except as allowed by agencies of the federal government;

18 (i) Impede boating;

19 (j) Include operation of a dredge between the hours of 6 p.m. and 8 a.m. within 500 feet of a  
20 residence or within 500 feet of a campground except within a federally designated recreational  
21 mining site; or

22 (k) Include operation of a dredge within the marked or posted swimming area of a designated  
23 campground or day use area except within a federally designated recreational mining site.

24 (18) As used in this section:

25 (a) "Bed" means the land within the wet perimeter and any adjacent nonvegetated dry gravel  
26 bar.

27 (b) "Prospecting" means to search or explore for samples of gold, silver or other precious min-  
28 erals, using nonmotorized methods, from among small quantities of aggregate.

29 (c) "Recreational placer mining" includes, but is not limited to, the use of nonmotorized equip-  
30 ment and motorized surface dredges having an intake nozzle with an inside diameter not exceeding  
31 four inches, a motor no larger than 16 horsepower and a muffler meeting or exceeding factory-  
32 installed noise reduction standards. "Recreational placer mining" does not include recreational  
33 prospecting that does not require a permit.

34 (d) "Wet perimeter" means the area of the stream that is underwater, or is exposed as a non-  
35 vegetated dry gravel bar island surrounded on all sides by actively moving water at the time the  
36 activity occurs.

37 **SECTION 523.** ORS 390.835, as amended by section 8, chapter 516, Oregon Laws 2001, is  
38 amended to read:

39 390.835. (1) It is declared that the highest and best uses of the waters within scenic waterways  
40 are recreation, fish and wildlife uses. The free-flowing character of these waters shall be maintained  
41 in quantities necessary for recreation, fish and wildlife uses. A dam, reservoir or other water  
42 impoundment facility may not be constructed on waters within scenic waterways. A water diversion  
43 facility may not be constructed or used except by right previously established or as permitted by the  
44 [*Water Resources Commission*] **Director of the Oregon Department of Natural Resources**, upon  
45 a finding that such diversion is necessary to uses designated in ORS 536.310 (12), and in a manner

1 consistent with the policies set forth under ORS 390.805 to 390.925. *[The Water Resources Commis-*  
 2 *sion shall administer and enforce the provisions of this subsection.]*

3 (2) Filling of the beds or removal of material from or other alteration of the beds or banks of  
 4 scenic waterways for purposes other than recreational prospecting not requiring a permit shall be  
 5 prohibited, except as permitted by the director *[of the Department of State Lands]* upon a finding that  
 6 such activity would be consistent with the policies set forth under ORS 390.805 to 390.925 for scenic  
 7 waterways and in a manner consistent with the policies set forth under ORS 196.800 to 196.825 and  
 8 196.845 to 196.870 for removal of material from the beds and banks and filling of any waters of this  
 9 state. *[The Director of the Department of State Lands shall administer and enforce the provisions of*  
 10 *this subsection.]*

11 **(3) The director shall administer and enforce the provisions of subsections (1) and (2) of**  
 12 **this section.**

13 *[(3)(a)] (4)(a)* Upon a finding of emergency circumstances, the director *[of the Department of State*  
 14 *Lands]* may issue a temporary permit for the removal, filling or alteration of the beds or banks  
 15 within a scenic waterway. *[The temporary permit shall include conditions developed after consultation*  
 16 *with the State Department of Fish and Wildlife and the State Parks and Recreation Department.]*

17 (b) As used in this subsection, “emergency circumstances” exist if prompt action is necessary  
 18 to prevent irreparable harm, injury or damage to persons or property.

19 *[(4)] (5)* Any person adversely affected or aggrieved by the grant or denial of a permit under  
 20 subsection (2) or *[(3)] (4)* of this section may appeal in accordance with the procedure set forth in  
 21 ORS 196.835.

22 *[(5)] (6)* Nothing in ORS 390.805 to 390.925 affects the authority of the *[State Fish and Wildlife*  
 23 *Commission]* **Oregon Department of Natural Resources or the Oregon Natural Resources**  
 24 **Commission** to construct facilities or make improvements to facilitate the passage or propagation  
 25 of fish, **to exercise other responsibilities in managing fish and wildlife resources** or *[to exercise*  
 26 *other responsibilities in managing fish and wildlife resources. Nothing in ORS 390.805 to 390.925 af-*  
 27 *fects the authority of the Water Resources Commission]* to construct and maintain stream gauge  
 28 stations and other facilities related to the *[commission’s duties in]* administration of the water laws.

29 *[(6)] (7)* Upon a finding of necessity under subsection (1) of this section, the *[Water Resources*  
 30 *Commission]* **director** may issue a water right for human consumption not to exceed 0.005 cubic feet  
 31 per second per household, or livestock consumption uses not to exceed one-tenth of one cubic foot  
 32 per second per 1,000 head of livestock, as designated in ORS 536.310 (12) within or above a scenic  
 33 waterway if the *[Water Resources Commission]* **director** makes the following findings:

34 (a) That issuing the water right does not significantly impair the free-flowing character of these  
 35 waters in quantities necessary for recreation, fish and wildlife.

36 (b) That issuing the water right is consistent with provisions pertaining to water appropriation  
 37 and water rights under ORS chapters 536 and 537 and rules adopted thereunder.

38 (c) That construction, operation and maintenance of the diversion system will be carried out in  
 39 a manner consistent with the purposes set forth in ORS 390.805 to 390.925.

40 (d) If the water right is for human consumption, an additional finding that:

41 (A) The applicant cannot reasonably obtain water from any other source;

42 (B) Denial of the water right would result in loss of reasonable expectations for use of the  
 43 property; and

44 (C) The system installed to divert water shall include monitoring equipment to permit water use  
 45 measurement and reporting.

1 (e) If the water right is for livestock consumption, an additional finding that:

2 (A) The right is necessary to prevent the livestock from watering in or along the stream bed;

3 (B) The applicant cannot reasonably obtain water from any other source; and

4 (C) The applicant has excluded livestock from the stream and its adjacent riparian zone.

5 [(7)] **(8)** In making the findings required under subsection [(6)] **(7)** of this section, the [*Water*  
6 *Resources Commission*] **director** shall consider the existing or potential cumulative impacts of issu-  
7 ing the water right.

8 [(8)] **(9)** The [*Water Resources Commission*] **director** may not allow human consumption and  
9 livestock uses authorized under subsection [(6)] **(7)** of this section in excess of a combined cumula-  
10 tive total of one percent of the average daily flow or one cubic foot per second, whichever is less,  
11 unless:

12 [(a) *The Water Resources Commission, the State Parks and Recreation Department, the State De-*  
13 *partment of Fish and Wildlife, the Department of Environmental Quality and the Department of State*  
14 *Lands unanimously agree to exceed that amount; and*]

15 **(a) The Department of Environmental Quality agrees to exceed that amount; and**

16 (b) Exceeding that amount will not significantly impair the free-flowing character of these wa-  
17 ters in quantities necessary for recreation, fish and wildlife.

18 [(9)(a)] **(10)(a)(A)** The provisions of this section do not apply to a water right application for the  
19 use of ground water as defined in ORS 537.515, except upon a finding by the [*Water Resources*] di-  
20 rector based on a preponderance of evidence that the use of ground water will measurably reduce  
21 the surface water flows necessary to maintain the free-flowing character of a scenic waterway in  
22 quantities necessary for recreation, fish and wildlife.

23 [(b)] **(B)** The [*Water Resources Department*] **Oregon Department of Natural Resources** shall  
24 review every application for the use of ground water to determine whether to make the finding  
25 specified in [*paragraph (a) of this subsection*] **subparagraph (A) of this paragraph**. The finding  
26 shall be based upon the application of generally accepted hydrogeologic methods using relevant and  
27 available field information concerning the proposed use.

28 [(c)] **(C)** In making the determination required by [*paragraph (a) of this subsection, the Water*  
29 *Resources Department*] **subparagraph (A) of this paragraph, the director** shall consider the timing  
30 of projected impacts of the proposed use in relation to other factors, including but not limited to[:]  
31 changing climate, recharge, incidental precipitation, out-of-stream appropriations and return flows.

32 [(d)] **(D)** If the [*Water Resources*] director makes the finding specified in [*paragraph (a) of this*  
33 *subsection, the Water Resources*] **subparagraph (A) of this paragraph, the director** shall issue an  
34 order denying the application unless:

35 [(A)] **(i)** Mitigation is provided in accordance with subsection [(10)] **(11)** of this section; or

36 [(B)] **(ii)** The applicant submits evidence to overcome the finding under [*paragraph (a) of this*  
37 *subsection*] **subparagraph (A) of this paragraph**.

38 [(e)] **(E)** Except as provided under subsection (13) of this section, if the [*Water Resources*] di-  
39 rector does not make the finding specified in [*paragraph (a) of this subsection, the Water Resources*]  
40 **subparagraph (A) of this paragraph, the director** shall issue an order approving the application  
41 if the application otherwise meets the requirements of ORS 537.505 to 537.795.

42 [(f)] **(F)** A protest of any order issued under this subsection may be filed in the same manner  
43 as a protest on any application for a right to appropriate ground water.

44 [(g)] **(G)** Each water right permit and certificate for appropriation of ground water issued after  
45 July 19, 1995, for which a source of appropriation is within or above a scenic waterway shall be

1 conditioned to allow the regulation of the use if analysis of data available after the permit or cer-  
 2 tificate is issued discloses that the appropriation will measurably reduce the surface water flows  
 3 necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for  
 4 recreation, fish and wildlife in effect as of the priority date of the right or as those quantities may  
 5 be subsequently reduced.

6 [(h)] (H) This subsection does not limit the use of ground water for a use exempted under ORS  
 7 537.545.

8 (b) As used in this subsection, “measurably reduce” means that the use authorized under  
 9 this subsection will individually or cumulatively reduce surface water flows within the scenic  
 10 waterway in excess of a combined cumulative total of one percent of the average daily flow  
 11 or one cubic foot per second, whichever is less, unless:

12 (A) The Department of Environmental Quality agrees to exceed that amount; and

13 (B) Exceeding that amount will not significantly impair the free-flowing character of  
 14 these waters in quantities necessary for recreation, fish and wildlife.

15 [(10)] (11) The [Water Resources Commission or Water Resources] director shall consider miti-  
 16 gation measures and may include mitigation measures as conditions in any water right permit or  
 17 certificate to ensure the maintenance of the free-flowing character of the scenic waterway in quan-  
 18 tities necessary for recreation, fish and wildlife.

19 [(11)] (12) The [Water Resources Commission and the Water Resources] director **and the Oregon**  
 20 **Natural Resources Commission** shall carry out their responsibilities under ORS 536.220 to 536.590  
 21 with respect to the waters within scenic waterways in conformity with the provisions of this section.

22 [(12) As used in this section, “measurably reduce” means that the use authorized under subsection  
 23 (9) of this section will individually or cumulatively reduce surface water flows within the scenic  
 24 waterway in excess of a combined cumulative total of one percent of the average daily flow or one cubic  
 25 foot per second, whichever is less, unless:]

26 [(a) The Water Resources Department, the State Parks and Recreation Department, the State De-  
 27 partment of Fish and Wildlife, the Department of Environmental Quality and the Department of State  
 28 Lands unanimously agree to exceed that amount; and]

29 [(b) Exceeding that amount will not significantly impair the free-flowing character of these waters  
 30 in quantities necessary for recreation, fish and wildlife.]

31 (13) Before authorizing an appropriation that will reduce streamflows within a scenic waterway  
 32 in amounts up to but not exceeding the amounts described in subsection [(12)] (9)(b) of this section,  
 33 the [Water Resources] director shall find:

34 (a) That the appropriation will not significantly impair the free-flowing character of these waters  
 35 in quantities necessary for recreation, fish and wildlife.

36 (b) That the appropriation is consistent with provisions pertaining to water appropriations and  
 37 water rights under ORS chapters 536 and 537 and the rules adopted thereunder.

38 (c) That construction, operation and maintenance of the appropriation will be carried out in a  
 39 manner consistent with the purposes set forth in ORS 390.805 to 390.925.

40 (14) Placer mining is not permitted on waters within scenic waterways, other than recreational  
 41 placer mining.

42 (15) A person may not be required to obtain a permit for recreational prospecting or other  
 43 nonmotorized recreational activity resulting in the fill, removal or other alteration of less than one  
 44 cubic yard of material at any one individual site and, cumulatively, not more than five cubic yards  
 45 of material from within the bed or wet perimeter of any single scenic waterway in a single year.

1 Recreational prospecting shall not occur at any site where fish eggs are present.

2 (16) This section does not exempt recreational placer mining on a scenic waterway, other than  
3 recreational prospecting not requiring a permit, from compliance with the provisions of ORS 196.800  
4 to 196.825 and 196.845 to 196.870 or rules adopted pursuant to ORS 196.800 to 196.825 and 196.845  
5 to 196.870.

6 (17) Recreational placer mining may not:

7 (a) Dam or divert a waterway or obstruct fish passage;

8 (b) Include nozzling, sluicing or digging outside the wet perimeter of the stream, nor extend the  
9 wet perimeter;

10 (c) Include movement of boulders, logs, stumps or other woody material from the wet perimeter  
11 other than movement by hand and nonmotorized equipment;

12 (d) Involve the disturbance of rooted or embedded woody plants, including trees and shrubs, re-  
13 gardless of their location;

14 (e) Include excavation from the streambank;

15 (f) Fail to level pits, piles, furrows or potholes outside the main channel of the waterway upon  
16 leaving the site;

17 (g) Include operation of a suction dredge without a suction dredge waste discharge permit from  
18 the Department of Environmental Quality including, but not limited to, a prohibition against dredg-  
19 ing during periods when fish eggs could be in the dredging site gravel;

20 (h) Be conducted on federal lands except as allowed by agencies of the federal government;

21 (i) Impede boating;

22 (j) Include operation of a dredge between the hours of 6 p.m. and 8 a.m. within 500 feet of a  
23 residence or within 500 feet of a campground except within a federally designated recreational  
24 mining site; or

25 (k) Include operation of a dredge within the marked or posted swimming area of a designated  
26 campground or day use area except within a federally designated recreational mining site.

27 (18) As used in this section:

28 (a) "Bed" means the land within the wet perimeter and any adjacent nonvegetated dry gravel  
29 bar.

30 (b) "Prospecting" means to search or explore for samples of gold, silver or other precious min-  
31 erals, using nonmotorized methods, from among small quantities of aggregate.

32 (c) "Recreational placer mining" includes, but is not limited to, the use of nonmotorized equip-  
33 ment and motorized surface dredges having an intake nozzle with an inside diameter not exceeding  
34 four inches, a motor no larger than 16 horsepower and a muffler meeting or exceeding factory-  
35 installed noise reduction standards. "Recreational placer mining" does not include recreational  
36 prospecting that does not require a permit.

37 (d) "Wet perimeter" means the area of the stream that is underwater, or is exposed as a non-  
38 vegetated dry gravel bar island surrounded on all sides by actively moving water at the time the  
39 activity occurs.

40 **SECTION 524.** ORS 390.845 is amended to read:

41 390.845. (1) [Except as provided in ORS 390.835,] Scenic waterways shall be administered by the  
42 [State Parks and Recreation Department] **Oregon Department of Natural Resources**, each in such  
43 manner as to protect and enhance the values [which] **that** caused such scenic waterway to be in-  
44 cluded in the system **and to fulfill the department's duties under ORS 390.835**. In such adminis-  
45 tration primary emphasis shall be given to protecting the aesthetic, scenic, fish and wildlife,

1 scientific and recreation features, based on the special attributes of each area.

2 (2) After consultation with [*the State Board of Forestry, the State Department of Agriculture and*  
3 *the affected counties and with the concurrence of the Water Resources Commission, the department*] **the**  
4 **State Department of Agriculture and the affected counties, the Oregon Department of Na-**  
5 **tural Resources** shall adopt rules governing the management of related adjacent land. Such rules  
6 shall be adopted in accordance with ORS chapter 183. Such rules shall reflect management princi-  
7 ples, standards and plans applicable to scenic waterways, their shore lines and related adjacent land  
8 and, if necessary, establish varying intensities of protection or development based on special attri-  
9 butes of each area. Such management principles, standards and plans shall protect or enhance the  
10 aesthetic and scenic values of the scenic waterways and permit compatible agricultural, forestry and  
11 other land uses. Specifically, and not in limitation of the foregoing, such rules shall provide that:

12 (a) No roads, railroads or utilities shall be constructed within any scenic waterway except  
13 where necessary to serve the permissible uses, as [*defined in subsection (2) of this section*] **described**  
14 **in this subsection** and in the rules of the department, of the related adjacent land or unless de-  
15 partment approval of such use is obtained as provided in subsection (4) or (5) of this section. The  
16 department wherever practicable shall require the sharing of land and air space by such roads,  
17 railroads and utilities. All permissible roads, railroads and utilities shall be located in such a man-  
18 ner as to minimize the disturbance of the natural beauty of a scenic waterway;

19 (b) Forest crops shall be harvested in such manner as to maintain as nearly as reasonably is  
20 practicable the natural beauty of the scenic waterway;

21 (c) Occupants of related adjacent land shall avoid pollution of waters within a scenic waterway;

22 (d) The surface of related adjacent land shall not be disturbed for prospecting or mining unless  
23 the department's approval is obtained under subsection (4) or (5) of this section; and

24 (e) Unless department approval of the proposed use is obtained under subsection (4) or (5) of this  
25 section, no commercial, business or industrial structures or buildings other than structures or  
26 buildings erected in connection with an existing use shall be erected or placed on related adjacent  
27 land. All structures and buildings erected or placed on such land shall be in harmony with the  
28 natural beauty of the scenic waterway and shall be placed a sufficient distance from other struc-  
29 tures or buildings so as not to impair substantially such natural beauty. No signs or other forms  
30 of outdoor advertising that are visible from waters within a scenic waterway shall be constructed  
31 or maintained.

32 (3) No person shall put related adjacent land to uses that violate ORS 390.805 to 390.925 or the  
33 rules of the department adopted under ORS 390.805 to 390.925 or to uses to which the land was not  
34 being put before December 3, 1970, or engage in the cutting of trees, or mining, or prospecting on  
35 such lands or construct roads, railroads, utilities, buildings or other structures on such lands, unless  
36 the owner of the land has given to the department written notice of such proposed use at least one  
37 year prior thereto and has submitted to the department with the notice a specific and detailed de-  
38 scription of such proposed use or has entered into agreement for such use with the department un-  
39 der subsection (5) of this section. The owner may, however, act in emergencies without the notice  
40 required by ORS 390.805 to 390.925 when necessary in the interests of public safety.

41 (4) Upon receipt of the written notice provided in subsection (3) of this section, the department  
42 shall first determine whether in its judgment the proposed use would impair substantially the na-  
43 tural beauty of a scenic waterway. If the department determines that the proposal, if put into effect,  
44 would not impair substantially the natural beauty of the scenic waterway, the department shall no-  
45 tify in writing the owner of the related adjacent land that the owner may immediately proceed with

1 the proposed use as described to the department. If the department determines that the proposal, if  
2 put into effect, would impair substantially the natural beauty of the scenic waterway, the depart-  
3 ment shall notify in writing the owner of the related adjacent land of such determination and no  
4 steps shall be taken to carry out such proposal until at least one year after the original notice to  
5 the department. During such period:

6 (a) The department and the owner of the land involved may agree upon modifications or alter-  
7 ations of the proposal so that implementation thereof would not in the judgment of the department  
8 impair substantially the natural beauty of the scenic waterway; or

9 (b) The department may acquire by purchase, gift or exchange, the land involved or interests  
10 therein, including scenic easements, for the purpose of preserving the natural beauty of the scenic  
11 waterway.

12 (5) The department, upon written request from an owner of related adjacent land, shall enter  
13 into negotiations and endeavor to reach agreement with such owner establishing for the use of such  
14 land a plan that would not impair substantially the natural beauty of the scenic waterway. At the  
15 time of such request for negotiations, the owner may submit a plan in writing setting forth in detail  
16 proposed uses. Three months after the owner makes such a request for negotiations with respect to  
17 use of land, either the department or the owner may give written notice that the negotiations are  
18 terminated without agreement. Nine months after the notice of termination of negotiations the  
19 owner may use land in conformity with any specific written plan submitted by the owner prior to  
20 or during negotiations. In the event the department and the owner reach agreement establishing a  
21 plan for land use, such agreement is terminable upon at least one year's written notice by either the  
22 department or the owner.

23 (6) [*With the concurrence of the Water Resources Commission,*] The department may institute  
24 condemnation proceedings and by condemnation acquire related adjacent land:

25 (a) At any time subsequent to nine months after the receipt of notice of a proposal for the use  
26 of such land that the department determines would, if carried out, impair substantially the natural  
27 beauty of a scenic waterway unless the department and the owner of such land have entered into  
28 an agreement as contemplated by subsection (4) or (5) of this section or the owner shall have noti-  
29 fied the department of the abandonment of such proposal; or

30 (b) At any time related adjacent land is used in a manner violating ORS 390.805 to 390.925, the  
31 rules of the department or any agreement entered into by the department pursuant to subsection (4)  
32 or (5) of this section; or

33 (c) At any time related adjacent land is used in a manner which, in the judgment of the de-  
34 partment, impairs substantially the natural beauty of a scenic waterway, if the department has not  
35 been given at least one year's advance written notice of such use and if there is not in effect de-  
36 partment approval of such use pursuant to subsection (4) or (5) of this section.

37 (7) In such condemnation the owner of the land shall not receive any award for the value of any  
38 structure, utility, road or other improvement constructed or erected upon the land after December  
39 3, 1970, unless the department has received written notice of such proposed structure, utility, road  
40 or other improvement at least one year prior to commencement of construction or erection of such  
41 structure, utility, road or other improvement or unless the department has given approval for such  
42 improvement under subsection (4) or (5) of this section. If the person owned the land on December  
43 3, 1970, and for a continuous period of not less than two years immediately prior thereto, the person  
44 shall receive no less for the land than its value on December 3, 1970. The department shall not ac-  
45 quire by condemnation a scenic easement in land. When the department acquires any related adja-

1 cent land that is located between a lake or river and other land that is owned by a person having  
2 the right to the beneficial use of waters in the river by virtue of ownership of the other land:

3 (a) The right to the beneficial use of such waters shall not be affected by such condemnation;  
4 and

5 (b) The owner of the other land shall retain a right of access to the lake or river necessary to  
6 use, store or divert such waters as the owner has a right to use, consistent with concurrent use of  
7 the land so condemned as a part of the Oregon Scenic Waterways System.

8 (8) Any owner of related adjacent land, upon written request to the department, shall be pro-  
9 vided copies of rules then in effect or thereafter adopted by the department pursuant to ORS 390.805  
10 to 390.925.

11 (9) The department shall furnish to any member of the public upon written request and at ex-  
12 pense of the member a copy of any notice filed pursuant to subsection (3) of this section.

13 (10) If a scenic waterway contains lands or interests therein owned by or under the jurisdiction  
14 of an Indian tribe, the United States, another state agency or local governmental agency, the de-  
15 partment may enter into agreement with the tribe or the federal, state or local agency for the ad-  
16 ministration of such lands or interests therein in furtherance of the purposes of ORS 390.805 to  
17 390.925.

18 **SECTION 525.** ORS 390.848 is amended to read:

19 390.848. (1) The [*State Parks and Recreation Department*] **Oregon Department of Natural Re-**  
20 **sources** shall establish, by rule, a system for issuing passes necessary to comply with the require-  
21 ments under ORS 390.851. The department shall establish a reasonable fee for issuance of a pass  
22 under this section. The department may establish any form of proof of payment of the user fees that  
23 it deems appropriate.

24 (2) The system for issuance of passes established by the department under this section may in-  
25 clude issuance of the passes by governmental entities or private persons who have entered into ap-  
26 propriate agreements with the department for issuance of the passes. Agreements under this  
27 subsection may include, but are not limited to, terms providing for locations for the collection of  
28 fees, methods the department determines appropriate to assure payment of moneys collected and  
29 provisions for the distribution of river-user information.

30 (3) The department shall issue, without charge, annual passes to comply with the requirements  
31 under ORS 390.851 to persons who own ranch, farm or residential property immediately abutting  
32 those portions of the Deschutes River designated as scenic waterways under ORS 390.826 and to  
33 members of the immediate family of such persons. This subsection does not authorize the issuance  
34 without charge of passes to persons holding less than a majority interest in a firm, corporation or  
35 cooperative organization which owns land immediately abutting the Deschutes River designated as  
36 scenic waterways under ORS 390.826.

37 (4)(a) Moneys collected under this section shall be deposited in the [*separate fund established for*  
38 *the State Parks and Recreation Department under*] **Oregon Natural Resources Fund pursuant to**  
39 ORS 366.512. [*and,*]

40 (b) Subject to the limitations [*under subsection (5) of this section, are continually appropriated to*  
41 *that department to be used.*] **of paragraph (c) of this subsection, moneys collected under this**  
42 **section are continuously appropriated to the department:**

43 [(a)] (A) For operation of the pass system established under this section;

44 [(b)] (B) For providing river-user oriented law enforcement services;

45 [(c)] (C) For providing river recreation information and education;

1 [(d)] (D) For developing and maintaining river oriented recreation facilities; and

2 [(e)] (E) For any other purposes the department considers appropriate for the maintenance, en-  
3 hancement or protection of the natural and scenic beauty of the scenic waterway consistent with  
4 ORS 390.805 to 390.925.

5 [(5)] (c) The use of moneys for purposes described under [subsection (4) of this section] **para-**  
6 **graph (b) of this subsection** is limited to the performance of those purposes for areas of the  
7 Deschutes River designated as scenic waterways under ORS 390.826.

8 **SECTION 526.** ORS 390.855 is amended to read:

9 390.855. The [State Parks and Recreation Department] **Oregon Department of Natural Re-**  
10 **sources** shall undertake a continuing study and submit periodic reports to the Governor, [with the  
11 concurrence of the Water Resources Commission,] recommending the designation of additional rivers  
12 or segments of rivers and related adjacent land by the Governor as scenic waterways subject to the  
13 provisions of ORS 390.805 to 390.925. Consistent with such recommendation, the Governor may des-  
14 ignate any river or segment of a river and related adjacent land as a scenic waterway subject to  
15 the provisions of ORS 390.805 to 390.925. The department shall consult with [the State Fish and  
16 Wildlife Commission,] the State Department of Agriculture, the Environmental Quality  
17 Commission[, the Department of State Lands,] and such other persons or agencies as it considers  
18 appropriate. The [State Parks and Recreation Department] **Oregon Department of Natural Re-**  
19 **sources** shall conduct hearings in the counties in which the proposed additional rivers or segments  
20 of rivers are located. The following criteria shall be considered in making such report:

21 (1) The river or segment of river is relatively free-flowing and the scene as viewed from the  
22 river and related adjacent land is pleasing, whether primitive or rural-pastoral, or these conditions  
23 are restorable.

24 (2) The river or segment of river and its setting possess natural and recreation values of out-  
25 standing quality.

26 (3) The river or segment of river and its setting are large enough to sustain substantial recre-  
27 ation use and to accommodate existing uses without undue impairment of the natural values of the  
28 resource or quality of the recreation experience.

29 **SECTION 527.** ORS 390.875 is amended to read:

30 390.875. Any public land within or adjacent to a scenic waterway, with the consent of the gov-  
31 erning body having jurisdiction thereof, may be transferred to the jurisdiction of the [State Parks  
32 and Recreation Department] **Oregon Department of Natural Resources** with or without compen-  
33 sation. Any land so transferred shall become state recreational land and shall be administered as a  
34 part of the scenic waterway. Any such land within a scenic waterway which is not transferred to  
35 the jurisdiction of the department, to the fullest extent consistent with the purposes for which the  
36 land is held, shall be administered by the body having jurisdiction thereof in accordance with the  
37 provisions of ORS 390.805 to 390.925.

38 **SECTION 528.** ORS 390.885 is amended to read:

39 390.885. In acquiring related adjacent land by exchange, the [State Parks and Recreation De-  
40 partment] **Oregon Department of Natural Resources** may accept title to any property within a  
41 scenic waterway, and in exchange therefor, may convey to the grantor of such property any prop-  
42 erty under its jurisdiction that the department is not otherwise restricted from exchanging. In so far  
43 as practicable, the properties so exchanged shall be of approximately equal fair market value. If they  
44 are not of approximately equal fair market value, the department may accept cash or property from,  
45 or pay cash or grant property to, the grantor in order to equalize the values of the properties ex-

1 changed.

2 **SECTION 529.** ORS 390.895 is amended to read:

3 390.895. In addition to State of Oregon funds available for the purposes of ORS 390.805 to  
4 390.925, the [*State Parks and Recreation Department*] **Oregon Department of Natural Resources**  
5 shall use such portion of moneys made available to it by the [*Bureau of Outdoor Recreation and other*

9 390.910. In carrying out the provisions of ORS 390.805 to 390.925, the [*State Parks and Recre-*  
10 *ation Department*] **Oregon Department of Natural Resources** may enter into intergovernmental  
11 agreements to form committees to advise the various governmental agencies involved regarding  
12 management of the scenic waterways. Each such agreement must provide for membership on the  
13 committee of a representative of one of the governing bodies of the counties through which the  
14 scenic waterway flows. The county representative shall be chosen by the Governor from among  
15 those individuals recommended to the Governor by the county governing bodies.

16 **SECTION 531.** ORS 390.925 is amended to read:

17 390.925. In addition to any other penalties provided by law for violation of ORS 390.805 to  
18 390.925 or rules adopted thereunder, the [*State Parks and Recreation Department*] **Oregon Depart-**  
19 **ment of Natural Resources** is vested with power to obtain injunctions and other appropriate relief  
20 against violations of any provisions of ORS 390.805 to 390.925 and any rules adopted under ORS  
21 390.805 to 390.925 and agreements made under ORS 390.805 to 390.925.

38 **sources** shall have primary management responsibility for the State of Oregon to manage the  
39 Deschutes River Scenic Waterway Recreation Area. In managing the recreation area, the depart-  
40 ment shall cooperate with other managing agencies having jurisdiction to manage all or part of the  
41 recreational area.

42 (2) The department shall adopt a management plan by rule. The department shall implement the

1 390.936. In accordance with applicable provisions of ORS chapter 183, the [*State Parks and Re-*  
2 *creation Department*] **Oregon Department of Natural Resources** shall adopt rules necessary to

11 their lands and waters in a manner consistent with the provisions of ORS 390.805 to 390.925 and  
12 390.930 to 390.940.

13 **SECTION 536.** ORS 390.959 is amended to read:

14 390.959. The system of Oregon recreation trails shall be composed of trails established as pro-  
15 vided in ORS 390.962 and 390.965. The [*State Parks and Recreation Department*] **Oregon Depart-**  
16 **ment of Natural Resources**, in consultation with appropriate federal, state and local governmental  
17 agencies and public and private organizations, shall establish a uniform marker for the system of  
18 Oregon recreation trails.

19 **SECTION 537.** ORS 390.962 is amended to read:

20 390.962. (1) Upon finding that such trails will meet the criteria established in ORS 390.950 to  
21 390.989 and 390.995 (2) and such supplementary criteria as the [*State Parks and Recreation Depart-*  
22 *ment*] **Oregon Department of Natural Resources** may prescribe, the department is encouraged and  
23 empowered to establish and designate Oregon recreation trails:

24 (a) Over lands owned by the State of Oregon, by the federal government or by any county,  
25 municipality or other local governmental body, with the consent of the state agency, federal agency,  
26 county, municipality or other local governmental body having jurisdiction over the lands involved;  
27 or

28 (b) Over lands owned by private persons, in the manner and subject to the limitations provided  
29 in ORS 390.950 to 390.989 and 390.995 (2).

30 (2) In establishing such trails, the department shall give special recognition to the need for the  
31 establishment of recreation trails in or near, or reasonably accessible to, urban areas. Upon the  
32 establishment of any such trail, the department shall designate the primary kind of trail it is to be,  
33 based upon the mode or modes of travel to be permitted on such trail, including one or more of the  
34 following:

35 (a) Footpath.

36 (b) Horseback riding trail.

37 (c) Bicycle path.

38 (3) Nothing in ORS 390.950 to 390.989 and 390.995 (2) affects any other statute authorizing trails  
39 for motorized vehicles which is not inconsistent with ORS 390.950 to 390.989 and 390.995 (2).

40 **SECTION 538.** ORS 390.965 is amended to read:

41 390.965. (1) The [*State Parks and Recreation Department*] **Oregon Department of Natural Re-**  
42 **sources** may establish trails after public meetings in the areas of the state where trails are planned  
43 and only in accordance with the following criteria:

44 (a) Emphasis shall be given to the development of trails across public lands.

45 (b) No trails shall cross private land occupied by a residential dwelling, or upon which a resi-

1 dental dwelling is under construction, within 300 feet of such residential dwelling, without the  
2 consent of the owner.

3 (c) Trails shall be selected to minimize the adverse effects on adjacent landowners or users and  
4 their operations.

5 (d) Development and management of trails shall be designed to harmonize with and complement  
6 any established forest, agricultural, or other use plan that is compatible with the purposes of ORS  
7 390.950 to 390.989 and 390.995 (2).

8 (2) Before establishing a trail, the department shall consider at a public meeting the following  
9 information:

10 (a) The proposed route of such trail (including maps and illustrations) and the recommended  
11 mode or modes of travel to be permitted thereon;

12 (b) The areas adjacent to such trails, to be utilized for scenic, historic, natural, cultural or de-  
13 velopmental purposes;

14 (c) The characteristics that, in the judgment of the department, make the proposed trail suitable  
15 as an Oregon recreation trail;

16 (d) The current status of land ownership and current and potential use along the designated  
17 route;

18 (e) The estimated cost of acquisition of lands or interest in lands, if any;

19 (f) The plans for developing and maintaining the trail and the cost thereof;

20 (g) Any anticipated problems of policing the use of such trail and any anticipated hazards to the  
21 use of any privately owned lands adjacent to such trail; and

22 (h) The extent to which the state or its political subdivisions and public and private organiza-  
23 tions might reasonably be expected to participate in acquiring the necessary lands and in the ad-  
24 ministration thereof.

25 **SECTION 539.** ORS 390.968 is amended to read:

26 390.968. (1) The [*State Parks and Recreation Department*] **Oregon Department of Natural Re-**  
27 **sources** shall select the rights of way for trails designated as Oregon Recreation Trails by ORS  
28 390.962 (1)(a) and (b). Such rights of way shall be:

29 (a) Of sufficient width and so located as to protect natural conditions, scenic and historic fea-  
30 tures, and any primitive character of the trail area; to provide campsites, shelters, and related  
31 public-use facilities along trails in more remote areas; and to provide reasonable public access.

32 (b) Located to avoid, in so far as reasonably practicable, established highways, motor roads,  
33 mining areas, power transmission lines, existing commercial and industrial developments, range  
34 fences and improvements, private logging operations, and any other activities that would be incom-  
35 patible with the protection of the trailside environment in its natural condition and the use of the  
36 trail for outdoor recreation.

37 (2) Notwithstanding subsection (1) of this section, it is recognized that in many instances (espe-  
38 cially in urban areas and for some types of trails across or near private land) it may be advisable  
39 to locate segments of trails in or near existing rights of way for roads, highways, public utilities or  
40 telecommunications utilities, excluding power transmission lines; and it is recognized that trail  
41 rights of way on occasion may be located, or from time to time relocated, through, or adjacent to,  
42 lands used for private timber (including logging), agriculture, commercial or industrial operations  
43 and that such location or relocation of a trail right of way, of itself, shall not impose any limitation  
44 upon an otherwise lawful use of the adjacent private land except to the extent of the terms of any  
45 agreement with the private landowner as provided in ORS 390.971 (1) and except as may be provided

1 by any zoning ordinance, law or regulation.

2 (3) The location and width of an Oregon recreation trail right of way across federal lands under  
3 the jurisdiction of a federal agency shall be by agreement between that agency and the department.

4 (4) In selecting a right of way, the department shall endeavor to obtain the advice and assist-  
5 ance of the local governments, private organizations, landowners, the land users concerned, and the  
6 advisory council established under ORS 390.977.

7 (5) The department shall hold a public hearing in the area of the state where the selection of  
8 such right of way is to be made. Subject to ORS 390.971, after public hearing, the department may  
9 revise the location and width of a right of way from time to time as required by circumstances, with  
10 the consent of the head of any federal agency involved, and with such advice and assistance of the  
11 local governments, private organizations, landowners, land users, and the advisory council, as the  
12 department considers necessary or advisable.

13 **SECTION 540.** ORS 390.971 is amended to read:

14 390.971. (1) Within the exterior boundaries of areas under its administration that are included  
15 in the right of way selected for an Oregon recreation trail as provided in ORS 390.950 to 390.989  
16 and 390.995 (2), the [*State Parks and Recreation Department*] **Oregon Department of Natural Re-**  
17 **sources** may do any of the following:

18 (a) Enter into written cooperative agreements with landowners, federal agencies, other state  
19 agencies, local governments, private organizations and individuals in order to provide for the de-  
20 velopment, operation, maintenance, location and relocation of the trail. Where the trail crosses  
21 commercial forestland, such agreement shall make reasonable provision for temporary relocation  
22 reasonably required for commercial forest management.

23 (b) Subject to limitations set forth in ORS 390.950 to 390.989 and 390.995 (2), acquire lands or  
24 interests in lands by donation, purchase with donated or appropriated funds or exchange, or with  
25 funds obtained under ORS 390.980.

26 (2) The department, in the exercise of its exchange authority, may accept title to any nonstate-  
27 owned property within a trail right of way, and, in exchange therefor, the department may convey  
28 to the grantor of such property any state-owned property under its jurisdiction or the jurisdiction  
29 of any state agency consenting to such exchange that the department or the applicable consenting  
30 state agency classifies as suitable for exchange or other disposal. The values of the properties so  
31 exchanged either shall be approximately equal or, if they are not approximately equal, the values  
32 shall be equalized by the payment of cash to the grantor or to the department or applicable con-  
33 senting state agency as the circumstances require.

34 (3) If lands included in an Oregon recreation trail right of way are outside the exterior bound-  
35 aries of state or federally administered areas, the department shall attempt, and any local govern-  
36 ments involved shall be encouraged, to enter into written cooperative agreements with landowners,  
37 local government, private organizations and individuals in order to develop, administer and maintain  
38 the trails and to acquire, develop and administer such lands or interests therein. However, if the  
39 department or local governments fail or are unable to enter into such agreements or to acquire such  
40 lands or interests therein within one year after the selection of the right of way, the department  
41 may acquire private lands or interests therein by donation, exchange or purchase with donated or  
42 appropriated funds and may develop and administer such lands or interests therein. Exchanges shall  
43 be governed by the provisions of subsection (2) of this section.

44 (4) Oregon recreation trails shall be administered, protected, developed and maintained by the  
45 department, or as provided under subsection (1)(a) of this section, to retain their natural, scenic and

1 historic features. Along trails in more remote areas, provision may be made for campsites, shelters  
2 and related public-use facilities. Other uses, including reasonable crossings for motor vehicles, public  
3 utilities and water pipes and ditches, that will not substantially interfere with the nature and pur-  
4 poses of the trails may be permitted or authorized, as appropriate. The use of motorized vehicles by  
5 the general public along any such Oregon recreation trail is prohibited. However, the department  
6 shall authorize the use of motorized vehicles when, in its judgment, such vehicles are necessary to  
7 meet emergencies, trail construction and maintenance needs or to enable adjacent landowners or  
8 land users to have reasonable access to their lands or timber rights. The fact that private lands are  
9 included in an Oregon recreation trail by cooperative agreement of a landowner does not preclude  
10 the owner of such lands or agents of the owner from using motorized vehicles on or across such  
11 trails or adjacent lands from time to time in accordance with such agreement. Except to the extent  
12 otherwise provided by law, the state laws, rules and regulations applicable to lands or areas in-

16 prevent trails from crossing such roads.

17 (5) The department shall endeavor to induce agreements with appropriate state and federal  
18 agencies to provide for youth work projects to assist in the construction and maintenance of trails  
19 that are part of the Oregon recreation trails system.

20 (6) The department shall endeavor, when it considers such to be appropriate, to develop and  
21 enhance the educational values and opportunities of Oregon recreation trails. In this connection the  
22 department shall cooperate with schools, educators and other interested persons or groups in de-  
23 veloping and utilizing techniques and materials to demonstrate to and inform the trail-using public  
24 of various scenic and natural features visible along or from such trails, including geological, botan-  
25 ical, historical, zoological and similar features.

26 (7) The department shall place and endeavor to maintain signs at such places as it considers  
27 appropriate along Oregon recreation trails advising users of the Oregon laws of criminal trespass  
28 and encouraging users to protect the trails and the rights and property of adjacent landowners.

29 (8) The department, with the concurrence of any federal agency administering lands through  
30 which an Oregon recreation trail passes, and after consultation with the local governments, private  
31 organizations and landowners that the department knows or believes to be concerned, and the ad-  
32 visory council established under ORS 390.977, may adopt rules that may be revised from time to time  
33 governing protection, management, use, development and administration of an Oregon recreation  
34 trail.

35 (9) The department, on lands not within a forest protection district, upon recommendation of the  
36 [*State Forester*] **Director of the Oregon Department of Natural Resources**, shall have the au-  
37 thority to close trails during periods of high fire danger. The department shall also have the au-  
38 thority to close trails if it deems it necessary to protect the safety of the public.

39 (10) Notwithstanding the provisions of ORS chapter 477, forestland on which a fire exists that  
40 was caused by a person using, for recreational purposes, a trail established pursuant to ORS 390.950

22 that could reasonably be expected to be paid for a manufactured dwelling or floating home by an  
23 informed buyer to an informed seller, each acting without compulsion in an arm's-length transaction  
24 occurring on the assessment date for the tax year or on the date of a subsequent reappraisal by the  
25 county assessor.

26 (b) "Dispose of the personal property" means that, if reasonably appropriate, the landlord may  
27 throw away the property or may give it without consideration to a nonprofit organization or to a  
28 person unrelated to the landlord. The landlord may not retain the property for personal use or  
29 benefit.

30 (c) "Goods" includes those goods left inside a recreational vehicle, manufactured dwelling or  
31 floating home or left upon the rental space outside a recreational vehicle, manufactured dwelling  
32 or floating home, whether the recreational vehicle, dwelling or home is located inside or outside of  
33 a facility.

34 (d) "Lienholder" means any lienholder of an abandoned recreational vehicle, manufactured  
35 dwelling or floating home, if the lien is of record or the lienholder is actually known to the landlord.

36 (e) "Of record" means:

37 (A) For a recreational vehicle that is not a manufactured structure as defined in ORS 446.561,  
38 that a security interest has been properly recorded with the Department of Transportation pursuant  
39 to ORS 802.200 (1)(a)(A) and 803.097.

40 (B) For a manufactured dwelling or recreational vehicle that is a manufactured structure as  
41 defined in ORS 446.561, that a security interest has been properly recorded for the manufactured  
42 dwelling or recreational vehicle in the records of the Department of Consumer and Business Ser-  
43 vices pursuant to ORS 446.611 or on a certificate of title issued by the Department of Transportation  
44 prior to May 1, 2005.

45 (C) For a floating home, that a security interest has been properly recorded with the State

1 Marine Board pursuant to ORS 830.740 to 830.755 for a home registered and titled with the board  
2 pursuant to ORS 830.715.

3 (f) "Owner" means any owner of an abandoned recreational vehicle, manufactured dwelling or  
4 floating home, if different from the tenant and either of record or actually known to the landlord.

5 (g) "Personal property" means goods, vehicles and recreational vehicles and includes manufac-  
6 tured dwellings and floating homes not located in a facility. "Personal property" does not include  
7 manufactured dwellings and floating homes located in a facility and therefore subject to being  
8 stored, sold or disposed of as provided under ORS 90.675.

9 (2) A landlord may not store, sell or dispose of abandoned personal property except as provided  
10 by this section. This section governs the rights and obligations of landlords, tenants and any  
11 lienholders or owners in any personal property abandoned or left upon the premises by the tenant  
12 or any lienholder or owner in the following circumstances:

13 (a) The tenancy has ended by termination or expiration of a rental agreement or by  
14 relinquishment or abandonment of the premises and the landlord reasonably believes under all the  
15 circumstances that the tenant has left the personal property upon the premises with no intention  
16 of asserting any further claim to the premises or to the personal property;

17 (b) The tenant has been absent from the premises continuously for seven days after termination  
18 of a tenancy by a court order that has not been executed; or

19 (c) The landlord receives possession of the premises from the sheriff following restitution pur-  
20 suant to ORS 105.161.

21 (3) Prior to selling or disposing of the tenant's personal property under this section, the landlord  
22 must give a written notice to the tenant that must be:

23 (a) Personally delivered to the tenant; or

24 (b) Sent by first class mail addressed and mailed to the tenant at:

25 (A) The premises;

26 (B) Any post-office box held by the tenant and actually known to the landlord; and

27 (C) The most recent forwarding address if provided by the tenant or actually known to the  
28 landlord.

29 (4)(a) In addition to the notice required by subsection (3) of this section, in the case of an  
30 abandoned recreational vehicle, manufactured dwelling or floating home, a landlord shall also give  
31 a copy of the notice described in subsection (3) of this section to:

32 (A) Any lienholder of the recreational vehicle, manufactured dwelling or floating home;

33 (B) Any owner of the recreational vehicle, manufactured dwelling or floating home;

34 (C) The tax collector of the county where the manufactured dwelling or floating home is located;  
35 and

36 (D) The assessor of the county where the manufactured dwelling or floating home is located.

37 (b) The landlord shall give the notice copy required by this subsection by personal delivery or  
38 first class mail, except that for any lienholder, mail service must be both by first class mail and by  
39 certified mail with return receipt requested.

40 (c) A notice to lienholders under paragraph (a)(A) of this subsection must be sent to each  
41 lienholder at each address:

42 (A) Actually known to the landlord;

43 (B) Of record; and

44 (C) Provided to the landlord by the lienholder in a written notice that identifies the personal  
45 property subject to the lien and that was sent to the landlord by certified mail with return receipt

1 requested within the preceding five years. The notice must identify the personal property by de-  
2 scribing the physical address of the property.

3 (5) The notice required under subsection (3) of this section must state that:

4 (a) The personal property left upon the premises is considered abandoned;

5 (b) The tenant or any lienholder or owner must contact the landlord by a specified date, as  
6 provided in subsection (6) of this section, to arrange for the removal of the abandoned personal  
7 property;

8 (c) The personal property is stored at a place of safekeeping, except that if the property includes  
9 a manufactured dwelling or floating home, the dwelling or home must be stored on the rented space;

10 (d) The tenant or any lienholder or owner, except as provided by subsection (18) of this section,  
11 may arrange for removal of the personal property by contacting the landlord at a described tele-  
12 phone number or address on or before the specified date;

13 (e) The landlord shall make the personal property available for removal by the tenant or any  
14 lienholder or owner, except as provided by subsection (18) of this section, by appointment at rea-  
15 sonable times;

16 (f) If the personal property is considered to be abandoned pursuant to subsection (2)(a) or (b)  
17 of this section, the landlord may require payment of removal and storage charges, as provided by  
18 subsection (7)(d) of this section, prior to releasing the personal property to the tenant or any  
19 lienholder or owner;

20 (g) If the personal property is considered to be abandoned pursuant to subsection (2)(c) of this  
21 section, the landlord may not require payment of storage charges prior to releasing the personal  
22 property;

23 (h) If the tenant or any lienholder or owner fails to contact the landlord by the specified date,  
24 or after that contact, fails to remove the personal property within 30 days for recreational vehicles,  
25 manufactured dwellings and floating homes or 15 days for all other personal property, the landlord  
26 may sell or dispose of the personal property. If the landlord reasonably believes that the personal  
27 property will be eligible for disposal pursuant to subsection (10)(b) of this section and the landlord  
28 intends to dispose of the property if the property is not claimed, the notice shall state that belief  
29 and intent; and

30 (i) If the personal property includes a recreational vehicle, manufactured dwelling or floating  
31 home and if applicable, there is a lienholder or owner that has a right to claim the recreational  
32 vehicle, dwelling or home, except as provided by subsection (18) of this section.

33 (6) For purposes of subsection (5) of this section, the specified date by which a tenant, lienholder  
34 or owner must contact a landlord to arrange for the disposition of abandoned personal property is:

35 (a) For abandoned recreational vehicles, manufactured dwellings or floating homes, not less than  
36 45 days after personal delivery or mailing of the notice; or

37 (b) For all other abandoned personal property, not less than five days after personal delivery  
38 or eight days after mailing of the notice.

39 (7) After notifying the tenant as required by subsection (3) of this section, the landlord:

40 (a) Shall store any abandoned manufactured dwelling or floating home on the rented space and  
41 shall exercise reasonable care for the dwelling or home;

42 (b) Shall store all other abandoned personal property of the tenant, including goods left inside  
43 a recreational vehicle, manufactured dwelling or floating home or left upon the rented space outside  
44 a recreational vehicle, dwelling or home, in a place of safekeeping and shall exercise reasonable  
45 care for the personal property, except that the landlord may:

1 (A) Promptly dispose of rotting food; and

2 (B) Allow an animal control agency to remove any abandoned pets or livestock. If an animal  
3 control agency will not remove the abandoned pets or livestock, the landlord shall exercise reason-  
4 able care for the animals given all the circumstances, including the type and condition of the ani-  
5 mals, and may give the animals to an agency that is willing and able to care for the animals, such  
6 as a humane society or similar organization;

7 (c) Except for manufactured dwellings and floating homes, may store the abandoned personal  
8 property at the dwelling unit, move and store it elsewhere on the premises or move and store it at  
9 a commercial storage company or other place of safekeeping; and

10 (d) Is entitled to reasonable or actual storage charges and costs incidental to storage or dis-  
11 posal, including any cost of removal to a place of storage. In the case of an abandoned manufactured  
12 dwelling or floating home, the storage charge may be no greater than the monthly space rent last  
13 payable by the tenant.

14 (8) If a tenant, lienholder or owner, upon the receipt of the notice provided by subsection (3)  
15 or (4) of this section or otherwise, responds by actual notice to the landlord on or before the spec-  
16 ified date in the landlord's notice that the tenant, lienholder or owner intends to remove the per-  
17 sonal property from the premises or from the place of safekeeping, the landlord must make that  
18 personal property available for removal by the tenant, lienholder or owner by appointment at rea-  
19 sonable times during the 15 days or, in the case of a recreational vehicle, manufactured dwelling  
20 or floating home, 30 days following the date of the response, subject to subsection (18) of this sec-  
21 tion. If the personal property is considered to be abandoned pursuant to subsection (2)(a) or (b) of  
22 this section, but not pursuant to subsection (2)(c) of this section, the landlord may require payment  
23 of removal and storage charges, as provided in subsection (7)(d) of this section, prior to allowing the  
24 tenant, lienholder or owner to remove the personal property. Acceptance by a landlord of such  
25 payment does not operate to create or reinstate a tenancy or create a waiver pursuant to ORS  
26 90.412 or 90.417.

27 (9) Except as provided in subsections (18) to (20) of this section, if the tenant, lienholder or  
28 owner of a recreational vehicle, manufactured dwelling or floating home does not respond within the  
29 time provided by the landlord's notice, or the tenant, lienholder or owner does not remove the per-  
30 sonal property within the time required by subsection (8) of this section or by any date agreed to  
31 with the landlord, whichever is later, the tenant's, lienholder's or owner's personal property is con-  
32 clusively presumed to be abandoned. The tenant and any lienholder or owner that have been given  
33 notice pursuant to subsection (3) or (4) of this section shall, except with regard to the distribution  
34 of sale proceeds pursuant to subsection (13) of this section, have no further right, title or interest  
35 to the personal property and may not claim or sell the property.

36 (10) If the personal property is presumed to be abandoned under subsection (9) of this section,  
37 the landlord then may:

38 (a) Sell the personal property at a public or private sale, provided that prior to the sale of a  
39 recreational vehicle, manufactured dwelling or floating home:

40 (A) The landlord may seek to transfer ownership of record of the personal property by comply-  
41 ing with the requirements of the appropriate state agency; and

42 (B) The landlord shall:

43 (i) Place a notice in a newspaper of general circulation in the county in which the recreational  
44 vehicle, manufactured dwelling or floating home is located. The notice shall state:

45 (I) That the recreational vehicle, manufactured dwelling or floating home is abandoned;

- 1 (II) The tenant's and owner's name, if of record or actually known to the landlord;
- 2 (III) The address and any space number where the recreational vehicle, manufactured dwelling  
3 or floating home is located, and any plate, registration or other identification number for a recre-  
4 ational vehicle or floating home noted on the certificate of title, if actually known to the landlord;
- 5 (IV) Whether the sale is by private bidding or public auction;
- 6 (V) Whether the landlord is accepting sealed bids and, if so, the last date on which bids will be  
7 accepted; and
- 8 (VI) The name and telephone number of the person to contact to inspect the recreational vehi-  
9 cle, manufactured dwelling or floating home;
- 10 (ii) At a reasonable time prior to the sale, give a copy of the notice required by sub-  
11 subparagraph (i) of this subparagraph to the tenant and to any lienholder and owner, by personal  
12 delivery or first class mail, except that for any lienholder, mail service must be by first class mail  
13 with certificate of mailing;
- 14 (iii) Obtain an affidavit of publication from the newspaper to show that the notice required un-  
15 der sub-subparagraph (i) of this subparagraph ran in the newspaper at least one day in each of two  
16 consecutive weeks prior to the date scheduled for the sale or the last date bids will be accepted;  
17 and
- 18 (iv) Obtain written proof from the county that all property taxes and assessments on the manu-  
19 factured dwelling or floating home have been paid or, if not paid, that the county has authorized the  
20 sale, with the sale proceeds to be distributed pursuant to subsection (13) of this section;
- 21 (b) Destroy or otherwise dispose of the personal property if the landlord determines that:
- 22 (A) For a manufactured dwelling or floating home, the current market value of the property is  
23 \$8,000 or less as determined by the county assessor; or
- 24 (B) For all other personal property, the reasonable current fair market value is \$500 or less or  
25 so low that the cost of storage and conducting a public sale probably exceeds the amount that would  
26 be realized from the sale; or
- 27 (c) Consistent with paragraphs (a) and (b) of this subsection, sell certain items and destroy or  
28 otherwise dispose of the remaining personal property.
- 29 (11)(a) A public or private sale authorized by this section must:
- 30 (A) For a recreational vehicle, manufactured dwelling or floating home, be conducted consistent  
31 with the terms listed in subsection (10)(a)(B)(i) of this section. Every aspect of the sale including the  
32 method, manner, time, place and terms must be commercially reasonable; or
- 33 (B) For all other personal property, be conducted under the provisions of ORS 79.0610.
- 34 (b) If there is no buyer at a sale of a manufactured dwelling or floating home, the personal  
35 property is considered to be worth \$8,000 or less, regardless of current market value, and the land-  
36 lord shall destroy or otherwise dispose of the personal property.
- 37 (12) Notwithstanding ORS 446.155 (1) and (2), unless a landlord intentionally misrepresents the  
38 condition of a manufactured dwelling or floating home, the landlord is not liable for the condition  
39 of the dwelling or home to:
- 40 (a) A buyer of the dwelling or home at a sale pursuant to subsection (10)(a) of this section, with  
41 or without consideration; or
- 42 (b) A person or nonprofit organization to whom the landlord gives the dwelling or home pursu-  
43 ant to subsection (1)(b), (10)(b) or (11)(b) of this section.
- 44 (13)(a) The landlord may deduct from the proceeds of the sale:
- 45 (A) The reasonable or actual cost of notice, storage and sale; and

1 (B) Unpaid rent.

2 (b) If the sale was of a manufactured dwelling or floating home, after deducting the amounts  
3 listed in paragraph (a) of this subsection, the landlord shall remit the remaining proceeds, if any, to  
4 the county tax collector to the extent of any unpaid property taxes and assessments owed on the  
5 dwelling or home.

6 (c) If the sale was of a recreational vehicle, manufactured dwelling or floating home, after de-  
7 ducting the amounts listed in paragraphs (a) and (b) of this subsection, if applicable, the landlord  
8 shall remit the remaining proceeds, if any, to any lienholder to the extent of any unpaid balance  
9 owed on the lien on the recreational vehicle, dwelling or home.

10 (d) After deducting the amounts listed in paragraphs (a), (b) and (c) of this subsection, if appli-  
11 cable, the landlord shall remit to the tenant or owner the remaining proceeds, if any, together with  
12 an itemized accounting.

13 (e) If the tenant or owner cannot after due diligence be found, the landlord shall deposit the  
14 remaining proceeds with the county treasurer of the county in which the sale occurred. If not  
15 claimed within three years, the deposited proceeds revert to the general fund of the county and are  
16 available for general purposes.

17 (14) The county tax collector shall cancel all unpaid property taxes and assessments owed on  
18 a manufactured dwelling or floating home, as provided under ORS 311.790, only under one of the  
19 following circumstances:

20 (a) The landlord disposes of the manufactured dwelling or floating home after a determination  
21 described in subsection (10)(b) of this section.

22 (b) There is no buyer of the manufactured dwelling or floating home at a sale described under  
23 subsection (11) of this section.

24 (c)(A) There is a buyer of the manufactured dwelling or floating home at a sale described under  
25 subsection (11) of this section;

26 (B) The current market value of the manufactured dwelling or floating home is \$8,000 or less;  
27 and

28 (C) The proceeds of the sale are insufficient to satisfy the unpaid property taxes and assessments  
29 owed on the dwelling or home after distribution of the proceeds pursuant to subsection (13) of this  
30 section.

31 (d)(A) The landlord buys the manufactured dwelling or floating home at a sale described under  
32 subsection (11) of this section;

33 (B) The current market value of the manufactured dwelling or floating home is more than \$8,000;

34 (C) The proceeds of the sale are insufficient to satisfy the unpaid property taxes and assessments  
35 owed on the manufactured dwelling or floating home after distribution of the proceeds pursuant to  
36 subsection (13) of this section; and

37 (D) The landlord disposes of the manufactured dwelling or floating home.

38 (15) The landlord is not responsible for any loss to the tenant, lienholder or owner resulting  
39 from storage of personal property in compliance with this section unless the loss was caused by the  
40 landlord's deliberate or negligent act. In the event of a deliberate and malicious violation, the  
41 landlord is liable for twice the actual damages sustained by the tenant, lienholder or owner.

42 (16) Complete compliance in good faith with this section shall constitute a complete defense in  
43 any action brought by a tenant, lienholder or owner against a landlord for loss or damage to such  
44 personal property disposed of pursuant to this section.

45 (17) If a landlord does not comply with this section:

1 (a) The tenant is relieved of any liability for damage to the premises caused by conduct that  
2 was not deliberate, intentional or grossly negligent and for unpaid rent and may recover from the  
3 landlord up to twice the actual damages sustained by the tenant;

4 (b) A lienholder or owner aggrieved by the noncompliance may recover from the landlord the  
5 actual damages sustained by the lienholder or owner. ORS 90.255 does not authorize an award of  
6 attorney fees to the prevailing party in any action arising under this paragraph; and

7 (c) A county tax collector aggrieved by the noncompliance may recover from the landlord the  
8 actual damages sustained by the tax collector, if the noncompliance is part of an effort by the  
9 landlord to defraud the tax collector. ORS 90.255 does not authorize an award of attorney fees to  
10 the prevailing party in any action arising under this paragraph.

11 (18) In the case of an abandoned recreational vehicle, manufactured dwelling or floating home,  
12 the provisions of this section regarding the rights and responsibilities of a tenant to the abandoned  
13 vehicle, dwelling or home also apply to any lienholder except that the lienholder may not sell or  
14 remove the vehicle, dwelling or home unless:

15 (a) The lienholder has foreclosed its lien on the recreational vehicle, manufactured dwelling or  
16 floating home;

17 (b) The tenant or a personal representative or designated person described in subsection (20)  
18 of this section has waived all rights under this section pursuant to subsection (26) of this section;  
19 or

20 (c) The notice and response periods provided by subsections (6) and (8) of this section have ex-  
21 pired.

22 (19)(a) In the case of an abandoned manufactured dwelling or floating home but not including  
23 a dwelling or home abandoned following a termination pursuant to ORS 90.429 and except as pro-  
24 vided by subsection (20)(d) and (e) of this section, if a lienholder makes a timely response to a notice  
25 of abandoned personal property pursuant to subsections (6) and (8) of this section and so requests,  
26 a landlord shall enter into a written storage agreement with the lienholder providing that the  
27 dwelling or home may not be sold or disposed of by the landlord for up to 12 months. A storage  
28 agreement entitles the lienholder to store the personal property on the previously rented space  
29 during the term of the agreement, but does not entitle anyone to occupy the personal property.

30 (b) The lienholder's right to a storage agreement arises upon the failure of the tenant, owner  
31 or, in the case of a deceased tenant, the personal representative, designated person, heir or devisee  
32 to remove or sell the dwelling or home within the allotted time.

33 (c) To exercise the right to a storage agreement under this subsection, in addition to contacting  
34 the landlord with a timely response as described in paragraph (a) of this subsection, the lienholder  
35 must enter into the proposed storage agreement within 60 days after the landlord gives a copy of  
36 the agreement to the lienholder. The landlord shall give a copy of the proposed storage agreement  
37 to the lienholder in the same manner as provided by subsection (4)(b) of this section. The landlord  
38 may include a copy of the proposed storage agreement with the notice of abandoned property re-  
39 quired by subsection (4) of this section. A lienholder enters into a storage agreement by signing a  
40 copy of the agreement provided by the landlord and personally delivering or mailing the signed copy  
41 to the landlord within the 60-day period.

42 (d) The storage agreement may require, in addition to other provisions agreed to by the landlord  
43 and the lienholder, that:

44 (A) The lienholder make timely periodic payment of all storage charges, as described in sub-  
45 section (7)(d) of this section, accruing from the commencement of the 45-day period described in

1 subsection (6) of this section. A storage charge may include a utility or service charge, as described  
2 in ORS 90.532, if limited to charges for electricity, water, sewer service and natural gas and if in-  
3 cidental to the storage of personal property. A storage charge may not be due more frequently than  
4 monthly;

5 (B) The lienholder pay a late charge or fee for failure to pay a storage charge by the date re-  
6 quired in the agreement, if the amount of the late charge is no greater than for late charges de-  
7 scribed in the rental agreement between the landlord and the tenant; and

8 (C) The lienholder maintain the personal property and the space on which the personal property  
9 is stored in a manner consistent with the rights and obligations described in the rental agreement  
10 between the landlord and the tenant.

11 (e) During the term of an agreement described under this subsection, the lienholder has the right  
12 to remove or sell the property, subject to the provisions of the lien. Selling the property includes a  
13 sale to a purchaser who wishes to leave the dwelling or home on the rented space and become a  
14 tenant, subject to any conditions previously agreed to by the landlord and tenant regarding the  
15 landlord's approval of a purchaser or, if there was no such agreement, any reasonable conditions  
16 by the landlord regarding approval of any purchaser who wishes to leave the dwelling or home on  
17 the rented space and become a tenant. The landlord also may condition approval for occupancy of  
18 any purchaser of the property upon payment of all unpaid storage charges and maintenance costs.

19 (f)(A) If the lienholder violates the storage agreement, the landlord may terminate the agreement  
20 by giving at least 90 days' written notice to the lienholder stating facts sufficient to notify the  
21 lienholder of the reason for the termination. Unless the lienholder corrects the violation within the  
22 notice period, the agreement terminates as provided and the landlord may sell or dispose of the  
23 dwelling or home without further notice to the lienholder.

24 (B) After a landlord gives a termination notice pursuant to subparagraph (A) of this paragraph  
25 for failure of the lienholder to pay a storage charge and the lienholder corrects the violation, if the  
26 lienholder again violates the storage agreement by failing to pay a subsequent storage charge, the  
27 landlord may terminate the agreement by giving at least 30 days' written notice to the lienholder  
28 stating facts sufficient to notify the lienholder of the reason for termination. Unless the lienholder  
29 corrects the violation within the notice period, the agreement terminates as provided and the land-  
30 lord may sell or dispose of the property without further notice to the lienholder.

31 (C) A lienholder may terminate a storage agreement at any time upon at least 14 days' written  
32 notice to the landlord and may remove the property from the rented space if the lienholder has paid  
33 all storage charges and other charges as provided in the agreement.

34 (g) Upon the failure of a lienholder to enter into a storage agreement as provided by this sub-  
35 section or upon termination of an agreement, unless the parties otherwise agree or the lienholder  
36 has sold or removed the manufactured dwelling or floating home, the landlord may sell or dispose  
37 of the property pursuant to this section without further notice to the lienholder.

38 (20) If the personal property is a manufactured dwelling or floating home and is considered  
39 abandoned as a result of the death of a tenant who was the only tenant and who owned the dwelling  
40 or home, this section applies, except as follows:

41 (a) The following persons have the same rights and responsibilities regarding the abandoned  
42 dwelling or home as a tenant:

43 (A) Any personal representative named in a will or appointed by a court to act for the deceased  
44 tenant.

45 (B) Any person designated in writing by the tenant to be contacted by the landlord in the event

1 of the tenant's death.

2 (b) The notice required by subsection (3) of this section must be:

3 (A) Sent by first class mail to the deceased tenant at the premises; and

4 (B) Personally delivered or sent by first class mail to any personal representative or designated  
5 person, if actually known to the landlord.

6 (c) The notice described in subsection (5) of this section must refer to any personal represen-  
7 tative or designated person, instead of the deceased tenant, and must incorporate the provisions of  
8 this subsection.

9 (d) If a personal representative, designated person or other person entitled to possession of the  
10 property, such as an heir or devisee, responds by actual notice to a landlord within the 45-day period  
11 provided by subsection (6) of this section and so requests, the landlord shall enter into a written  
12 storage agreement with the representative or person providing that the dwelling or home may not  
13 be sold or disposed of by the landlord for up to 90 days or until conclusion of any probate pro-  
14 ceedings, whichever is later. A storage agreement entitles the representative or person to store the  
15 personal property on the previously rented space during the term of the agreement, but does not  
16 entitle anyone to occupy the personal property. If such an agreement is entered, the landlord may  
17 not enter a similar agreement with a lienholder pursuant to subsection (19) of this section until the

38 (h) Upon the failure of a representative or person to enter into a storage agreement as provided  
39 by this subsection or upon termination of an agreement, unless the parties otherwise agree or the

41 landlord may sell or dispose of the property pursuant to this section without further notice to the  
42 representative or person.

14 (c) The notice described in subsection (5) of this section must refer to the heir, devisee, personal  
15 representative, designated person or estate administrator of the **Oregon Department of Natural**  
16 **Resources**, instead of the deceased tenant, and must incorporate the provisions of this subsection.

17 (d) The landlord shall allow a person that is an heir, devisee or personal representative of the  
18 tenant, or an estate administrator of the **Oregon Department of Natural Resources**, to remove the  
19 personal property if the person contacts the landlord within the period provided by subsection (6)  
20 of this section, complies with the requirements of this section and provides the landlord with rea-  
21 sonable evidence that the person is an heir, devisee or personal representative, or an estate ad-  
22 ministrator of the department.

23 (e) If neither an heir, devisee nor personal representative of the tenant, nor an estate adminis-  
24 trator of the **Oregon Department of Natural Resources**, contacts the landlord within the time pe-  
25 riod provided by subsection (6) of this section, the landlord shall allow removal of the personal  
26 property by the designated person of the tenant, if the designated person contacts the landlord  
27 within that period and complies with the requirements of this section and provides the landlord with  
28 reasonable evidence that the person is the designated person.

29 (f) A landlord who allows removal of personal property under this subsection is not liable to  
30 another person that has a claim or interest in the personal property.

31 (22) If a governmental agency determines that the condition of a manufactured dwelling, floating  
32 home or recreational vehicle abandoned under this section constitutes an extreme health or safety  
33 hazard under state or local law and the agency determines that the hazard endangers others in the  
34 immediate vicinity and requires quick removal of the property, the landlord may sell or dispose of  
35 the property pursuant to this subsection. The landlord shall comply with all provisions of this sec-  
36 tion, except as follows:

37 (a) The date provided in subsection (6) of this section by which a tenant, lienholder, owner,  
38 personal representative or designated person must contact a landlord to arrange for the disposition  
39 of the property must be not less than 15 days after personal delivery or mailing of the notice re-  
40 quired by subsection (3) of this section.

41 (b) The date provided in subsections (8) and (9) of this section by which a tenant, lienholder,  
42 owner, personal representative or designated person must remove the property must be not less than

44 the landlord.

45 (c) The notice required by subsection (3) of this section must be as provided in subsection (5)

1 of this section, except that:

2 (A) The dates and deadlines in the notice for contacting the landlord and removing the property  
3 must be consistent with this subsection;

4 (B) The notice must state that a governmental agency has determined that the property consti-  
5 tutes an extreme health or safety hazard and must be removed quickly; and

6 (C) The landlord shall attach a copy of the agency's determination to the notice.

7 (d) If the tenant, a lienholder, owner, personal representative or designated person does not re-  
8 move the property within the time allowed, the landlord or a buyer at a sale by the landlord under  
9 subsection (11) of this section shall promptly remove the property from the facility.

10 (e) A landlord is not required to enter into a storage agreement with a lienholder, owner, per-  
11 sonal representative or designated person pursuant to subsection (19) of this section.

12 (23)(a) If an official or agency referred to in ORS 453.876 notifies the landlord that the official  
13 or agency has determined that all or part of the premises is unfit for use as a result of the presence  
14 of an illegal drug manufacturing site involving methamphetamine, and the landlord complies with  
15 this subsection, the landlord is not required to comply with subsections (1) to (22) and (24) to (27)  
16 of this section with regard to personal property left on the portion of the premises that the official  
17 or agency has determined to be unfit for use.

18 (b) Upon receiving notice from an official or agency determining the premises to be unfit for use,  
19 the landlord shall promptly give written notice to the tenant as provided in subsection (3) of this  
20 section. The landlord shall also attach a copy of the notice in a secure manner to the main entrance  
21 of the dwelling unit. The notice to the tenant shall include a copy of the official's or agency's notice  
22 and state:

23 (A) That the premises, or a portion of the premises, has been determined by an official or agency  
24 to be unfit for use due to contamination from the manufacture of methamphetamine and that as a  
25 result subsections (1) to (22) and (24) to (27) of this section do not apply to personal property left  
26 on any portion of the premises determined to be unfit for use;

27 (B) That the landlord has hired, or will hire, a contractor to assess the level of contamination  
28 of the site and to decontaminate the site;

29 (C) That upon hiring the contractor, the landlord will provide to the tenant the name, address  
30 and telephone number of the contractor; and

31 (D) That the tenant may contact the contractor to determine whether any of the tenant's per-  
32 sonal property may be removed from the premises or may be decontaminated at the tenant's expense  
33 and then removed.

34 (c) To the extent consistent with rules of the Department of Human Services, the contractor  
35 may release personal property to the tenant.

36 (d) If the contractor and the department determine that the premises or the tenant's personal

38 shall comply with subsections (1) to (22) and (24) to (27) of this section for any personal property left  
39 on the premises.

40 (e) Except as provided in paragraph (d) of this subsection, the landlord is not responsible for  
41 storing or returning any personal property left on the portion of the premises that is unfit for use.

42 (24) In the case of an abandoned recreational vehicle, manufactured dwelling or floating home  
43 that is owned by someone other than the tenant, the provisions of this section regarding the rights  
44 and responsibilities of a tenant to the abandoned vehicle, dwelling or home also apply to that owner,  
45 with regard only to the vehicle, dwelling or home, and not to any goods left inside or outside the

1 vehicle, dwelling or home.

2 (25) In the case of an abandoned motor vehicle, the procedure authorized by ORS 98.830 and  
3 98.835 for removal of abandoned motor vehicles from private property may be used by a landlord  
4 as an alternative to the procedures required in this section.

5 (26)(a) A landlord may sell or dispose of a tenant's abandoned personal property without com-  
6 plying with subsections (1) to (25) and (27) of this section if, after termination of the tenancy or no

28 (6) The price for any mitigation credit shall be set at an amount that will compensate the state

44 (b) The mitigation bank site for which credits are proposed to be withdrawn is not sufficiently  
45 similar in functions and values to the area to be impacted; or

1 (c) The functions and values of the mitigation bank do not compensate for unavoidable adverse

20 (e) A mitigation plan, including a program for replacement of planned wetland losses and res-  
21 toration of lost functions and values through creation of new wetlands or enhancement of existing  
22 wetland areas which designates specific sites within the plan area and actions for restoration and  
23 enhancement;

24 (f) Policies and implementing measures establishing protection, conservation and best use of the  
25 wetlands in the plan area;

35 **SECTION 646.** ORS 196.681 is amended to read:

36 196.681. (1) In accordance with rules adopted pursuant to this chapter, the [*Department of State*]  
37 [*Lands*] **Oregon Department of Natural Resources** shall:

38 (a) Review any proposed wetland conservation plan or proposed amendment to an approved  
39 wetland conservation plan against the standards in this section;

40 (b) Prepare a proposed order that approves, approves with conditions or denies the proposed  
41 wetland conservation plan or proposed amendment to an approved wetland conservation plan;

42 (c) Provide notice and the opportunity for public hearing and comment on the proposed order;

43 (d) Consult with affected local, state and federal agencies; and

44 (e) Consider the applicable findings made in the order of acknowledgment issued by the [*Land*]  
45 [*Conservation and Development Commission*] **Oregon Natural Resources Commission**.

1 (2) The Director of the [*Department of State Lands*] **Oregon Department of Natural Resources**  
2 may approve by order a wetland conservation plan that includes the necessary elements of ORS  
3 196.678 (2) and meets the standards of subsections (3) and (4) of this section.

4 (3) A wetland conservation plan shall comply with the following standards:

5 (a) Uses and activities permitted in the plan including fill or removal, or both, conform to sound  
6 policies of conservation and will not interfere with public health and safety;

7 (b) Uses and activities permitted in the plan including fill or removal, or both, are not incon-  
8 sistent with the protection, conservation and best use of the water resources of this state and the  
9 use of state waters for navigation, fishing and public recreation; and

10 (c) Designation of wetlands for protection, conservation and development is consistent with the  
11 resource functions and values of the area and the capability of the wetland area to withstand al-  
12 terations and maintain important functions and values.

13 (4) Wetland areas may be designated for development including fill or removal, or both, only if  
14 they meet the following standards:

15 (a) There is a public need for the proposed uses set forth in the acknowledged comprehensive  
16 plan for the area;

17 (b) Any planned wetland losses shall be fully offset by creation, restoration or enhancement of  
18 wetland functions and values or in an estuarine area, estuarine resource replacement is consistent  
19 with ORS 196.830; and

20 (c) Practicable, less damaging alternatives, including alternative locations for the proposed use  
21 are not available.

22 (5) Approval by the director of a wetland conservation plan shall be conditioned upon adoption  
23 by the affected local governments of comprehensive plan policies and land use regulations consistent  
24 with and sufficient to implement the wetland conservation plan. Appropriate implementing measures  
25 may include the following planning and zoning requirements regulating:

26 (a) Adjacent lands or buffer areas necessary to maintain, protect or restore wetland functions  
27 and values, including riparian vegetation, and the uses to be allowed in those areas;

28 (b) Sites for mitigation of impacts from development activities;

29 (c) Upland areas adjacent to wetlands; and

30 (d) Activities or location of buildings, structures and improvements which may affect wetland  
31 values or functions, such as storm water runoff.

32 (6) The director shall issue an order approving, approving with conditions or denying a wetland  
33 conservation plan, including a clear statement of findings which sets forth the basis for the approval,  
34 conditioning or denial. The order shall include:

35 (a) A clear statement of findings that the elements specified in ORS 196.678 (2) have been de-  
36 veloped;

37 (b) The findings in support of the determination of compliance or noncompliance with the stan-  
38 dards in subsections (3) and (4) of this section; and

39 (c) The conditions under which fill or removal or both may occur.

40 (7) The director may, as a part of an order approving a plan, authorize site-specific fill or re-  
41 moval without an individual permit as required by ORS 196.810 provided that:

42 (a) The director adopts findings demonstrating that fill or removal for any proposed project  
43 complies with ORS 196.682 (1)(a) to (e); or

44 (b) The director adopts findings that specific areas of fill or removal within areas designated as  
45 development in the plan meet the following standards:

1 (A) The fill or removal approved by the order will result in minimal impacts to the wetland  
2 system in the planning area;

3 (B) The public need for the proposed area of fill or removal outweighs the environmental damage  
4 likely to result from full development;

5 (C) The director conditions any such order as necessary to ensure that the fill or removal, or  
6 both, is designed to minimize impacts from implementing the project; and

7 (D) Full replacement of wetland losses is provided through creation, restoration or enhancement  
8 of wetlands with comparable functions and values.

9 (8) Upon a finding by the director that a fill or removal, or both, authorized under subsection  
10 (7)(b) of this section has caused or is likely to cause more than minimal adverse impact to the  
11 wetland system considering required mitigation conditions, the director shall revise the order to  
12 require individual permit review according to ORS 196.682 or provide additional conditions to ensure  
13 that adverse impacts are minimal. Such revision shall not be subject to ORS 196.684.

14 **SECTION 647.** ORS 196.682 is amended to read:

15 196.682. (1) Except where otherwise provided by the order approving the plan, individual permit  
16 applications shall be required for removal or fill, or both, in areas subject to an approved wetland  
17 conservation plan. If individual permit applications are to be reviewed under the authority of the  
18 Director of the [*Department of State Lands*] **Oregon Department of Natural Resources**, then ap-  
19 plication fees and review procedures shall be in accordance with ORS 196.815, 196.825 and 196.835.  
20 In lieu of the substantive standards for permit issuance in ORS 196.825 (2), the [*Department of State*  
21 *Lands*] **Oregon Department of Natural Resources** shall issue a permit if the removal or fill, or  
22 both, is consistent with the wetland conservation plan or can be conditioned to be consistent with  
23 the plan. The department shall condition any such permit as necessary to ensure that the project:

24 (a) Is properly designed or configured to minimize the need for alterations to waters of this  
25 state;

26 (b) Is the minimum size necessary to reasonably provide for the proposed use;

27 (c) Complies with applicable provisions of the acknowledged comprehensive plan and land use  
28 regulations for the area;

29 (d) Is designed to minimize impacts from implementing the project; and

30 (e) Is conditioned to ensure wetland creation, restoration, enhancement or preservation meas-  
31 ures are implemented to fully replace impacted resources.

32 (2) In any order approving a plan that authorizes any fill or removal or both, without the ne-  
33 cessity of subsequently obtaining an individual permit, the director shall condition such approval  
34 as necessary to ensure that the project complies with the conditions of subsection (1) of this section  
35 and clearly delineates the wetland area in which fill or removal, or both, is to occur.

36 **SECTION 648.** ORS 196.684 is amended to read:

37 196.684. (1) Local governments shall provide notice to the [*Department of State Lands*] **Oregon**  
38 **Department of Natural Resources** of any proposed amendments to the land use plan and ordi-  
39 nances affecting lands subject to a wetland conservation plan approved under this section.

40 (2) Amendments to plan policies, maps and implementing ordinances by the local government  
41 within an approved wetland conservation plan shall be reviewed by the department against the re-  
42 quirements of this section. These provisions do not exempt local governments from the provisions  
43 of ORS 197.610 to 197.625.

44 (3) The Director of the [*Department of State Lands*] **Oregon Department of Natural Resources**  
45 shall provide notice and the opportunity for public comment and hearing as defined by rule on the

1 matter of including the amendment in the wetland conservation plan.

2 (4) If the director finds that the proposed local government amendment to acknowledged com-  
3 prehensive plan and land use regulations meets the requirements of ORS 196.681, the director shall  
4 approve the plan by order, and notify the local government within 10 days of the completion of the  
5 public review provided in subsection (3) of this section.

6 (5) If the amendments to acknowledged comprehensive plan and land use regulations adopted  
7 by the local government are determined not to comply with the requirements of ORS 196.668 to  
8 196.692, 196.800, 196.810, 196.825, 196.830, 196.850 to 196.860, 196.885, 196.905, 197.015, 197.279,  
9 215.213, 215.283, 215.284, 215.418 and 227.350, the director shall revoke the approval order or amend  
10 the order to [*insure*] **ensure** compliance with the requirements of ORS 196.668 to 196.692, 196.800,  
11 196.810, 196.825, 196.830, 196.850 to 196.860, 196.885, 196.905, 197.015, 197.279, 215.213, 215.283,  
12 215.284, 215.418 and 227.350.

13 (6) The department shall review each approved wetland conservation plan every five years. After  
14 such review the director shall either modify, reissue or rescind the order approving the plan.

15 (7) In conducting the five-year review of an approved wetland conservation plan, the director  
16 shall provide notice and the opportunity for public comment and hearing on whether:

17 (a) There has been a substantial change in circumstances that would affect the wetland re-  
18 sources subject to the plan and would adversely affect the compliance of the plan with the standards  
19 in ORS 196.681;

20 (b) Changes have been made in applicable state law, statewide land use planning goals, federal  
21 law or agency rules that require the plan to be changed; and

22 (c) In the director's evaluation, the plan as implemented over the preceding five years meets the  
23 goals established in the plan.

24 (8) Wetland conservation plans approved by the director [*of the Department of State Lands*]  
25 pursuant to ORS 196.668 to 196.692 shall be deemed to comply with the requirements of any state-  
26 wide planning goals relating to wetlands, other than estuarine wetlands, for those areas, uses and  
27 activities which are regulated by the plan.

28 [(9) *An order by the director regarding approval, amendment or review of a wetland conservation*  
29 *plan shall be reviewable by the Land Use Board of Appeals as a land use decision of a state agency.*  
30 *For the purpose of such review, the director's order shall not become final until the local government*  
31 *adopts its wetland conservation plan or plan amendment. The Land Use Board of Appeals shall con-*  
32 *solidate for review appeals of the director's order and the local government adoption. The Land Use*  
33 *Board of Appeals shall review such order for compliance with the requirements of ORS 196.668 to*  
34 *196.692, 196.800, 196.810, 196.825, 196.830, 196.850 to 196.860, 196.885, 196.905, 197.015, 197.279,*  
35 *215.213, 215.283, 215.284, 215.418 and 227.350.*]

36 [(10)] (9) Nothing in this section shall be construed to require a contested case proceeding re-  
37 garding approval, amendment or review of a wetland conservation plan.

38 [(11)] (10) Nothing in this section shall be construed to affect the evaluation of a permit appli-  
39 cation in areas that do not have a wetland conservation plan.

40 [(12)] (11) Upon a finding by the director, after a public hearing, that an affected local govern-  
41 ment is not enforcing the comprehensive plan provisions or land use regulations set forth in the  
42 conditions of the order, as specified in ORS 196.681 (5), and that such lack of enforcement has re-  
43 sulted or would result in adverse impacts to wetlands, the director shall modify, suspend or revoke  
44 approval of the wetland conservation plan.

45 **SECTION 649.** ORS 196.686 is amended to read:

1       196.686. (1) For the purposes of this section, an acknowledged estuary management plan includes  
2 the comprehensive plan and land use regulations adopted by cities and counties to satisfy the re-  
3 quirement of statewide planning goals related to estuarine resources including shoreland portions  
4 of estuarine sites designated for development as those plans and regulations existed on January 1,  
5 1989.

6       (2) Any city or county may submit an acknowledged estuary management plan for review and  
7 approval by the [*Department of State Lands*] **Oregon Department of Natural Resources** pursuant  
8 to the provisions of this section. The plan shall be submitted with a written request for review.

9       (3) To allow timely and effective review of acknowledged estuary management plans, the de-  
10 partment may limit acceptance for review to two plans but not more than one plan for a deep draft  
11 development estuary at any one time.

12       (4) With the consent of the city or county submitting an estuary management plan for review  
13 and approval, the department may extend any or all of the deadlines set forth in this section.

14       (5) Acknowledged estuary management plans shall be presumed to comply with requirements for  
15 approval of wetland conservation plans specified in ORS 196.681.

16       (6) Within 10 days of acceptance of a request for review, the department shall provide notice to  
17 affected state agencies, local governments, federal agencies and the public of receipt of the ac-  
18 knowledged estuary management plan and of the request for review and approval of the acknowl-  
19 edged estuary management plan as a wetland conservation plan.

20       (7) Within 30 days of acceptance of a request for review and upon provision of at least two  
21 weeks' notice, the department shall hold a public informational hearing on the proposed approval  
22 of the acknowledged estuary management plan as a wetland conservation plan.

23       (8) Within 60 days of acceptance of the request for review, the department shall conduct a pre-  
24 liminary review of the acknowledged estuary management plan. The department shall consult with  
25 the affected local government prior to finalizing the preliminary review.

26       (9) Except as provided in subsection (10) of this section, the Director of the [*Department of State*  
27 *Lands*] **Oregon Department of Natural Resources** shall approve the acknowledged estuary man-  
28 agement plan by order within 60 days of completion of the preliminary review.

29       (10) A contested case hearing shall be held within 30 days of the completion of the preliminary  
30 review or receipt of a request for hearing if:

31       (a) The director determines there is probable cause to believe that the estuary management plan  
32 does not meet the standards for approving wetland conservation plans or unreasonably interferes  
33 with the use of the estuary for navigation, fisheries or public recreation; or

34       (b) A hearing is requested and the request:

35       (A) Is made in writing within 60 days of the date of mailing of notice of completion of review;

36       (B) Clearly states the reasons for requesting the hearing; and

37       (C) Provides sufficient information for the director to determine that there is probable cause to  
38 believe that the estuary management plan does not meet the standards for approving wetland con-  
39 servation plans or unreasonably interferes with the use of the estuary for navigation, fisheries or  
40 public recreation.

41       (11) The director shall approve the acknowledged estuary management plan as a wetland con-  
42 servation plan by order unless the director finds by a preponderance of the evidence that the  
43 estuary management plan does not meet the standards for approving wetland conservation plans or  
44 unreasonably interferes with the use of the estuary for navigation, fisheries or public recreation or  
45 that substantial fills proposed in an estuary management plan for nonwater dependent use are not

1 for a public use and would not satisfy a public need that outweighs harm to navigation, fisheries  
2 or public recreation.

3 (12) The director shall prepare a proposed order for review by the parties within 30 days of any  
4 contested case hearing held pursuant to subsection (10) of this section.

5 (13) A final order from the director that recommends, pursuant to subsection (8) of this section,  
6 denial of an estuary management plan as a wetland conservation plan shall identify deficient ele-  
7 ments and provisions of the acknowledged estuary management plan and what measures may be  
8 taken to correct those deficiencies.

9 (14) Individual permit applications shall be required for removal or fill, or both, in areas subject  
10 to an approved estuary management plan. Individual permit applications shall be reviewed in ac-  
11 cordance with ORS 196.815, 196.825, 196.830 and 196.835. In lieu of the substantive standards for  
12 permit issuance in ORS 196.825 (2), the department shall issue a permit if the removal or fill, or  
13 both, is determined by the director to be consistent with the estuary management plan or can be  
14 conditioned to be consistent with the plan. The department shall condition any such permit as nec-  
15 essary to ensure that the project:

16 (a) Is designed or configured to minimize alterations to waters of this state;

17 (b) Is the minimum size necessary to reasonably provide for the proposed use;

18 (c) Is consistent with the resource capabilities of the area and the purposes of the management  
19 unit, unless this has been previously determined in the approved estuary management plan;

20 (d) Is designed to minimize impacts from implementing the project; and

21 (e) Has estuarine resource replacement measures for creation, restoration, enhancement or  
22 preservation that replaces impacted resources.

23 (15) Judicial review of an order granting or denying approval of an estuary management plan  
24 as provided in this section shall be as provided in ORS 183.470.

25 (16) Following approval by the director of an estuary management plan, the requirements of ORS  
26 196.684 shall apply to the approved estuary management plan.

27 **SECTION 650.** ORS 196.687 is amended to read:

28 196.687. (1) Notwithstanding the provisions of ORS 196.600 to 196.905, state or local governments  
29 shall not prohibit or restrict the alteration or fill of wetland areas up to one acre in size that have  
30 been artificially created from upland for the purpose of controlling, storing or maintaining storm  
31 water.

32 (2) An area that was developed as a storm water detention or retention facility as a condition  
33 of a development approval shall not be altered or filled without acceptance by the approving au-  
34 thority of a plan to mitigate the loss of functional capabilities of the detention or retention facility.

35 (3) Until a local government adopts an ordinance to conform its comprehensive plan and land  
36 use regulations to the provisions of this section, the provisions of subsection (1) of this section shall  
37 apply directly to proposed activities in wetland areas. Any portion of a goal, rule, comprehensive  
38 plan, land use regulation or ordinance not in conformance with the provisions of this section on  
39 September 9, 1995:

40 (a) Shall not be implemented or enforced; and

41 (b) Has no legal effect.

42 (4) The provisions of this section do not apply to land used to mitigate the loss of wetlands.

43 (5) If the [*Department of State Lands*] **Oregon Department of Natural Resources** assumes re-  
44 sponsibility under 33 U.S.C. §1344(g) of the Federal Water Pollution Control Act, ORS 196.600 to  
45 196.905 shall apply to artificially created wetlands described in subsections (1) and (2) of this sec-

1 tion.

2 **SECTION 651.** ORS 196.688 is amended to read:

3 196.688. (1) The [*Department of State Lands*] **Oregon Department of Natural Resources** shall  
4 develop a public information program to educate permit applicants and the general public about:

5 (a) Wetland functions and values.

6 (b) The status and trends of Oregon's wetlands.

7 (c) The Statewide Wetlands Inventory.

8 (d) Wetland regulation.

9 (2) Upon request, the department shall, within the limits of staffing ability, provide technical  
10 assistance to other state agencies and local governments and the public in identifying and deline-  
11 ating the boundaries of wetlands.

12 **SECTION 652.** ORS 196.692 is amended to read:

13 196.692. (1) The [*Department of State Lands*] **Oregon Department of Natural Resources** shall  
14 adopt rules to carry out the provisions of ORS 196.668 to 196.692, 196.800, 196.810, 196.818, 196.825,  
15 196.830, 196.850 to 196.860, 196.885, 196.905, 197.015, 197.279, 215.213, 215.283, 215.284, 215.418 and  
16 227.350.

17 (2) Rules adopted pursuant to subsection (1) of this section shall include rules governing the  
18 application for and issuance of permits to remove material from the beds or banks of any waters of  
19 this state or to fill any waters of this state including, but not limited to, clear and objective stan-  
20 dards and criteria for determining whether to grant or deny a permit.

21 **SECTION 653.** ORS 196.795 is amended to read:

22 196.795. (1) The [*Department of State Lands*] **Oregon Department of Natural Resources** shall  
23 continue to pursue methods to streamline the process for administering permits for the removal of  
24 material from the bed or banks of any waters of this state or for filling the waters of this state,  
25 reducing paperwork, eliminating duplication, increasing certainty and timeliness and enhancing re-  
26 source protection. The efforts of the department [*of State Lands*] shall include but need not be lim-  
27 ited to applying to the United States Army Corps of Engineers for a state program general permit  
28 as authorized in federal regulations implementing section 404 of the Federal Water Pollution Control  
29 Act, and section 10 of the Rivers and Harbors Act of 1899, as amended. In conjunction with these  
30 activities, the department [*of State Lands*] may continue to investigate the possibility of assuming  
31 the federal regulatory program under 33 U.S.C. 1344(g) of the Federal Water Pollution Control Act.

32 (2) The department shall report periodically to the appropriate legislative committee on the  
33 progress in implementing subsection (1) of this section.

34 **SECTION 654.** ORS 196.805 is amended to read:

35 196.805. (1) The protection, conservation and best use of the water resources of this state are  
36 matters of the utmost public concern. Streams, lakes, bays, estuaries and other bodies of water in  
37 this state, including not only water and materials for domestic, agricultural and industrial use but  
38 also habitats and spawning areas for fish, avenues for transportation and sites for commerce and  
39 public recreation, are vital to the economy and well-being of this state and its people. Unregulated  
40 removal of material from the beds and banks of the waters of this state may create hazards to the  
41 health, safety and welfare of the people of this state. Unregulated filling in the waters of this state  
42 for any purpose, may result in interfering with or injuring public navigation, fishery and recre-  
43 ational uses of the waters. In order to provide for the best possible use of the water resources of  
44 this state, it is desirable to centralize authority in the Director of the [*Department of State Lands*]  
45 **Oregon Department of Natural Resources**, and implement control of the removal of material from

1 the beds and banks or filling of the waters of this state.

2 (2) The director shall take into consideration all beneficial uses of water including streambank  
3 protection when administering fill and removal statutes.

4 (3) There shall be no condemnation, inverse condemnation, other taking, or confiscating of  
5 property under ORS 196.600 to 196.905 without due process of law.

6 (4) The director shall delineate wetlands in accordance with the United States Army Corps of  
7 Engineers Wetlands Delineation Manual of 1987, or subsequent federal manual as adopted by rule  
8 by the director, and applicable guidance issued by the United States Army Corps of Engineers for  
9 the area in which the wetlands are located.

10 (5) The *[Department of State Lands]* **Oregon Department of Natural Resources** shall give  
11 priority to the review of wetland delineation reports submitted with or in advance of an application  
12 for fill or removal of material from the waters of this state.

13 **SECTION 655.** ORS 196.810 is amended to read:

14 196.810. (1)(a) Except as otherwise specifically permitted under ORS 196.600 to 196.905, a person  
15 may not remove any material from the beds or banks of any waters of this state or fill any waters  
16 of this state without a permit issued under authority of the Director of the *[Department of State*  
17 *Lands]* **Oregon Department of Natural Resources**, or in a manner contrary to the conditions set  
18 out in the permit, or in a manner contrary to the conditions set out in an order approving a wetland  
19 conservation plan.

20 (b) Notwithstanding the permit requirements of this section and notwithstanding the provisions  
21 of ORS 196.800 (3) and (12), if any removal or fill activity is proposed in essential indigenous  
22 anadromous salmonid habitat, except for those activities customarily associated with agriculture, a  
23 permit is required. "Essential indigenous anadromous salmonid habitat" as defined under this sec-  
24 tion shall be further defined and designated by rule by the *[Department of State Lands in consultation*  
25 *with the State Department of Fish and Wildlife]* **Oregon Department of Natural Resources** and in  
26 consultation with other affected parties.

27 (c) A person is not required to obtain a permit under paragraph (b) of this subsection for pros-  
28 pecting or other nonmotorized activities resulting in the removal from or fill of less than one cubic  
29 yard of material at any one individual site and, cumulatively, not more than five cubic yards of  
30 material within a designated essential indigenous anadromous salmonid habitat segment in a single  
31 year. Prospecting or other nonmotorized activities may be conducted only within the bed or wet  
32 perimeter of the waterway and may not occur at any site where fish eggs are present. Removal or  
33 filling activities customarily associated with mining require a permit under paragraph (b) of this  
34 subsection.

35 (d) A permit is not required under paragraph (b) of this subsection for construction or mainte-  
36 nance of fish passage and fish screening structures that are constructed, operated or maintained  
37 under ORS 498.306, 498.316, 498.326 or 509.600 to 509.645.

38 (e) Nothing in this section limits or otherwise changes the exemptions under ORS 196.905.

39 (f) As used in paragraphs (b) and (c) of this subsection:

40 (A) "Bed" means the land within the wet perimeter and any adjacent nonvegetated dry gravel  
41 bar.

42 (B) "Essential indigenous anadromous salmonid habitat" means the habitat that is necessary to  
43 prevent the depletion of indigenous anadromous salmonid species during their life history stages of  
44 spawning and rearing.

45 (C) "Indigenous anadromous salmonid" means chum, sockeye, Chinook and Coho salmon, and

1 steelhead and cutthroat trout, that are members of the family Salmonidae and are listed as sensitive,  
2 threatened or endangered by a state or federal authority.

3 (D) "Prospecting" means searching or exploring for samples of gold, silver or other precious  
4 minerals, using nonmotorized methods, from among small quantities of aggregate.

5 (E) "Wet perimeter" means the area of the stream that is under water or is exposed as a non-  
6 vegetated dry gravel bar island surrounded on all sides by actively moving water at the time the  
7 activity occurs.

8 (2) A public body, as defined in ORS 174.109, may not issue a lease or permit contrary or in  
9 opposition to the conditions set out in the permit issued under ORS 196.600 to 196.905.

10 (3) Subsection (1) of this section does not apply to removal of material under a contract, permit  
11 or lease with any public body, as defined in ORS 174.109, entered into before September 13, 1967.  
12 However, no such contract, permit or lease may be renewed or extended on or after September 13,  
13 1967, unless the person removing the material has obtained a permit under ORS 196.600 to 196.905.

14 (4) Notwithstanding subsection (1) of this section, the [*Department of State Lands*] **Oregon De-**  
15 **partment of Natural Resources** may issue, orally or in writing, an emergency authorization to a  
16 person for the removal of material from the beds or banks or filling of any waters of this state in  
17 an emergency, for the purpose of making repairs or for the purpose of preventing irreparable harm,  
18 injury or damage to persons or property. The emergency authorization issued under this subsection:

19 (a) Shall contain conditions of operation that the department determines are necessary to mini-  
20 mize impacts to water resources or adjoining properties.

21 (b) Shall be based, whenever practicable, on the recommendations contained in an on-site eval-  
22 uation by an employee or representative of the department.

23 (c) If issued orally, shall be confirmed in writing by the department within five days.

24 (d) Does not relieve the person from payment of a fee calculated in the manner provided in ORS  
25 196.815.

26 **SECTION 656.** ORS 196.810, as amended by section 2, chapter 516, Oregon Laws 2001, section  
27 97, chapter 14, Oregon Laws 2003, section 64, chapter 71, Oregon Laws 2007, section 5, chapter 625,  
28 Oregon Laws 2007, and section 15, chapter 849, Oregon Laws 2007, is amended to read:

29 196.810. (1)(a) Except as otherwise specifically permitted under ORS 196.600 to 196.905, a person  
30 may not remove any material from the beds or banks of any waters of this state or fill any waters  
31 of this state without a permit issued under authority of the Director of the [*Department of State*  
32 *Lands*] **Oregon Department of Natural Resources**, or in a manner contrary to the conditions set  
33 out in the permit, or in a manner contrary to the conditions set out in an order approving a wetland  
34 conservation plan.

35 (b) A permit is not required under paragraph (a) of this subsection for prospecting or other  
36 nonmotorized activities resulting in the removal from or fill of less than one cubic yard of material  
37 at any one individual site and, cumulatively, not more than five cubic yards of material within a  
38 particular stream segment in a single year. Prospecting or other nonmotorized activities may be  
39 conducted only within the bed or wet perimeter of the waterway and may not occur at any site  
40 where fish eggs are present. Removal or filling activities customarily associated with mining require  
41 a permit under paragraph (a) of this subsection.

42 (c) A permit is not required under paragraph (a) of this subsection for construction or mainte-  
43 nance of fish passage and fish screening structures associated with irrigation ditches or the main-  
44 tenance of drainage ditches that are constructed, operated or maintained under ORS 498.306,  
45 498.316, 498.326 or 509.600 to 509.645.

1 (d) Nothing in this section limits or otherwise changes the exemptions under ORS 196.905.

2 (2) A public body, as defined in ORS 174.109, may not issue a lease or permit contrary or in  
3 opposition to the conditions set out in the permit issued under ORS 196.600 to 196.905.

4 (3) Subsection (1) of this section does not apply to removal of material under a contract, permit  
5 or lease with any public body, as defined in ORS 174.109, entered into before September 13, 1967.  
6 However, a contract, permit or lease may not be renewed or extended on or after September 13,  
7 1967, unless the person removing the material has obtained a permit under ORS 196.600 to 196.905.

8 (4) Notwithstanding subsection (1) of this section, the [*Department of State Lands*] **Oregon De-**  
9 **partment of Natural Resources** may issue, orally or in writing, an emergency authorization to a  
10 person for the removal of material from the beds or banks or filling of any waters of this state in  
11 an emergency, for the purpose of making repairs or for the purpose of preventing irreparable harm,  
12 injury or damage to persons or property. The emergency authorization issued under this subsection:

13 (a) Shall contain conditions of operation that the department determines are necessary to mini-  
14 mize impacts to water resources or adjoining properties.

15 (b) Shall be based, whenever practicable, on the recommendations contained in an on-site eval-  
16 uation by an employee or representative of the department.

17 (c) If issued orally, shall be confirmed in writing by the department within five days.

18 (d) Does not relieve the person from payment of a fee calculated in the manner provided in ORS  
19 196.815.

31 (4) The department may waive the fees specified in subsection (2) of this section for a permit  
32 that will be used to perform a voluntary habitat restoration project.

33 (5) A person who receives an emergency authorization under ORS 196.810 to remove material  
34 from the beds or banks of any waters of this state or to fill any waters of this state shall, within

17 (c) The department shall condition any such general permit upon actions necessary to minimize  
18 environmental effects.

19 (2) Any person proposing to conduct an action under a general permit shall apply to the de-

42 sumers for All Items as published by the Bureau of Labor Statistics of the United States Department  
43 of Labor. The director shall round the amount to the nearest dollar. The revised fee shall take ef-  
44 fect January 1 and apply for that calendar year.

45 (5) Fees received under this section shall be credited to the Common School Fund for use by the

1 department in administration of ORS 196.600 to 196.905.

2 **SECTION 660.** ORS 196.820 is amended to read:

3 196.820. (1) Notwithstanding any provision of ORS 196.600 to 196.905 to the contrary, except as  
4 provided in subsection (2) of this section, the Director of the [*Department of State Lands*] **Oregon**  
5 **Department of Natural Resources** shall not issue any permit to fill Smith Lake or Bybee Lake,  
6 located in Multnomah County, below the contour line which lies 11 feet above mean sea level as  
7 determined by the 1947 adjusted United States Coastal Geodetic Survey Datum.

8 (2) Notwithstanding the provision of subsection (1) of this section, the director [*of the Depart-*  
9 *ment of State Lands*] may issue a permit to fill Smith Lake or Bybee Lake, located in Multnomah  
10 County, if such fill is to enhance or maintain fish and wildlife habitat at or near Smith Lake or  
11 Bybee Lake. A fill shall be considered to be for the purpose of enhancing or maintaining fish and  
12 wildlife habitat [*if the proposed fill is approved by the State Department of Fish and Wildlife*].

13 **SECTION 661.** ORS 196.825 is amended to read:

14 196.825. (1) The Director of the [*Department of State Lands*] **Oregon Department of Natural**  
15 **Resources** shall issue a permit applied for under ORS 196.815 if the director determines that the  
16 project described in the application:

17 (a) Is consistent with the protection, conservation and best use of the water resources of this  
18 state as specified in ORS 196.600 to 196.905; and

19 (b) Would not unreasonably interfere with the paramount policy of this state to preserve the use  
20 of its waters for navigation, fishing and public recreation.

21 (2) In determining whether to issue a permit, the director shall consider all of the following:

22 (a) The public need for the proposed fill or removal and the social, economic or other public  
23 benefits likely to result from the proposed fill or removal. When the applicant for a permit is a  
24 public body, the director may accept and rely upon the public body's findings as to local public need  
25 and local public benefit.

26 (b) The economic cost to the public if the proposed fill or removal is not accomplished.

27 (c) The availability of alternatives to the project for which the fill or removal is proposed.

28 (d) The availability of alternative sites for the proposed fill or removal.

29 (e) Whether the proposed fill or removal conforms to sound policies of conservation and would  
30 not interfere with public health and safety.

31 (f) Whether the proposed fill or removal is in conformance with existing public uses of the wa-  
32 ters and with uses designated for adjacent land in an acknowledged comprehensive plan and land  
33 use regulations.

34 (g) Whether the proposed fill or removal is compatible with the acknowledged comprehensive  
35 plan and land use regulations for the area where the proposed fill or removal is to take place or  
36 can be conditioned on a future local approval to meet this criterion.

37 (h) Whether the proposed fill or removal is for streambank protection.

38 (i) Whether the applicant has provided all practicable mitigation to reduce the adverse effects  
39 of the proposed fill or removal in the manner set forth in ORS 196.800. In determining whether the  
40 applicant has provided all practicable mitigation, the director shall consider the findings regarding  
41 wetlands set forth in ORS 196.668 and whether the proposed mitigation advances the policy objec-  
42 tives for the protection of wetlands set forth in ORS 196.672.

43 (3) The director may issue a permit for a project that results in a substantial fill in an estuary  
44 for a nonwater dependent use only if the project is for a public use and would satisfy a public need  
45 that outweighs harm to navigation, fishery and recreation and if the proposed fill meets all other

1 criteria contained in ORS 196.600 to 196.905.

2 (4) If the director issues a permit, the director may impose such conditions as the director con-  
3 siders necessary to carry out the purposes of ORS 196.805 and 196.830 and subsection (1) of this  
4 section and to provide mitigation for the reasonably expected adverse effects of project development.  
5 In formulating such conditions the director may request comment from public bodies, as defined in  
6 ORS 174.109, federal agencies and tribal governments affected by the permit. Each permit is valid  
7 only for the time specified therein. The director shall impose, as conditions to any permit, general  
8 authorization or wetland conservation plan, measures to provide mitigation for the reasonably ex-  
9 pected adverse effects of project development. Compensatory mitigation shall be limited to replace-  
10 ment of the functions and values of the impacted water resources of this state.

11 (5) The director may request comment from interested parties and adjacent property owners on  
12 any application for a permit. The director shall furnish to any person, upon written request and at  
13 the expense of the person who requests the copy, a copy of any application for a permit or author-  
14 ization under this section or ORS 196.850.

15 (6) Any applicant whose application for a permit or authorization has been deemed incomplete  
16 or has been denied, or who objects to any of the conditions imposed under this section by the di-  
17 rector, may, within 21 days of the denial of the permit or authorization or the imposition of any  
18 condition, request a hearing from the director. Thereupon the director shall set the matter down for  
19 hearing, which shall be conducted as a contested case in accordance with ORS 183.415 to 183.430,  
20 183.440 to 183.460 and 183.470. After such hearing, the director shall enter an order containing  
21 findings of fact and conclusions of law. The order shall rescind, affirm or modify the director's initial  
22 order. Appeals from the director's final order may be taken to the Court of Appeals in the manner  
23 provided by ORS 183.482.

24 (7) Except for a permit issued under the process set forth in ORS 517.952 to 517.989, the director  
25 shall:

26 (a) Determine whether an application is complete within 30 days from the date the [*Department*  
27 *of State Lands*] **Oregon Department of Natural Resources** receives the application. If the director  
28 determines that an application is complete, the director shall distribute the application for comment  
29 pursuant to subsection (4) of this section. If the director determines that the application is not  
30 complete, the director shall notify the applicant in writing that the application is deficient and ex-  
31 plain, in the same notice, the deficiencies.

32 (b) Issue a permit decision within 90 days after the date the director determines that the appli-  
33 cation is complete unless:

34 (A) An extension of time is granted under subsection (9)(b) of this section; or

35 (B) The applicant and the director agree to a longer time period.

36 (8) Permits issued under this section shall be in lieu of any permit or authorization that might  
37 be required for the same operation under ORS 164.775, 164.785, 468.020, 468.035, 468.045, 468.055,  
38 468.060, 468.110, 468.120, 468B.005 to 468B.030 and 468B.048 to 468B.085, [so] as long as:

39 (a) The operation is that for which the permit or authorization is issued; and

40 (b) The standards for granting the permit or authorization are substantially the same as those  
41 established pursuant to ORS 164.775, 164.785, 468.020, 468.035, 468.045, 468.055, 468.110, 468.120,  
42 468B.005 to 468B.030 and 468B.048 to 468B.085 to the extent they affect water quality.

43 (9)(a) Any public body, as defined in ORS 174.109, federal agency or tribal government requested  
44 by the director to comment on an application for a permit must submit its comments to the director  
45 not more than 30 days after receiving the request for comment. If a public body, federal agency or

1 tribal government fails to comment on the application within 30 days, the director shall assume that  
2 the public body, federal agency or tribal government has no objection.

3 (b) The Department of Environmental Quality shall provide comments to the director within 75  
4 days after receiving notice under subsection (4) of this section if the permit action requires certif-  
5 ication under the Federal Water Pollution Control Act (P.L. 92-500), as amended.

6 (10) In determining whether to issue a permit, the director may consider only standards and  
7 criteria in effect on the date the director receives the completed application.

8 (11) As used in this section:

9 (a) "Applicant" means a landowner or person authorized by a landowner to conduct a removal  
10 or fill activity.

11 (b) "Completed application" means a signed permit application form that contains all necessary  
12 information for the director to determine whether to issue a permit, including:

13 (A) A map showing the project site with sufficient accuracy to easily locate the removal or fill  
14 site;

15 (B) A project plan showing the project site and proposed alterations;

16 (C) The fee required under ORS 196.815;

17 (D) Any changes that may be made to the hydraulic characteristics of waters of this state and  
18 a plan to minimize or avoid any adverse effects of those changes;

19 (E) If the project may cause substantial adverse effects on aquatic life or aquatic habitat within  
20 this state, documentation of existing conditions and resources and identification of the potential  
21 impact if the project is completed;

22 (F) An analysis of alternatives that evaluates practicable methods to minimize and avoid impacts  
23 to waters of this state;

24 (G) If the project is to fill or remove material from wetlands, a wetlands mitigation plan; and

25 (H) Any other information that the director deems pertinent and necessary to make an informed  
26 decision on whether the application complies with the policy and standards set forth in this section.

27 **SECTION 662.** ORS 196.830 is amended to read:

28 196.830. (1) As used in this section, "estuarine resource replacement" means the creation, res-  
29 toration or enhancement of an estuarine area to maintain the functional characteristics and pro-  
30 cesses of the estuary, such as its natural biological productivity, habitats and species diversity,  
31 unique features and water quality.

32 (2) Except as provided in subsection (4) of this section, the Director of the [*Department of State*  
33 *Lands*] **Oregon Department of Natural Resources** shall require estuarine resource replacement  
34 as a condition of any permit for filling or removal of material from an intertidal or tidal marsh area  
35 of an estuary.

36 (3) If the director requires estuarine resource replacement, the director shall consider:

37 (a) The identified adverse impacts of the proposed activity;

38 (b) The availability of areas in which replacement activities could be performed;

39 (c) The provisions of land use plans for the area adjacent to or surrounding the area of the  
40 proposed activity;

41 (d) The recommendations of any interested or affected state or local agencies; and

42 (e) The extent of compensating activity inherent in the proposed activity.

43 (4) Notwithstanding any provisions of this chapter and ORS chapters 195 and 197 or the state-  
44 wide planning goals adopted thereunder to the contrary, the director may:

45 (a) Waive estuarine resource replacement in part for an activity for which replacement would

1 otherwise be required if, after consultation with appropriate state and local agencies the director  
2 determines that:

3 (A) There is no alternative manner in which to accomplish the purpose of the project;

4 (B) There is no feasible manner in which estuarine resource replacement could be accomplished;

5 (C) The economic and public need for the project and the economic and public benefits resulting  
6 from the project clearly outweigh the potential degradation of the estuary;

7 (D) The project is for a public use; and

8 (E) The project is water dependent or the project is publicly owned and water related; or

9 (b) Waive estuarine resource replacement wholly or in part for an activity for which replace-  
10 ment would otherwise be required if the activity is:

11 (A) Filling for repair and maintenance of existing functional dikes and negligible physical or  
12 biological damage to the tidal marsh or intertidal areas of the estuary will result;

13 (B) Riprap to allow protection of an existing bankline with clean, durable erosion resistant ma-  
14 terial when a need for riprap protection is demonstrated that cannot be met with natural vegetation  
15 and no appreciable increase in existing upland will occur;

16 (C) Filling for repair and maintenance of existing roads and negligible physical or biological  
17 damage to the tidal marsh or intertidal areas of the estuary will result;

18 (D) Dredging for authorized navigation channels, jetty or navigational aid installation, repair  
19 or maintenance conducted by or under contract with the Army Corps of Engineers;

20 (E) Dredging or filling required as part of an estuarine resource restoration or enhancement  
21 project agreed to by local, state and federal agencies; or

22 (F) A proposed alteration that would have negligible adverse physical or biological impact on  
23 estuarine resources.

24 (5) Nothing in this section is intended to limit the authority of the director to impose conditions  
25 on a permit under ORS 196.825.

26 **SECTION 663.** ORS 196.835 is amended to read:

27 196.835. Any person aggrieved or adversely affected by the grant of a permit by the Director  
28 of the [*Department of State Lands*] **Oregon Department of Natural Resources** may file a written  
29 request for hearing with the director within 21 days after the date the permit was granted. If the  
30 director finds that the person making the written request has a legally protected interest which is  
31 adversely affected by the grant of the permit, the director shall set the matter down for hearing  
32 within 30 days after receipt of the request. The hearing shall be conducted as a contested case in  
33 accordance with ORS 183.415 to 183.430, 183.440 to 183.460 and 183.470. The permittee shall be a  
34 party to the proceeding. Within 45 days of the hearing the director shall enter an order containing  
35 findings of fact and conclusions of law. The order shall rescind, affirm or modify the director's ori-  
36 ginal order. Appeals from the director's final order may be taken to the Court of Appeals in the  
37 manner provided by ORS 183.482. A permit to fill granted by the director may be suspended by the  
38 director during the pendency of the proceedings before the director and any appeal. The director  
39 shall not suspend the permit unless the person aggrieved or adversely affected by grant of permit  
40 makes a showing before the director by clear and convincing evidence that commencement or con-  
41 tinuation of the fill would cause irreparable damage and would be inconsistent with ORS 196.600  
42 to 196.905.

43 **SECTION 664.** ORS 196.845 is amended to read:

44 196.845. In considering applications for permits, the Director of the [*Department of State Lands*]  
45 **Oregon Department of Natural Resources** may cause investigations or surveys to be made of the

1 location of the work contemplated to determine whether such removal or filling is consistent with  
2 ORS 196.805 and 196.825.

3 **SECTION 665.** ORS 196.850 is amended to read:

4 196.850. (1) Notwithstanding ORS 196.810, the [*Department of State Lands*] **Oregon Department**  
5 **of Natural Resources** may, by rule, grant general authorization for removal of material from the  
6 bed or banks of any waters of this state or the filling of any waters of this state without a permit  
7 from the department if the department finds that the activities subject to the general authorization:

8 (a) Are substantially similar in nature;

9 (b) Would cause only minimal individual and cumulative environmental impacts; and

10 (c) Would not result in long-term harm to water resources of the state.

11 (2) A general authorization may be granted on a statewide or other geographic basis.

12 (3) The department shall condition any general authorization upon actions necessary to minimize  
13 environmental impacts.

14 (4) The department shall provide notice of any proposed general authorization to affected federal  
15 and state agencies, local governments, tribal governments and the public. The notice shall include:

16 (a) A clear description of the proposal; and

17 (b) Draft findings and any proposed conditions pursuant to this section.

18 (5) Any person proposing to conduct an action under a general authorization shall:

19 (a) Notify the department in writing prior to conducting the action.

20 (b) Pay the applicable fee to the department as determined under subsection (9) of this section.

21 (6) The department shall amend or rescind any general authorization upon a determination that  
22 the activities conducted under the authorization have resulted in or would result in more than  
23 minimal environmental impacts or long-term harm to the water resources of this state.

24 (7) The department shall review each general authorization adopted pursuant to this section  
25 every five years. The review shall include public notice and opportunity for public hearing. After  
26 the review, the department may either modify, reissue or rescind the general authorization.

27 (8) In addition to the grounds for review set forth in ORS 183.400 (4), on judicial review of the  
28 validity of a rule adopted under this section, the rule shall be reviewable for substantial evidence  
29 in the rulemaking record. The record shall include copies of all documents before the agency rele-  
30 vant to the findings required by subsection (1) of this section.

31 (9) If the rule adopting a general authorization under this section is:

32 (a) For actions that result in moving less than 50 cubic yards of material, the department may  
33 not charge a fee for the general authorization.

34 (b) For actions that result in moving 50 or more cubic yards of material, the department may  
35 establish a fee for the general authorization. The fee may not exceed \$250 and shall be based on the  
36 cost of processing the general authorization.

37 (10) The department shall credit any fee collected under this section to the Common School  
38 Fund for use by the department in administration of ORS 196.600 to 196.905.

39 **SECTION 666.** ORS 196.850, as amended by section 4, chapter 516, Oregon Laws 2001, section  
40 12, chapter 253, Oregon Laws 2003, and section 7, chapter 849, Oregon Laws 2007, is amended to  
41 read:

42 196.850. (1) Notwithstanding ORS 196.810, the [*Department of State Lands*] **Oregon Department**  
43 **of Natural Resources** may, by rule, grant general authorization for removal of material from the  
44 bed or banks of any waters of this state or the filling of any waters of this state without a permit  
45 from the department if the department finds that the activities subject to the general authorization:

- 1 (a) Are substantially similar in nature;  
2 (b) Would cause only minimal individual and cumulative environmental impacts; and  
3 (c) Would not result in long-term harm to water resources of the state.
- 4 (2) A general authorization may be granted on a statewide or other geographic basis.
- 5 (3) The department shall condition any general authorization upon actions necessary to minimize  
6 environmental impacts.
- 7 (4) The department shall provide notice of any proposed general authorization to affected federal  
8 and state agencies, local governments, tribal governments and the public. The notice shall include:  
9 (a) A clear description of the proposal; and  
10 (b) Draft findings and any proposed conditions pursuant to this section.
- 11 (5) Any person proposing to conduct an action under a general authorization shall:  
12 (a) Notify the department in writing prior to conducting the action. The person may not com-  
13 mence the action until the person receives a letter of authorization from the department.  
14 (b) Pay the applicable fee to the department as determined under subsection (10) of this section.
- 15 (6) The Director of the [*Department of State Lands*] **Oregon Department of Natural Resources**  
16 shall waive the requirements of subsection (5) of this section if the director issues a general au-  
17 thorization and the authorized activity:  
18 (a) Involves less than 50 cubic yards of material;  
19 (b) Will be conducted during periods that minimize adverse effects to fish and wildlife [*in ac-*  
20 *cordance with guidance provided by the State Department of Fish and Wildlife*];  
21 (c) Will not dam or divert a waterway in a manner that obstructs fish passage or vessel navi-  
22 gation; and  
23 (d) Will not violate water quality standards as established by the Department of Environmental  
24 Quality.
- 25 (7) The [*Department of State Lands*] **Oregon Department of Natural Resources** shall amend  
26 or rescind any general authorization upon a determination that the activities conducted under the  
27 authorization have resulted in or would result in more than minimal environmental impacts or  
28 long-term harm to the water resources of this state.
- 29 (8) The department shall review each general authorization adopted pursuant to this section  
30 every five years. The review shall include public notice and opportunity for public hearing. After  
31 the review, the department may either modify, reissue or rescind the general authorization.
- 32 (9) In addition to the grounds for review set forth in ORS 183.400 (4), on judicial review of the  
33 validity of a rule adopted under this section, the rule shall be reviewable for substantial evidence  
34 in the rulemaking record. The record shall include copies of all documents before the agency rele-  
35 vant to the findings required by subsection (1) of this section.
- 36 (10) If the rule adopting a general authorization under this section is:  
37 (a) For actions that result in moving less than 50 cubic yards of material, the department may  
38 not charge a fee for the general authorization.  
39 (b) For actions that result in moving 50 or more cubic yards of material, the department may  
40 establish a fee for the general authorization. The fee may not exceed \$250 and shall be based on the  
41 cost of processing the general authorization.
- 42 (11) The department shall credit any fee collected under this section to the Common School  
43 Fund for use by the department in administration of ORS 196.600 to 196.905.
- 44 **SECTION 667.** ORS 196.860 is amended to read:  
45 196.860. (1) If the Director of the [*Department of State Lands*] **Oregon Department of Natural**

1 **Resources** determines that material is being removed from or filling is occurring in any of the wa-  
2 ters of this state without a permit issued under ORS 196.825, or in a manner contrary to the con-  
3 ditions set out in the permit, or in a manner contrary to the conditions set out in an order approving  
4 a wetland conservation plan, the director may:

5 (a) Investigate, hold hearings, make orders and take action, as provided in ORS 196.600 to  
6 196.905, as soon as possible.

7 (b) For the purpose of investigating conditions relating to the removal or filling, through the  
8 employees or the duly authorized representatives of the [*Department of State Lands*] **Oregon De-**  
9 **partment of Natural Resources**, enter at reasonable times upon any private or public property.

10 (c) Conduct public hearings in accordance with ORS chapter 183.

11 (d) Publish findings and recommendations as they are developed relative to public policies and  
12 procedures necessary for the correction of conditions or violations of ORS 196.600 to 196.905.

13 (e) Give notice of any proposed order relating to a violation by personal service or by mailing  
14 the notice by registered or certified mail to the person affected. Any person aggrieved by a proposed  
15 order of the director may request a hearing within 20 days of the date of personal service or mailing  
16 of the notice. Hearings shall be conducted under the provisions of ORS chapter 183 applicable to  
17 contested cases, and judicial review of final orders shall be conducted in the Court of Appeals ac-  
18 cording to ORS 183.482. If no hearing is requested or if the party fails to appear, a final order shall  
19 be issued upon a prima facie case on the record of the agency.

20 (f) Take appropriate action for the enforcement of any rules or final orders. Any violation of  
21 ORS 196.600 to 196.905 or of any rule or final order of the director under ORS 196.600 to 196.905  
22 may be enjoined in civil abatement proceedings brought in the name of the State of Oregon. In any  
23 such proceedings the director may seek and the court may award a sum of money sufficient to  
24 compensate the public for any destruction or infringement of any public right of navigation, fishery  
25 or recreation resulting from the violation. Proceedings thus brought by the director shall set forth  
26 if applicable the dates of notice and hearing and the specific rule or order of the director, together  
27 with the facts of noncompliance, the facts giving rise to the public nuisance, and a statement of the  
28 damages to any public right of navigation, fishery or recreation, if any, resulting from the violation.

29 (2)(a) In addition to the administrative action the director may take under subsection (1) of this  
30 section, the director may enter an order requiring any person to cease and desist from any violation  
31 if the director determines that the violation presents an imminent and substantial risk of injury, loss  
32 or damage to water resources.

33 (b) An order under this subsection:

34 (A) May be entered without prior notice or hearing.

35 (B) Shall be served upon the person by personal service or by registered or certified mail.

36 (C) Shall state that a hearing will be held on the order if a written request for hearing is filed  
37 by the person subject to the order within 10 days after receipt of the order.

38 (D) May not be stayed during the pendency of a hearing conducted under paragraph (c) of this  
39 subsection.

40 (c) If a person subject to an order under this subsection files a timely demand for hearing, the  
41 director shall hold a contested case hearing according to the applicable provisions of ORS chapter  
42 183. If the person fails to request a hearing, the order shall be entered as a final order upon prima  
43 facie case made on the record of the agency.

44 (d) Neither the director nor any duly authorized representative of the department shall be liable  
45 for any damages a person may sustain as a result of a cease and desist order issued under this

1 subsection.

2 (e) The state and local police shall cooperate in the enforcement of any order issued under this  
3 subsection and shall require no further authority or warrant in executing or enforcing the order. If  
4 any person fails to comply with an order issued under this subsection, the circuit court of the county  
5 in which the violation occurred or is threatened shall compel compliance with the director's order  
6 in the same manner as with an order of that court.

7 (3) As used in this section, "violation" means removing material from or placing fill in any of  
8 the waters of this state without a permit or in a manner contrary to the conditions set out in a  
9 permit issued under ORS 196.825.

10 **SECTION 668.** ORS 196.865 is amended to read:

11 196.865. If the Director of the [*Department of State Lands*] **Oregon Department of Natural**  
12 **Resources** finds that a person holding a permit issued under ORS 196.825 is removing material from  
13 the bed or banks or filling any of the waters of this state contrary to the conditions set out in the  
14 permit, the director may revoke, suspend or refuse to renew such permit. The director may revoke  
15 a permit only after giving notice and opportunity for a hearing as provided in ORS 183.415 to

34 geothermal rights on such properties.

35 (6) Mineral or geothermal resource rights or proceeds from those rights given by a donor to any  
36 institution, department or activity under the control of the State Board of Higher Education that  
37 are acquired or held for the state by the State Board of Higher Education pursuant to ORS chapters  
38 351 and 567. In managing mineral or geothermal resource leases, the State Board of Higher Educa-  
39 tion shall consult with the [*Department of State Lands*] **Oregon Department of Natural Resources**  
40 in accordance with an interagency agreement established by the department and the State Board  
41 of Higher Education governing consultation between the department and the State Board of Higher  
42 Education and governing management of the mineral or geothermal resources.

43 (7) Mineral or geothermal resource rights or proceeds from those rights acquired and held by  
44 the Department of Transportation. In managing mineral or geothermal resource leases, the Depart-  
45 ment of Transportation shall enter into an intergovernmental agreement with the [*Department of*

1 *State Lands*] **Oregon Department of Natural Resources** governing consultation between the de-  
2 partments and governing management of the mineral or geothermal resources.

3 **SECTION 759.** ORS 273.787 is amended to read:

4 273.787. (1) As used in this section:

5 (a) "Owner" means:

6 (A) The record holder of fee title interest in residential real property; or

7 (B) The contract purchaser of residential real property.

8 (b) "Residential real property" means real property that is sold by the [*Department of State*  
9 *Lands*] **Oregon Department of Natural Resources** for the State Land Board and is located:

10 (A) Inside an urban growth boundary; or

11 (B) Within an area zoned for residential use on a lot or parcel that is three acres or smaller in  
12 size.

13 (2) An owner may apply to the department for release and transfer of the rights to mineral or  
14 geothermal resources reserved by the State of Oregon.

15 (3) Upon application by the owner, the department shall release and transfer to the owner the  
16 reserved rights to mineral and geothermal resources within 30 days after the first [*board*]  
17 **of the State Land Board** that is at least 60 days after the department received the completed ap-  
18 plication for release and transfer of the rights, unless the board finds that a significant mineral or  
19 geothermal resource exists. If the board finds that a significant mineral or geothermal resource ex-  
20 exists, the owner may:

21 (a) Offer to purchase the resource for the value of the resource; or

22 (b) Withdraw the application.

23 (4) If the board finds that a significant mineral or geothermal resource exists under subsection  
24 (3) of this section and the owner offers to purchase the resource for the value of the resource:

25 (a) The board shall determine the value of the resource on the basis of an appraisal conducted  
26 by a state certified appraiser certified under ORS 674.310 or by a geologist who is registered under  
27 ORS 672.505 to 672.705 and qualified to assess the value of mineral and geothermal deposits.

28 (b) The board may not:

29 (A) Require an owner to obtain an appraisal under this section; or

30 (B) Require an owner to pay the cost of an appraisal conducted at the request of the board  
31 under this section.

32 (5) The department may charge a reasonable fee, not to exceed \$150, to process an application  
33 under this section.

34 (6) The department may adopt rules to implement this section.

35 **SECTION 760.** ORS 273.790 is amended to read:

36 273.790. The [*Department of State Lands*] **Oregon Department of Natural Resources** shall es-  
37 tablish and maintain a registry of mineral and geothermal resource rights placed under the juris-  
38 diction of the State Land Board.

39 **SECTION 761.** ORS 273.805 is amended to read:

40 273.805. (1) As used in ORS 273.805 to 273.825, "common school grazing lands" means lands  
41 owned by the State of Oregon and under the control of the [*Department of State Lands*] **Oregon**  
42 **Department of Natural Resources** that are chiefly suitable for the grazing of animals, as deter-  
43 mined by the department, and [*which*] **that** are within, but not limited to, the following land classi-  
44 fications:

45 (a) Lands defined by ORS 273.251 as indemnity lands, school lands or farmlands.

1 (b) Lands [*which*] **that** have escheated to the state.

2 (2) Nothing in ORS 273.805 to 273.825 is intended to be an express or implied limitation upon  
3 the powers of the department to acquire, lease, manage, control or protect land pursuant to au-  
4 thority otherwise granted by law. ORS 273.805 to 273.825 and 327.430 are not the result of a legis-  
5 lative intent or belief that the department is without authority to acquire, lease, manage, protect  
6 or control common school grazing lands.

7 **SECTION 762.** ORS 273.815 is amended to read:

8 273.815. (1) In order to accomplish the purpose of ORS 273.805 to 273.825, the [*Department of*  
9 *State Lands*] **Oregon Department of Natural Resources** may, with respect to common school  
10 grazing lands:

11 (a) Protect the lands from fire, disease and insect pests, cooperate with others in such protection  
12 and enter into all agreements necessary or convenient therefor.

13 (b) Lease the lands subject to such terms and conditions as the department prescribes or is  
14 otherwise prescribed by law. Leases shall be of sufficient duration so as to encourage the rehabil-  
15 itation and improvement of the lands by the lessee.

16 (c) Loan moneys belonging to the Common School Fund to lessees of the lands for the purpose  
17 of rehabilitating and improving the lands. The security for such loans shall be as prescribed by the  
18 department but shall not be more than equal in value to the amount loaned.

19 (d) Reseed or reforest the lands, including the destruction of undesirable vegetation, and coop-  
20 erate with others for such reseeding or reforestation, and make all agreements necessary or con-  
21 venient thereto.

22 (e) Require such undertakings, including performance bonds, as it considers appropriate to se-  
23 cure performance of any agreement or loan authorized by ORS 273.805 to 273.825.

24 (2) In order to accomplish the purpose of ORS 273.805 to 273.825, the department may, with re-  
25 spect to common school grazing lands, apply the following to all leases entered into by the depart-  
26 ment after January 1, 1985:

27 (a) The initial term of a lease shall be not less than 20 years, and at the end of the initial term  
28 the lease shall be renewed by the department for an additional term of 20 years. However, any  
29 lessee who is in default under the terms of the lease or has failed to comply with all management  
30 plans applicable to the lease shall not be eligible for renewal of the lease for an additional term of  
31 20 years as provided in this paragraph.

32 (b) The department shall give preference in the issuance of leases to:

33 (A) Persons who are current lessees; and

34 (B) Landowners engaged in the livestock business that seek to use the common school grazing  
35 lands for the grazing of livestock. For the purposes of this subparagraph, "landowner" means an  
36 individual or legal entity that is the owner of the land, water or water rights necessary to permit  
37 the proper use of the leased common school grazing lands in combination with the landowner's pri-  
38 vately owned or controlled land or water.

39 (c) The department may terminate a lease of common school grazing lands:

40 (A) Upon the default of the lessee as to any material term of the lease; or

41 (B) If the lessee has failed to comply with any management plan adopted by the department and  
42 applicable to the leasehold.

43 (d) Except as provided in paragraph (c) of this subsection, the department shall not terminate  
44 a common school grazing lands lease without the consent of the lessee. If the consent of the lessee  
45 cannot be obtained, the department may terminate a common school grazing lands lease only by

1 contemporaneously agreeing to pay to the lessee compensation as provided by law for all damages  
 2 caused by the termination of the lease, including any depreciation or loss of value to the remaining  
 3 lands or businesses of the lessee.

4 **SECTION 763.** ORS 273.820 is amended to read:

5 273.820. The [*Department of State Lands*] **Oregon Department of Natural Resources** may ex-  
 6 change common school grazing lands for land of approximately equal aggregate value, when such  
 7 exchange is in furtherance of the purposes of ORS 273.805 to 273.825. No exchange shall be made  
 8 until the title to the lands to be received has been validated by the Attorney General. All lands  
 9 received in exchange shall have the same status and be subject to the same provisions of law as  
 10 lands given in exchange therefor.

11 **SECTION 764.** ORS 273.825 is amended to read:

12 273.825. (1) The lessee of any common school grazing land, upon its classification for sale by the  
 13 [*Department of State Lands*] **Oregon Department of Natural Resources**, may purchase such land  
 14 at a price and on terms prescribed under subsection (2) of this section if the lessee is an individual  
 15 person, a resident of this state and owns, in fee simple, land immediately adjacent to the common  
 16 school grazing land for which the lessee has applied. For purposes of this section, lands are con-  
 17 sidered to be adjacent if their boundaries are common or intersect at a common point.

18 (2) Application to purchase common school grazing land under subsection (1) of this section must  
 19 be made in a manner prescribed by the rules of the department. Upon receiving an application, the  
 20 department shall determine whether the applicant qualifies under subsection (1) of this section. If  
 21 the applicant qualifies, the department shall cause an appraisal to be made of the land for which  
 22 application has been made. The department then shall fix a price for such land. ORS 270.020, 273.225  
 23 to 273.241 and 273.275 do not apply to the sale of land under this subsection. The applicant shall  
 24 pay not less than 10 percent of the purchase price at the time of purchase, and shall pay the re-  
 25 mainder in 10 equal installments, at least one installment to be paid each year, over a period not  
 26 to exceed 10 years from the time of purchase, with interest at the rate fixed by the department for  
 27 purposes of ORS 327.425.

28 (3) If application to purchase common school grazing land is made by a person other than the  
 29 lessee of such land, the department promptly shall notify the lessee by registered or certified mail.  
 30 Not later than the 90th day after notice was mailed to the lessee, the lessee may make written ap-  
 31 plication in a manner prescribed by the rules of the department to purchase such land. If the de-  
 32 partment determines that the lessee qualifies under subsection (1) of this section, the department  
 33 shall proceed under subsection (2) of this section. If the department determines that the lessee does  
 34 not so qualify, or if the lessee does not make timely application as required by this subsection, the  
 35 department shall proceed to sell such land in accordance with applicable provisions of law other  
 36 than this section.

37 **SECTION 765.** ORS 273.870 is amended to read:

38 273.870. (1) The Board of County Commissioners of Clatsop County shall give public notice of  
 39 each application received by it under ORS 273.865 (1), prior to its consideration thereof, by adver-  
 40 tisement not less than once each week for four successive weeks in a newspaper of general circu-  
 41 lation in Clatsop County. Such notice need not describe the lands applied for in legal terms, but  
 42 by the use of common descriptions or maps shall be designed to identify the lands in a manner  
 43 intelligible to the layperson. Each notice shall indicate that a protest against the execution of the  
 44 deed applied for may be filed, in a manner prescribed by the county board, with the county board  
 45 not later than the 60th day after the fourth publication of the notice, or within such further time

1 as the county board authorizes on a showing of good cause. Not later than the fifth day after the  
 2 first publication of the notice, the county board shall send written notice of the application to the  
 3 [*Department of State Lands*] **Oregon Department of Natural Resources**.

4 (2) If no protest is received within the time provided for in subsection (1) of this section, and if  
 5 the county board thereafter determines that the application conforms to the requirements of ORS  
 6 273.865 (1), the county board shall execute and deliver to the applicant a deed in accordance with  
 7 ORS 273.855 (1).

8 (3) If protest is received within the time provided for in subsection (1) of this section, the county  
 9 board shall cause a hearing to be held with respect to the protest, in a manner prescribed by its  
 10 rules, prior to the making of its findings with respect to an application.

11 (4) If two or more applications are filed with respect to the same lands, the county board shall  
 12 cause a hearing to be held at which all such applicants may appear or be represented.

13 **SECTION 766.** ORS 273.902 is amended to read:

14 273.902. (1) All the rights and title of the State of Oregon to the swamp and overflowed lands  
 15 of this state, and claimed by persons who have completed settlement thereon, or who may hereafter  
 16 complete settlement under the provisions of the preemption or homestead laws of the United States,  
 17 and have obtained a patent or certificate of final proof therefor, hereby are granted and confirmed  
 18 unto such claimant, or the heirs or assigns of the claimant, respectively.

19 (2) Upon application of any such claimant to the [*Department of State Lands*] **Oregon Depart-**  
 20 **ment of Natural Resources**, with proof of claim evidenced by United States patent or final certif-  
 21 icate of proof of settlement and payment, issued from the United States Land Office, the department  
 22 shall execute and deliver to such claimant, without charge, a quitclaim deed of the state's right and  
 23 title to the lands so claimed.

24 **SECTION 767.** ORS 273.903 is amended to read:

25 273.903. The [*Department of State Lands*] **Oregon Department of Natural Resources** shall not  
 26 call in question the title of any person to any swamp lands which the person may not have acquired  
 27 by full and complete compliance with the preemption or homestead laws of the United States, nor  
 28 shall the department sell to anyone any unsurveyed swamp lands, or swamp lands on which any  
 29 settler shall have made and perfected bona fide legal entry under the laws of the United States.  
 30 [*"Swamp lands,"*] As used in this section, "**swamp lands**" means lands classified as swamp lands  
 31 pursuant to ORS 273.251.

32 **SECTION 768.** ORS 273.992 is amended to read:

33 273.992. (1) A person who violates any provision of ORS 273.225, 273.231, 273.551, 273.715,  
 34 273.780 or 273.815 or any rule adopted under ORS 273.045 related to those sections is subject to a  
 35 civil penalty in an amount to be determined by the Director of the [*Department of State Lands*]  
 36 **Oregon Department of Natural Resources** of not more than \$1,000 per day of violation.

37 (2) Civil penalties under this section shall be imposed in the manner provided in ORS 183.745.

38 (3) The provisions of this section are in addition to and not in lieu of any other penalty or  
 39 sanction provided by law.

40 (4) Any civil penalty recovered under this section shall be deposited in the Common School Fund  
 41 and made available for expenses of the [*Department of State Lands*] **Oregon Department of Natural**  
 42 **Resources** and as otherwise provided by law.

43 **SECTION 769.** ORS 273.994 is amended to read:

44 273.994. (1) The Director of the [*Department of State Lands*] **Oregon Department of Natural**  
 45 **Resources** shall adopt by rule a schedule establishing the amount of civil penalty that may be im-

1 posed for a particular violation of ORS 273.225, 273.231, 273.551, 273.715, 273.780 or 273.815 or any  
2 rule adopted under ORS 273.045 related to those sections.

3 (2) In imposing a penalty under the schedule adopted under subsection (1) of this section, the  
4 director shall consider the following factors:

5 (a) The past history of the person incurring the penalty in taking all feasible steps or procedures  
6 necessary or appropriate to correct any violation;

7 (b) Any prior violations by the person of statutes, rules, orders or authorizations pertaining to  
8 the use of state land;

9 (c) The immediacy and extent to which the violation threatens the public health or safety or the  
10 assets of the Common School Fund; and

11 (d) Any other factors determined by the director to be relevant and consistent with the policies  
12 established to implement the provisions of ORS 273.225, 273.231, 273.551, 273.715, 273.780 or 273.815  
13 or any rule adopted under ORS 273.045 related to those sections.

14 (3) The penalty imposed under this section may be remitted or mitigated upon such terms and  
15 conditions as the director determines to be proper and consistent with the protection of the public  
16 health and safety and the protection of the assets of the Common School Fund. Upon the request  
17 of the person incurring the penalty, the director shall consider evidence of the economic and finan-  
18 cial condition of the person in determining whether a penalty shall be remitted or mitigated.

19 **SECTION 770.** ORS 274.005 is amended to read:

20 274.005. As used in this chapter, unless the context requires otherwise:

21 [(1) "Department" means the Department of State Lands.]

22 [(2) "Director" means the Director of the Department of State Lands.]

23 [(3)] (1) "Line of ordinary high water" means the line on the bank or shore to which the high  
24 water ordinarily rises annually in season.

25 [(4)] (2) "Line of ordinary low water" means the line on the bank or shore to which the low  
26 water ordinarily recedes annually in season.

27 [(5)] (3) "Land" includes water, water rights, easements of every nature and all appurtenances  
28 to land.

29 [(6)] (4) "Material" includes gravel, rock, sand and silt, but does not include hard minerals  
30 subject to ORS 274.610, or oil, gas and sulfur subject to ORS 274.705 to 274.860.

31 [(7)] (5) "Submerged lands," except as provided in ORS 274.705, means lands lying below the line  
32 of ordinary low water of all navigable waters within the boundaries of this state as heretofore or  
33 hereafter established, whether such waters are tidal or nontidal.

34 [(8)] (6) "Submersible lands," except as provided in ORS 274.705, means lands lying between the  
35 line of ordinary high water and the line of ordinary low water of all navigable waters and all is-  
36 lands, shore lands or other such lands held by or granted to this state by virtue of her sovereignty,  
37 wherever applicable, within the boundaries of this state as heretofore or hereafter established,  
38 whether such waters or lands are tidal or nontidal.

39 **SECTION 771.** ORS 274.040 is amended to read:

40 274.040. (1) Except as provided in ORS 274.043 (1) to (3), in ORS 274.085 for leases of submersible  
41 lands acquired as an investment for the Common School Fund, in ORS 274.530 (1) for leases of  
42 submersible lands of less than one year's duration, in ORS 274.530 (3) for licenses of less than three  
43 years' duration and in subsections (2) and (3) of this section, submersible lands owned by the State  
44 of Oregon may be leased only to the highest bidder, bidding at least the minimum amount designated  
45 by the [Department of State Lands] **Oregon Department of Natural Resources** under subsection

1 (6) of this section for the lease of any such lands, after being advertised not less than once each  
 2 week for two successive weeks in one or more newspapers of general circulation in the county in  
 3 which the lands are situated. However, any owner of lands abutting or fronting on such submersible  
 4 lands shall have the preference right to lease the lands unless the submersible lands are occupied  
 5 by a person claiming the right of occupancy under a conveyance recorded before January 1, 1981,  
 6 from the present owner or predecessor in interest of lands abutting or fronting the submersible  
 7 lands. If so, the occupant of the submersible lands shall have the preference right to lease the lands.  
 8 An easement or license related to utility service on the submersible lands does not establish a  
 9 preference right under this subsection. The lands shall be leased for the amount designated by the  
 10 department under subsection (6) of this section as the minimum amount for the lease of any such  
 11 lands. The preference provided in this subsection applies to any lease of submersible land for one  
 12 year or more offered or issued under ORS 274.530. The preference provided in this subsection does  
 13 not apply to any lease offered or issued by the department under ORS 274.705 to 274.860.

14 (2) Submersible lands owned by the State of Oregon that are determined by the State Land  
 15 Board to be available for sale may be sold only to the highest bidder, after being advertised not less  
 16 than once each week for two successive weeks in one or more newspapers of general circulation in  
 17 the county in which the lands are situated. However:

18 (a) No such lands shall be sold for less than for a fair appraised value as determined by an ap-  
 19 praiser appointed by the department.

20 (b) All sales of such submersible lands shall be approved by the [*State Land*] board.

21 (c) Any owner of lands abutting or fronting on such submersible lands shall have the preference  
 22 right to purchase such lands for the fair appraised value provided that the sale of such lands be  
 23 approved by the [*State Land*] board.

24 (3)(a) The department may grant, to any person holding a permit from the [*Water Resources Di-*  
 25 *rector*] **department** authorizing the impoundment for beneficial use of the waters of any lake or  
 26 stream, easements over submersible lands for flowage and storage of waters, and for the con-  
 27 struction, maintenance and operation of any structures or facilities necessary for the use of the  
 28 water under the terms of the permit upon payment of just compensation by the grantee.

29 (b) In addition to the authority of the department under paragraph (a) of this subsection to grant  
 30 easements over submersible lands, a person holding a water right permit, water right certificate,  
 31 proposed or final order approving a water right permit or court decree evidencing a water right  
 32 may occupy state-owned submersible lands for the construction, maintenance and operation of any  
 33 structure or facility necessary for the use of water if the proposed use under the permit, certificate,  
 34 order or decree is for irrigation or domestic use. The department may not charge for the occupation  
 35 of state-owned submersible lands pursuant to this paragraph, nor may the department require that  
 36 a person obtain written documentation to substantiate the permission granted under this paragraph.  
 37 [*Upon request by the Department of State Lands, the Water Resources Department shall provide in-*  
 38 *formation to the Department of State Lands regarding any change of use of the water right.*] A person  
 39 may continue to occupy state-owned submersible lands pursuant to this paragraph until:

40 (A) The water right permit is canceled pursuant to ORS 537.260;

41 (B) The water right is canceled pursuant to ORS 540.641; or

42 (C) The water is no longer being applied to irrigation or domestic use.

43 (c) An easement or the permission granted under this subsection may not be construed to be a  
 44 sale or lease of the submersible lands within the meaning of subsections (1) and (2) of this section.

45 (d) A person granted an easement or permission to use or occupy state-owned submersible lands

1 under this subsection shall indemnify and hold harmless the state from all liability and claims arising from or attributable to the use or occupation.

3 (4) All easements or the permission granted pursuant to subsection (3) of this section shall be subject to conditions that will ensure the safety of the public and the preservation of economic, scenic and recreational values and to lawful rules promulgated by state agencies affected by the activities of the grantee.

7 (5) Nothing in this section affects the provisions of ORS 509.505, 509.510, 511.606 to 511.806, 622.270 or 622.320 to 622.350.

9 (6) The department [*of State Lands*] shall designate the minimum acceptable amount for the lease of any submersible lands otherwise authorized by law, other than any lease offered or issued by the department under ORS 274.705 to 274.860.

12 (7) For the purpose of sale, the value of state-owned submersible lands shall be determined by an appraiser appointed by the department.

14 (8) The act of any person entering into an agreement with the department under this section or ORS 274.530 for the lease of submersible lands shall not be considered a waiver by such person of any claim of ownership in the submersible lands described in the agreement.

17 **SECTION 772.** ORS 274.043 is amended to read:

18 274.043. (1) A privately owned float or dock occupying an area of 200 square feet or less is exempt from the leasing requirements of ORS 274.040 if:

20 (a) The structure belongs to the immediately adjacent riparian landowner; and

21 (b) The float or dock is uncovered, unenclosed and open on all sides.

22 (2) A privately owned float or dock constructed prior to September 29, 1991, and exempted under ORS 274.042 (1989 Edition) is exempt from the provisions of ORS 274.040.

24 (3) The [*Department of State Lands*] **Oregon Department of Natural Resources** may, by rule, provide for additional exemptions to the leasing requirements of ORS 274.040.

26 (4) Any float or dock described in subsections (1) to (3) of this section shall be registered with the department.

28 **SECTION 773.** ORS 274.210 is amended to read:

29 274.210. The [*Department of State Lands*] **Oregon Department of Natural Resources** on behalf of the State of Oregon may enter into contracts for:

31 (1) The drainage of submersible and submerged lands adjoining or underlying any lakes, marshes or swamps in this state, or for the drainage of that part which is in this state of submersible and submerged lands adjoining or underlying any lake, marsh or swamp lying partly in this state and partly in another state, and for the reclamation of any such lands; and

35 (2) The sale or disposal of such drained and reclaimed lands as provided for in ORS 274.210 to 274.260.

37 **SECTION 774.** ORS 274.220 is amended to read:

38 274.220. (1) Any person desiring to enter into a contract to drain submersible and submerged lands under ORS 274.210 to 274.260 and reclaim such lands shall file [*with the Department of State Lands*] an application **with the Oregon Department of Natural Resources**.

41 (2) The applicant, at the expense of the applicant and without any cost or charge to the state, shall make the necessary surveys and prepare a map of the lands proposed to be reclaimed. The map shall exhibit a plan showing the area that is submersible or submerged and the mode of the contemplated drainage and reclamation, and shall be accompanied by a list of the lands proposed to be drained, with sufficient description to identify the lands in accordance with rules promulgated

1 by the department.

2 (3) The application shall contain an estimate of the cost of the construction of the proposed  
3 system of drainage and reclamation.

 10 the Common School Fund in liquidation of the debt represented by the loan, the department shall  
 11 send a written notice of the transaction to the county court of the county in which such deeded  
 12 lands are situated. Upon the receipt of such notice, the county court shall cancel on the county tax

 41 the [*Department of State Lands*] **Oregon Department of Natural Resources** may pay from the

1 the assignee, or successor in interest, for school or other lands obtained in violation of law, or that  
 2 the State of Oregon must repay the purchase price of such lands, with or without interest as a  
 3 condition of obtaining relief. This section is intended to prevent the loss to the State of Oregon of  
 4 lands obtained in violation of law, where the court imposes as a condition for granting relief the  
 5 payment of money.

6 **SECTION 857.** ORS 327.484 is amended to read:

7 Oregon Student Assistance Commission, from extending the repayment period to a date other than  
8 permitted by this subsection.

9 (5) Notwithstanding any other provision of this section, the department may loan an amount

9 required under this subsection.

10 (2) Whenever a way of necessity is sought over land owned by the state or a political subdivi-  
11 sion of the state, a copy of the petition for the way of necessity, of the county report and of the  
12 notice of hearing shall be forwarded by certified mail to:

19 a skyline, high lead logging line, ferry skyline or cable footbridge across any navigable river, bay,  
20 inlet or other navigable waters within the state, not inconsistent with any Act of Congress regu-  
21 lating the construction of bridges across navigable waters. The structures shall be so constructed  
22 as not to interfere unnecessarily with the navigation of such navigable waters.

23 (2) The [*Department of State Lands*] **department** may make and enforce such regulations and  
24 restrictions as [*it*] **the department** deems necessary to carry out the purposes of this section and  
25 may make reasonable charges for any services rendered in connection therewith.

26 **SECTION 868.** ORS 421.628, as amended by section 9, chapter 516, Oregon Laws 2001, section  
27 45, chapter 598, Oregon Laws 2003, and section 8, chapter 231, Oregon Laws 2009, is amended to  
28 read:

29 421.628. (1) Notwithstanding ORS 169.690, 195.025, 197.180, 215.130 (4) and 227.286 or any other  
30 provision of law, including but not limited to statutes, ordinances, regulations and charter pro-  
31 visions, and except for permit decisions delegated by the federal government to the [*Department of*  
32 *State Lands*] **Oregon Department of Natural Resources**, the decisions of the Corrections Facilities  
33 Siting Authority, if approved by the Governor, shall bind the state and all counties, cities and poli-  
34 tical subdivisions in this state as to the approval of the sites and the construction and operation  
35 of the proposed corrections facilities. Except for those statutes and rules for which permit decisions  
36 have been delegated by the federal government to the [*Department of State Lands*] **Oregon De-**  
37 **partment of Natural Resources**, all affected state agencies, counties, cities and political subdivi-  
38 sions shall issue the appropriate permits, licenses and certificates and enter into any  
39 intergovernmental agreements as necessary for construction and operation of the facilities, subject  
40 only to the conditions of the siting decisions.

41 (2) Each state or local governmental agency that issues a permit, license or certificate shall  
42 continue to exercise enforcement authority over the permit, license or certificate.

43 (3) Except as provided in subsections (4) to (16) of this section, nothing in ORS 421.611 to  
44 421.630 expands or alters the obligations of cities, counties and political subdivisions to pay for  
45 infrastructure improvements for the proposed corrections facilities.

1 (4) The Department of Corrections shall seek to obtain public services necessary for the con-  
2 struction and operation of corrections facilities from a public body providing such services. The  
3 department may not acquire or develop and furnish its own public services under this section that  
4 could be provided by a public body unless the department concludes that the state can achieve sig-  
5 nificant cost savings by doing so.

6 (5) Upon request of the Department of Corrections, a public body furnishing public services shall  
7 make public services available to the department that are either necessary for the construction and  
8 operation of a corrections facility or required by additions to or remodeling of a corrections facility  
9 sited or constructed under ORS 421.611 to 421.630 or any other law. All rates, terms and conditions  
10 of furnishing public services shall be just, fair and reasonable. A just, fair and reasonable rate shall  
11 assure the public body the recovery of the additional costs of providing and maintaining the re-  
12 quested service to the corrections facility, including, but not limited to, feasibility and design engi-  
13 neering costs, and reasonable capacity replacement, but may not exceed the public body's actual  
14 capital and operating expenses, including reasonable reserves charged to all ratepayers, for such  
15 service. The public body's rates, terms and conditions shall be conclusively deemed to be just, fair  
16 and reasonable if the department and public body so agree in writing.

17 (6) If the Department of Corrections and the public body cannot agree on the rates, terms and  
18 conditions of furnishing necessary public services to a corrections facility, either the department or  
19 the public body may deliver to the other a notice of request to mediate any disputed issues, includ-  
20 ing, but not limited to, whether the department can achieve significant cost savings to the state by  
21 acquiring or developing and furnishing its own public services. If either the department or the public  
22 body requests mediation, the other shall participate in good faith in such mediation. Unless other-  
23 wise agreed by the department and the public body, the mediation shall be concluded within 30 days  
24 of delivery of the notice of request to mediate.

25 (7) If the mediation fails to resolve the issues in dispute, or if mediation is not requested by ei-  
26 ther the Department of Corrections or the public body, the department and the public body may  
27 agree to submit any disputed matters to arbitration. The arbitration may be either binding or non-  
28 binding. If the department and the public body cannot agree on the selection of the arbitrator and  
29 the arbitration rules and procedure, upon motion directed to the Court of Appeals, the Chief Judge  
30 of the Court of Appeals shall select the arbitrator and decide the rules and procedure. The  
31 arbitrator's decision and award shall be guided by the standards set forth in this section. The deci-  
32 sion and award of the arbitrator shall be final and binding on the department and the public body  
33 only if they agree to enter into binding arbitration prior to the initiation of the arbitration. If the  
34 department and public body have agreed to binding arbitration of disputed issues, either the de-  
35 partment or the public body, if dissatisfied with the arbitrator's decision and award, may file ex-  
36 ceptions in the Court of Appeals within 21 days of the issuance of the decision and award.  
37 Exceptions shall be limited to the causes set forth in ORS 36.705 (1)(a) to (d), and to the grounds for  
38 modification or correction of an award under ORS 36.710. If any of the exceptions requires consid-  
39 eration of facts that do not appear on the face of the arbitrator's decision and award or is not  
40 stipulated to by the parties, the court may appoint a master to take evidence and make the neces-  
41 sary factual findings. The Court of Appeals' decision shall be final and not subject to further review.

42 (8) If the Department of Corrections and the public body have submitted disputed matters to  
43 nonbinding arbitration or if the department and public body have chosen not to submit disputed  
44 matters to arbitration, the department shall issue a preliminary order to the public body that either  
45 concludes that the state can achieve significant costs savings by acquiring or developing and fur-

1 nishing its own public services, or establishes the rates, terms and conditions upon which the public  
2 body shall make necessary public services available to the department for the corrections facility.  
3 The public body, no later than 15 days following the department's issuance of its preliminary order,  
4 may contest the preliminary order by filing a written notice to that effect with the department. The  
5 preliminary order shall become final, binding and conclusive if the public body fails to request a  
6 hearing within the time permitted in this section.

7 (9) If a hearing is requested, the department shall provide the public body with an opportunity  
8 to be heard and shall issue its final order upon conclusion of the hearing. The department shall es-  
9 tablish procedures to regulate and provide for the nature and extent of the proofs and evidence and  
10 the method of taking and furnishing the same in order to afford the public body a reasonable op-  
11 portunity for a fair hearing. The procedures shall ensure that the public body has a reasonable op-  
12 portunity to place in the record the information upon which the public body relies as a basis for its  
13 position. The department's order shall be guided by the standards set forth in this section.

14 (10) Proceedings for review of the department's final order shall be instituted when the affected  
15 public body files a petition with the Court of Appeals that meets the following requirements:

16 (a) The petition shall be filed within 21 days of issuance of the final order on which the petition  
17 is based.

18 (b) The petitioner shall serve a copy of the petition by registered or certified mail upon the  
19 Department of Corrections and the Attorney General.

20 (11) Within 30 days after service of the petition, the department shall transmit to the Court of  
21 Appeals the original or a certified copy of the entire record and any findings that may have been  
22 made.

23 (12) The Court of Appeals shall review the final order of the Department of Corrections. The  
24 Court of Appeals' decision shall be final and not subject to further review.

25 (13) Proceedings for review in the Court of Appeals under this section shall be given priority  
26 over all other matters before the Court of Appeals.

27 (14) The Department of Corrections or other state agency is not required to make payments to  
28 the public body for necessary public services to a corrections facility in excess of funds that are  
29 legally available for such purposes.

30 (15) This section does not require a public body to furnish public services to the Department  
31 of Corrections for a corrections facility in the event that the Legislative Assembly fails to make  
32 funds available in an amount sufficient to pay the state's share of costs of such services as deter-  
33 mined under this section.

34 (16) As used in this section, "public services" means off-site infrastructure, including, but not  
35 limited to, sewer and water systems and service, and road improvements.

36 **SECTION 869.** ORS 459.047, as amended by section 10, chapter 516, Oregon Laws 2001, is  
37 amended to read:

38 459.047. Upon request by a city or county responsible for implementing a department approved  
39 solid waste management plan which identifies a need for a landfill, and subject to policy direction  
40 by the Environmental Quality Commission, the Department of Environmental Quality shall:

41 (1) Assist the local government unit in the establishment of the landfill including assisting in  
42 planning, location, acquisition, development and operation of the site.

43 (2) Locate a site and issue a solid waste disposal permit under ORS 459.205 to 459.385 for a

45 forth in the permit and except for permit decisions delegated by the federal government to the [De-

1 *partment of State Lands*] **Oregon Department of Natural Resources**, any permit for a landfill au-  
 2 thorized by the Environmental Quality Commission under this subsection shall bind the state and  
 3 all counties and cities and /department political subdivisions in this state as to the approval of the  
 4 site and the construction and operation of the proposed facility. Except for those statutes and rules  
 5 for which compliance decisions have been delegated by the federal government to the [*Department*  
 6 *of State Lands*] **Oregon Department of Natural Resources**, all affected state agencies, counties,  
 7 cities and political subdivisions shall issue the appropriate permits, licenses and certificates neces-

 9 Each state or local government agency that issues a permit, license or certificate shall continue to  
 10 exercise enforcement authority over such permit, license or certificate.

20 as provided in subsection (2) of this section, pay the moneys on deposit to the credit of the deceased  
21 depositor:

22 (a) To the surviving spouse on demand of the surviving spouse at any time after the death of  
23 the depositor;

24 (b) If there is no surviving spouse, to the Oregon Health Authority, on demand of the authority  
25 no less than 46 days and no more than 75 days from the death of the depositor when there is a  
26 preferred claim arising under ORS 416.350;

27 (c) If there is no surviving spouse or authority claim, to the Department of Human Services, on  
28 demand of the department no less than 46 days and no more than 75 days from the death of the

30 (d) If there is no surviving spouse and no authority or department claim, to the depositor's  
31 surviving children 18 years of age or older;

32 (e) If there is no surviving spouse, authority claim, department claim or surviving child 18 years  
33 of age or older, to the depositor's surviving parents; or

34 (f) If there is no surviving spouse, authority claim, department claim, surviving child 18 years

4 (4) The financial institution shall determine the relationship of the affiant to the deceased  
 5 depositor. However, payment of the moneys in good faith to the affiant discharges and releases the

 7 effect as if the property had been transferred, delivered or paid to a personal representative of the  
 8 estate of the deceased depositor.

 12 withdraw the deposits upon the filing of the affidavit. If a personal representative is appointed in

 14 deposits shall account for them to the personal representative.

15 (6) When a financial institution transfers moneys under subsection (1) of this section, the  
 16 transferor may require the transferee to furnish the transferor a written indemnity agreement,

 22 or last surviving lessee of the box and who has died.

23 (2) Upon being furnished with a certified copy of the decedent's death certificate or other evi-

 25 within which the box is located shall cause or permit the box to be opened and the contents of the  
 26 box examined at the request of an individual who furnishes an affidavit stating:

27 (a) That the individual believes the box may contain the will of the decedent, a trust instrument  
 28 creating a trust of which the decedent was a trustor or a trustee at the time of the decedent's death,  
 29 documents pertaining to the disposition of the remains of the decedent, documents pertaining to  
 30 property of the estate of the decedent or property of the estate of the decedent; and

31 (b) That the individual is an interested person as defined in this section and wishes to open the

 43 institution and is filed with it prior to the decedent's death;

 45 box as an agent of the decedent under a durable power of attorney; or

1 (g) If there are no heirs of the decedent, an estate administrator of the [*Department of State*  
2 *Lands*] **Oregon Department of Natural Resources** appointed under ORS 113.235.

3 (4) If the box is opened for the purpose of conducting a will search, the Oregon operating in-  
4 stitution shall remove any document that appears to be a will, make a true and correct copy of it  
5 and deliver the original will to a person designated in the will to serve as the decedent's personal  
6 representative, or if no such person is designated or the Oregon operating institution cannot, despite  
7 reasonable efforts, determine the whereabouts of such person, the Oregon operating institution shall  
8 retain the will or deliver it to a court having jurisdiction of the estate of the decedent. A copy of  
9 the will shall be retained in the box. At the request of the interested person, a copy of the will,  
10 together with copies of any documents pertaining to the disposition of the remains of the decedent,  
11 may be given to the interested person.

12 (5) If the box is opened for the purpose of conducting a trust instrument search, the Oregon

17 designated or the Oregon operating institution cannot, despite reasonable efforts, determine the  
18 whereabouts of such person, the Oregon operating institution shall retain the trust instrument. A  
19 copy of the trust instrument shall be retained in the box. At the request of any interested person,  
20 a copy of the trust instrument may be given to the interested person.

21 (6) If the box is opened for the purpose of obtaining documents pertaining to the disposition of  
22 the decedent's remains, the Oregon operating institution shall comply with subsection (4) of this  
23 section with respect to any will of the decedent found in the box, and may in its discretion either:

24 (a) Make and retain in the box a copy of any documents pertaining to the disposition of the  
25 remains of the decedent and tender the original documents to the interested person; or

26 (b) Provide a copy of any documents pertaining to the disposition of the remains of the decedent  
27 to the interested person and retain the original documents in the box.

28 (7) If the box is opened for the purpose of making an inventory of its contents, the Oregon op-  
29 erating institution shall comply with subsection (4) or (5) of this section with respect to any will or  
30 trust instrument of the decedent that is found in the box, and shall cause the inventory to be made.  
31 The inventory shall be attested to by a representative of the Oregon operating institution and may  
32 be attested to by the interested person, if the interested person is present when the inventory is  
33 made. The Oregon operating institution shall retain the original inventory in the box, and shall  
34 furnish a copy of the inventory to the interested person upon request.

35 (8) The Oregon operating institution may presume the truth of any statement contained in the  
36 affidavit required to be furnished under this section, and when acting in reliance upon such an af-  
37 fidavit, the Oregon operating institution is discharged as if it had dealt with the personal represen-  
38 tative of the decedent. The Oregon operating institution is not responsible for the adequacy of the  
39 description of any property included in an inventory of the contents of a box, or for the conversion  
40 of the property in connection with actions performed under this section, except for conversion by  
41 intentional acts of the Oregon operating institution or its employees, directors, officers or agents.  
42 If the Oregon operating institution is not satisfied that the requirements of this section have been  
43 satisfied, the Oregon operating institution may decline to open the box.

44 (9) If the interested person does not furnish the key needed to open the box, and the Oregon

1 tion may require that the interested person pay the expense of opening the box.

2 (10) Any examination of the contents of a box under this section shall be conducted in the  
3 presence of at least one employee of the Oregon operating institution.

 14 a city may propose a revised 20-year forecast for its urban area by extending the coordinating body's  
 15 current urban area forecast to a 20-year period using the same growth trend for the urban area  
 16 assumed in the coordinating body's current adopted forecast.

17 (2) If the coordinating body has not adopted a forecast as required by ORS 195.036 or if the  
 18 current forecast was adopted more than 10 years before the city initiates an evaluation or amend-

 23 or amendment of the city's urban growth boundary; and

24 (b) Assuming that the urban area's share for the forecasted county population determined in

 27 and the most recent data for the urban area published by the United States Census Bureau.

28 (3)(a) If the coordinating body does not take action on the city's proposed forecast for the urban

34 (b) If the extended forecast is adopted under paragraph (a) of this subsection consistent with the  
 35 requirements of subsection (1) or (2) of this section:

36 (A) The forecast is deemed to satisfy the requirements of a statewide land use planning goal  
 37 relating to urbanization to establish a coordinated 20-year population forecast for the urban area;  
 38 and

39 (B) The city may rely on the population forecast as an appropriate basis upon which the city  
 40 and county may conduct the evaluation or amendment of the city's urban growth boundary.

41 (4) The process for establishing a population forecast provided in this section is in addition to  
 42 and not in lieu of a process established by goal and rule of the [*Land Conservation and Development*

 10 siting on a legal parcel of a single family dwelling that would otherwise have been allowed under  
 11 law existing prior to designation as an urban reserve.

12 (b) The commission shall provide to local governments a list of options, rather than prescribing

26 (c) The court may affirm, reverse or remand the order. If the court finds that the agency has

40 (f) Notwithstanding any other provision of this section, in any case where review of a county  
41 action as well as a commission order is sought pursuant to subsection (2)(a) and (b) of this section,  
42 the court shall accept any findings of fact by the commission which the court finds to be supported  
43 by substantial evidence in the whole record, and such findings by the commission shall prevail over  
44 any findings by the county concerning the same or substantially the same facts.

45 (4)(a) Except as otherwise provided by this section or the Columbia River Gorge National Scenic

Notwithstanding the provisions of section 15, chapter 827, Oregon Laws 1983, the rules shall take effect upon adoption by the commission. The applicability of rules promulgated under this section to the incorporation of cities prior to August 9, 1983, shall be determined under the laws of this state.

(2) The number of applications approved, including the approved density; and

(3) The date each application was received and the date it was approved or denied.

**SECTION 949.** ORS 197.180 is amended to read:

197.180. (1) Except as provided in ORS 197.277 or subsection (2) of this section or unless expressly exempted by another statute from any of the requirements of this section, state agencies shall carry out their planning duties, powers and responsibilities and take actions that are authorized by law with respect to programs affecting land use:

(a) In compliance with the goals, rules implementing the goals and rules implementing this section; and

(b) In a manner compatible with acknowledged comprehensive plans and land use regulations.

(2) State agencies need not comply with subsection (1)(b) of this section if a state agency rule,

1 plan or program relating to land use was not in effect when the comprehensive plan provision or  
 2 land use regulation with which the action would be incompatible was acknowledged and the agency  
 3 has demonstrated that:

4 (a) The state agency rule, plan or program is mandated by state statute or federal law;

5 (b) The state agency rule, plan or program is consistent with the goals;

6 (c) The state agency rule, plan or program has objectives that cannot be achieved in a manner  
 7 compatible with the acknowledged comprehensive plan and land use regulations; and

8 (d) The agency has complied with its certified state agency coordination program.

9 (3) Unless federal or state law requires otherwise, the **Oregon Natural Resources** Commission,  
 10 by rule, may specify the sequence of a local government land use decision and a state agency action  
 11 concerning the same, similar or related uses or activities.

12 (4) Upon request by the [*Land Conservation and Development Commission, each state agency shall*  
 13 *submit to the Department of Land Conservation and Development*] **commission, each state agency**  
 14 **shall submit to the Oregon Department of Natural Resources** the following information:

15 (a) Agency rules and summaries of state agency plans and programs affecting land use;

16 (b) A program for coordination pursuant to ORS 197.040 (2)(e);

17 (c) A program for coordination pursuant to ORS 197.090 [(1)(b)] **(1)(a)**; and

18 (d) A program for cooperation with and technical assistance to local governments.

19 (5) Within 90 days of receipt, the Director of the [*Department of Land Conservation and Devel-*  
 20 *opment*] **Oregon Department of Natural Resources** shall review the information submitted pursu-  
 21 ant to subsection (4) of this section and shall notify each state agency if the director believes the  
 22 state agency rules, plans or programs submitted are insufficient to ensure compliance with goals and  
 23 compatibility with acknowledged comprehensive plans and land use regulations.

24 (6) Within 90 days of receipt of notification specified in subsection (5) of this section, the state  
 25 agency may revise the state agency rules, plans or programs and resubmit them to the director.

26 (7) The director shall make findings under subsections (5) and (6) of this section as to whether  
 27 the state agency rules, plans or programs are sufficient to ensure compliance with the goals and  
 28 compatibility with acknowledged city and county comprehensive plans and land use regulations and  
 29 shall forward the rules and summaries of state agency plans or programs to the commission for its  
 30 action. The commission shall either certify the state agency rules, plans or programs as compliant  
 31 with the goals and compatible with the acknowledged comprehensive plans and land use regulations  
 32 of affected local governments or shall determine the same to be insufficient.

33 (8) The department shall report, to the appropriate committee of the House and the Senate and  
 34 to the subcommittee of the Joint Ways and Means Committee that considers the state agency  
 35 budget, any agency that has failed to meet the requirements of subsection (7) of this section.

36 (9) Any state agency that has failed to meet the requirements of subsection (7) of this section  
 37 shall report the reasons therefor to the appropriate committee of the House and the Senate and to  
 38 the subcommittee of the Joint Ways and Means Committee that considers the agency budget.

39 (10) Until rules and state agency plans and programs are certified as compliant with the goals  
 40 and compatible with the acknowledged comprehensive plans and land use regulations of affected  
 41 local governments, the state agency shall make findings when adopting or amending its rules and  
 42 state agency plans and programs as to the applicability and application of the goals or acknowl-  
 43 edged comprehensive plans, as appropriate.

44 (11) The commission shall adopt rules establishing procedures to ensure that state agency per-  
 45 mits affecting land use are issued in compliance with the goals and compatible with acknowledged

1 comprehensive plans and land use regulations, as required by subsection (1) of this section. The  
 2 rules must prescribe the circumstances in which state agencies may rely upon a determination of  
 3 compliance with the goals or compatibility with the acknowledged comprehensive plan.

4 (12) A state agency required to have a land use coordination program shall participate in a local  
 5 government land use hearing, except a hearing under ORS 197.610 to 197.625, only in a manner that  
 6 is consistent with the coordination program, unless the agency participated in the local  
 7 government's periodic review pursuant to ORS 197.633 and raised the issue that is the basis for  
 8 participation in the land use hearing.

9 (13) State agency rules, plans or programs affecting land use are not compatible with an ac-  
 10 knowledged comprehensive plan if the state agency takes or approves an action that is not allowed  
 11 under the acknowledged comprehensive plan. However, a state agency may apply statutes and rules  
 12 to deny, condition or further restrict an action of the state agency or of any applicant before the  
 13 state agency if the state agency applies those statutes and rules to the uses planned for in the ac-  
 14 knowledged comprehensive plan.

15 (14) In cooperation with local governments and state agencies whose rules, plans or programs  
 16 affect land use, the department periodically shall:

17 (a) Identify aspects of coordination related to uses that require the issuance of multiple permits  
 18 from state agencies and local governments.

19 (b) Update and improve rules regulating the effectiveness and efficiency of state agency coordi-  
 20 nation programs.

21 (15) This section does not apply to rules, plans, programs, decisions, determinations or activities

 38 mental objective and would have a lesser economic impact.

39 (b) Consider the existing comprehensive plans of local governments and the plans and programs  
 40 affecting land use of state agencies and special districts in order to preserve functional and local  
 41 aspects of land conservation and development.

- 7 (J) Agricultural land.

8 (d) Make a finding of statewide need for the adoption of any new goal or the amendment of any  
9 existing goal.

10 (e) Design goals to allow a reasonable degree of flexibility in the application of goals by state  
11 agencies, cities, counties and special districts.

12 (2) Goals shall not be land management regulations for specified geographic areas established  
13 through designation of an area of critical state concern under ORS 197.405.

14 (3) The requirements of subsection (1)(a) of this section shall not be interpreted as requiring an  
15 assessment for each lot or parcel that could be affected by the proposed rule.

16 (4) The commission may exempt cities with a population less than 10,000, or those areas of a  
17 county inside an urban growth boundary that contain a population less than 10,000, from all or any  
18 part of land use planning goals, guidelines and administrative rules that relate to transportation  
19 planning.

20 **SECTION 952.** ORS 197.235 is amended to read:

30 (2) Upon completion of the preparation of the proposed goals and guidelines, or amendments to  
31 those goals and guidelines, the department shall submit them to the commission, the Local Officials  
32 Advisory Committee, the State Citizen Involvement Advisory Committee and the appropriate legis-

34 (3) The commission shall consider the comments of the Local Officials Advisory Committee, the  
35 State Citizen Involvement Advisory Committee and the legislative committee before the adoption  
36 and amendment of the goals and guidelines.

37 (4) Notwithstanding subsection (1)(a) of this section, when a legislative enactment or an initi-  
38 ative measure is inconsistent with the adopted goals and guidelines or directs the commission to  
39 make a specific change to the adopted goals and guidelines, the commission may amend the goals  
40 and guidelines after only one public hearing, at a location determined by the commission, if the  
41 proposed amendment:

42 (a) Is necessary to conform the goals and guidelines to the legislative enactment or the initiative  
43 measure; and

44 (b) Makes no change other than the conforming changes unless the change corrects an obvious  
45 scrivener's error.

1        **SECTION 953.** ORS 197.240 is amended to read:

2        197.240. Upon receipt of the proposed goals and guidelines prepared and submitted to it by the

5        **sion** shall:

6        (1) Hold at least one public hearing on the proposed goals and guidelines. The commission shall

9        in a newspaper of general circulation in the state not later than 30 days prior to the date of the  
10       hearing. The department shall supply a copy of its proposed goals and guidelines to the Governor,  
11       the appropriate legislative committee, affected state agencies and special districts and to each local  
12       government without charge. The department shall provide copies of such proposed goals and guide-

15       (2) Consider the recommendations and comments received from the public hearings conducted  
16       under subsection (1) of this section, make any amendments to the proposed goals and guidelines that

18       be amended by the commission.

19       **SECTION 954.** ORS 197.245 is amended to read:

23       manner provided in ORS 197.235 and 197.240 and shall specify with particularity those goal pro-  
24       visions that are applicable to land use decisions, expedited land divisions and limited land use de-  
25       cisions before plan revision. The commission shall establish the effective date for application of a  
26       new or amended goal. Absent a compelling reason, the commission shall not require a comprehensive  
27       plan, new or amended land use regulation, land use decision, expedited land division or limited land  
28       use decision to be consistent with a new or amended goal until one year after the date of adoption.

29       **SECTION 955.** ORS 197.250 is amended to read:

30       197.250. Except as otherwise provided in ORS 197.245, all comprehensive plans and land use

36       197.251. (1) Upon the request of a local government, the [*Land Conservation and Development*  
37       *Commission*] **Oregon Natural Resources Commission** shall by order grant, deny or continue ac-  
38       knowledgment of compliance of comprehensive plan and land use regulations with the goals. A  
39       commission order granting, denying or continuing acknowledgment shall be entered within 90 days  
40       of the date of the request by the local government unless the commission finds that due to exten-  
41       uating circumstances a period of time greater than 90 days is required.

42       (2) In accordance with rules of the commission, the Director of the [*Department of Land Con-*  
43       *servation and Development*] **Oregon Department of Natural Resources** shall prepare a report for  
44       the commission stating whether the comprehensive plan and land use regulations for which ac-  
45       knowledgment is sought are in compliance with the goals. The rules of the commission shall:

1 (a) Provide a reasonable opportunity for persons to prepare and to submit to the director written  
2 comments and objections to the acknowledgment request; and

3 (b) Authorize the director to investigate and in the report to resolve issues raised in the com-  
4 ments and objections or by the director's own review of the comprehensive plan and land use reg-  
5 ulations.

6 (3) Upon completion of the report and before the commission meeting at which the director's  
7 report is to be considered, the director shall afford the local government and persons who submitted  
8 written comments or objections a reasonable opportunity to file written exceptions to the report.

9 (4) The commission's review of the acknowledgment request shall be confined to the record of  
10 proceedings before the local government, any comments, objections and exceptions filed under sub-

13 persons who filed written comments, objections or exceptions. However, the commission shall not  
14 allow additional evidence or testimony that could have been presented to the local government or  
15 to the director but was not.

16 (5) A commission order granting, denying or continuing acknowledgment shall include a clear  
17 statement of findings which sets forth the basis for the approval, denial or continuance of acknowl-  
18 edgment. The findings shall:

20 (b) Include a clear statement of findings in support of the determinations of compliance and  
21 noncompliance.

22 (6) A commission order granting acknowledgment shall be limited to an identifiable geographic

26 are not technical or minor in nature.

27 (7) The commission may issue a limited acknowledgment order when a previously issued ac-  
28 knowledgment order is reversed or remanded by the Court of Appeals or the Oregon Supreme Court.  
29 Such a limited acknowledgment order may deny or continue acknowledgment of that part of the  
30 comprehensive plan or land use regulations that the court found not in compliance or not consistent  
31 with the goals and grant acknowledgment of all other parts of the comprehensive plan and land use  
32 regulations.

33 (8) A limited acknowledgment order shall be considered an acknowledgment for all purposes and  
34 shall be a final order for purposes of judicial review with respect to the acknowledged geographic  
35 area. A limited order may be adopted in conjunction with a continuance or denial order.

36 (9) The director shall notify the Real Estate Agency, the local government and all persons who  
37 filed comments or objections with the director of any grant, denial or continuance of acknowledg-  
38 ment.

39 (10) The commission may grant a planning extension, which shall be a grant of additional time  
40 for a local government to comply with the goals in accordance with a compliance schedule. A com-  
41 pliance schedule shall be a listing of the tasks which the local government must complete in order  
42 to bring its comprehensive plan, land use regulations, land use decisions and limited land use deci-  
43 sions into initial compliance with the goals, including a generalized time schedule showing when the  
44 tasks are estimated to be completed and when a comprehensive plan or land use regulations which  
45 comply with the goals are estimated to be adopted. In developing a compliance schedule, the com-

1 mission shall consider the population, geographic area, resources and capabilities of the city or  
2 county.

8 for acknowledgment to occur; and

9 (C) Is a final order for purposes of judicial review of the comprehensive plan, land use regu-  
10 lations or both the comprehensive plan and land use regulations as to the parts found consistent or  
11 in compliance with the goals.

14 land use regulations do not comply with one or more goals;

15 (B) Specifies amendments or other action that must be completed for acknowledgment to occur;  
16 and

17 (C) Is used when the amendments or other changes required in the comprehensive plan, land use  
18 regulations or both the comprehensive plan and land use regulations affect many goals and are  
19 likely to take a substantial period of time to complete.

20 **SECTION 957.** ORS 197.253 is amended to read:

21 197.253. Notwithstanding the provisions of ORS 197.251 (2)(a), a person may not submit written  
22 comments and objections to the acknowledgment request of any city or county that submits its plan  
23 or regulations to the [*Land Conservation and Development Commission*] **Oregon Natural Resources**  
24 **Commission** for acknowledgment for the first time after August 9, 1983, unless the person partic-

37 (2) A state agency shall be barred from seeking a commission order under ORS 197.644 requiring  
38 amendment of a local government comprehensive plan or land use regulation in order to comply with  
39 the agency's plan or program unless the agency has first requested the amendment from the local  
40 government and has had its request denied.

42 edgment submitted by a local government under ORS 197.251 or from filing an appeal under ORS

39 goal or an administrative rule corresponding to a statute or goal.

40 **SECTION 962.** ORS 197.277 is amended to read:

41 197.277. (1) The goals and rules established in ORS chapters 195, 196 and 197 do not apply to  
42 programs, rules, procedures, decisions, determinations or activities carried out under the Oregon  
43 Forest Practices Act administered under ORS 527.610 to 527.770, 527.990 (1) and 527.992.

44 (2) No goal or rule shall be adopted, construed or administered in a manner to require or allow  
45 local governments to take any action prohibited by ORS 527.722.

1 (3) The *[Land Conservation and Development Commission]* **Oregon Natural Resources Com-**  
 2 **mission** shall amend goals and rules as necessary to implement ORS 197.180, 197.277, 197.825,  
 3 215.050, 477.090, 477.440, 477.455, 477.460, *[526.009, 526.016,]* 526.156, 527.620, 527.630, 527.660,  
 4 527.670, 527.683 to 527.687, 527.715, 527.990 and 527.992.

5 **SECTION 963.** ORS 197.283 is amended to read:

6 197.283. (1) The *[Land Conservation and Development Commission]* **Oregon Natural Resources**  
 7 **Commission** shall take actions *[it]* **the commission** considers necessary to *[assure]* **ensure** that  
 8 city and county comprehensive plans and land use regulations and state agency coordination pro-  
 9 grams are consistent with the goal set forth in ORS 468B.155.

10 (2) The commission shall direct the *[Department of Land Conservation and Development]* **Oregon**  
 11 **Department of Natural Resources** to take actions the department considers appropriate to  
 12 *[assure]* **ensure** that any information contained in a city or county comprehensive plan that pertains  
 13 to the ground water resource of Oregon shall be forwarded to the centralized repository established  
 14 under ORS 468B.167.

15 **SECTION 964.** ORS 197.296 is amended to read:

16 197.296. (1)(a) The provisions of this section apply to metropolitan service district regional  
 17 framework plans and local government comprehensive plans for lands within the urban growth  
 18 boundary of a city that is located outside of a metropolitan service district and has a population of  
 19 25,000 or more.

20 (b) The *[Land Conservation and Development Commission]* **Oregon Natural Resources Com-**  
 21 **mission** may establish a set of factors under which additional cities are subject to the provisions  
 22 of this section. In establishing the set of factors required under this paragraph, the commission shall  
 23 consider the size of the city, the rate of population growth of the city or the proximity of the city  
 24 to another city with a population of 25,000 or more or to a metropolitan service district.

25 (2) At periodic review pursuant to ORS 197.628 to 197.650 or at any other legislative review of  
 26 the comprehensive plan or regional plan that concerns the urban growth boundary and requires the  
 27 application of a statewide planning goal relating to buildable lands for residential use, a local gov-  
 28 ernment shall demonstrate that its comprehensive plan or regional plan provides sufficient buildable  
 29 lands within the urban growth boundary established pursuant to statewide planning goals to ac-  
 30 commodate estimated housing needs for 20 years. The 20-year period shall commence on the date  
 31 initially scheduled for completion of the periodic or legislative review.

32 (3) In performing the duties under subsection (2) of this section, a local government shall:

33 (a) Inventory the supply of buildable lands within the urban growth boundary and determine the  
 34 housing capacity of the buildable lands; and

35 (b) Conduct an analysis of housing need by type and density range, in accordance with ORS  
 36 197.303 and statewide planning goals and rules relating to housing, to determine the number of units  
 37 and amount of land needed for each needed housing type for the next 20 years.

38 (4)(a) For the purpose of the inventory described in subsection (3)(a) of this section, "buildable  
 39 lands" includes:

40 (A) Vacant lands planned or zoned for residential use;

41 (B) Partially vacant lands planned or zoned for residential use;

42 (C) Lands that may be used for a mix of residential and employment uses under the existing  
 43 planning or zoning; and

44 (D) Lands that may be used for residential infill or redevelopment.

45 (b) For the purpose of the inventory and determination of housing capacity described in sub-

1 section (3)(a) of this section, the local government must demonstrate consideration of:

2 (A) The extent that residential development is prohibited or restricted by local regulation and  
3 ordinance, state law and rule or federal statute and regulation;

4 (B) A written long term contract or easement for radio, telecommunications or electrical facili-  
5 ties, if the written contract or easement is provided to the local government; and

6 (C) The presence of a single family dwelling or other structure on a lot or parcel.

7 (c) Except for land that may be used for residential infill or redevelopment, a local government  
8 shall create a map or document that may be used to verify and identify specific lots or parcels that  
9 have been determined to be buildable lands.

10 (5)(a) Except as provided in paragraphs (b) and (c) of this subsection, the determination of  
11 housing capacity and need pursuant to subsection (3) of this section must be based on data relating  
12 to land within the urban growth boundary that has been collected since the last periodic review or  
13 five years, whichever is greater. The data shall include:

14 (A) The number, density and average mix of housing types of urban residential development that  
15 have actually occurred;

16 (B) Trends in density and average mix of housing types of urban residential development;

17 (C) Demographic and population trends;

18 (D) Economic trends and cycles; and

19 (E) The number, density and average mix of housing types that have occurred on the buildable  
20 lands described in subsection (4)(a) of this section.

21 (b) A local government shall make the determination described in paragraph (a) of this sub-  
22 section using a shorter time period than the time period described in paragraph (a) of this subsection  
23 if the local government finds that the shorter time period will provide more accurate and reliable  
24 data related to housing capacity and need. The shorter time period may not be less than three years.

25 (c) A local government shall use data from a wider geographic area or use a time period for  
26 economic cycles and trends longer than the time period described in paragraph (a) of this subsection  
27 if the analysis of a wider geographic area or the use of a longer time period will provide more ac-  
28 curate, complete and reliable data relating to trends affecting housing need than an analysis per-  
29 formed pursuant to paragraph (a) of this subsection. The local government must clearly describe the  
30 geographic area, time frame and source of data used in a determination performed under this para-  
31 graph.

32 (6) If the housing need determined pursuant to subsection (3)(b) of this section is greater than  
33 the housing capacity determined pursuant to subsection (3)(a) of this section, the local government  
34 shall take one or more of the following actions to accommodate the additional housing need:

35 (a) Amend its urban growth boundary to include sufficient buildable lands to accommodate  
36 housing needs for the next 20 years. As part of this process, the local government shall consider the  
37 effects of measures taken pursuant to paragraph (b) of this subsection. The amendment shall include  
38 sufficient land reasonably necessary to accommodate the siting of new public school facilities. The  
39 need and inclusion of lands for new public school facilities shall be a coordinated process between  
40 the affected public school districts and the local government that has the authority to approve the  
41 urban growth boundary;

42 (b) Amend its comprehensive plan, regional plan, functional plan or land use regulations to in-  
43 clude new measures that demonstrably increase the likelihood that residential development will oc-  
44 cur at densities sufficient to accommodate housing needs for the next 20 years without expansion  
45 of the urban growth boundary. A local government or metropolitan service district that takes this

1 action shall monitor and record the level of development activity and development density by hous-  
2 ing type following the date of the adoption of the new measures; or

3 (c) Adopt a combination of the actions described in paragraphs (a) and (b) of this subsection.

4 (7) Using the analysis conducted under subsection (3)(b) of this section, the local government  
5 shall determine the overall average density and overall mix of housing types at which residential  
6 development of needed housing types must occur in order to meet housing needs over the next 20  
7 years. If that density is greater than the actual density of development determined under subsection  
8 (5)(a)(A) of this section, or if that mix is different from the actual mix of housing types determined  
9 under subsection (5)(a)(A) of this section, the local government, as part of its periodic review, shall  
10 adopt measures that demonstrably increase the likelihood that residential development will occur  
11 at the housing types and density and at the mix of housing types required to meet housing needs  
12 over the next 20 years.

13 (8)(a) A local government outside a metropolitan service district that takes any actions under  
14 subsection (6) or (7) of this section shall demonstrate that the comprehensive plan and land use  
15 regulations comply with goals and rules adopted by the commission and implement ORS 197.295 to  
16 197.314.

17 (b) The local government shall determine the density and mix of housing types anticipated as a  
18 result of actions taken under subsections (6) and (7) of this section and monitor and record the ac-  
19 tual density and mix of housing types achieved. The local government shall compare actual and  
20 anticipated density and mix. The local government shall submit its comparison to the commission  
21 at the next periodic review or at the next legislative review of its urban growth boundary, which-  
22 ever comes first.

23 (9) In establishing that actions and measures adopted under subsections (6) or (7) of this section  
24 demonstrably increase the likelihood of higher density residential development, the local government  
25 shall at a minimum ensure that land zoned for needed housing is in locations appropriate for the  
26 housing types identified under subsection (3) of this section and is zoned at density ranges that are  
27 likely to be achieved by the housing market using the analysis in subsection (3) of this section.  
28 Actions or measures, or both, may include but are not limited to:

29 (a) Increases in the permitted density on existing residential land;

30 (b) Financial incentives for higher density housing;

31 (c) Provisions permitting additional density beyond that generally allowed in the zoning district  
32 in exchange for amenities and features provided by the developer;

33 (d) Removal or easing of approval standards or procedures;

34 (e) Minimum density ranges;

35 (f) Redevelopment and infill strategies;

36 (g) Authorization of housing types not previously allowed by the plan or regulations;

37 (h) Adoption of an average residential density standard; and

38 (i) Rezoning or redesignation of nonresidential land.

39 **SECTION 965.** ORS 197.299 is amended to read:

40 197.299. (1) A metropolitan service district organized under ORS chapter 268 shall complete the  
41 inventory, determination and analysis required under ORS 197.296 (3) not later than five years after  
42 completion of the previous inventory, determination and analysis.

43 (2)(a) The metropolitan service district shall take such action as necessary under ORS 197.296  
44 (6)(a) to accommodate one-half of a 20-year buildable land supply determined under ORS 197.296 (3)  
45 within one year of completing the analysis.

1 (b) The metropolitan service district shall take all final action under ORS 197.296 (6)(a) neces-  
 2 sary to accommodate a 20-year buildable land supply determined under ORS 197.296 (3) within two  
 3 years of completing the analysis.

4 (c) The metropolitan service district shall take action under ORS 197.296 (6)(b), within one year  
 5 after the analysis required under ORS 197.296 (3)(b) is completed, to provide sufficient buildable land  
 6 within the urban growth boundary to accommodate the estimated housing needs for 20 years from  
 7 the time the actions are completed. The metropolitan service district shall consider and adopt new  
 8 measures that the governing body deems appropriate under ORS 197.296 (6)(b).

9 (3) The [*Land Conservation and Development Commission*] **Oregon Natural Resources Com-**  
 10 **mission** may grant an extension to the time limits of subsection (2) of this section if the Director  
 11 of the [*Department of Land Conservation and Development*] **Oregon Department of Natural Re-**  
 12 **sources** determines that the metropolitan service district has provided good cause for failing to  
 13 meet the time limits.

14 (4)(a) The metropolitan service district shall establish a process to expand the urban growth  
 15 boundary to accommodate a need for land for a public school that cannot reasonably be accommo-  
 16 dated within the existing urban growth boundary. The metropolitan service district shall design the  
 17 process to:

18 (A) Accommodate a need that must be accommodated between periodic analyses of urban growth  
 19 boundary capacity required by subsection (1) of this section; and

20 (B) Provide for a final decision on a proposal to expand the urban growth boundary within four  
 21 months after submission of a complete application by a large school district as defined in ORS  
 22 195.110.

23 (b) At the request of a large school district, the metropolitan service district shall assist the  
 24 large school district to identify school sites required by the school facility planning process de-  
 25 scribed in ORS 195.110. A need for a public school is a specific type of identified land need under  
 26 ORS 197.298 (3).

27 **SECTION 966.** ORS 197.301 is amended to read:

28 197.301. (1) A metropolitan service district organized under ORS chapter 268 shall compile and  
 29 report to the [*Department of Land Conservation and Development*] **Oregon Department of Natural**  
 30 **Resources** on performance measures as described in this section at least once every two years. The  
 31 information shall be reported in a manner prescribed by the department.

32 (2) Performance measures subject to subsection (1) of this section shall be adopted by a metro-  
 33 politan service district and shall include but are not limited to measures that analyze the following:

34 (a) The rate of conversion of vacant land to improved land;

35 (b) The density and price ranges of residential development, including both single family and  
 36 multifamily residential units;

37 (c) The level of job creation within individual cities and the urban areas of a county inside the  
 38 metropolitan service district;

39 (d) The number of residential units added to small sites assumed to be developed in the metro-  
 40 politan service district's inventory of available lands but which can be further developed, and the  
 41 conversion of existing spaces into more compact units with or without the demolition of existing  
 42 buildings;

43 (e) The amount of environmentally sensitive land that is protected and the amount of environ-  
 44 mentally sensitive land that is developed;

45 (f) The sales price of vacant land;

- 1 (g) Residential vacancy rates;
- 2 (h) Public access to open spaces; and
- 3 (i) Transportation measures including mobility, accessibility and air quality indicators.

4 **SECTION 967.** ORS 197.302 is amended to read:

5 197.302. (1) After gathering and compiling information on the performance measures as described  
6 in ORS 197.301 but prior to submitting the information to the [*Department of Land Conservation and*  
7 *Development,*] **Oregon Department of Natural Resources**, a metropolitan service district shall  
8 determine if actions taken under ORS 197.296 (6) have established the buildable land supply and  
9 housing densities necessary to accommodate estimated housing needs determined under ORS 197.296  
10 (3). If the metropolitan service district determines that the actions undertaken will not accommodate  
11 estimated need, the district shall develop a corrective action plan, including a schedule for imple-  
12 mentation. The district shall submit the plan to the department along with the report on perform-  
13 ance measures required under ORS 197.301. Corrective action under this section may include  
14 amendment of the urban growth boundary, comprehensive plan, regional framework plan, functional  
15 plan or land use regulations as described in ORS 197.296.

16 (2) Within two years of submitting a corrective action plan to the department, the metropolitan  
17 service district shall demonstrate by reference to the performance measures described in ORS  
18 197.301 that implementation of the plan has resulted in the buildable land supply and housing den-  
19 sity within the urban growth boundary necessary to accommodate the estimated housing needs for  
20 each housing type as determined under ORS 197.296 (3).

21 (3) The failure of the metropolitan service district to demonstrate the buildable land supply and  
22 housing density necessary to accommodate housing needs as required under this section and ORS  
23 197.296 may be the basis for initiation of enforcement action pursuant to ORS 197.319 to 197.335.

24 **SECTION 968.** ORS 197.319 is amended to read:

25 197.319. (1) Before a person may request adoption of an enforcement order under ORS 197.320,  
26 the person shall:

- 27 (a) Present the reasons, in writing, for such an order to the affected local government; and
- 28 (b) Request:

29 (A) Revisions to the local comprehensive plan, land use regulations, special district cooperative  
30 or urban service agreement or decision-making process which is the basis for the order; or

31 (B) That an action be taken regarding the local comprehensive plan, land use regulations, spe-  
32 cial district agreement or decision-making process that is the basis for the order.

33 (2)(a) The local government or special district shall issue a written response to the request  
34 within 60 days of the date the request is mailed to the local government or special district.

35 (b) The requestor and the local government or special district may enter into mediation to re-  
36 solve issues in the request. The [*Department of Land Conservation and Development*] **Oregon De-**  
37 **partment of Natural Resources** shall provide mediation services when jointly requested by the  
38 local government or special district and the requestor.

39 (c) If the local government or special district does not act in a manner which the requestor  
40 believes is adequate to address the issues raised in the request within the time period provided in  
41 paragraph (a) of this subsection, a petition may be presented to the [*Land Conservation and Devel-*  
42 *opment Commission*] **Oregon Natural Resources Commission** under ORS 197.324.

43 (3) A metropolitan service district may request an enforcement order under ORS 197.320 (12)  
44 without first complying with subsections (1) and (2) of this section.

45 **SECTION 969.** ORS 197.320 is amended to read:

1 197.320. The [*Land Conservation and Development Commission*] **Oregon Natural Resources**  
 2 **Commission** shall issue an order requiring a local government, state agency or special district to  
 3 take action necessary to bring its comprehensive plan, land use regulation, limited land use deci-  
 4 sions or other land use decisions into compliance with the goals, acknowledged comprehensive plan  
 5 provisions or land use regulations if the commission has good cause to believe:

6 (1) A comprehensive plan or land use regulation adopted by a local government not on a com-  
 7 pliance schedule is not in compliance with the goals by the date set in ORS 197.245 or 197.250 for  
 8 such compliance;

9 (2) A plan, program, rule or regulation affecting land use adopted by a state agency or special  
 10 district is not in compliance with the goals by the date set in ORS 197.245 or 197.250 for such  
 11 compliance;

12 (3) A local government is not making satisfactory progress toward performance of its compliance  
 13 schedule;

14 (4) A state agency is not making satisfactory progress in carrying out its coordination agree-  
 15 ment or the requirements of ORS 197.180;

16 (5) A local government has no comprehensive plan or land use regulation and is not on a com-  
 17 pliance schedule directed to developing the plan or regulation;

18 (6) A local government has engaged in a pattern or practice of decision making that violates  
 19 an acknowledged comprehensive plan or land use regulation. In making its determination under this  
 20 subsection, the commission shall determine whether there is evidence in the record to support the  
 21 decisions made. The commission shall not judge the issue solely upon adequacy of the findings in  
 22 support of the decisions;

23 (7) A local government has failed to comply with a commission order entered under ORS 197.644;

24 (8) A special district has engaged in a pattern or practice of decision-making that violates an  
 25 acknowledged comprehensive plan or cooperative agreement adopted pursuant to ORS 197.020;

26 (9) A special district is not making satisfactory progress toward performance of its obligations  
 27 under ORS chapters 195 and 197;

28 (10) A local government is applying approval standards, special conditions on approval of spe-  
 29 cific development proposals or procedures for approval that do not comply with ORS 197.307 (6); or

30 (11) A local government is not making satisfactory progress toward meeting its obligations un-  
 31 der ORS 195.065.

32 (12) A local government within the jurisdiction of a metropolitan service district has failed to  
 33 make changes to the comprehensive plan or land use regulations to comply with the regional  
 34 framework plan of the district or has engaged in a pattern or practice of decision-making that vio-  
 35 lates a requirement of the regional framework plan.

36 **SECTION 970.** ORS 197.324 is amended to read:

37 197.324. (1) On its own motion, the [*Land Conservation and Development Commission*] **Oregon**  
 38 **Natural Resources Commission** may initiate a proceeding to carry out the provisions of ORS  
 39 197.320. If the commission proceeds on its own motion, it shall proceed as set forth in ORS 197.328.

40 (2)(a) After a person meets the requirements of ORS 197.319, the person may file a petition to  
 41 request that the commission consider the matter. Filing occurs upon mailing the petition to the  
 42 [*Department of Land Conservation and Development*] **Oregon Department of Natural Resources**.

43 (b) The commission shall determine if there is good cause to proceed on the petition.

44 (c) If the commission determines that there is not good cause to proceed on the petition, the  
 45 commission shall issue a final order dismissing the petition, stating the reasons therefor.

1 (d) If the commission determines that there is good cause to proceed on the petition, the com-  
2 mission shall proceed as set forth in ORS 197.328.

3 (3) Following initiation of a proceeding under subsection (1) of this section or a determination  
4 by the commission that there is good cause to proceed on a petition under subsection (2) of this  
5 section, the affected local government shall include the following disclosure in any subsequent no-  
6 tice of a land use decision that could be affected by the enforcement order:

7 \_\_\_\_\_  
8  
9  
10 NOTICE: THE [OREGON LAND CONSERVATION AND DEVELOPMENT COMMISSION]  
11 OREGON NATURAL RESOURCES COMMISSION HAS FOUND GOOD CAUSE FOR AN  
12 ENFORCEMENT PROCEEDING AGAINST \_\_\_\_\_ (Name of local government). AN  
13 ENFORCEMENT ORDER MAY BE EVENTUALLY ADOPTED THAT COULD LIMIT, PROHIBIT  
14 OR REQUIRE APPLICATION OF SPECIFIED CRITERIA TO ANY ACTION AUTHORIZED BY  
15 THIS DECISION BUT NOT APPLIED FOR UNTIL AFTER ADOPTION OF THE ENFORCEMENT  
16 ORDER. FUTURE APPLICATIONS FOR BUILDING PERMITS OR ANY TIME EXTENSIONS MAY  
17 BE AFFECTED.

19  
20 **SECTION 971.** ORS 197.328 is amended to read:

21 197.328. If a proceeding is initiated under ORS 197.324, the following procedures apply:

22 (1) The [*Land Conservation and Development Commission*] **Oregon Natural Resources Com-**  
23 **mission** shall hold a hearing to consider the petition or shall appoint a hearings officer to consider  
24 the petition under the provisions of ORS chapter 183 applicable to contested cases, except as oth-  
25 erwise provided in this section.

26 (2) The commission or hearings officer shall schedule a hearing within 45 days of receipt of the  
27 petition.

28 (3) If the commission appoints a hearings officer, the hearings officer shall prepare a proposed  
29 order, including recommended findings and conclusions of law. The proposed order shall be served  
30 on the [*Department of Land Conservation and Development*] **Oregon Department of Natural Re-**  
31 **sources** and all parties to the hearing within 30 days of the date the record closed.

32 (4) If the commission appoints a hearings officer, the commission review of the proposed order  
33 shall be limited to the record of proceedings before the hearings officer. In its review of a proposed  
34 order, the commission shall not receive new evidence but shall hear arguments as to the proposed  
35 order and any exceptions. Any exception to the proposed order shall be filed with the commission  
36 no later than 15 days following issuance of the proposed order.

37 (5) The commission shall adopt a final order relative to a petition no later than 120 days from  
38 the date the petition was filed.

39 **SECTION 972.** ORS 197.335 is amended to read:

40 197.335. (1) An order issued under ORS 197.328 and the copy of the order mailed to the local  
41 government, state agency or special district shall set forth:

42 (a) The nature of the noncompliance, including, but not limited to, the contents of the compre-  
43 hensive plan or land use regulation, if any, of a local government that do not comply with the goals  
44 or the contents of a plan, program or regulation affecting land use adopted by a state agency or  
45 special district that do not comply with the goals. In the case of a pattern or practice of decision-

1 making which violates the goals, comprehensive plan or land use regulations, the order shall specify  
2 the decision-making which constitutes the pattern or practice, including specific provisions the  
3 [*Land Conservation and Development Commission*] **Oregon Natural Resources Commission** be-  
4 lieves are being misapplied;

5 (b) The specific lands, if any, within a local government for which the existing plan or land use  
6 regulation, if any, does not comply with the goals; and

7 (c) The corrective action decided upon by the commission, including the specific requirements,  
8 with which the local government, state agency or special district must comply. In the case of a  
9 pattern or practice of decision-making that violates an acknowledged comprehensive plan or land  
10 use regulation, the commission may require revisions to the comprehensive plan, land use regu-  
11 lations or local procedures which the commission believes are necessary to correct the pattern or  
12 practice. Notwithstanding the provisions of this section, except as provided in subsection (3)(c) of  
13 this section, an enforcement order does not affect:

14 (A) Land use applications filed with a local government prior to the date of adoption of the  
15 enforcement order unless specifically identified by the order;

16 (B) Land use approvals issued by a local government prior to the date of adoption of the  
17 enforcement order; or

18 (C) The time limit for exercising land use approvals issued by a local government prior to the  
19 date of adoption of the enforcement order.

20 (2) Judicial review of a final order of the commission shall be governed by the provisions of ORS  
21 chapter 183 applicable to contested cases except as otherwise stated in this section. The  
22 commission's final order shall include a clear statement of findings which set forth the basis for the  
23 order. Where a petition to review the order has been filed in the Court of Appeals, the commission  
24 shall transmit to the court the entire administrative record of the proceeding under review.  
25 Notwithstanding ORS 183.482 (3) relating to a stay of enforcement of an agency order, an appellate  
26 court, before it may stay an order of the commission, shall give due consideration to the public in-  
27 terest in the continued enforcement of the commission's order and may consider testimony or affi-  
28 davits thereon. Upon review, an appellate court may affirm, reverse, modify or remand the order.  
29 The court shall reverse, modify or remand the order only if it finds:

30 (a) The order to be unlawful in substance or procedure, but error in procedure shall not be  
31 cause for reversal, modification or remand unless the court shall find that substantial rights of any  
32 party were prejudiced thereby;

33 (b) The order to be unconstitutional;

34 (c) The order is invalid because it exceeds the statutory authority of the agency; or

35 (d) The order is not supported by substantial evidence in the whole record.

36 (3)(a) If the commission finds that in the interim period during which a local government, state  
37 agency or special district would be bringing itself into compliance with the commission's order un-  
38 der ORS 197.320 or subsection (2) of this section it would be contrary to the public interest in the  
39 conservation or sound development of land to allow the continuation of some or all categories of  
40 land use decisions or limited land use decisions, it shall, as part of its order, limit, prohibit or re-  
41 quire the approval by the local government of applications for subdivisions, partitions, building  
42 permits, limited land use decisions or land use decisions until the plan, land use regulation or sub-  
43 sequent land use decisions and limited land use decisions are brought into compliance. The com-  
44 mission may issue an order that requires review of local decisions by a hearings officer or the  
45 [*Department of Land Conservation and Development*] **Oregon Department of Natural Resources**

1 before the local decision becomes final.

2 (b) Any requirement under this subsection may be imposed only if the commission finds that the  
3 activity, if continued, aggravates the goal, comprehensive plan or land use regulation violation and  
4 that the requirement is necessary to correct the violation.

5 (c) The limitations on enforcement orders under subsection (1)(c)(B) of this section shall not be  
6 interpreted to affect the commission's authority to limit, prohibit or require application of specified  
7 criteria to subsequent land use decisions involving land use approvals issued by a local government  
8 prior to the date of adoption of the enforcement order.

9 (4) As part of its order under ORS 197.320 or subsection (2) of this section, the commission may  
10 withhold grant funds from the local government to which the order is directed. As part of an order  
11 issued under this section, the commission may notify the officer responsible for disbursing state-  
12 shared revenues to withhold that portion of state-shared revenues to which the local government is  
13 entitled under ORS 221.770, 323.455, 366.762 and 366.800 and ORS chapter 471 which represents the  
14 amount of state planning grant moneys previously provided the local government by the commission.  
15 The officer responsible for disbursing state-shared revenues shall withhold state-shared revenues as  
16 outlined in this section and shall release funds to the local government or department when notified  
17 to so do by the commission or its designee. The commission may retain a portion of the withheld  
18 revenues to cover costs of providing services incurred under the order, including use of a hearings  
19 officer or staff resources to monitor land use decisions and limited land use decisions or conduct  
20 hearings. The remainder of the funds withheld under this provision shall be released to the local  
21 government upon completion of requirements of the commission order.

22 (5)(a) As part of its order under this section, the commission may notify the officer responsible  
23 for disbursing funds from any grant or loan made by a state agency to withhold such funds from a  
24 special district to which the order is directed. The officer responsible for disbursing funds shall  
25 withhold funds as outlined in this section and shall release funds to the special district or depart-  
26 ment when notified to do so by the commission.

27 (b) The commission may retain a portion of the funds withheld to cover costs of providing ser-  
28 vices incurred under the order, including use of a hearings officer or staff resources to monitor land  
29 use decisions and limited land use decisions or conduct hearings. The remainder of the funds with-  
30 held under this provision shall be released to the special district upon completion of the require-  
31 ments of the commission order.

32 (6) The commission may institute actions or proceedings for legal or equitable remedies in the  
33 Circuit Court for Marion County or in the circuit court for the county to which the commission's  
34 order is directed or within which all or a portion of the applicable city is located to enforce com-  
35 pliance with the provisions of any order issued under this section or to restrain violations thereof.  
36 Such actions or proceedings may be instituted without the necessity of prior agency notice, hearing  
37 and order on an alleged violation.

38 **SECTION 972a.** ORS 197.340 is amended to read:

39 197.340. (1) [*The Land Conservation and Development Commission, the Department of Land Con-*

42 weight in any matter in which the goals are required to be applied.

43 (2) The commission and the department shall consider and recognize regional diversity and dif-

45 goals.

1       **SECTION 972b.** ORS 197.350 is amended to read:

2       197.350. (1) A party appealing a land use decision or limited land use decision made by a local

5 sion.

6       (2) A local government that claims an exception to a goal adopted by the commission has the

8       (3) There shall be no burden of proof in administrative proceedings under ORS chapters 195, 196  
9 and 197.

10       **SECTION 973.** ORS 197.390 is amended to read:

11       197.390. (1) The [*Land Conservation and Development Commission*] **Oregon Natural Resources**  
12 **Commission** shall study and compile a list of all activities affecting land use planning which occur  
13 on federal land and which the state may regulate or control in any degree.

14       (2) No activity listed by the commission pursuant to subsection (1) of this section which the  
15 state may regulate or control which occurs upon federal land shall be undertaken without a permit  
16 issued under ORS 197.395.

17       (3) Any person or agency acting in violation of subsection (2) of this section may be enjoined  
18 in civil proceedings brought in the name of the State of Oregon.

19       **SECTION 974.** ORS 197.395 is amended to read:

20       197.395. (1) Any person or public agency desiring to initiate an activity which the state may  
21 regulate or control and which occurs upon federal land shall apply to the local government in which  
22 the activity will take place for a permit. The application shall contain an explanation of the activity  
23 to be initiated, the plans for the activity and any other information required by the local government  
24 as prescribed by rule of the [*Land Conservation and Development Commission*] **Oregon Natural**  
25 **Resources Commission**.

26       (2) If the local government finds after review of the application that the proposed activity com-  
27 plies with goals and the comprehensive plans of the local government affected by the activity, it  
28 shall approve the application and issue a permit for the activity to the person or public agency ap-  
29 plying for the permit. If the governing body does not approve or disapprove the permit within 60  
30 days of receipt of the application, the application shall be considered approved.

31       (3) The local government may prescribe and include in the permit any conditions or restrictions  
32 that it considers necessary to assure that the activity complies with the goals and the comprehen-  
33 sive plans of the local governments affected by the activity.

34       (4) Actions pursuant to this section are subject to review under ORS 197.830 to 197.845.

35       **SECTION 975.** ORS 197.405 is amended to read:

36       197.405. (1) The [*Land Conservation and Development Commission*] **Oregon Natural Resources**  
37 **Commission** may recommend to appropriate legislative committees the designation of areas of

45       (d) May establish permissible use limitations for all or part of the area;

1 (e) Shall locate a boundary describing the area; and

2 (f) May designate permissible use standards for all or part of the lands within the area or es-  
3 tablish standards for issuance or denial of designated state or local permits regulating specified uses  
4 of lands in the area, or both.

5 (2) The commission may act under subsection (1) of this section on its own motion or upon the  
6 recommendation of a state agency or a local government. If the commission receives a recommen-  
7 dation from a state agency or a local government and finds the proposed area to be unsuitable for  
8 designation, it shall notify the state agency or the local government of its decision and its reasons  
9 for that decision.

10 (3) Immediately following its decision to favorably recommend to the Legislative Assembly the  
11 designation of an area of critical state concern, the commission shall submit the proposed desig-  
12 nation accompanied by the supporting materials described in subsection (1) of this section to the  
13 appropriate legislative committees for review.

14 (4) No proposed designation under subsection (1) of this section shall take effect unless it has  
15 first been submitted to appropriate legislative committees under subsection (3) of this section and  
16 has been approved by the Legislative Assembly. The Legislative Assembly may adopt, amend or re-

21 *and Development Commission*] **Oregon Natural Resources Commission**.

22 (2) Pursuant to ORS 197.405 (4), the Legislative Assembly hereby approves the recommendation  
23 of the commission, submitted to the Legislative Assembly on April 2, 2009, that the Metolius Area  
24 of Critical State Concern be designated an area of critical state concern.

25 (3) The Legislative Assembly approves the management plan included in the commission's rec-  
26 ommendation pursuant to ORS 197.405 (1)(c) and directs the commission to adopt the management  
27 plan, by rule, without change except that:

28 (a) The management plan must require:

30 governing bodies of Jefferson County and of the Confederated Tribes of the Warm Springs Indian  
31 Reservation; and

32 (B) If either governing body files a written objection to the proposed amendments, the commis-  
33 sion to adopt the proposed amendments only if the commission finds by clear and convincing evi-

35 (b) The management plan must limit development of a small-scale recreation community within  
36 township 13 south, range 10 east, sections 20, 21, 28 and 29 in Jefferson County so that all units  
37 must be sited within up to 25 clusters that may be connected only by a road system. The commission  
38 may not enforce, and shall modify, a contrary provision in the management plan.

39 (c) Descriptions in the management plan of annual average water use must refer to annual av-

42 (4) Except as otherwise provided in this section, the commission may amend the management  
43 plan only as provided in the management plan and only pursuant to applicable rulemaking proce-

45 (5) In addition to limitations on development that are contained in the management plan, new

2 administrative amendments required by subsection (3) of this section, may not result in:

- 3 (a) Negative impact on the Metolius River, its springs or its tributaries;
  - 4 (b) Negative impact on fish resources in the Metolius Area of Critical State Concern; or
  - 5 (c) Negative impact on the wildlife resources in the Metolius Area of Critical State Concern.

30 and parking areas.

31 (3) At least \$7 million must be spent on improvements for on-site developed recreational facili-  
32 ties and visitor-oriented accommodations exclusive of costs for land, sewer and water facilities and

34 (4) Visitor-oriented accommodations including meeting rooms, restaurants with seating for 100

39 (B) At least 75 units of overnight lodging, not including any individually owned homes, lots or  
40 units, must be constructed or guaranteed through surety bonding or equivalent financial assurance  
41 prior to the closure of sale of individual lots or units.

42 (C) The remaining overnight lodging units must be provided as individually owned lots or units  
43 subject to deed restrictions that limit their use to use as overnight lodging units. The deed re-  
44 strictions may be rescinded when the resort has constructed 150 units of permanent overnight  
45 lodging as required by this subsection.

1 (D) The number of units approved for residential sale may not be more than two units for each  
2 unit of permanent overnight lodging provided under this paragraph.

3 (E) The development approval must provide for the construction of other required overnight

11 lot sales.

12 (D) The remaining required overnight lodging units must be constructed or guaranteed through  
13 surety bonding or equivalent financial assurances within 10 years of the initial lot sales.

14 (E) The number of units approved for residential sale may not be more than 2-1/2 units for each  
15 unit of permanent overnight lodging provided under this paragraph.

16 (F) If the developer of a resort guarantees the overnight lodging units required under subpara-  
17 graphs (C) and (D) of this paragraph through surety bonding or other equivalent financial assurance,  
18 the overnight lodging units must be constructed within four years of the date of execution of the  
19 surety bond or other equivalent financial assurance.

20 (5) Commercial uses allowed are limited to types and levels of use necessary to meet the needs  
21 of visitors to the development. Industrial uses of any kind are not permitted.

22 (6) In lieu of the standards in subsections (1), (3) and (4) of this section, the standards set forth  
23 in subsection (7) of this section apply to a destination resort:

24 (a) On land that is not defined as agricultural or forest land under any statewide planning goal;

25 (b) On land where there has been an exception to any statewide planning goal on agricultural  
26 lands, forestlands, public facilities and services and urbanization; or

40 subsection and has determined that the primary purpose of the resort is to provide lodging and other  
41 services oriented to a recreational resource which can only reasonably be enjoyed in a rural area.  
42 Such recreational resources include, but are not limited to, a hot spring, a ski slope or a fishing  
43 stream.

44 (g) The resort must be constructed and located so that it is not designed to attract highway

5 the United States Consumer Price Index.

6 (9) When making a land use decision authorizing construction of a destination resort in eastern  
7 Oregon, as defined in ORS 321.805, the governing body of the county or its designee shall require  
8 the resort developer to provide an annual accounting to document compliance with the overnight  
9 lodging standards of this section. The annual accounting requirement commences one year after the  
10 initial lot or unit sales. The annual accounting must contain:

11 (a) Documentation showing that the resort contains a minimum of 150 permanent units of over-  
12 night lodging or, during the phase-in period, documentation showing the resort is not yet required  
13 to have constructed 150 units of overnight lodging.

14 (b) Documentation showing that the resort meets the lodging ratio described in subsection (4)

19 **SECTION 979.** ORS 197.520 is amended to read:

20 197.520. (1) No city, county or special district may adopt a moratorium on construction or land  
21 development unless it first:

22 (a) Provides written notice to the [*Department of Land Conservation and Development*] **Oregon**  
23 **Department of Natural Resources** at least 45 days prior to the final public hearing to be held to  
24 consider the adoption of the moratorium;

25 (b) Makes written findings justifying the need for the moratorium in the manner provided for in  
26 this section; and

27 (c) Holds a public hearing on the adoption of the moratorium and the findings which support the  
28 moratorium.

29 (2) For urban or urbanizable land, a moratorium may be justified by demonstration of a need to  
30 prevent a shortage of public facilities which would otherwise occur during the effective period of  
31 the moratorium. Such a demonstration shall be based upon reasonably available information, and  
32 shall include, but need not be limited to, findings:

33 (a) Showing the extent of need beyond the estimated capacity of existing public facilities ex-  
34 pected to result from new land development, including identification of any public facilities currently  
35 operating beyond capacity, and the portion of such capacity already committed to development;

36 (b) That the moratorium is reasonably limited to those areas of the city, county or special dis-  
37 trict where a shortage of key public facilities would otherwise occur; and

38 (c) That the housing and economic development needs of the area affected have been accommo-  
39 dated as much as possible in any program for allocating any remaining public facility capacity.

40 (3) A moratorium not based on a shortage of public facilities under subsection (2) of this section  
41 may be justified only by a demonstration of compelling need. Such a demonstration shall be based  
42 upon reasonably available information and shall include, but need not be limited to, findings:

43 (a) For urban or urbanizable land:

44 (A) That application of existing development ordinances or regulations and other applicable law  
45 is inadequate to prevent irrevocable public harm from development in affected geographical areas;

1 (B) That the moratorium is sufficiently limited to ensure that a needed supply of affected hous-  
2 ing types and the supply of commercial and industrial facilities within or in proximity to the city,  
3 county or special district are not unreasonably restricted by the adoption of the moratorium;

4 (C) Stating the reasons alternative methods of achieving the objectives of the moratorium are  
5 unsatisfactory;

6 (D) That the city, county or special district has determined that the public harm which would  
7 be caused by failure to impose a moratorium outweighs the adverse effects on other affected local  
8 governments, including shifts in demand for housing or economic development, public facilities and  
9 services and buildable lands, and the overall impact of the moratorium on population distribution;  
10 and

11 (E) That the city, county or special district proposing the moratorium has determined that suf-  
12 ficient resources are available to complete the development of needed interim or permanent changes  
13 in plans, regulations or procedures within the period of effectiveness of the moratorium.

14 (b) For rural land:

15 (A) That application of existing development ordinances or regulations and other applicable law  
16 is inadequate to prevent irrevocable public harm from development in affected geographical areas;

17 (B) Stating the reasons alternative methods of achieving the objectives of the moratorium are  
18 unsatisfactory;

19 (C) That the moratorium is sufficiently limited to ensure that lots or parcels outside the affected  
20 geographical areas are not unreasonably restricted by the adoption of the moratorium; and

21 (D) That the city, county or special district proposing the moratorium has developed a work plan  
22 and time schedule for achieving the objectives of the moratorium.

23 (4) No moratorium adopted under subsection (3)(a) of this section shall be effective for a period  
24 longer than 120 days, but such a moratorium may be extended provided the city, county or special  
25 district adopting the moratorium holds a public hearing on the proposed extension and adopts writ-  
26 ten findings that:

27 (a) Verify the problem giving rise to the need for a moratorium still exists;

28 (b) Demonstrate that reasonable progress is being made to alleviate the problem giving rise to  
29 the moratorium; and

30 (c) Set a specific duration for the renewal of the moratorium. No extension may be for a period  
31 longer than six months.

32 (5) Any city, county or special district considering an extension of a moratorium shall give the  
33 department at least 14 days' notice of the time and date of the public hearing on the extension.

34 **SECTION 980.** ORS 197.530 is amended to read:

35 197.530. (1) A city, county or special district that adopts a moratorium on construction or land  
36 development in conformity with ORS 197.520 (1) and (2) shall within 60 days after the effective date  
37 of the moratorium adopt a program to correct the problem creating the moratorium. The program  
38 shall be presented at a public hearing. The city, county or special district shall give at least 14 days'  
39 advance notice to the [*Department of Land Conservation and Development*] **Oregon Department of**  
40 **Natural Resources** of the time and date of the public hearing.

41 (2) No moratorium adopted under ORS 197.520 (2) shall be effective for a period longer than six  
42 months from the date on which the corrective program is adopted, but such a moratorium may be  
43 extended provided the city, county or special district adopting the moratorium holds a public hear-  
44 ing on the proposed extension and adopts written findings that:

45 (a) Verify that the problem giving rise to the moratorium still exists;

1 (b) Demonstrate that reasonable progress is being made to alleviate the problem giving rise to  
2 the moratorium; and

3 (c) Set a specific duration for the renewal of the moratorium.

4 (3) No single extension under subsection (2) of this section may be for a period longer than six  
5 months, and no moratorium shall be extended more than three times.

6 (4) Any city, county or special district considering an extension of a moratorium shall give the  
7 department at least 14 days' notice of the time and date of the public hearing on the extension.

8 **SECTION 981.** ORS 197.610 is amended to read:

9 197.610. (1) A proposal to amend a local government acknowledged comprehensive plan or land  
10 use regulation or to adopt a new land use regulation shall be forwarded to the Director of the  
11 [*Department of Land Conservation and Development*] **Oregon Department of Natural Resources**  
12 at least 45 days before the first evidentiary hearing on adoption. The proposal forwarded shall con-  
13 tain the text and any supplemental information that the local government believes is necessary to  
14 inform the director as to the effect of the proposal. The notice shall include the date set for the first  
15 evidentiary hearing. The director shall notify persons who have requested notice that the proposal  
16 is pending.

17 (2) When a local government determines that the goals do not apply to a particular proposed  
18 amendment or new regulation, notice under subsection (1) of this section is not required. In addition,  
19 a local government may submit an amendment or new regulation with less than 45 days' notice if

23 197.615 (1) and (2); and

24 (b) Notwithstanding the requirements of ORS 197.830 (2), the director or any other person may  
25 appeal the decision to the [*board*] **Oregon Department of Natural Resources** under ORS 197.830  
26 to 197.845.

27 (3) When the [*Department of Land Conservation and Development*] **department** participates in a

33 concerns, including, but not limited to, suggested corrections to achieve compliance with the goals.

34 (4) The director shall report to the [*Land Conservation and Development Commission*] **Oregon**  
35 **Natural Resources Commission** on whether the director:

36 (a) Believes the local government's proposal violates the goals; and

37 (b) Is participating in the local government proceeding.

38 **SECTION 982.** ORS 197.615 is amended to read:

39 197.615. (1) A local government that amends an acknowledged comprehensive plan or land use  
40 regulation or adopts a new land use regulation shall mail or otherwise submit to the Director of the

43 the findings adopted by the local government. The text and findings must be mailed or otherwise  
44 submitted not later than five working days after the final decision by the governing body. If the  
45 proposed amendment or new regulation that the director received under ORS 197.610 has been sub-

1 stantially amended, the local government shall specify the changes that have been made in the no-  
2 tice provided to the director. If the text and findings are mailed, they shall include a signed  
3 statement by the person mailing them indicating the date of deposit in the mail.

4 (2)(a) On the same day that the text and findings are mailed or delivered, the local government  
5 also shall mail or otherwise submit notice to persons who:

6 (A) Participated in the proceedings leading to the adoption of the amendment to the compre-

13 person mailing it indicating the date the notice was deposited in the mail;

14 (D) List the place where and the time when the amendment to the acknowledged comprehensive  
15 plan or land use regulation or the new land use regulation, and findings, may be reviewed; and

16 (E) Explain the requirements for appealing the action of the local government under ORS  
17 197.830 to 197.845.

18 (3) Not later than five working days after receipt of an amendment to an acknowledged com-

25 land use regulation may be reviewed.

26 **SECTION 983.** ORS 197.620 is amended to read:

27 197.620. (1) Notwithstanding the requirements of ORS 197.830 (2), persons who participated ei-  
28 ther orally or in writing in the local government proceedings leading to the adoption of an amend-  
29 ment to an acknowledged comprehensive plan or land use regulation or a new land use regulation  
30 may appeal the decision to the [*Land Use Board of Appeals*] **Oregon Department of Natural Re-**  
31 **sources** under ORS 197.830 to 197.845. A decision to not adopt a legislative amendment or a new  
32 land use regulation is not appealable except where the amendment is necessary to address the re-  
33 quirements of a new or amended goal, rule or statute.

34 (2) Notwithstanding the requirements of ORS 197.830 (2), the Director of the [*Department of*  
35 *Land Conservation and Development*] **Oregon Department of Natural Resources** or any other  
36 person may file an appeal of the local government's decision under ORS 197.830 to 197.845, if an  
37 amendment to an acknowledged comprehensive plan or land use regulation or a new land use reg-  
38 ulation differs from the proposal submitted under ORS 197.610 to such a degree that the notice un-  
39 der ORS 197.610 did not reasonably describe the nature of the local government final action.

40 **SECTION 984.** ORS 197.625 is amended to read:

41 197.625. (1) If a notice of intent to appeal is not filed within the 21-day period set out in ORS  
42 197.830 (9), the amendment to the acknowledged comprehensive plan or land use regulation or the  
43 new land use regulation shall be considered acknowledged upon the expiration of the 21-day period.  
44 An amendment to an acknowledged comprehensive plan or land use regulation is not considered  
45 acknowledged unless the notices required under ORS 197.610 and 197.615 have been submitted to the

1 Director of the [*Department of Land Conservation and Development*] **Oregon Department of Na-**  
 2 **tural Resources** and:

3 (a) The 21-day appeal period has expired; or

4 (b) If an appeal is timely filed, the [*board*] **Oregon Department of Natural Resources** affirms  
 5 the decision or the appellate courts affirm the decision.

6 (2) If the decision adopting an amendment to an acknowledged comprehensive plan or land use  
 7 regulation or a new land use regulation is affirmed on appeal under ORS 197.830 to 197.855, the  
 8 amendment or new regulation shall be considered acknowledged upon the date the appellate decision  
 9 becomes final.

10 (3)(a) Prior to its acknowledgment, the adoption of a new comprehensive plan provision or land  
 11 use regulation or an amendment to a comprehensive plan or land use regulation is effective at the  
 12 time specified by local government charter or ordinance and is applicable to land use decisions,  
 13 expedited land divisions and limited land use decisions if the amendment was adopted in substantial  
 14 compliance with ORS 197.610 and 197.615 unless a stay is granted under ORS 197.845.

15 (b) Any approval of a land use decision, expedited land division or limited land use decision  
 16 subject to an unacknowledged amendment to a comprehensive plan or land use regulation shall in-  
 17 clude findings of compliance with those land use goals applicable to the amendment.

18 (c) The issuance of a permit under an effective but unacknowledged comprehensive plan or land  
 19 use regulation shall not be relied upon to justify retention of improvements so permitted if the  
 20 comprehensive plan provision or land use regulation does not gain acknowledgment.

21 (d) The provisions of this subsection apply to applications for land use decisions, expedited land  
 22 divisions and limited land use decisions submitted after February 17, 1993, and to comprehensive  
 23 plan and land use regulation amendments adopted:

24 (A) After June 1, 1991, pursuant to periodic review requirements under ORS 197.628, 197.633 and  
 25 197.636;

26 (B) After June 1, 1991, to meet the requirements of ORS 197.646; and

27 (C) After November 4, 1993.

28 (4) The director shall issue certification of the acknowledgment upon receipt of an affidavit from  
 29 the [*board*] **department** stating either:

30 (a) That no appeal was filed within the 21 days allowed under ORS 197.830 (9); or

31 (b) The date the appellate decision affirming the adoption of the amendment or new regulation  
 32 became final.

33 (5) The [*board*] **department** shall issue an affidavit for the purposes of subsection (4) of this  
 34 section within five days of receiving a valid request from the local government.

35 (6) After issuance of the notice provided in ORS 197.633, nothing in this section shall prevent  
 36 the [*Land Conservation and Development Commission*] **Oregon Natural Resources Commission**  
 37 from entering an order pursuant to ORS 197.633, 197.636 or 197.644 to require a local government  
 38 to respond to the standards of ORS 197.628.

39 **SECTION 985.** ORS 197.626 is amended to read:

40 197.626. A metropolitan service district that amends its urban growth boundary to include more

 42 plementing the plan to establish urban reserves designated under ORS 195.145 (1)(b), a city with a  
 43 population of 2,500 or more within its urban growth boundary that amends the urban growth  
 44 boundary to include more than 50 acres or that designates urban reserve under ORS 195.145, or a  
 45 county that amends the county's comprehensive plan or land use regulations implementing the plan

1 to establish rural reserves designated under ORS 195.141, shall submit the amendment or designation  
2 to the [*Land Conservation and Development Commission*] **Oregon Natural Resources Commission**  
3 in the manner provided for periodic review under ORS 197.628 to 197.650.

4 **SECTION 986.** ORS 197.628 is amended to read:

5 197.628. (1) It is the policy of the State of Oregon to require the periodic review of comprehen-  
6 sive plans and land use regulations in order to respond to changes in local, regional and state condi-  
7 tions to ensure that the plans and regulations remain in compliance with the statewide planning  
8 goals adopted pursuant to ORS 197.230, and to ensure that the plans and regulations make adequate  
9 provision for economic development, needed housing, transportation, public facilities and services  
10 and urbanization.

11 (2) The [*Land Conservation and Development Commission*] **Oregon Natural Resources Com-**  
12 **mission** shall concentrate periodic review assistance to local governments on achieving compliance  
13 with those statewide land use planning laws and goals that address economic development, needed  
14 housing, transportation, public facilities and services and urbanization.

15 (3) The following conditions indicate the need for periodic review of comprehensive plans and  
16 land use regulations:

17 (a) There has been a substantial change in circumstances including but not limited to the con-  
18 ditions, findings or assumptions upon which the comprehensive plan or land use regulations were  
19 based, so that the comprehensive plan or land use regulations do not comply with the statewide  
20 planning goals relating to economic development, needed housing, transportation, public facilities  
21 and services and urbanization;

22 (b) Decisions implementing acknowledged comprehensive plan and land use regulations are in-  
23 consistent with the goals relating to economic development, needed housing, transportation, public  
24 facilities and services and urbanization;

25 (c) There are issues of regional or statewide significance, intergovernmental coordination or  
26 state agency plans or programs affecting land use which must be addressed in order to bring com-  
27 prehensive plans and land use regulations into compliance with the goals relating to economic de-  
28 velopment, needed housing, transportation, public facilities and services and urbanization; or

29 (d) The local government, commission or [*Department of Land Conservation and Development*]  
30 **Oregon Department of Natural Resources** determines that the existing comprehensive plan and  
31 land use regulations are not achieving the statewide planning goals relating to economic develop-  
32 ment, needed housing, transportation, public facilities and services and urbanization.

33 **SECTION 987.** ORS 197.629 is amended to read:

34 197.629. (1) The [*Land Conservation and Development Commission*] **Oregon Natural Resources**  
35 **Commission** shall establish and maintain a schedule for periodic review of comprehensive plans and  
36 land use regulations. Except as necessary to coordinate approved periodic review work programs  
37 and to account for special circumstances that from time to time arise, the schedule shall reflect the  
38 following timelines:

39 (a) A city with a population of more than 2,500 within a metropolitan planning organization or  
40 a metropolitan service district shall conduct periodic review every seven years after completion of  
41 the previous periodic review; and

42 (b) A city with a population of 10,000 or more inside its urban growth boundary that is not  
43 within a metropolitan planning organization shall conduct periodic review every 10 years after  
44 completion of the previous periodic review.

45 (2) A county with a portion of its population within the urban growth boundary of a city subject

1 to periodic review under this section shall conduct periodic review for that portion of the county  
2 according to the schedule and work program set for the city.

3 (3) Notwithstanding subsection (2) of this section, if the schedule set for the county is specific  
4 as to that portion of the county within the urban growth boundary of a city subject to periodic re-  
5 view under this section, the county shall conduct periodic review for that portion of the county  
6 according to the schedule and work program set for the county.

7 (4) If the [*Land Conservation and Development Commission*] **Oregon Natural Resources Com-**  
8 **mission** pays the costs of a local government that is not subject to subsection (1) of this section to  
9 perform new work programs and work tasks, the commission may require the local government to  
10 complete periodic review when the local government has not completed periodic review within the  
11 previous five years if:

12 (a) A city has been growing faster than the annual population growth rate of the state for five  
13 consecutive years;

14 (b) A major transportation project on the Statewide Transportation Improvement Program that  
15 is approved for funding by the Oregon Transportation Commission is likely to:

16 (A) Have a significant impact on a city or an urban unincorporated community; or

17 (B) Be significantly affected by growth and development in a city or an urban unincorporated  
18 community;

19 (c) A major facility, including a prison, is sited or funded by a state agency; or

20 (d) Approval by the city or county of a facility for a major employer will increase employment  
21 opportunities and significantly affect the capacity of housing and public facilities in the city or ur-  
22 ban unincorporated community.

23 (5) The [*Land Conservation and Development Commission*] **Oregon Natural Resources Com-**  
24 **mission** may schedule periodic review for a local government earlier than provided in subsection  
25 (1) of this section if necessary to ensure that all local governments in a region whose land use de-  
26 cisions would significantly affect other local governments in the region are conducting periodic re-  
27 view concurrently, but not sooner than five years after completion of the previous periodic review.

28 (6) A city or county that is not required to complete periodic review under subsection (1) of this  
29 section may request periodic review by the **Oregon Natural Resources** Commission.

30 (7) As used in this section, “metropolitan planning organization” means an organization located  
31 wholly within the State of Oregon and designated by the Governor to coordinate transportation  
32 planning in an urbanized area of the state pursuant to 49 U.S.C. 5303(c).

33 **SECTION 988.** ORS 197.631 is amended to read:

34 197.631. In order to use state and local periodic review resources most efficiently and effectively  
35 and to concentrate periodic review on adequate provision of economic development, needed housing,  
36 transportation, public facilities and services and urbanization, the [*Land Conservation and Develop-*  
37 *ment Commission*] **Oregon Natural Resources Commission** shall adopt, amend or repeal the  
38 statewide land use planning goals, guidelines and corresponding rules as necessary to facilitate pe-  
39 riodic review and to provide for compliance by local governments with those goals not described in  
40 ORS 197.628 (2) through the post-acknowledgment procedures of ORS 197.610 to 197.625.

41 **SECTION 989.** ORS 197.633 is amended to read:

42 197.633. (1) The periodic review process is divided into two phases. Phase one is the evaluation  
43 of the existing comprehensive plan, land use regulations and citizen involvement program and, if  
44 necessary, the development of a work program to make needed changes to the comprehensive plan  
45 or land use regulations. Phase two is the completion of work tasks outlined in the work program.

1 (2) The [*Land Conservation and Development Commission*] **Oregon Natural Resources Com-**  
 2 **mission** shall adopt rules for conducting periodic review. The rules shall provide a process for:

3 (a) Initiating periodic review;

4 (b) Citizen participation;

5 (c) The participation of state agencies;

6 (d) The preparation, review and approval of an evaluation of a comprehensive plan and land use  
 7 regulations;

8 (e) Review of a work program; and

9 (f) Review of completed work tasks.

10 (3) A decision by the Director of the [*Department of Land Conservation and Development*]  
 11 **Oregon Department of Natural Resources** to approve a work program, that no work program is  
 12 necessary or that no further work is necessary is final and not subject to appeal.

13 (4) The director:

14 (a) Shall take action on a work task not later than 120 days after the local government submits  
 15 the work task for review unless the local government waives the 120-day deadline or the commission  
 16 grants the director an extension. If the director does not take action within the time period required  
 17 by this subsection, the work task is deemed approved. The **Oregon Department of Natural Re-**  
 18 **sources** shall provide a letter to the local government certifying that the work task is approved  
 19 unless an interested party has filed a timely objection to the work task consistent with administra-  
 20 tive rules for conducting periodic review. If a timely objection is filed, the director shall refer the  
 21 work task to the commission.

22 (b) May approve or remand a work task or refer the work task to the commission for a decision.  
 23 A decision by the director to approve or remand a work task may be appealed to the commission.

24 (5) Except as provided in this subsection, the commission shall take action on the appeal or re-  
 25 ferral within 90 days of the appeal or referral. Action by the commission in response to an appeal  
 26 from a decision of the director is a final order subject to judicial review in the manner provided in  
 27 ORS 197.650. The commission may extend the time for taking action on the appeal or referral if the  
 28 commission finds that:

29 (a) The appeal or referral is appropriate for mediation;

30 (b) The appeal or referral raises new or complex issues of fact or law that make it unreasonable  
 31 for the commission to give adequate consideration to the issues within the 90-day limit; or

32 (c) The parties to the appeal and the commission agree to an extension, not to exceed an addi-  
 33 tional 90 days.

34 (6) The commission and a local government shall attempt to complete periodic review within  
 35 three years after approval of a work program. In order to promote the timely completion of periodic  
 36 review, the commission shall establish a system of incentives to encourage local government com-  
 37 pliance with timelines in periodic review work programs.

38 **SECTION 990.** ORS 197.636 is amended to read:

39 197.636. (1) Upon good cause shown by a local government, the Director of the [*Department of*  
 40 *Land Conservation and Development*] **Oregon Department of Natural Resources** may allow the  
 41 local government an extension of time for submitting a work program or completing a work task.  
 42 A decision by the director to grant or deny an extension may be referred to the [*Land Conservation*  
 43 *and Development Commission by the director. The Department of Land Conservation and*  
 44 *Development*] **Oregon Natural Resources Commission by the director. The Oregon Department**  
 45 **of Natural Resources** or the commission shall not extend the deadline for submitting a work pro-

1 gram more than once nor for more than 90 days, and shall not extend the deadline for a work task  
2 more than once nor for more than one year.

3 (2) If a local government fails to submit a work program or to complete a work task by the  
4 deadline set by the director or the commission, including any extension that has been granted, the  
5 director shall schedule a hearing before the commission. The commission shall issue an order im-  
6 posing one or more of the following sanctions until the work program or the work task receives final  
7 approval by the director or the commission:

8 (a) Require the local government to apply those portions of the goals and rules to land use de-  
9 cisions as specified in the order. Sanctions may be imposed under this paragraph only when neces-  
10 sary to resolve a specific deficiency identified in the order.

11 (b) Forfeiture of all or a portion of the grant money received to conduct the review, develop the  
12 work program or complete the work task.

13 (c) Completion of the work program or work task by the department. The commission may re-  
14 quire the local government to pay the cost for completion of work performed by the department,  
15 following the withholding process set forth in ORS 197.335 (4).

16 (d) Application of such interim measures as the commission deems necessary to ensure compli-  
17 ance with the statewide planning goals.

18 (3) If the department receives a work program or work task completed in response to a com-  
19 mission order issued under subsection (2) of this section, the director shall evaluate and issue a  
20 decision on the work program or work task within 90 days.

21 (4) Commission action pursuant to subsection (1) or (2) of this section is a final order subject  
22 to judicial review in the manner provided in ORS 197.650.

23 **SECTION 991.** ORS 197.637 is amended to read:

24 197.637. (1) Upon request of the [*Department of Land Conservation and Development*] **Oregon**  
25 **Department of Natural Resources**, the Housing and Community Services Department shall review  
26 the inventory and analysis of housing, and measures taken to address the housing need, required  
27 of certain local governments under ORS 197.296. The review shall address the likely effect of  
28 measures developed by a local government under ORS 197.296 (6) or (7) on the adequacy of the  
29 supply of buildable land and opportunities to satisfy needs identified under ORS 197.296 (3).

30 (2) The [*Land Conservation and Development Commission and the Director of the Department of*  
31 *Land Conservation and Development*] **Director of the Oregon Department of Natural Resources**  
32 **and the Oregon Natural Resources Commission** shall consider the review and any recommen-  
33 dations of the Housing and Community Services Department when determining whether a local  
34 government has complied with the statewide land use planning goals and the requirements of ORS  
35 197.296.

36 **SECTION 992.** ORS 197.638 is amended to read:

37 197.638. (1) Upon request of the [*Department of Land Conservation and Development*] **Oregon**  
38 **Department of Natural Resources**, the Oregon Business Development Department shall review the  
39 inventory and analysis of industrial and commercial land, and measures taken to address the land  
40 needs, required of certain local governments under ORS 197.712. The review shall address the likely  
41 effect of measures developed by a local government on the adequacy of the supply of sites and op-  
42 portunities to satisfy needs identified under ORS 197.712.

43 (2) The [*Land Conservation and Development Commission and the Director of the Department of*  
44 *Land Conservation and Development*] **Director of the Oregon Department of Natural Resources**  
45 **and the Oregon Natural Resources Commission** shall consider the review and any recommen-

 3 197.712.

4 **SECTION 993.** ORS 197.639 is amended to read:

5 197.639. (1) In addition to coordination between state agencies and local government established  
 6 in certified state agency coordination programs, the [*Department of Land Conservation and Develop-*  
 7 *ment*] **Oregon Department of Natural Resources** may establish one or more state assistance teams  
 8 made up of representatives of various agencies and local governments, utilize the Economic  
 9 Revitalization Team established under ORS 284.555 or institute an alternative process for coordi-  
 10 nating agency participation in the periodic review of comprehensive plans.

11 (2) The Economic Revitalization Team may work with a city to create a voluntary comprehen-  
 12 sive plan review that focuses on the unique vision of the city, instead of conducting a standard pe-  
 13 riodic review, if the team identifies a city that the team determines can benefit from a customized  
 14 voluntary comprehensive plan review.

15 (3) The department may develop model ordinance provisions to assist local governments in the  
 16 periodic review plan update process and in complying with new statutory requirements or new land  
 17 use planning goal or rule requirements adopted by the [*Land Conservation and Development Com-*  
 18 *mission*] **Oregon Natural Resources Commission** outside the periodic review process.

19 (4) A local government may arrange with the department for the provision of periodic review  
 20 planning services and those services may be paid with grant program funds.

21 (5) The commission shall establish an advisory committee composed, at a minimum, of repre-  
 22 sentatives from the League of Oregon Cities, the Association of Oregon Counties, metropolitan ser-  
 23 vice districts, the Special Districts Association of Oregon, land use planning public interest groups  
 24 and developer interest groups. The advisory committee shall advise the commission and the depart-  
 25 ment on the allocation of grants and technical assistance funding from General Fund sources and  
 26 other issues assigned by the commission.

27 **SECTION 994.** ORS 197.644 is amended to read:

28 197.644. (1) The [*Land Conservation and Development Commission may direct or, upon request of*  
 29 *the local government, the Director of the Department of Land Conservation and Development*] **Oregon**  
 30 **Natural Resources Commission may direct or, upon request of the local government, the**  
 31 **Director of the Oregon Department of Natural Resources** may authorize a local government to  
 32 modify an approved work program when:

33 (a) Issues of regional or statewide significance arising out of another local government's periodic  
 34 review require an enhanced level of coordination;

35 (b) Issues of goal compliance are raised as a result of completion of a work program task re-  
 36 sulting in a need to undertake further review or revisions;

37 (c) Issues relating to the organization of the work program, coordination with affected agencies  
 38 or persons, or orderly implementation of work tasks result in a need for further review or revision;

39 or

40 (d) Issues relating to needed housing, employment, transportation or public facilities and ser-  
 41 vices were omitted from the work program but must be addressed in order to ensure compliance  
 42 with the statewide planning goals.

43 (2) The commission shall have exclusive jurisdiction for review of the evaluation, work program  
 44 and completed work program tasks as set forth in ORS 197.628 to 197.650. The commission shall

1 tension of time periods and other matters related to the administration of ORS 197.180, 197.245,  
2 197.254, 197.295, 197.320, 197.620, 197.625, 197.628 to 197.650, 197.712, 197.747, 197.840, 215.416,  
3 227.175 and 466.385.

4 (3)(a) Commission action pursuant to subsection (1) or (2) of this section is a final order subject  
5 to judicial review in the manner provided in ORS 197.650.

6 (b) Action by the director pursuant to subsection (1) of this section may be appealed to the  
7 commission pursuant to rules adopted by the commission. Commission action under this paragraph  
8 is a final order subject to judicial review in the manner provided in ORS 197.650.

9 **SECTION 995.** ORS 197.646 is amended to read:

10 197.646. (1) A local government shall amend its acknowledged comprehensive plan, regional  
11 framework plan and land use regulations implementing either plan by a self-initiated post-  
12 acknowledgment process under ORS 197.610 to 197.625 to comply with:

13 (a) A new statutory requirement; or

14 (b) A new land use planning goal or rule requirement adopted by the [*Land Conservation and*  
15 *Development Commission*] **Oregon Natural Resources Commission**.

16 (2) Periodic review is not the implementation process for new statutory, land use planning goal  
17 or rule requirements.

18 (3)(a) The [*Department of Land Conservation and Development*] **Oregon Department of Natural**  
19 **Resources** shall notify local governments when a new statutory requirement or a new land use  
20 planning goal or rule requirement adopted by the commission requires changes to an acknowledged  
21 comprehensive plan, a regional framework plan and land use regulations implementing either plan.

22 (b) The commission shall establish, by rule, the time period within which an acknowledged  
23 comprehensive plan, a regional framework plan and land use regulations implementing either plan  
24 must be in compliance with:

25 (A) A new statutory requirement, if the legislation does not specify a time period for compliance;  
26 and

27 (B) A new land use planning goal or rule requirement adopted by the commission.

28 (4) When a local government does not adopt amendments to a comprehensive plan, a regional  
29 framework plan and land use regulations implementing either plan as required by subsection (1) of  
30 this section, the new statutory, land use planning goal or rule requirements apply directly to the  
31 local government's land use decisions. The failure to adopt amendments to a comprehensive plan, a  
32 regional framework plan and land use regulations implementing either plan required by subsection  
33 (1) of this section is a basis for initiation of enforcement action pursuant to ORS 197.319 to 197.335.

34 **SECTION 996.** ORS 197.649 is amended to read:

35 197.649. The [*Land Conservation and Development Commission*] **Oregon Natural Resources**  
36 **Commission** may establish by rule fees to cover the cost of notice given to persons by the Director  
37 of the [*Department of Land Conservation and Development*] **Oregon Department of Natural Re-**  
38 **sources** under ORS 197.610 (1) and 197.615 (3).

39 **SECTION 997.** ORS 197.650 is amended to read:

40 197.650. (1) [*A Land Conservation and Development Commission*] **An Oregon Natural Resources**  
41 **Commission** order may be appealed to the Court of Appeals in the manner provided in ORS 183.482  
42 by the following persons:

43 (a) Persons who submitted comments or objections pursuant to ORS 197.251 (2) or proceedings  
44 under ORS 197.633, 197.636 or 197.644 and are appealing a commission order issued under ORS  
45 197.251 or 197.633, 197.636 or 197.644;

1 (b) Persons who submitted comments or objections pursuant to procedures adopted by the com-  
2 mission for certification of state agency coordination programs and are appealing a certification is-  
3 sued under ORS 197.180 (7);

4 (c) Persons who petitioned the commission for an order under ORS 197.324 and whose petition  
5 was dismissed;

6 (d) Persons who submitted comments or objections pursuant to ORS 197.659 and 215.788 to  
7 215.794 or proceedings under ORS 197.659 and 215.788 to 215.794 and are appealing a commission  
8 order issued under ORS 197.659 and 215.788 to 215.794;

9 (e) Persons who submitted comments or objections pursuant to ORS 197.652 to 197.658 and  
10 197.659 or proceedings under ORS 197.652 to 197.658 and 197.659 and are appealing a commission  
11 order issued under ORS 197.652 to 197.658 and 197.659; or

12 (f) Persons who submitted oral or written testimony in a proceeding before the commission  
13 pursuant to ORS 215.780.

14 (2) Notwithstanding ORS 183.482 (2) relating to contents of the petition, the petition shall state  
15 the nature of the order petitioner desires reviewed and whether the petitioner submitted comments  
16 or objections as provided in ORS 197.251 (2) or pursuant to ORS 197.633, 197.636, 197.644 or 197.659.

17 (3) Notwithstanding ORS 183.482 (2) relating to service of the petition, copies of the petition  
18 shall be served by registered or certified mail upon the [*Department of Land Conservation and De-*  
19 *velopment*] **Oregon Department of Natural Resources**, the local government and all persons who  
20 filed comments or objections.

21 **SECTION 998.** ORS 197.651 is amended to read:

22 197.651. (1) Notwithstanding ORS 197.650, [*a Land Conservation and Development Commission*]  
23 **an Oregon Natural Resources Commission** order concerning the designation of urban reserves  
24 under ORS 195.145 (1)(b) or rural reserves under ORS 195.141 may be appealed to the Court of Ap-  
25 peals by the persons described in ORS 197.650.

26 (2) Judicial review of orders described in subsection (1) of this section is as provided in this  
27 section.

28 (3) Jurisdiction for judicial review is conferred upon the Court of Appeals. A proceeding for ju-  
29 dicial review may be instituted by filing a petition in the Court of Appeals. The petition must be  
30 filed within 21 days after the date the commission delivered or mailed the order upon which the  
31 petition is based.

32 (4) The filing of the petition, as set forth in subsection (3) of this section, and service of a peti-  
33 tion on the persons who submitted oral or written testimony in the proceeding before the commis-  
34 sion are jurisdictional and may not be waived or extended.

35 (5) The petition must state the nature of the order the petitioner seeks to have reviewed. Copies  
36 of the petition must be served by registered or certified mail upon the commission and the persons  
37 who submitted oral or written testimony in the proceeding before the commission.

38 (6) Within 21 days after service of the petition, the commission shall transmit to the Court of  
39 Appeals the original or a certified copy of the entire record of the proceeding under review. How-  
40 ever, by stipulation of the parties to the review proceeding, the record may be shortened. The Court  
41 of Appeals may tax a party that unreasonably refuses to stipulate to limit the record for the addi-  
42 tional costs. The Court of Appeals may require or permit subsequent corrections or additions to the  
43 record. Except as specifically provided in this subsection, the Court of Appeals may not tax the cost  
44 of the record to the petitioner or an intervening party. However, the Court of Appeals may tax the  
45 costs to a party that files a frivolous petition for judicial review.

1 (7) Petitions and briefs must be filed within time periods and in a manner established by the  
2 Court of Appeals by rule.

3 (8) The Court of Appeals shall:

4 (a) Hear oral argument within 49 days of the date of transmittal of the record unless the Court  
5 of Appeals determines that the ends of justice served by holding oral argument on a later day out-  
6 weigh the best interests of the public and the parties. However, the Court of Appeals may not hold  
7 oral argument more than 49 days after the date of transmittal of the record because of general  
8 congestion of the court calendar or lack of diligent preparation or attention to the case by a member  
9 of the court or a party.

10 (b) Set forth in writing and provide to the parties a determination to hear oral argument more  
11 than 49 days from the date the record is transmitted, together with the reasons for the determi-  
12 nation. The Court of Appeals shall schedule oral argument as soon as is practicable.

13 (c) Consider, in making a determination under paragraph (b) of this subsection:

14 (A) Whether the case is so unusual or complex, due to the number of parties or the existence  
15 of novel questions of law, that 49 days is an unreasonable amount of time for the parties to brief  
16 the case and for the Court of Appeals to prepare for oral argument; and

17 (B) Whether the failure to hold oral argument at a later date likely would result in a miscar-  
18 riage of justice.

19 (9) The court:

20 (a) Shall limit judicial review of an order reviewed under this section to the record.

21 (b) May not substitute its judgment for that of the [*Land Conservation and Development Com-*  
22 *mission*] **Oregon Natural Resources Commission** as to an issue of fact.

23 (10) The Court of Appeals may affirm, reverse or remand an order reviewed under this section.  
24 The Court of Appeals shall reverse or remand the order only if the court finds the order is:

25 (a) Unlawful in substance or procedure. However, error in procedure is not cause for reversal  
26 or remand unless the Court of Appeals determines that substantial rights of the petitioner were  
27 prejudiced.

28 (b) Unconstitutional.

29 (c) Not supported by substantial evidence in the whole record as to facts found by the commis-  
30 sion.

31 (11) The Court of Appeals shall issue a final order on the petition for judicial review with the  
32 greatest possible expediency.

33 (12) If the order of the commission is remanded by the Court of Appeals or the Supreme Court,  
34 the commission shall respond to the court's appellate judgment within 30 days.

35 **SECTION 999.** ORS 197.652 is amended to read:

36 197.652. (1) At the request of a county and at least one other local government in a region, the  
37 [*Department of Land Conservation and Development*] **Oregon Department of Natural Resources**,  
38 other state agencies, as defined in ORS 171.133, metropolitan planning organizations, special dis-  
39 tricts and advisory committees on transportation may participate with the local governments in a  
40 collaborative regional problem-solving process.

41 (2) If requested to participate, the department shall assist the county with the process and en-  
42 courage regional efforts to resolve land use planning problems using the authorities described in  
43 ORS 197.652 to 197.658.

44 (3) The county, in cooperation with the other local governments, shall identify the land use  
45 planning problems to be addressed and the participants whose actions are necessary to resolve the

1 land use planning problems.

2 (4) The county shall submit a proposed work scope and a proposed list of participants as a  
3 proposal to the [*Land Conservation and Development Commission*] **Oregon Natural Resources**  
4 **Commission** for review. The commission shall review:

5 (a) The proposed work scope to determine whether it can reasonably be completed within the  
6 time allowed;

7 (b) The proposed participant list to determine whether it includes, at a minimum, all local gov-  
8 ernments that will need to amend a comprehensive plan provision or a land use regulation, or adopt  
9 a new provision or regulation, in order to resolve the land use planning problems identified in the  
10 work scope; and

11 (c) The proposed work scope and the proposed participant list for consistency.

12 (5) A county may initiate amendments of a comprehensive plan or land use regulation under  
13 ORS 197.652 to 197.658 only if the commission approves the work scope, the list of participants and  
14 a schedule for completion of the process. The schedule for completion of the process may:

15 (a) Not exceed three years except as provided in paragraph (b) of this subsection.

16 (b) Be extended by the commission for up to one year for good cause shown.

17 (6) The decision of a county to submit a proposal under this section, and the decision of the  
18 commission to approve a proposal, are not final actions subject to judicial review.

19 (7) If the commission approves a proposal under this section, the county must periodically report  
20 on the progress in carrying out the proposal, as specified by the commission.

21 (8) For purposes of ORS 197.654 and 197.656, the participants in a collaborative regional  
22 problem-solving process include all participants on the list of participants approved by the commis-  
23 sion unless the commission subsequently approves the addition or removal of a participant.

24 **SECTION 1000.** ORS 197.654 is amended to read:

25 197.654. (1) After the [*Land Conservation and Development Commission*] **Oregon Natural Re-**  
26 **sources Commission** approves a proposal for regional problem-solving under ORS 197.652, the  
27 participants shall develop proposed actions to resolve the problems identified in the work scope. The  
28 participants must agree to:

29 (a) Regional goals that describe how the region intends to resolve each regional problem de-  
30 scribed in the work scope;

31 (b) Actions necessary to achieve the regional goals, including changes to comprehensive plans  
32 or land use regulations;

33 (c) Measurable indicators of performance and a system for monitoring progress toward  
34 achievement of the regional goals;

35 (d) Incentives and disincentives to encourage successful implementation of the actions to  
36 achieve the regional goals;

37 (e) If the regional goals involve the management of an urban growth boundary, actions to co-  
38 ordinate the planning and provision of water, sewer and transportation facilities in the region; and

39 (f) A process for correction of actions if monitoring indicates that the actions are not achieving  
40 the regional goals.

41 (2) A decision by a participant to enter into a regional problem-solving agreement under ORS  
42 197.652 to 197.658 is not a final land use decision. However, a regional problem-solving agreement  
43 is not final and binding until:

44 (a) All local governments that are participants have adopted the provisions of the comprehensive  
45 plans or land use regulations contemplated in the agreement; and

1 (b) The commission has approved the comprehensive plan provisions and land use regulations  
2 as provided under ORS 197.656.

3 (3) Changes to provisions of comprehensive plans and land use regulations adopted to implement  
4 a regional problem-solving agreement take effect 60 days after the commission notifies all partic-  
5 ipants that the commission has approved all of the changes.

6 **SECTION 1001.** ORS 197.656 is amended to read:

7 197.656. (1) After the adoption of changes to comprehensive plans and land use regulations to  
8 implement a regional problem-solving agreement under ORS 197.652 to 197.658, the local govern-  
9 ments that are participants shall submit the changes to the [*Land Conservation and Development*  
10 *Commission*] **Oregon Natural Resources Commission** for review in the manner set forth in this  
11 section.

12 (2) Following the procedures set forth in this subsection, the commission may approve changes  
13 to comprehensive plans and land use regulations that do not fully comply with the statewide land  
14 use planning goals, without taking an exception under ORS 197.732, upon a determination that the  
15 changes:

16 (a) Conform, on the whole, with the purposes of the goals, and any failure to meet individual  
17 goal requirements is technical or minor in nature;

18 (b) Are needed to achieve the regional goals specified by the participants; and

19 (c) In combination with other actions agreed upon by the participants, are reasonably likely to  
20 achieve the regional goals.

21 (3) The commission:

22 (a) Shall review changes to the comprehensive plans or land use regulations adopted by a local  
23 government to implement a regional problem-solving agreement under ORS 197.652 to 197.658 pur-  
24 suant to the procedures set forth in this section and ORS 197.659.

25 (b) Has exclusive jurisdiction for review of changes to comprehensive plans or land use regu-  
26 lations adopted by a local government to implement a regional problem-solving agreement under  
27 ORS 197.652 to 197.658.

28 (4) A participant in the regional problem-solving process or a person who participated in the  
29 proceedings leading to the adoption of changes to the comprehensive plans or land use regulations  
30 may not raise an issue on review before the commission that was not raised in the local proceedings  
31 for adoption of the changes to the plans or regulations.

32 (5) If the commission disapproves changes to the comprehensive plans or land use regulations  
33 adopted by a local government to implement a regional problem-solving agreement under ORS  
34 197.652 to 197.658, the commission shall issue a written statement describing the reasons for the  
35 disapproval and suggesting alternative methods for accomplishing the goals on a timely basis.

36 (6) If, in order to resolve regional land use problems, the participants in a collaborative regional  
37 problem-solving process decide to devote agricultural land or forestland, as defined in the statewide  
38 planning goals, to uses not authorized by those goals, the participants shall choose land that is not  
39 part of the region's commercial agricultural or forestland base, or take an exception to those goals  
40 pursuant to ORS 197.732. To identify land that is not part of the region's commercial agricultural  
41 or forestland base, the participants shall consider the recommendation of a committee of persons  
42 appointed by the affected county, with expertise in appropriate fields, including but not limited to  
43 farmers, ranchers, foresters and soils scientists and representatives of the State Department of  
44 Agriculture[, *the State Forestry Department and the Department of Land Conservation and Develop-*  
45 *ment*] **and the Oregon Department of Natural Resources.**

1 (7) The Governor may require all appropriate state agencies to participate in the collaborative  
2 regional problem-solving process.

3 (8) The commission may adopt rules to establish additional procedural and substantive require-  
4 ments for review of changes to comprehensive plans and land use regulations adopted by local  
5 governments to implement a regional problem-solving agreement under ORS 197.652 to 197.658.

6 **SECTION 1002.** ORS 197.658 is amended to read:

7 197.658. In addition to the provisions of ORS 197.644, the [*Land Conservation and Development*  
8 *Commission*] **Oregon Natural Resources Commission** may modify an approved work program when  
9 a local government has agreed to participate in a collaborative regional problem-solving process  
10 pursuant to ORS 197.654 and 197.656.

11 **SECTION 1003.** ORS 197.659 is amended to read:

12 197.659. (1) The [*Land Conservation and Development Commission*] **Oregon Natural Resources**  
13 **Commission** shall grant, deny or remand approval of proposed changes to a comprehensive plan or  
14 land use regulations adopted pursuant to ORS 197.652 to 197.658 or 215.788 to 215.794 within 120  
15 days after the date that the local government submits the proposed changes.

16 (2) The [*Department of Land Conservation and Development*] **Oregon Department of Natural**  
17 **Resources** shall prepare a report stating whether the proposed changes comply with applicable  
18 statutes, goals and commission rules. The department shall provide a reasonable opportunity for  
19 persons to prepare and submit written comments or objections to the report; however a person may  
20 not:

21 (a) Submit written comments or objections to the report unless the person participated orally  
22 or in writing in the local government proceedings leading to the adoption of the proposed changes.

23 (b) Produce new evidence.

24 (3) After reviewing the proposed changes, the report and any written comments and objections  
25 to the report, the commission shall prepare a proposed final order. The commission shall afford the  
26 local government and persons who submitted written comments or objections to the report a rea-  
27 sonable opportunity to file written exceptions to the proposed final order. If timely exceptions are  
28 not filed, the proposed order becomes final.

29 (4) The commission's review under this section is confined to the record of proceedings before  
30 the local government, the report of the department and any comments, objections and exceptions  
31 filed under subsection (2) or (3) of this section and the proposed final order of the commission, in-  
32 cluding any responses to exceptions. The commission may entertain oral argument from the depart-  
33 ment and from persons who filed exceptions, and may consider new issues raised by its review. The  
34 commission may not allow additional evidence, argument or testimony that could have been pre-  
35 sented to the local government but was not presented.

36 (5) A commission order granting, denying or remanding proposed changes must include a clear  
37 statement of findings that sets forth the basis for the approval, denial or remand, including:

38 (a) Identifying the statutes, goals and rules applicable to the proposed changes; and

39 (b) Supporting the determinations of compliance and noncompliance.

40 (6) A commission order granting approval may be limited to an identified geographic area de-  
41 scribed in the order if:

42 (a) The identified geographic area is the only area that is the subject of the proposed changes;  
43 or

44 (b) Specific geographic areas do not comply with the applicable statutes, goals or rules, and the  
45 requirements are not technical or minor in nature.

1 (7) The commission may issue a limited approval order if a previously issued approval order is  
2 reversed or remanded by an appellate court. The limited approval order may deny approval of that  
3 part of the comprehensive plan or land use regulations that the court found not in compliance with  
4 the applicable statutes, goals or rules and grant approval of other parts of the proposed changes.

5 (8) A limited approval order is an approval for all purposes and is a final order for purposes of  
6 judicial review with respect to the approved geographic area. A limited order may be adopted in  
7 conjunction with a remand.

8 **SECTION 1004.** ORS 197.712 is amended to read:

9 197.712. (1) In addition to the findings and policies set forth in ORS 197.005, 197.010 and 215.243,  
10 the Legislative Assembly finds and declares that, in carrying out statewide comprehensive land use  
11 planning, the provision of adequate opportunities for a variety of economic activities throughout the  
12 state is vital to the health, welfare and prosperity of all the people of the state.

13 (2) By the adoption of new goals or rules, or the application, interpretation or amendment of  
14 existing goals or rules, the [*Land Conservation and Development Commission*] **Oregon Natural Re-**  
15 **sources Commission** shall implement all of the following:

16 (a) Comprehensive plans shall include an analysis of the community's economic patterns,  
17 potentialities, strengths and deficiencies as they relate to state and national trends.

18 (b) Comprehensive plans shall contain policies concerning the economic development opportu-  
19 nities in the community.

20 (c) Comprehensive plans and land use regulations shall provide for at least an adequate supply  
21 of sites of suitable sizes, types, locations and service levels for industrial and commercial uses con-  
22 sistent with plan policies.

23 (d) Comprehensive plans and land use regulations shall provide for compatible uses on or near  
24 sites zoned for specific industrial and commercial uses.

25 (e) A city or county shall develop and adopt a public facility plan for areas within an urban  
26 growth boundary containing a population greater than 2,500 persons. The public facility plan shall  
27 include rough cost estimates for public projects needed to provide sewer, water and transportation  
28 for the land uses contemplated in the comprehensive plan and land use regulations. Project timing  
29 and financing provisions of public facility plans shall not be considered land use decisions.

30 (f) In accordance with ORS 197.180, state agencies that provide funding for transportation, water  
31 supply, sewage and solid waste facilities shall identify in their coordination programs how they will  
32 coordinate that funding with other state agencies and with the public facility plans of cities and  
33 counties. In addition, state agencies that issue permits affecting land use shall identify in their co-  
34 ordination programs how they will coordinate permit issuance with other state agencies and cities  
35 and counties.

36 (g) Local governments shall provide:

37 (A) Reasonable opportunities to satisfy local and rural needs for residential and industrial de-  
38 velopment and other economic activities on appropriate lands outside urban growth boundaries, in  
39 a manner consistent with conservation of the state's agricultural and forest land base; and

40 (B) Reasonable opportunities for urban residential, commercial and industrial needs over time  
41 through changes to urban growth boundaries.

42 (3) A comprehensive plan and land use regulations shall be in compliance with this section by  
43 the first periodic review of that plan and regulations.

44 **SECTION 1005.** ORS 197.717 is amended to read:

45 197.717. (1) State agencies shall provide technical assistance to local governments in:

1 (a) Planning and zoning land adequate in amount, size, topography, transportation access and  
 2 surrounding land use and public facilities for the special needs of various industrial and commercial  
 3 uses;

4 (b) Developing public facility plans; and

5 (c) Streamlining local permit procedures.

6 (2) The Oregon Business Development Department shall provide a local government with “state  
 7 and national trend” information to assist in compliance with ORS 197.712 (2)(a).

8 (3) The [*Land Conservation and Development Commission*] **Oregon Natural Resources Com-**  
 9 **mission** shall develop model ordinances to assist local governments in streamlining local permit  
 10 procedures.

11 (4) The [*Department of Land Conservation and Development*] **Oregon Department of Natural**  
 12 **Resources** and the Oregon Business Development Department shall establish a joint program to  
 13 assist rural communities with economic and community development services. The assistance shall  
 14 include, but not be limited to, grants, loans, model ordinances and technical assistance. The purposes  
 15 of the assistance are to remove obstacles to economic and community development and to facilitate  
 16 that development. The departments shall give priority to communities with high rates of unemploy-  
 17 ment.

18 **SECTION 1006.** ORS 197.732 is amended to read:

19 197.732. (1) As used in this section:

20 (a) “Compatible” is not intended as an absolute term meaning no interference or adverse impacts  
 21 of any type with adjacent uses.

22 (b) “Exception” means a comprehensive plan provision, including an amendment to an acknowl-  
 23 edged comprehensive plan, that:

24 (A) Is applicable to specific properties or situations and does not establish a planning or zoning  
 25 policy of general applicability;

26 (B) Does not comply with some or all goal requirements applicable to the subject properties or  
 27 situations; and

28 (C) Complies with standards under subsection (2) of this section.

29 (2) A local government may adopt an exception to a goal if:

30 (a) The land subject to the exception is physically developed to the extent that it is no longer  
 31 available for uses allowed by the applicable goal;

32 (b) The land subject to the exception is irrevocably committed as described by [*Land Conserva-*  
 33 *tion and Development Commission*] **Oregon Natural Resources Commission** rule to uses not al-  
 34 lowed by the applicable goal because existing adjacent uses and other relevant factors make uses  
 35 allowed by the applicable goal impracticable; or

36 (c) The following standards are met:

37 (A) Reasons justify why the state policy embodied in the applicable goals should not apply;

38 (B) Areas that do not require a new exception cannot reasonably accommodate the use;

39 (C) The long term environmental, economic, social and energy consequences resulting from the  
 40 use at the proposed site with measures designed to reduce adverse impacts are not significantly  
 41 more adverse than would typically result from the same proposal being located in areas requiring  
 42 a goal exception other than the proposed site; and

43 (D) The proposed uses are compatible with other adjacent uses or will be so rendered through  
 44 measures designed to reduce adverse impacts.

45 (3) The commission shall adopt rules establishing:

1 (a) That an exception may be adopted to allow a use authorized by a statewide planning goal  
2 that cannot comply with the approval standards for that type of use;

3 (b) Under what circumstances particular reasons may or may not be used to justify an exception  
4 under subsection (2)(c)(A) of this section; and

5 (c) Which uses allowed by the applicable goal must be found impracticable under subsection (2)  
6 of this section.

7 (4) A local government approving or denying a proposed exception shall set forth findings of fact  
8 and a statement of reasons that demonstrate that the standards of subsection (2) of this section have  
9 or have not been met.

10 (5) Each notice of a public hearing on a proposed exception shall specifically note that a goal  
11 exception is proposed and shall summarize the issues in an understandable manner.

12 (6) Upon review of a decision approving or denying an exception:

13 (a) The [*Land Use Board of Appeals*] **Oregon Department of Natural Resources** or the com-  
14 mission shall be bound by any finding of fact for which there is substantial evidence in the record  
15 of the local government proceedings resulting in approval or denial of the exception;

16 (b) The [*board*] **department** upon petition, or the commission, shall determine whether the local  
17 government's findings and reasons demonstrate that the standards of subsection (2) of this section  
18 have or have not been met; and

19 (c) The [*board*] **department** or commission shall adopt a clear statement of reasons that sets  
20 forth the basis for the determination that the standards of subsection (2) of this section have or have  
21 not been met.

22 (7) The commission shall by rule establish the standards required to justify an exception to the  
23 definition of "needed housing" authorized by ORS 197.303 (3).

24 (8) An exception acknowledged under ORS 197.251, 197.625 or 197.630 (1) (1981 Replacement  
25 Part) on or before August 9, 1983, continues to be valid and is not subject to this section.

26 **SECTION 1007.** ORS 197.736 is amended to read:

27 197.736. The [*Land Conservation and Development Commission*] **Oregon Natural Resources**  
28 **Commission** shall amend goals, in accordance with ORS 197.240 and 197.245, and amend and adopt  
29 rules and guidelines, as necessary, to implement the provisions of this section and ORS 197.340 and  
30 197.732.

31 **SECTION 1007a.** ORS 197.747 is amended to read:

32 197.747. For the purposes of acknowledgment under ORS 197.251, [*board*] review under ORS  
33 197.805 to 197.855, review of a proposed regional problem-solving agreement under ORS 197.652 to  
34 197.658 or periodic review under ORS 197.628 to 197.650, "compliance with the goals" means the  
35 comprehensive plan and regulations, on the whole, conform with the purposes of the goals and any  
36 failure to meet individual goal requirements is technical or minor in nature.

37 **SECTION 1008.** ORS 197.763 is amended to read:

38 197.763. The following procedures shall govern the conduct of quasi-judicial land use hearings  
39 conducted before a local governing body, planning commission, hearings body or hearings officer on  
40 application for a land use decision and shall be incorporated into the comprehensive plan and land  
41 use regulations:

42 (1) An issue which may be the basis for an appeal to the [*Land Use Board of Appeals*] **Oregon**  
43 **Department of Natural Resources** shall be raised not later than the close of the record at or  
44 following the final evidentiary hearing on the proposal before the local government. Such issues  
45 shall be raised and accompanied by statements or evidence sufficient to afford the governing body,

1 planning commission, hearings body or hearings officer, and the parties an adequate opportunity to  
2 respond to each issue.

3 (2)(a) Notice of the hearings governed by this section shall be provided to the applicant and to  
4 owners of record of property on the most recent property tax assessment roll where such property  
5 is located:

6 (A) Within 100 feet of the property which is the subject of the notice where the subject property  
7 is wholly or in part within an urban growth boundary;

8 (B) Within 250 feet of the property which is the subject of the notice where the subject property  
9 is outside an urban growth boundary and not within a farm or forest zone; or

10 (C) Within 500 feet of the property which is the subject of the notice where the subject property  
11 is within a farm or forest zone.

12 (b) Notice shall also be provided to any neighborhood or community organization recognized by  
13 the governing body and whose boundaries include the site.

14 (c) At the discretion of the applicant, the local government also shall provide notice to the  
15 [*Department of Land Conservation and Development*] **Oregon Department of Natural Resources**.

16 (3) The notice provided by the jurisdiction shall:

17 (a) Explain the nature of the application and the proposed use or uses which could be author-  
18 ized;

19 (b) List the applicable criteria from the ordinance and the plan that apply to the application at  
20 issue;

21 (c) Set forth the street address or other easily understood geographical reference to the subject  
22 property;

23 (d) State the date, time and location of the hearing;

24 (e) State that failure of an issue to be raised in a hearing, in person or by letter, or failure to  
25 provide statements or evidence sufficient to afford the decision maker an opportunity to respond to  
26 the issue precludes appeal to the [*board*] **department** based on that issue;

27 (f) Be mailed at least:

28 (A) Twenty days before the evidentiary hearing; or

29 (B) If two or more evidentiary hearings are allowed, 10 days before the first evidentiary hearing;

30 (g) Include the name of a local government representative to contact and the telephone number  
31 where additional information may be obtained;

32 (h) State that a copy of the application, all documents and evidence submitted by or on behalf  
33 of the applicant and applicable criteria are available for inspection at no cost and will be provided  
34 at reasonable cost;

35 (i) State that a copy of the staff report will be available for inspection at no cost at least seven  
36 days prior to the hearing and will be provided at reasonable cost; and

37 (j) Include a general explanation of the requirements for submission of testimony and the pro-  
38 cedure for conduct of hearings.

39 (4)(a) All documents or evidence relied upon by the applicant shall be submitted to the local  
40 government and be made available to the public.

41 (b) Any staff report used at the hearing shall be available at least seven days prior to the  
42 hearing. If additional documents or evidence are provided by any party, the local government may  
43 allow a continuance or leave the record open to allow the parties a reasonable opportunity to re-  
44 spond. Any continuance or extension of the record requested by an applicant shall result in a cor-  
45 responding extension of the time limitations of ORS 215.427 or 227.178 and ORS 215.429 or 227.179.

1 (5) At the commencement of a hearing under a comprehensive plan or land use regulation, a  
2 statement shall be made to those in attendance that:

3 (a) Lists the applicable substantive criteria;

4 (b) States that testimony, arguments and evidence must be directed toward the criteria described  
5 in paragraph (a) of this subsection or other criteria in the plan or land use regulation which the  
6 person believes to apply to the decision; and

7 (c) States that failure to raise an issue accompanied by statements or evidence sufficient to af-  
8 ford the decision maker and the parties an opportunity to respond to the issue precludes appeal to  
9 the [board] **department** based on that issue.

10 (6)(a) Prior to the conclusion of the initial evidentiary hearing, any participant may request an  
11 opportunity to present additional evidence, arguments or testimony regarding the application. The  
12 local hearings authority shall grant such request by continuing the public hearing pursuant to par-  
13 agraph (b) of this subsection or leaving the record open for additional written evidence, arguments  
14 or testimony pursuant to paragraph (c) of this subsection.

15 (b) If the hearings authority grants a continuance, the hearing shall be continued to a date, time  
16 and place certain at least seven days from the date of the initial evidentiary hearing. An opportu-  
17 nity shall be provided at the continued hearing for persons to present and rebut new evidence, ar-  
18 guments or testimony. If new written evidence is submitted at the continued hearing, any person  
19 may request, prior to the conclusion of the continued hearing, that the record be left open for at  
20 least seven days to submit additional written evidence, arguments or testimony for the purpose of  
21 responding to the new written evidence.

22 (c) If the hearings authority leaves the record open for additional written evidence, arguments  
23 or testimony, the record shall be left open for at least seven days. Any participant may file a written  
24 request with the local government for an opportunity to respond to new evidence submitted during  
25 the period the record was left open. If such a request is filed, the hearings authority shall reopen  
26 the record pursuant to subsection (7) of this section.

27 (d) A continuance or extension granted pursuant to this section shall be subject to the limita-  
28 tions of ORS 215.427 or 227.178 and ORS 215.429 or 227.179, unless the continuance or extension is  
29 requested or agreed to by the applicant.

30 (e) Unless waived by the applicant, the local government shall allow the applicant at least seven  
31 days after the record is closed to all other parties to submit final written arguments in support of  
32 the application. The applicant's final submittal shall be considered part of the record, but shall not  
33 include any new evidence. This seven-day period shall not be subject to the limitations of ORS  
34 215.427 or 227.178 and ORS 215.429 or 227.179.

35 (7) When a local governing body, planning commission, hearings body or hearings officer reopens  
36 a record to admit new evidence, arguments or testimony, any person may raise new issues which  
37 relate to the new evidence, arguments, testimony or criteria for decision-making which apply to the  
38 matter at issue.

39 (8) The failure of the property owner to receive notice as provided in this section shall not in-  
40 validate such proceedings if the local government can demonstrate by affidavit that such notice was  
41 given. The notice provisions of this section shall not restrict the giving of notice by other means,  
42 including posting, newspaper publication, radio and television.

43 (9) For purposes of this section:

44 (a) "Argument" means assertions and analysis regarding the satisfaction or violation of legal  
45 standards or policy believed relevant by the proponent to a decision. "Argument" does not include

1 facts.

2 (b) "Evidence" means facts, documents, data or other information offered to demonstrate com-  
3 pliance or noncompliance with the standards believed by the proponent to be relevant to the deci-  
4 sion.

5 **SECTION 1009.** ORS 197.768 is amended to read:

6 197.768. (1) As used in this section, "special district" has the meaning given that term in ORS  
7 197.505.

8 (2)(a) A local government or special district may adopt a public facilities strategy if the public  
9 facilities strategy:

10 (A)(i) Is acknowledged under ORS 197.251; or

11 (ii) Is approved by the [*Land Conservation and Development Commission*] **Oregon Natural Re-**  
12 **sources Commission** under ORS 197.628 to 197.650; and

13 (B) Meets the requirements of this section.

14 (b) If a special district seeks to implement a public facilities strategy, that special district is  
15 considered a local government for the purposes of ORS 197.251 and 197.628 to 197.650.

16 (3) A local government or special district may adopt a public facilities strategy only if the local  
17 government or special district:

18 (a) Makes written findings justifying the need for the public facilities strategy;

19 (b) Holds a public hearing on the adoption of a public facilities strategy and the findings that  
20 support the adoption of the public facilities strategy; and

21 (c) Provides written notice to the [*Department of Land Conservation and Development*] **Oregon**  
22 **Department of Natural Resources** at least 45 days prior to the final public hearing that is held  
23 to consider the adoption of the public facilities strategy.

24 (4) At a minimum, the findings under subsection (3) of this section must demonstrate that:

25 (a) There is a rapid increase in the rate or intensity of land development in a specific geographic  
26 area that was unanticipated at the time the original planning for that area was adopted or there  
27 has been a natural disaster or other catastrophic event in a specific geographic area;

28 (b) The total land development expected within the specific geographic area will exceed the  
29 planned or existing capacity of public facilities; and

30 (c) The public facilities strategy is structured to ensure that the necessary supply of housing  
31 and commercial and industrial facilities that will be impacted within the relevant geographic area  
32 is not unreasonably restricted by the adoption of the public facilities strategy.

33 (5) A public facilities strategy shall include a clear, objective and detailed description of actions  
34 and practices a local government or special district may engage in to control the time and sequence  
35 of development approvals in response to the identified deficiencies in public facilities.

36 (6) A public facilities strategy shall be effective for no more than 24 months after the date on  
37 which it is adopted, but may be extended, subject to subsection (7) of this section, provided the local  
38 government or special district adopting the public facilities strategy holds a public hearing on the  
39 proposed extension and adopts written findings that:

40 (a) Verify that the problem giving rise to the need for a public facilities strategy still exists;

41 (b) Demonstrate that reasonable progress is being made to alleviate the problem giving rise to  
42 the need for a public facilities strategy; and

43 (c) Set a specific duration for the extension of the public facilities strategy.

44 (7)(a) A local government or special district considering an extension of a public facilities  
45 strategy shall give the department notice at least 14 days prior to the date of the public hearing

1 on the extension.

2 (b) A single extension may not exceed one year, and a public facilities strategy may not be ex-  
3 tended more than three times.

4 **SECTION 1010.** ORS 197.840 is amended to read:

5 197.840. (1) The following periods of delay shall be excluded from the 77-day period within which  
6 the [board] **Oregon Department of Natural Resources** must make a final decision on a petition  
7 under ORS 197.830 (14):

8 (a) Any period of delay up to 120 days resulting from the [board's] **department's** deferring all  
9 or part of its consideration of a petition for review of a land use decision or limited land use deci-  
10 sion that allegedly violates the goals if the decision has been:

11 (A) Submitted for acknowledgment under ORS 197.251; or

12 (B) Submitted to the [Department of Land Conservation and Development] **department** as part  
13 of a periodic review work program task pursuant to ORS 197.628 to 197.650 and not yet acknowl-  
14 edged.

15 (b) Any period of delay resulting from a motion, including but not limited to, a motion disputing  
16 the constitutionality of the decision, standing, ex parte contacts or other procedural irregularities  
17 not shown in the record.

18 (c) Any reasonable period of delay resulting from a request for a stay under ORS 197.845.

19 (d) Any reasonable period of delay resulting from a continuance granted by [a member of the  
20 board on the member's] **an officer of the department on the department's** own motion or at the  
21 request of one of the parties, if the member granted the continuance on the basis of findings that  
22 the ends of justice served by granting the continuance outweigh the best interest of the public and  
23 the parties in having a decision within 77 days.

24 (2) No period of delay resulting from a continuance granted by the [board] **department** under  
25 subsection (1)(d) of this section shall be excludable under this section unless the [board] **department**  
26 sets forth in the record, either orally or in writing, its reasons for finding that the ends of justice  
27 served by granting the continuance outweigh the best interests of the public and the other parties  
28 in a decision within the 77 days. The factors the [board] **department** shall consider in determining  
29 whether to grant a continuance under subsection (1)(d) of this section in any case are as follows:

30 (a) Whether the failure to grant a continuance in the proceeding would be likely to make a  
31 continuation of the proceeding impossible or result in a miscarriage of justice; or

32 (b) Whether the case is so unusual or so complex, due to the number of parties or the existence  
33 of novel questions of fact or law, that it is unreasonable to expect adequate consideration of the  
34 issues within the 77-day time limit.

35 (3) No continuance under subsection (1)(d) of this section shall be granted because of general  
36 congestion of the [board] **department** calendar or lack of diligent preparation or attention to the  
37 case by any member of the [board] **department** or any party.

38 (4) The [board] **department** may defer all or part of its consideration of a land use decision or  
39 limited land use decision described in subsection (1)(a) of this section until the [Land Conservation  
40 and Development Commission] **Oregon Natural Resources Commission** has disposed of the ac-  
41 knowledgment proceeding described in subsection (1)(a) of this section. If the [board] **department**  
42 deferred all or part of its consideration of a decision under this subsection, the [board] **department**  
43 may grant a stay of the comprehensive plan provision, land use regulation, limited land use decision  
44 or land use decision under ORS 197.845.

45 **SECTION 1011.** ORS 215.209 is amended to read:

1       215.209. The *[Department of Land Conservation and Development]* **Oregon Department of Na-**  
2 **tural Resources** shall develop, in conjunction with local governments and other state agencies, a  
3 computerized database that is capable of producing county-wide maps that show the diversity of  
4 Oregon's rural lands. The database shall include, at a minimum, information on soil classifications,  
5 forest capabilities, irrigated lands, croplands, actual farm use, and plan and zone designations. To  
6 create the database, the department shall use the most current soils information from the United  
7 States Natural Resources Conservation Service, or its successor agency, and may use any other re-  
8 lated information that is readily available.

9       **SECTION 1012.** ORS 215.213 is amended to read:

10       215.213. (1) In counties that have adopted marginal lands provisions under ORS 197.247 (1991  
11 Edition), the following uses may be established in any area zoned for exclusive farm use:

12       (a) Churches and cemeteries in conjunction with churches.

13       (b) The propagation or harvesting of a forest product.

14       (c) Utility facilities necessary for public service, including wetland waste treatment systems but  
15 not including commercial facilities for the purpose of generating electrical power for public use by  
16 sale or transmission towers over 200 feet in height. A utility facility necessary for public service  
17 may be established as provided in ORS 215.275.

18       (d) A dwelling on real property used for farm use if the dwelling is occupied by a relative of the  
19 farm operator or the farm operator's spouse, which means a child, parent, stepparent, grandchild,  
20 grandparent, stepgrandparent, sibling, stepsibling, niece, nephew or first cousin of either, if the farm  
21 operator does or will require the assistance of the relative in the management of the farm use and  
22 the dwelling is located on the same lot or parcel as the dwelling of the farm operator.  
23 Notwithstanding ORS 92.010 to 92.192 or the minimum lot or parcel size requirements under ORS  
24 215.780, if the owner of a dwelling described in this paragraph obtains construction financing or  
25 other financing secured by the dwelling and the secured party forecloses on the dwelling, the se-  
26 cured party may also foreclose on the homesite, as defined in ORS 308A.250, and the foreclosure  
27 shall operate as a partition of the homesite to create a new parcel.

28       (e) Nonresidential buildings customarily provided in conjunction with farm use.

29       (f) Primary or accessory dwellings customarily provided in conjunction with farm use. For a  
30 primary dwelling, the dwelling must be on a lot or parcel that is managed as part of a farm opera-  
31 tion and is not smaller than the minimum lot size in a farm zone with a minimum lot size acknowl-  
32 edged under ORS 197.251.

33       (g) Operations for the exploration for and production of geothermal resources as defined by ORS  
34 522.005 and oil and gas as defined by ORS 520.005, including the placement and operation of  
35 compressors, separators and other customary production equipment for an individual well adjacent  
36 to the wellhead. Any activities or construction relating to such operations shall not be a basis for  
37 an exception under ORS 197.732 (2)(a) or (b).

38       (h) Operations for the exploration for minerals as defined by ORS 517.750. Any activities or  
39 construction relating to such operations shall not be a basis for an exception under ORS 197.732  
40 (2)(a) or (b).

41       (i) One manufactured dwelling or recreational vehicle, or the temporary residential use of an  
42 existing building, in conjunction with an existing dwelling as a temporary use for the term of a  
43 hardship suffered by the existing resident or a relative of the resident. Within three months of the  
44 end of the hardship, the manufactured dwelling or recreational vehicle shall be removed or demol-  
45 ished or, in the case of an existing building, the building shall be removed, demolished or returned

1 to an allowed nonresidential use. The governing body or its designee shall provide for periodic re-  
2 view of the hardship claimed under this paragraph. A temporary residence approved under this  
3 paragraph is not eligible for replacement under paragraph (q) of this subsection.

4 (j) Climbing and passing lanes within the right of way existing as of July 1, 1987.

5 (k) Reconstruction or modification of public roads and highways, including the placement of  
6 utility facilities overhead and in the subsurface of public roads and highways along the public right  
7 of way, but not including the addition of travel lanes, where no removal or displacement of buildings  
8 would occur, or no new land parcels result.

9 (L) Temporary public road and highway detours that will be abandoned and restored to original  
10 condition or use at such time as no longer needed.

11 (m) Minor betterment of existing public road and highway related facilities, such as maintenance  
12 yards, weigh stations and rest areas, within right of way existing as of July 1, 1987, and contiguous  
13 public-owned property utilized to support the operation and maintenance of public roads and high-  
14 ways.

15 (n) A replacement dwelling to be used in conjunction with farm use if the existing dwelling has  
16 been listed in a county inventory as historic property as defined in ORS 358.480.

17 (o) Creation, restoration or enhancement of wetlands.

18 (p) A winery, as described in ORS 215.452.

19 (q) Alteration, restoration or replacement of a lawfully established dwelling that:

20 (A) Has intact exterior walls and roof structure;

21 (B) Has indoor plumbing consisting of a kitchen sink, toilet and bathing facilities connected to  
22 a sanitary waste disposal system;

23 (C) Has interior wiring for interior lights;

24 (D) Has a heating system; and

25 (E) In the case of replacement:

26 (i) Is removed, demolished or converted to an allowable nonresidential use within three months  
27 of the completion of the replacement dwelling. A replacement dwelling may be sited on any part of  
28 the same lot or parcel. A dwelling established under this paragraph shall comply with all applicable  
29 siting standards. However, the standards shall not be applied in a manner that prohibits the siting  
30 of the dwelling. If the dwelling to be replaced is located on a portion of the lot or parcel not zoned  
31 for exclusive farm use, the applicant, as a condition of approval, shall execute and record in the  
32 deed records for the county where the property is located a deed restriction prohibiting the siting  
33 of a dwelling on that portion of the lot or parcel. The restriction imposed shall be irrevocable unless  
34 a statement of release is placed in the deed records for the county. The release shall be signed by  
35 the county or its designee and state that the provisions of this paragraph regarding replacement  
36 dwellings have changed to allow the siting of another dwelling. The county planning director or the  
37 director's designee shall maintain a record of the lots and parcels that do not qualify for the siting  
38 of a new dwelling under the provisions of this paragraph, including a copy of the deed restrictions  
39 and release statements filed under this paragraph; and

40 (ii) For which the applicant has requested a deferred replacement permit, is removed or demol-  
41 ished within three months after the deferred replacement permit is issued. A deferred replacement  
42 permit allows construction of the replacement dwelling at any time. If, however, the established  
43 dwelling is not removed or demolished within three months after the deferred replacement permit  
44 is issued, the permit becomes void. The replacement dwelling must comply with applicable building  
45 codes, plumbing codes, sanitation codes and other requirements relating to health and safety or to

1 siting at the time of construction. A deferred replacement permit may not be transferred, by sale  
2 or otherwise, except by the applicant to the spouse or a child of the applicant.

3 (r) Farm stands if:

4 (A) The structures are designed and used for the sale of farm crops or livestock grown on the  
5 farm operation, or grown on the farm operation and other farm operations in the local agricultural  
6 area, including the sale of retail incidental items and fee-based activity to promote the sale of farm  
7 crops or livestock sold at the farm stand if the annual sale of incidental items and fees from pro-  
8 motional activity do not make up more than 25 percent of the total annual sales of the farm stand;  
9 and

10 (B) The farm stand does not include structures designed for occupancy as a residence or for  
11 activity other than the sale of farm crops or livestock and does not include structures for banquets,  
12 public gatherings or public entertainment.

13 (s) An armed forces reserve center, if the center is within one-half mile of a community college.  
14 For purposes of this paragraph, "armed forces reserve center" includes an armory or National  
15 Guard support facility.

16 (t) A site for the takeoff and landing of model aircraft, including such buildings or facilities as  
17 may reasonably be necessary. Buildings or facilities shall not be more than 500 square feet in floor  
18 area or placed on a permanent foundation unless the building or facility preexisted the use approved

31 (b) The dwelling is situated upon generally unsuitable land for the production of farm crops and  
32 livestock, considering the terrain, adverse soil or land conditions, drainage and flooding, location

12 dwelling or activities associated with it would force a significant change in or significantly increase  
13 the cost of accepted farming practices on nearby lands devoted to farm use. If no objection is re-  
14 ceived, the governing body or its designee shall approve or disapprove the application. If an ob-  
15 jection is received, the governing body shall set the matter for hearing in the manner prescribed in  
16 ORS 215.402 to 215.438. The governing body may charge the reasonable costs of the notice required

37 (c) The newly created lot or parcel is not larger than five acres; and

38 (d) The remaining lot or parcel, not including the church, meets the minimum lot or parcel size  
39 described in ORS 215.780 (1) and (2) either by itself or after it is consolidated with another lot or  
40 parcel.

41 (12) The governing body of a county may not approve a division of land for nonfarm use under  
42 subsection (3), (4), (5), (9), (10) or (11) of this section unless any additional tax imposed for the  
43 change in use has been paid.

44 (13) Parcels used or to be used for training or stabling facilities may not be considered appro-  
45 priate to maintain the existing commercial agricultural enterprise in an area where other types of

1 agriculture occur.

2 **SECTION 1014.** ORS 215.275 is amended to read:

3 215.275. (1) A utility facility established under ORS 215.213 (1)(c) or 215.283 (1)(c) is necessary  
4 for public service if the facility must be sited in an exclusive farm use zone in order to provide the  
5 service.

6 (2) To demonstrate that a utility facility is necessary, an applicant for approval under ORS  
7 215.213 (1)(c) or 215.283 (1)(c) must show that reasonable alternatives have been considered and that  
8 the facility must be sited in an exclusive farm use zone due to one or more of the following factors:

9 (a) Technical and engineering feasibility;

10 (b) The proposed facility is locationally dependent. A utility facility is locationally dependent if  
11 it must cross land in one or more areas zoned for exclusive farm use in order to achieve a reason-  
12 ably direct route or to meet unique geographical needs that cannot be satisfied on other lands;

13 (c) Lack of available urban and nonresource lands;

14 (d) Availability of existing rights of way;

15 (e) Public health and safety; and

16 (f) Other requirements of state or federal agencies.

17 (3) Costs associated with any of the factors listed in subsection (2) of this section may be con-  
18 sidered, but cost alone may not be the only consideration in determining that a utility facility is  
19 necessary for public service. Land costs shall not be included when considering alternative locations  
20 for substantially similar utility facilities. The [*Land Conservation and Development Commission*]  
21 **Oregon Natural Resources Commission** shall determine by rule how land costs may be considered  
22 when evaluating the siting of utility facilities that are not substantially similar.

23 (4) The owner of a utility facility approved under ORS 215.213 (1)(c) or 215.283 (1)(c) shall be  
24 responsible for restoring, as nearly as possible, to its former condition any agricultural land and  
25 associated improvements that are damaged or otherwise disturbed by the siting, maintenance, repair  
26 or reconstruction of the facility. Nothing in this section shall prevent the owner of the utility fa-  
27 cility from requiring a bond or other security from a contractor or otherwise imposing on a con-  
28 tractor the responsibility for restoration.

29 (5) The governing body of the county or its designee shall impose clear and objective conditions  
30 on an application for utility facility siting under ORS 215.213 (1)(c) or 215.283 (1)(c) to mitigate and  
31 minimize the impacts of the proposed facility, if any, on surrounding lands devoted to farm use in  
32 order to prevent a significant change in accepted farm practices or a significant increase in the cost  
33 of farm practices on the surrounding farmlands.

34 (6) The provisions of subsections (2) to (5) of this section do not apply to interstate natural gas  
35 pipelines and associated facilities authorized by and subject to regulation by the Federal Energy  
36 Regulatory Commission.

37 **SECTION 1015.** ORS 215.278 is amended to read:

38 215.278. (1) The [*Land Conservation and Development Commission*] **Oregon Natural Resources**  
39 **Commission** shall revise administrative rules regarding dwellings customarily provided in conjunc-  
40 tion with farm use to allow, under ORS 215.213 and 215.283, the establishment of accessory dwellings  
41 needed to provide opportunities for farmworker housing for individuals primarily engaged in farm  
42 use whose assistance in the management of the farm is or will be required by the farm operator on  
43 the farm unit.

44 (2) As used in this section, "farm unit" means the contiguous and noncontiguous tracts in com-  
45 mon ownership used by the farm operator for farm use as defined in ORS 215.203.

1       **SECTION 1016.** ORS 215.282 is amended to read:

2       215.282. The [*Land Conservation and Development Commission*] **Oregon Natural Resources**  
3 **Commission** shall consider the findings of ORS 215.281 and adopt rules that provide standards for  
4 the review of a primary or accessory dwelling customarily provided in conjunction with a commer-  
5 cial dairy farm. Notwithstanding any other administrative rule establishing a gross farm income  
6 standard, the rules adopted under this section shall allow the siting of a dwelling on a commercial  
7 dairy farm prior to the dairy earning any gross farm income.

8       **SECTION 1017.** ORS 215.283 is amended to read:

9       215.283. (1) The following uses may be established in any area zoned for exclusive farm use:

12      (c) Utility facilities necessary for public service, including wetland waste treatment systems but  
13 not including commercial facilities for the purpose of generating electrical power for public use by

15 may be established as provided in ORS 215.275.

16      (d) A dwelling on real property used for farm use if the dwelling is occupied by a relative of the  
17 farm operator or the farm operator's spouse, which means a child, parent, stepparent, grandchild,  
18 grandparent, stepgrandparent, sibling, stepsibling, niece, nephew or first cousin of either, if the farm  
19 operator does or will require the assistance of the relative in the management of the farm use and  
20 the dwelling is located on the same lot or parcel as the dwelling of the farm operator.  
21 Notwithstanding ORS 92.010 to 92.192 or the minimum lot or parcel size requirements under ORS  
22 215.780, if the owner of a dwelling described in this paragraph obtains construction financing or  
23 other financing secured by the dwelling and the secured party forecloses on the dwelling, the se-  
24 cured party may also foreclose on the homesite, as defined in ORS 308A.250, and the foreclosure  
25 shall operate as a partition of the homesite to create a new parcel.

26      (e) Primary or accessory dwellings and other buildings customarily provided in conjunction with  
27 farm use.

28      (f) Operations for the exploration for and production of geothermal resources as defined by ORS

30 compressors, separators and other customary production equipment for an individual well adjacent  
31 to the wellhead. Any activities or construction relating to such operations shall not be a basis for  
32 an exception under ORS 197.732 (2)(a) or (b).

33      (g) Operations for the exploration for minerals as defined by ORS 517.750. Any activities or  
34 construction relating to such operations shall not be a basis for an exception under ORS 197.732  
35 (2)(a) or (b).

36      (h) Climbing and passing lanes within the right of way existing as of July 1, 1987.

37      (i) Reconstruction or modification of public roads and highways, including the placement of  
38 utility facilities overhead and in the subsurface of public roads and highways along the public right  
39 of way, but not including the addition of travel lanes, where no removal or displacement of buildings  
40 would occur, or no new land parcels result.

41      (j) Temporary public road and highway detours that will be abandoned and restored to original  
42 condition or use at such time as no longer needed.

43      (k) Minor betterment of existing public road and highway related facilities such as maintenance  
44 yards, weigh stations and rest areas, within right of way existing as of July 1, 1987, and contiguous  
45 public-owned property utilized to support the operation and maintenance of public roads and high-

8 farm operation, or grown on the farm operation and other farm operations in the local agricultural  
9 area, including the sale of retail incidental items and fee-based activity to promote the sale of farm  
10 crops or livestock sold at the farm stand if the annual sale of incidental items and fees from pro-  
11 motional activity do not make up more than 25 percent of the total annual sales of the farm stand;  
12 and

13 (B) The farm stand does not include structures designed for occupancy as a residence or for  
14 activity other than the sale of farm crops or livestock and does not include structures for banquets,  
15 public gatherings or public entertainment.

16 (p) Alteration, restoration or replacement of a lawfully established dwelling that:

17 (A) Has intact exterior walls and roof structure;

18 (B) Has indoor plumbing consisting of a kitchen sink, toilet and bathing facilities connected to

22 (E) In the case of replacement:

23 (i) Is removed, demolished or converted to an allowable nonresidential use within three months  
24 of the completion of the replacement dwelling. A replacement dwelling may be sited on any part of  
25 the same lot or parcel. A dwelling established under this paragraph shall comply with all applicable  
26 siting standards. However, the standards shall not be applied in a manner that prohibits the siting  
27 of the dwelling. If the dwelling to be replaced is located on a portion of the lot or parcel not zoned  
28 for exclusive farm use, the applicant, as a condition of approval, shall execute and record in the  
29 deed records for the county where the property is located a deed restriction prohibiting the siting  
30 of a dwelling on that portion of the lot or parcel. The restriction imposed shall be irrevocable unless  
31 a statement of release is placed in the deed records for the county. The release shall be signed by  
32 the county or its designee and state that the provisions of this paragraph regarding replacement  
33 dwellings have changed to allow the siting of another dwelling. The county planning director or the  
34 director's designee shall maintain a record of the lots and parcels that do not qualify for the siting  
35 of a new dwelling under the provisions of this paragraph, including a copy of the deed restrictions  
36 and release statements filed under this paragraph; and

37 (ii) For which the applicant has requested a deferred replacement permit, is removed or demol-  
38 ished within three months after the deferred replacement permit is issued. A deferred replacement  
39 permit allows construction of the replacement dwelling at any time. If, however, the established  
40 dwelling is not removed or demolished within three months after the deferred replacement permit  
41 is issued, the permit becomes void. The replacement dwelling must comply with applicable building  
42 codes, plumbing codes, sanitation codes and other requirements relating to health and safety or to  
43 siting at the time of construction. A deferred replacement permit may not be transferred, by sale  
44 or otherwise, except by the applicant to the spouse or a child of the applicant.

45 (q) A site for the takeoff and landing of model aircraft, including such buildings or facilities as

1 may reasonably be necessary. Buildings or facilities shall not be more than 500 square feet in floor  
2 area or placed on a permanent foundation unless the building or facility preexisted the use approved  
3 under this paragraph. The site shall not include an aggregate surface or hard surface area unless  
4 the surface preexisted the use approved under this paragraph. An owner of property used for the  
5 purpose authorized in this paragraph may charge a person operating the use on the property rent  
6 for the property. An operator may charge users of the property a fee that does not exceed the  
7 operator's cost to maintain the property, buildings and facilities. As used in this paragraph, "model  
8 aircraft" means a small-scale version of an airplane, glider, helicopter, dirigible or balloon that is

14 square feet of floor area exclusive of the floor area designated for preparation, storage or other farm  
15 use or devote more than 10,000 square feet to the processing activities within another building  
16 supporting farm uses. A processing facility shall comply with all applicable siting standards but the

6 may include a yurt. The yurt shall be located on the ground or on a wood floor with no permanent  
7 foundation. Upon request of a county governing body, the [*Land Conservation and Development*  
8 *Commission*] **Oregon Natural Resources Commission** may provide by rule for an increase in the  
9 number of yurts allowed on all or a portion of the campgrounds in a county if the commission de-

11 (B) Within 10,000 feet of the side or end of the runway of an airport determined by the Oregon  
12 Department of Aviation to be an “instrument airport.”

13 (7) Notwithstanding the provisions of subsection (6) of this section, notice of a land use hearing  
14 need not be provided as set forth in subsection (6) of this section if the zoning permit would only  
15 allow a structure less than 35 feet in height and the property is located outside the runway “ap-  
16 proach surface” as defined by the Oregon Department of Aviation.

17 (8)(a) Approval or denial of a permit application shall be based on standards and criteria which  
18 shall be set forth in the zoning ordinance or other appropriate ordinance or regulation of the county  
19 and which shall relate approval or denial of a permit application to the zoning ordinance and com-  
20 prehensive plan for the area in which the proposed use of land would occur and to the zoning or-  
21 dinance and comprehensive plan for the county as a whole.

22 (b) When an ordinance establishing approval standards is required under ORS 197.307 to provide  
23 only clear and objective standards, the standards must be clear and objective on the face of the  
24 ordinance.

25 (9) Approval or denial of a permit or expedited land division shall be based upon and accompa-  
26 nied by a brief statement that explains the criteria and standards considered relevant to the deci-  
27 sion, states the facts relied upon in rendering the decision and explains the justification for the  
28 decision based on the criteria, standards and facts set forth.

29 (10) Written notice of the approval or denial shall be given to all parties to the proceeding.

30 (11)(a)(A) The hearings officer or such other person as the governing body designates may ap-  
31 prove or deny an application for a permit without a hearing if the hearings officer or other desig-  
32 nated person gives notice of the decision and provides an opportunity for any person who is  
33 adversely affected or aggrieved, or who is entitled to notice under paragraph (c) of this subsection,  
34 to file an appeal.

35 (B) Written notice of the decision shall be mailed to those persons described in paragraph (c)  
36 of this subsection.

37 (C) Notice under this subsection shall comply with ORS 197.763 (3)(a), (c), (g) and (h) and shall  
38 describe the nature of the decision. In addition, the notice shall state that any person who is ad-  
39 versely affected or aggrieved or who is entitled to written notice under paragraph (c) of this sub-  
40 section may appeal the decision by filing a written appeal in the manner and within the time period  
41 provided in the county’s land use regulations. A county may not establish an appeal period that is  
42 less than 12 days from the date the written notice of decision required by this subsection was  
43 mailed. The notice shall state that the decision will not become final until the period for filing a  
44 local appeal has expired. The notice also shall state that a person who is mailed written notice of  
45 the decision cannot appeal the decision directly to the [*Land Use Board of Appeals*] **Oregon De-**

1 **partment of Natural Resources** under ORS 197.830.

2 (D) An appeal from a hearings officer's decision made without hearing under this subsection  
3 shall be to the planning commission or governing body of the county. An appeal from such other  
4 person as the governing body designates shall be to a hearings officer, the planning commission or  
5 the governing body. In either case, the appeal shall be to a de novo hearing.

6 (E) The de novo hearing required by subparagraph (D) of this paragraph shall be the initial  
7 evidentiary hearing required under ORS 197.763 as the basis for an appeal to the [*Land Use Board*  
8 *of Appeals*] **department**. At the de novo hearing:

9 (i) The applicant and other parties shall have the same opportunity to present testimony, argu-  
10 ments and evidence as they would have had in a hearing under subsection (3) of this section before  
11 the decision;

12 (ii) The presentation of testimony, arguments and evidence shall not be limited to issues raised  
13 in a notice of appeal; and

14 (iii) The decision maker shall consider all relevant testimony, arguments and evidence that are  
15 accepted at the hearing.

16 (b) If a local government provides only a notice of the opportunity to request a hearing, the  
17 local government may charge a fee for the initial hearing. The maximum fee for an initial hearing  
18 shall be the cost to the local government of preparing for and conducting the appeal, or \$250,  
19 whichever is less. If an appellant prevails at the hearing or upon subsequent appeal, the fee for the  
20 initial hearing shall be refunded. The fee allowed in this paragraph shall not apply to appeals made  
21 by neighborhood or community organizations recognized by the governing body and whose bounda-  
22 ries include the site.

23 (c)(A) Notice of a decision under paragraph (a) of this subsection shall be provided to the ap-  
24 plicant and to the owners of record of property on the most recent property tax assessment roll  
25 where such property is located:

26 (i) Within 100 feet of the property that is the subject of the notice when the subject property  
27 is wholly or in part within an urban growth boundary;

28 (ii) Within 250 feet of the property that is the subject of the notice when the subject property  
29 is outside an urban growth boundary and not within a farm or forest zone; or

30 (iii) Within 750 feet of the property that is the subject of the notice when the subject property  
31 is within a farm or forest zone.

32 (B) Notice shall also be provided to any neighborhood or community organization recognized by  
33 the governing body and whose boundaries include the site.

34 (C) At the discretion of the applicant, the local government also shall provide notice to the  
35 [*Department of Land Conservation and Development*] **Oregon Department of Natural Resources**.

36 (12) A decision described in ORS 215.402 (4)(b) shall:

37 (a) Be entered in a registry available to the public setting forth:

38 (A) The street address or other easily understood geographic reference to the subject property;

39 (B) The date of the decision; and

40 (C) A description of the decision made.

41 (b) Be subject to the jurisdiction of the [*Land Use Board of Appeals*] **department** in the same  
42 manner as a limited land use decision **is subject to the jurisdiction of the department under**  
43 **ORS 197.830 to 197.845**.

44 (c) Be subject to the appeal period described in ORS 197.830 (5)(b).

45 (13) At the option of the applicant, the local government shall provide notice of the decision

1 described in ORS 215.402 (4)(b) in the manner required by ORS 197.763 (2), in which case an appeal  
2 to the [board] **department** shall be filed within 21 days of the decision. The notice shall include an  
3 explanation of appeal rights.

4 (14) Notwithstanding the requirements of this section, a limited land use decision shall be sub-  
5 ject to the requirements set forth in ORS 197.195 and 197.828.

6 **SECTION 1020.** ORS 215.427 is amended to read:

7 215.427. (1) Except as provided in subsections (3), (5) and (10) of this section, for land within an  
8 urban growth boundary and applications for mineral aggregate extraction, the governing body of a  
9 county or its designee shall take final action on an application for a permit, limited land use deci-  
10 sion or zone change, including resolution of all appeals under ORS 215.422, within 120 days after the  
11 application is deemed complete. The governing body of a county or its designee shall take final  
12 action on all other applications for a permit, limited land use decision or zone change, including  
13 resolution of all appeals under ORS 215.422, within 150 days after the application is deemed com-  
14 plete, except as provided in subsections (3), (5) and (10) of this section.

15 (2) If an application for a permit, limited land use decision or zone change is incomplete, the  
16 governing body or its designee shall notify the applicant in writing of exactly what information is  
17 missing within 30 days of receipt of the application and allow the applicant to submit the missing  
18 information. The application shall be deemed complete for the purpose of subsection (1) of this sec-  
19 tion upon receipt by the governing body or its designee of:

20 (a) All of the missing information;

21 (b) Some of the missing information and written notice from the applicant that no other infor-  
22 mation will be provided; or

23 (c) Written notice from the applicant that none of the missing information will be provided.

24 (3)(a) If the application was complete when first submitted or the applicant submits additional  
25 information, as described in subsection (2) of this section, within 180 days of the date the application  
26 was first submitted and the county has a comprehensive plan and land use regulations acknowledged  
27 under ORS 197.251, approval or denial of the application shall be based upon the standards and  
28 criteria that were applicable at the time the application was first submitted.

29 (b) If the application is for industrial or traded sector development of a site identified under  
30 section 12, chapter 800, Oregon Laws 2003, and proposes an amendment to the comprehensive plan,  
31 approval or denial of the application must be based upon the standards and criteria that were ap-  
32 plicable at the time the application was first submitted, provided the application complies with  
33 paragraph (a) of this subsection.

34 (4) On the 181st day after first being submitted, the application is void if the applicant has been  
35 notified of the missing information as required under subsection (2) of this section and has not sub-  
36 mitted:

37 (a) All of the missing information;

38 (b) Some of the missing information and written notice that no other information will be pro-  
39 vided; or

40 (c) Written notice that none of the missing information will be provided.

41 (5) The period set in subsection (1) of this section may be extended for a specified period of time  
42 at the written request of the applicant. The total of all extensions, except as provided in subsection  
43 (10) of this section for mediation, may not exceed 215 days.

44 (6) The period set in subsection (1) of this section applies:

45 (a) Only to decisions wholly within the authority and control of the governing body of the

1 county; and

2 (b) Unless the parties have agreed to mediation as described in subsection (10) of this section  
3 or ORS 197.319 (2)(b).

4 (7) Notwithstanding subsection (6) of this section, the period set in subsection (1) of this section  
5 does not apply to an amendment to an acknowledged comprehensive plan or land use regulation or  
6 adoption of a new land use regulation that was forwarded to the Director of the [*Department of Land*  
7 *Conservation and Development*] **Oregon Department of Natural Resources** under ORS 197.610 (1).

8 (8) Except when an applicant requests an extension under subsection (5) of this section, if the  
9 governing body of the county or its designee does not take final action on an application for a  
10 permit, limited land use decision or zone change within 120 days or 150 days, as applicable, after  
11 the application is deemed complete, the county shall refund to the applicant either the unexpended  
12 portion of any application fees or deposits previously paid or 50 percent of the total amount of such  
13 fees or deposits, whichever is greater. The applicant is not liable for additional governmental fees  
14 incurred subsequent to the payment of such fees or deposits. However, the applicant is responsible  
15 for the costs of providing sufficient additional information to address relevant issues identified in  
16 the consideration of the application.

17 (9) A county may not compel an applicant to waive the period set in subsection (1) of this sec-  
18 tion or to waive the provisions of subsection (8) of this section or ORS 215.429 as a condition for  
19 taking any action on an application for a permit, limited land use decision or zone change except  
20 when such applications are filed concurrently and considered jointly with a plan amendment.

21 (10) The periods set forth in subsection (1) of this section and the period set forth in subsection  
22 (5) of this section may be extended by up to 90 additional days, if the applicant and the county agree  
23 that a dispute concerning the application will be mediated.

27 the county or its designee shall take final action on an application for a permit, limited land use  
28 decision or zone change within 90 days of the effective date of the final order issued by the  
29 [*board*] **department**. For purposes of this subsection, the effective date of the final order is the last  
30 day for filing a petition for judicial review of a final order of the [*board*] **department** under ORS  
31 197.850 (3). If judicial review of a final order of the [*board*] **department** is sought under ORS  
32 197.830, the 90-day period established under this subsection shall not begin until final resolution of  
33 the judicial review.

34 (2)(a) In addition to the requirements of subsection (1) of this section, the 90-day period estab-

36 the county proceed with the application on remand.

37 (b) The 90-day period may be extended for a reasonable period of time at the request of the

20 215.740. (1) If a dwelling is not allowed under ORS 215.720 (1), a dwelling may be allowed on

 36 to construct a dwelling on the tracts or to use the tracts to total acreage for future siting of  
 37 dwellings for present and any future owners unless the tract is no longer subject to protection under  
 38 goals for agricultural lands or forestlands.

39 (c) The [*Land Conservation and Development Commission*] **Oregon Natural Resources Com-**  
 40 **mission** shall adopt rules that prescribe the language of the deed restriction, the procedures for  
 41 recording, the procedures under which counties shall keep records of lots or parcels used to create  
 42 the total, the mechanisms for providing notice to subsequent purchasers of the limitations under  
 43 paragraph (b) of this subsection and other rules to implement this section.

18 together the parcels meet the minimum land division standards of the zone; and

19 (D) The remaining parcel, not containing the dwelling, is not entitled to a dwelling unless sub-  
20 sequently authorized by law or goal.

21 (c) In addition to the requirements of paragraph (b) of this subsection, if the land is zoned for  
22 mixed farm and forest use the following requirements apply:

23 (A) The minimum tract eligible under paragraph (b) of this subsection is 40 acres.

24 (B) The tract shall be predominantly in forest use and that portion in forest use qualified for  
25 special assessment under a program under ORS chapter 321.

26 (C) The remainder of the tract shall not qualify for any uses allowed under ORS 215.213 and  
27 215.283 that are not allowed on forestland.

28 (d) To allow a division of forestland to facilitate a forest practice as defined in ORS 527.620 that

30 section or paragraph (a) of this subsection. Parcels created pursuant to this subsection:

31 (A) Shall not be eligible for siting of a new dwelling;

32 (B) Shall not serve as the justification for the siting of a future dwelling on other lots or parcels;

38 (ii) Where the purpose of the land division is to allow transactions in which at least one par-  
39 ticipant is a person with a cumulative ownership of at least 2,000 acres of forestland; and

40 (E) If associated with the creation of a parcel where a dwelling is involved, shall not result in

42 (e) To allow a division of a lot or parcel zoned for forest use or mixed farm and forest use under  
43 a statewide planning goal protecting forestland if:

44 (A) At least two dwellings lawfully existed on the lot or parcel prior to November 4, 1993;

45 (B) Each dwelling complies with the criteria for a replacement dwelling under ORS 215.213 (1)(q)

4 (D) At least one dwelling is located on each lot or parcel created under this paragraph; and

5 (E) The landowner of a lot or parcel created under this paragraph provides evidence that a re-  
6 striction prohibiting the landowner and the landowner's successors in interest from further dividing  
7 the lot or parcel has been recorded with the county clerk of the county in which the lot or parcel  
8 is located. A restriction imposed under this paragraph shall be irrevocable unless a statement of  
9 release is signed by the county planning director of the county in which the lot or parcel is located  
10 indicating that the comprehensive plan or land use regulations applicable to the lot or parcel have  
11 been changed so that the lot or parcel is no longer subject to statewide planning goals protecting  
12 forestland or unless the land division is subsequently authorized by law or by a change in a state-  
13 wide planning goal for land zoned for forest use or mixed farm and forest use.

14 (f) To allow a proposed division of land in a forest zone or a mixed farm and forest zone as  
15 provided in ORS 215.783.

16 (3) A county planning director shall maintain a record of lots and parcels that do not qualify for  
17 division under the restrictions imposed under subsections (2)(e) and (4) of this section. The record  
18 shall be readily available to the public.

19 (4) A lot or parcel may not be divided under subsection (2)(e) of this section if an existing  
20 dwelling on the lot or parcel was approved under:

21 (a) A statute, an administrative rule or a land use regulation as defined in ORS 197.015 that  
22 required removal of the dwelling or that prohibited subsequent division of the lot or parcel; or

23 (b) A farm use zone provision that allowed both farm and forest uses in a mixed farm and forest  
24 use zone under a statewide planning goal protecting forestland.

25 (5) A county with a minimum lot or parcel size acknowledged by the commission pursuant to  
26 ORS 197.251 after January 1, 1987, or acknowledged pursuant to periodic review requirements under  
27 ORS 197.628 to 197.650 that is smaller than those prescribed in subsection (1) of this section need  
28 not comply with subsection (2) of this section.

29 (6)(a) An applicant for the creation of a parcel pursuant to subsection (2)(b) of this section shall  
30 provide evidence that a restriction on the remaining parcel, not containing the dwelling, has been  
31 recorded with the county clerk of the county where the property is located. An applicant for the  
32 creation of a parcel pursuant to subsection (2)(d) of this section shall provide evidence that a re-  
33 striction on the newly created parcel has been recorded with the county clerk of the county where  
34 the property is located. The restriction shall allow no dwellings unless authorized by law or goal  
35 on land zoned for forest use except as permitted under subsection (2) of this section.

36 (b) A restriction imposed under this subsection shall be irrevocable unless a statement of release  
37 is signed by the county planning director of the county where the property is located indicating that  
38 the comprehensive plan or land use regulations applicable to the property have been changed in  
39 such a manner that the parcel is no longer subject to statewide planning goals pertaining to agri-  
40 cultural land or forestland.

41 (c) The county planning director shall maintain a record of parcels that do not qualify for the

43 available to the public.

44 (7) A landowner allowed a land division under subsection (2) of this section shall sign a state-  
45 ment that shall be recorded with the county clerk of the county in which the property is located,

1 declaring that the landowner and the landowner's successors in interest will not in the future com-  
 2 plain about accepted farming or forest practices on nearby lands devoted to farm or forest use.

3 **SECTION 1027.** ORS 215.788 is amended to read:

4 215.788. (1) For the purposes of correcting mapping errors made in the acknowledgment process  
 5 and updating the designation of farmlands and forestlands for land use planning, a county may  
 6 conduct a legislative review of lands in the county to determine whether the lands planned and  
 7 zoned for farm use, forest use or mixed farm and forest use are consistent with the definitions of  
 8 "agricultural lands" or "forest lands" in goals relating to agricultural lands or forestlands.

9 (2) A county may undertake the reacknowledgment process authorized by this section only if the  
 10 [*Department of Land Conservation and Development*] **Oregon Department of Natural Resources**  
 11 approves a work plan, from the county, describing the expected scope of reacknowledgment. The  
 12 department may condition approval of a work plan for reacknowledgment under this section to re-  
 13 flect the resources needed to complete the review required by ORS 197.659 and 215.794. The work  
 14 plan of the county and the approval of the department are not final orders for purposes of review.

15 (3) A county that undertakes the reacknowledgment process authorized by this section shall  
 16 provide an opportunity for all lands planned for farm use, forest use or mixed farm and forest use  
 17 and all lands subject to an exception under ORS 197.732 to a goal relating to agricultural lands or  
 18 forestlands to be included in the review.

19 (4) A county must plan and zone land reviewed under this section:

20 (a) For farm use if the land meets the definition of "agricultural land" in a goal relating to ag-  
 21 ricultural lands;

22 (b) For forest use if the land meets the definition of "forest land" used for comprehensive plan  
 23 amendments in the goal relating to forestlands;

24 (c) For mixed farm and forest use if the land meets both definitions;

25 (d) For nonresource use, consistent with ORS 215.794, if the land does not meet either definition;

26 or

27 (e) For a use other than farm use or forest use as provided in a goal relating to land use plan-  
 28 ning process and policy framework and subject to an exception to the appropriate goals under ORS  
 29 197.732 (2).

30 (5) A county may consider the current land use pattern on adjacent and nearby lands in deter-  
 31 mining whether land meets the appropriate definition.

32 **SECTION 1028.** ORS 215.794 is amended to read:

33 215.794. (1) A county shall submit decisions on planning and rezoning designations under ORS  
 34 215.788 to 215.794 to the [*Department of Land Conservation and Development*] **Oregon Department**  
 35 **of Natural Resources** for review pursuant to the procedures set forth in this section and ORS  
 36 197.659. **The department shall coordinate with the State Department of Agriculture in re-**  
 37 **viewing decisions on planning and rezoning designations for lands planned for farm use or**  
 38 **mixed farm and forest use.**

39 [(2) *The department shall coordinate with:*]

40 [(a) *The State Department of Agriculture in reviewing decisions on planning and rezoning desig-*  
 41 *nations for lands planned for farm use or mixed farm and forest use.*]

42 [(b) *The State Forestry Department in reviewing decisions on planning and rezoning designations*  
 43 *for lands planned for forest use or mixed farm and forest use.*]

44 [(3)] (2) The [*Land Conservation and Development Commission*] **Oregon Natural Resources**  
 45 **Commission** has exclusive jurisdiction for review of a county's decision made under ORS 215.788

1 to 215.794.

2 [(4)] (3) A person who participated in the proceedings leading to the county's decisions under  
3 ORS 215.788 to 215.794 may not raise an issue on review before the commission that was not raised  
4 in the local proceedings.

5 [(5)] (4) The commission may adopt rules implementing ORS 215.788 to 215.794.

6 **SECTION 1029.** ORS 223.317 is amended to read:

7 223.317. (1) Notwithstanding any other law, a local government may apportion a final assessment  
8 levied by it against a single tract or parcel of real property among all the parcels formed from a  
9 subsequent partition or other division of that tract or parcel, if the subsequent partition or division  
10 is in accordance with ORS 92.010 to 92.192 and is consistent with all applicable comprehensive plans  
11 as acknowledged by the [*Land Conservation and Development Commission*] **Oregon Natural Re-**  
12 **sources Commission** under ORS 197.251. The proportionate distribution of a final assessment au-  
13 thorized under this subsection may be made whenever the final assessment remains wholly or  
14 partially unpaid, and full payment or an installment payment is not due.

15 (2) A local government shall apportion a final assessment under this section when requested to  
16 do so by any owner, mortgagee or lienholder of a parcel of real property that was formed from the  
17 partition or other division of the larger tract of real property against which the final assessment  
18 was originally levied. When the deed, mortgage or other instrument evidencing the applicant's  
19 ownership or other interest in the parcel has not been recorded by the county clerk of the county  
20 in which the parcel is situated, the local government shall not apportion the final assessment unless  
21 the applicant files a true copy of that deed, mortgage or instrument with the local government.

22 (3) Apportionment of a final assessment under this section shall be done in accordance with an  
23 order or resolution of the governing body of the local government. The order or resolution shall  
24 describe each parcel of real property affected by the apportionment, the amount of the final assess-  
25 ment levied against each parcel, the owner of each parcel and such additional information as is re-  
26 quired to keep a permanent and complete record of the final assessments and the payments thereon.  
27 A copy of the order or resolution shall be filed with the recorder required to maintain the lien  
28 docket for the local government, who shall make any necessary changes or entries in the lien docket  
29 for the local government.

30 **SECTION 1030.** ORS 227.175 is amended to read:

31 227.175. (1) When required or authorized by a city, an owner of land may apply in writing to the  
32 hearings officer, or such other person as the city council designates, for a permit or zone change,  
33 upon such forms and in such a manner as the city council prescribes. The governing body shall es-  
34 tablish fees charged for processing permits at an amount no more than the actual or average cost  
35 of providing that service.

36 (2) The governing body of the city shall establish a consolidated procedure by which an appli-  
37 cant may apply at one time for all permits or zone changes needed for a development project. The  
38 consolidated procedure shall be subject to the time limitations set out in ORS 227.178. The consol-  
39 idated procedure shall be available for use at the option of the applicant no later than the time of  
40 the first periodic review of the comprehensive plan and land use regulations.

41 (3) Except as provided in subsection (10) of this section, the hearings officer shall hold at least  
42 one public hearing on the application.

43 (4) The application shall not be approved unless the proposed development of land would be in  
44 compliance with the comprehensive plan for the city and other applicable land use regulation or  
45 ordinance provisions. The approval may include such conditions as are authorized by ORS 227.215

1 or any city legislation.

2 (5) Hearings under this section may be held only after notice to the applicant and other inter-  
3 ested persons and shall otherwise be conducted in conformance with the provisions of ORS 197.763.

4 (6) Notice of a public hearing on a zone use application shall be provided to the owner of an  
5 airport, defined by the Oregon Department of Aviation as a “public use airport” if:

6 (a) The name and address of the airport owner has been provided by the Oregon Department  
7 of Aviation to the city planning authority; and

8 (b) The property subject to the zone use hearing is:

9 (A) Within 5,000 feet of the side or end of a runway of an airport determined by the Oregon  
10 Department of Aviation to be a “visual airport”; or

11 (B) Within 10,000 feet of the side or end of the runway of an airport determined by the Oregon  
12 Department of Aviation to be an “instrument airport.”

13 (7) Notwithstanding the provisions of subsection (6) of this section, notice of a zone use hearing  
14 need only be provided as set forth in subsection (6) of this section if the permit or zone change  
15 would only allow a structure less than 35 feet in height and the property is located outside of the  
16 runway “approach surface” as defined by the Oregon Department of Aviation.

17 (8) If an application would change the zone of property that includes all or part of a mobile  
18 home or manufactured dwelling park as defined in ORS 446.003, the governing body shall give  
19 written notice by first class mail to each existing mailing address for tenants of the mobile home  
20 or manufactured dwelling park at least 20 days but not more than 40 days before the date of the first  
21 hearing on the application. The governing body may require an applicant for such a zone change to  
22 pay the costs of such notice.

23 (9) The failure of a tenant or an airport owner to receive a notice which was mailed shall not  
24 invalidate any zone change.

25 (10)(a)(A) The hearings officer or such other person as the governing body designates may ap-  
26 prove or deny an application for a permit without a hearing if the hearings officer or other desig-  
27 nated person gives notice of the decision and provides an opportunity for any person who is  
28 adversely affected or aggrieved, or who is entitled to notice under paragraph (c) of this subsection,  
29 to file an appeal.

30 (B) Written notice of the decision shall be mailed to those persons described in paragraph (c)  
31 of this subsection.

32 (C) Notice under this subsection shall comply with ORS 197.763 (3)(a), (c), (g) and (h) and shall  
33 describe the nature of the decision. In addition, the notice shall state that any person who is ad-  
34 versely affected or aggrieved or who is entitled to written notice under paragraph (c) of this sub-  
35 section may appeal the decision by filing a written appeal in the manner and within the time period  
36 provided in the city’s land use regulations. A city may not establish an appeal period that is less  
37 than 12 days from the date the written notice of decision required by this subsection was mailed.  
38 The notice shall state that the decision will not become final until the period for filing a local appeal  
39 has expired. The notice also shall state that a person who is mailed written notice of the decision  
40 cannot appeal the decision directly to the *[Land Use Board of Appeals]* **Oregon Department of**  
41 **Natural Resources** under ORS 197.830.

42 (D) An appeal from a hearings officer’s decision made without hearing under this subsection  
43 shall be to the planning commission or governing body of the city. An appeal from such other person  
44 as the governing body designates shall be to a hearings officer, the planning commission or the  
45 governing body. In either case, the appeal shall be to a de novo hearing.

1 (E) The de novo hearing required by subparagraph (D) of this paragraph shall be the initial  
2 evidentiary hearing required under ORS 197.763 as the basis for an appeal to the [*Land Use Board*  
3 *of Appeals*] **Oregon Department of Natural Resources**. At the de novo hearing:

4 (i) The applicant and other parties shall have the same opportunity to present testimony, argu-  
5 ments and evidence as they would have had in a hearing under subsection (3) of this section before  
6 the decision;

7 (ii) The presentation of testimony, arguments and evidence shall not be limited to issues raised  
8 in a notice of appeal; and

9 (iii) The decision maker shall consider all relevant testimony, arguments and evidence that are  
10 accepted at the hearing.

11 (b) If a local government provides only a notice of the opportunity to request a hearing, the  
12 local government may charge a fee for the initial hearing. The maximum fee for an initial hearing  
13 shall be the cost to the local government of preparing for and conducting the appeal, or \$250,  
14 whichever is less. If an appellant prevails at the hearing or upon subsequent appeal, the fee for the  
15 initial hearing shall be refunded. The fee allowed in this paragraph shall not apply to appeals made  
16 by neighborhood or community organizations recognized by the governing body and whose bounda-  
17 ries include the site.

18 (c)(A) Notice of a decision under paragraph (a) of this subsection shall be provided to the ap-  
19 plicant and to the owners of record of property on the most recent property tax assessment roll  
20 where such property is located:

21 (i) Within 100 feet of the property that is the subject of the notice when the subject property  
22 is wholly or in part within an urban growth boundary;

23 (ii) Within 250 feet of the property that is the subject of the notice when the subject property  
24 is outside an urban growth boundary and not within a farm or forest zone; or

25 (iii) Within 750 feet of the property that is the subject of the notice when the subject property  
26 is within a farm or forest zone.

27 (B) Notice shall also be provided to any neighborhood or community organization recognized by  
28 the governing body and whose boundaries include the site.

29 (C) At the discretion of the applicant, the local government also shall provide notice to the  
30 [*Department of Land Conservation and Development*] **Oregon Department of Natural Resources**.

31 (11) A decision described in ORS 227.160 (2)(b) shall:

32 (a) Be entered in a registry available to the public setting forth:

33 (A) The street address or other easily understood geographic reference to the subject property;

34 (B) The date of the decision; and

35 (C) A description of the decision made.

36 (b) Be subject to the jurisdiction of the [*Land Use Board of Appeals*] **Oregon Department of**  
37 **Natural Resources under ORS 197.830 to 197.845** in the same manner as a limited land use deci-  
38 sion.

39 (c) Be subject to the appeal period described in ORS 197.830 (5)(b).

40 (12) At the option of the applicant, the local government shall provide notice of the decision  
41 described in ORS 227.160 (2)(b) in the manner required by ORS 197.763 (2), in which case an appeal  
42 to the [*board*] **Oregon Department of Natural Resources** shall be filed within 21 days of the de-  
43 cision. The notice shall include an explanation of appeal rights.

44 (13) Notwithstanding other requirements of this section, limited land use decisions shall be  
45 subject to the requirements set forth in ORS 197.195 and 197.828.

1       **SECTION 1031.** ORS 227.178 is amended to read:

2       227.178. (1) Except as provided in subsections (3), (5) and (11) of this section, the governing body  
3 of a city or its designee shall take final action on an application for a permit, limited land use de-  
4 cision or zone change, including resolution of all appeals under ORS 227.180, within 120 days after  
5 the application is deemed complete.

6       (2) If an application for a permit, limited land use decision or zone change is incomplete, the  
7 governing body or its designee shall notify the applicant in writing of exactly what information is  
8 missing within 30 days of receipt of the application and allow the applicant to submit the missing  
9 information. The application shall be deemed complete for the purpose of subsection (1) of this sec-  
10 tion upon receipt by the governing body or its designee of:

11       (a) All of the missing information;

12       (b) Some of the missing information and written notice from the applicant that no other infor-  
13 mation will be provided; or

14       (c) Written notice from the applicant that none of the missing information will be provided.

15       (3)(a) If the application was complete when first submitted or the applicant submits the re-  
16 quested additional information within 180 days of the date the application was first submitted and  
17 the city has a comprehensive plan and land use regulations acknowledged under ORS 197.251, ap-  
18 proval or denial of the application shall be based upon the standards and criteria that were appli-  
19 cable at the time the application was first submitted.

20       (b) If the application is for industrial or traded sector development of a site identified under  
21 section 12, chapter 800, Oregon Laws 2003, and proposes an amendment to the comprehensive plan,  
22 approval or denial of the application must be based upon the standards and criteria that were ap-  
23 plicable at the time the application was first submitted, provided the application complies with  
24 paragraph (a) of this subsection.

25       (4) On the 181st day after first being submitted, the application is void if the applicant has been  
26 notified of the missing information as required under subsection (2) of this section and has not sub-  
27 mitted:

28       (a) All of the missing information;

29       (b) Some of the missing information and written notice that no other information will be pro-  
30 vided; or

31       (c) Written notice that none of the missing information will be provided.

32       (5) The 120-day period set in subsection (1) of this section may be extended for a specified period  
33 of time at the written request of the applicant. The total of all extensions, except as provided in  
34 subsection (11) of this section for mediation, may not exceed 245 days.

35       (6) The 120-day period set in subsection (1) of this section applies:

36       (a) Only to decisions wholly within the authority and control of the governing body of the city;  
37 and

38       (b) Unless the parties have agreed to mediation as described in subsection (11) of this section  
39 or ORS 197.319 (2)(b).

40       (7) Notwithstanding subsection (6) of this section, the 120-day period set in subsection (1) of this  
41 section does not apply to an amendment to an acknowledged comprehensive plan or land use regu-  
42 lation or adoption of a new land use regulation that was forwarded to the Director of the [*Depart-*  
43 *ment of Land Conservation and Development*] **Oregon Department of Natural Resources** under  
44 ORS 197.610 (1).

45       (8) Except when an applicant requests an extension under subsection (5) of this section, if the

1 governing body of the city or its designee does not take final action on an application for a permit,  
2 limited land use decision or zone change within 120 days after the application is deemed complete,  
3 the city shall refund to the applicant, subject to the provisions of subsection (9) of this section, ei-  
4 ther the unexpended portion of any application fees or deposits previously paid or 50 percent of the  
5 total amount of such fees or deposits, whichever is greater. The applicant is not liable for additional  
6 governmental fees incurred subsequent to the payment of such fees or deposits. However, the ap-  
7 plicant is responsible for the costs of providing sufficient additional information to address relevant  
8 issues identified in the consideration of the application.

9 (9)(a) To obtain a refund under subsection (8) of this section, the applicant may either:

10 (A) Submit a written request for payment, either by mail or in person, to the city or its designee;

11 or

12 (B) Include the amount claimed in a mandamus petition filed under ORS 227.179. The court shall  
13 award an amount owed under this section in its final order on the petition.

14 (b) Within seven calendar days of receiving a request for a refund, the city or its designee shall  
15 determine the amount of any refund owed. Payment, or notice that no payment is due, shall be made  
16 to the applicant within 30 calendar days of receiving the request. Any amount due and not paid  
17 within 30 calendar days of receipt of the request shall be subject to interest charges at the rate of  
18 one percent per month, or a portion thereof.

19 (c) If payment due under paragraph (b) of this subsection is not paid within 120 days after the  
20 city or its designee receives the refund request, the applicant may file an action for recovery of the  
21 unpaid refund. In an action brought by a person under this paragraph, the court shall award to a  
22 prevailing applicant, in addition to the relief provided in this section, reasonable attorney fees and  
23 costs at trial and on appeal. If the city or its designee prevails, the court shall award reasonable  
24 attorney fees and costs at trial and on appeal if the court finds the petition to be frivolous.

25 (10) A city may not compel an applicant to waive the 120-day period set in subsection (1) of this  
26 section or to waive the provisions of subsection (8) of this section or ORS 227.179 as a condition for  
27 taking any action on an application for a permit, limited land use decision or zone change except  
28 when such applications are filed concurrently and considered jointly with a plan amendment.

29 (11) The period set forth in subsection (1) of this section and the period set forth in subsection  
30 (5) of this section may be extended by up to 90 additional days, if the applicant and the city agree  
31 that a dispute concerning the application will be mediated.

32 **SECTION 1032.** ORS 227.181 is amended to read:

33 227.181. (1) Pursuant to a final order of the [*Land Use Board of Appeals*] **Oregon Department**  
34 **of Natural Resources** under ORS 197.830 remanding a decision to a city, the governing body of the  
35 city or its designee shall take final action on an application for a permit, limited land use decision  
36 or zone change within 90 days of the effective date of the final order issued by the [*board*] **depart-**  
37 **ment**. For purposes of this subsection, the effective date of the final order is the last day for filing  
38 a petition for judicial review of a final order of the [*board*] **department** under ORS 197.850 (3). If  
39 judicial review of a final order of the [*board*] **department** is sought under ORS 197.830, the 90-day  
40 period established under this subsection shall not begin until final resolution of the judicial review.

41 (2)(a) In addition to the requirements of subsection (1) of this section, the 90-day period estab-  
42 lished under subsection (1) of this section shall not begin until the applicant requests in writing that  
43 the city proceed with the application on remand.

44 (b) The 90-day period may be extended for a reasonable period of time at the request of the  
45 applicant.

1 (3) The 90-day period established under subsection (1) of this section applies only to decisions  
2 wholly within the authority and control of the governing body of the city.

3 (4) Subsection (1) of this section does not apply to a remand proceeding concerning an amend-  
4 ment to an acknowledged comprehensive plan or land use regulation or the adoption of a new land  
5 use regulation that was forwarded to the Director of the [*Department of Land Conservation and*  
6 *Development*] **Oregon Department of Natural Resources** under ORS 197.610.

7 **SECTION 1033.** ORS 227.186 is amended to read:

8 227.186. (1) As used in this section, "owner" means the owner of the title to real property or the  
9 contract purchaser of real property, of record as shown on the last available complete tax assess-  
10 ment roll.

11 (2) All legislative acts relating to comprehensive plans, land use planning or zoning adopted by  
12 a city shall be by ordinance.

39 vices at a rest area, under a competitive process or by private negotiation with one or more entities,  
40 or by any combination of competition and negotiation without regard to any other laws concerning  
41 the procurement of goods or services for projects of the state.

42 (2) When using a competitive process for the award of a tollway project contract, the depart-  
43 ment shall consider the following factors in addition to the proposer's estimate of cost:

44 (a) The quality of the design, if applicable, submitted by a proposer. In considering the quality  
45 of the design of a tollway project, the department shall take into consideration:

1 (A) The structural integrity of the design, including the probable effect of the design on the fu-

10 (b) The extent to which small businesses will be involved in the tollway project. The department  
11 shall encourage participation by small businesses to the maximum extent the department determines  
12 is practicable. As used in this paragraph, "small business" means an independent business with  
13 fewer than 20 employees and with average annual gross receipts over the last three years not ex-  
14 ceeding \$1 million for construction firms and \$300,000 for nonconstruction firms. "Small business"  
15 does not include a subsidiary or parent company belonging to a group of firms that are owned and  
16 controlled by the same individuals and that have average aggregate annual gross receipts in excess  
17 of \$1 million for construction firms or \$300,000 for nonconstruction firms over the last three years.

18 (c) The financial stability of the proposer and the ability of the proposer to provide funding for

25 of return from its operation or maintenance of the tollway.

26 (3)(a) The department may adopt rules and procedures for the award of franchises, licenses,  
27 leases or other concessions for rest areas without regard to any other laws concerning the pro-  
28 curement of goods or services for projects of the state. All such franchises, licenses, leases or other  
29 concessions shall require the franchisee, licensee, lessee or concessionaire, as applicable, to main-  
30 tain the subject premises in accordance with all applicable state and federal health and safety  
31 standards, to maintain one or more policies of casualty and property insurance and adequate  
32 workers' compensation insurance, and to pay and discharge all taxes, utilities, fees and other  
33 charges or claims that are levied, assessed or charged against the premises or concession or that  
34 may become a lien upon the premises. The rules shall encourage participation by small businesses  
35 to the maximum extent the department determines is practicable. The department may grant any  
36 small business a 10 percent or greater bid advantage in any bidding process for a concession.

37 (b) As used in this subsection, "small business" means an independent business with fewer than  
38 20 employees and with average annual gross receipts over the last three years not exceeding  
39 \$300,000. "Small business" does not include a subsidiary or parent company belonging to a group  
40 of firms that are owned and controlled by the same individuals and that have average aggregate  
41 annual gross receipts in excess of \$300,000 over the last three years. "Small business" also does not  
42 include a franchise of any business that has average aggregate annual gross receipts in excess of  
43 \$300,000 over the last three years.

1 requirements of any grant or other funding source.

2 (5) If public funds are involved in the project, construction of a tollway project shall be subject  
3 to the prevailing wage requirements of ORS 279C.800 to 279C.870.

4 (6) For purposes of complying with applicable state and local land use laws, including statewide  
5 planning goals, comprehensive plans, land use regulations, ORS chapters 195, 196, 197, 198, 199, 215,  
6 221, 222 and 227, and any requirement imposed by the [*Land Conservation and Development Com-*  
7 *mission*] **Oregon Natural Resources Commission**, a tollway project shall be treated as a project  
8 of the department and not as a project of any other person or entity.

9 (7) Tollways, and any related facilities that would normally be purchased, constructed or in-  
10 stalled by the department if the tollway were a conventional highway that was constructed and op-  
11 erated by the department, shall be exempt from ad valorem property taxation.

 28 *Development*] **Oregon Department of Natural Resources** shall:

29 (a) Develop model language for comprehensive plans and land use regulations for use by cities  
 30 and counties in complying with this section; and

31 (b) Provide technical assistance to cities and counties in complying with ORS 466.360 to 466.385.

32 (3) The Department of Environmental Quality may appeal to the [*Land Use Board of Appeals*]  
 33 **Oregon Department of Natural Resources in the manner prescribed by ORS 197.830 to 197.845**  
 34 any final land use decision or limited land use decision made by a city or county regarding any  
 35 proposed use of a disposal site that has been identified under its comprehensive plan and land use  
 36 regulations pursuant to this section.

37 **SECTION 1045.** ORS 468A.363 is amended to read:

38 468A.363. The Legislative Assembly declares the purpose of ORS 468A.363, 468A.365, 468A.400  
 39 and 815.300 is to:

40 (1) Insure that the health of [*citizens*] **residents** in the Portland area is not threatened by re-  
 41 curring air pollution conditions.

42 (2) Provide necessary authority to the Environmental Quality Commission to implement one of  
 43 the critical elements of the air quality maintenance strategy for the Portland area related to im-  
 44 provements in the motor vehicle inspection program.

45 (3) Insure that the Department of Environmental Quality is able to submit an approvable air

1 quality maintenance plan for the Portland area through the year 2006 to the Environmental Pro-  
 2 tection Agency as soon as possible so that area can again be designated as an attainment area and  
 3 impediments to industrial growth imposed in the Clean Air Act can be removed.

4 (4) Direct the Environmental Quality Commission to use existing authority to incorporate the  
 5 following programs for emission reduction credits into the air quality maintenance plan for the  
 6 Portland area:

7 (a) California or United States Environmental Protection Agency emission standards for new  
 8 lawn and garden equipment sold in the Portland area.

9 (b) Transportation-efficient land use requirements of the transportation planning rule adopted  
 10 by the [*Land Conservation and Development Commission*] **Oregon Natural Resources**  
 11 **Commission**.

12 (c) Improvements in the vehicle inspection program as authorized in ORS 468A.350 to 468A.400,  
 13 including emission reduction from on-road vehicles resulting from enhanced testing, elimination of  
 14 exemptions for 1974 and later model year vehicles, and expansion of inspection program boundaries.

15 (d) An employer trip reduction program that provides an emission reduction from on-road vehi-  
 16 cles.

17 (e) A parking ratio program that limits the construction of new parking spaces for employment,  
 18 retail and commercial locations.

19 (f) Emission reductions resulting from any new federal motor vehicle fuel tax.

20 (g) State and federal alternative fuel vehicles fleet programs that result in emission reductions.

21 (h) Installation of maximum achievable control technology by major sources of hazardous air  
 22 pollutants as required by the federal Clean Air Act, as amended, resulting in emission reductions.

23 (i) As a safety margin, or as a substitute in whole or in part for other elements of the plan,  
 24 emission reductions resulting from any new state gasoline tax or for any new vehicle registration  
 25 fee that allows use of revenue for air quality improvement purposes.

26 **SECTION 1046.** ORS 469.320 is amended to read:

27 469.320. (1) Except as provided in subsections (2) and (5) of this section, no facility shall be  
 28 constructed or expanded unless a site certificate has been issued for the site thereof in the manner  
 29 provided in ORS 469.300 to 469.563, 469.590 to 469.619, 469.930 and 469.992. No facility shall be  
 30 constructed or operated except in conformity with the requirements of ORS 469.300 to 469.563,  
 31 469.590 to 469.619, 469.930 and 469.992.

32 (2) A site certificate is not required for:

33 (a) An energy facility for which no site certificate has been issued that, on August 2, 1993, had  
 34 operable electric generating equipment for a modification that uses the same fuel type and increases  
 35 electric generating capacity, if:

36 (A) The site is not enlarged; and

37 (B) The ability of the energy facility to use fuel for electricity production under peak steady  
 38 state operating conditions is not more than 200 million Btu per hour greater than it was on August  
 39 2, 1993, or the energy facility expansion is called for in the short-term plan of action of an energy  
 40 resource plan that has been acknowledged by the Public Utility Commission of Oregon.

41 (b) Construction or expansion of any interstate natural gas pipeline or associated underground  
 42 natural gas storage facility authorized by and subject to the continuing regulation of the Federal  
 43 Energy Regulatory Commission or successor agency.

44 (c) An energy facility, except coal and nuclear power plants, if the energy facility:

45 (A) Sequentially produces electrical energy and useful thermal energy from the same fuel source;

1 and

2 (B) Under average annual operating conditions, has a nominal electric generating capacity:

3 (i) Of less than 50 megawatts and the fuel chargeable to power heat rate value is not greater  
4 than 6,000 Btu per kilowatt hour;

5 (ii) Of 50 megawatts or more and the fuel chargeable to power heat rate value is not greater  
6 than 5,500 Btu per kilowatt hour; or

7 (iii) Specified by the Energy Facility Siting Council by rule based on the council's determination  
8 relating to emissions of the energy facility.

9 (d) Temporary storage, at the site of a nuclear-fueled thermal power plant for which a site cer-  
10 tificate has been issued by the State of Oregon, of radioactive waste from the plant.

11 (e) An energy facility as defined in ORS 469.300 (11)(a)(G), if the plant also produces a secondary  
12 fuel used on site for the production of heat or electricity, if the output of the primary fuel is less  
13 than six billion Btu of heat a day.

14 (f) An energy facility as defined in ORS 469.300 (11)(a)(G), if the facility:

15 (A) Exclusively uses biomass, including but not limited to grain, whey, potatoes, oil seeds, waste  
16 vegetable oil or cellulosic biomass, as the source of material for conversion to a liquid fuel;

17 (B) Has received local land use approval under the applicable acknowledged comprehensive plan  
18 and land use regulations of the affected local government and the facility complies with any state-  
19 wide planning goals or rules of the [*Land Conservation and Development Commission*] **Oregon Na-  
20 tural Resources Commission** that are directly applicable to the facility;

21 (C) Requires no new electric transmission lines or gas or petroleum product pipelines that would  
22 require a site certificate under subsection (1) of this section;

23 (D) Produces synthetic fuel, at least 90 percent of which is used in an industrial or refueling  
24 facility located within one mile of the facility or is transported from the facility by rail or barge;  
25 and

26 (E) Emits less than 118 pounds of carbon dioxide per million Btu from fossil fuel used for con-  
27 version energy.

28 (g) A standby generation facility, if the facility complies with all of the following:

29 (A) The facility has received local land use approval under the applicable acknowledged com-  
30 prehensive plan and land use regulations of the affected local government and the facility complies  
31 with all statewide planning goals and applicable rules of the [*Land Conservation and Development  
32 Commission*] **Oregon Natural Resources Commission**;

33 (B) The standby generators have been approved by the Department of Environmental Quality  
34 as having complied with all applicable air and water quality requirements. For an applicant that  
35 proposes to provide the physical facilities for the installation of standby generators, the requirement  
36 of this subparagraph may be met by agreeing to require such a term in the lease contract for the  
37 facility; and

38 (C) The standby generators are electrically incapable of being interconnected to the trans-  
39 mission grid. For an applicant that proposes to provide the physical facilities for the installation of  
40 standby generators, the requirement of this subparagraph may be met by agreeing to require such  
41 a term in the lease contract for the facility.

42 (3) The Energy Facility Siting Council may review and, if necessary, revise the fuel chargeable  
43 to power heat rate value set forth in subsection (2)(c)(B) of this section. In making its determination,  
44 the council shall ensure that the fuel chargeable to power heat rate value for facilities set forth in  
45 subsection (2)(c)(B) of this section remains significantly lower than the fuel chargeable to power

1 heat rate value for the best available, commercially viable thermal power plant technology at the  
2 time of the revision.

3 (4) Any person who proposes to construct or enlarge an energy facility and who claims an ex-  
4 emption under subsection (2)(a), (c), (f) or (g) of this section from the requirement to obtain a site  
5 certificate shall request the Energy Facility Siting Council to determine whether the proposed fa-  
6 cility qualifies for the claimed exemption. The council shall make its determination within 60 days  
7 after the request for exemption is filed. An appeal from the council's determination on a request for  
8 exemption shall be made under ORS 469.403, except that the scope of review by the Supreme Court  
9 shall be the same as a review by a circuit court under ORS 183.484. The record on review by the  
10 Supreme Court shall be the record established in the council proceeding on the exemption.

11 (5) Notwithstanding subsection (1) of this section, a separate site certificate shall not be re-  
12 quired for:

13 (a) Transmission lines, storage facilities, pipelines or similar related or supporting facilities, if  
14 such related or supporting facilities are addressed in and are subject to a site certificate for another  
15 energy facility;

16 (b) Expansion within the site or within the energy generation area of a facility for which a site  
17 certificate has been issued, if the existing site certificate has been amended to authorize expansion;  
18 or

19 (c) Expansion, either within the site or outside the site, of an existing council certified surface  
20 facility related to an underground gas storage reservoir, if the existing site certificate is amended  
21 to authorize expansion.

22 (6) If the substantial loss of the steam host causes a facility exempt under subsection (2)(c) of  
23 this section to substantially fail to meet the exemption requirements under subsection (2)(c) of this  
24 section, the electric generating facility shall cease to operate one year after the substantial loss of  
25 the steam host unless an application for a site certificate has been filed in accordance with the  
26 provisions of ORS 469.300 to 469.563.

27 (7) As used in this section:

28 (a) "Standby generation facility" means an electric power generating facility, including standby  
29 generators and the physical structures necessary to install and connect standby generators, that  
30 provides temporary electric power in the event of a power outage and that is electrically incapable  
31 of being interconnected with the transmission grid.

32 (b) "Total energy output" means the sum of useful thermal energy output and useful electrical  
33 energy output.

34 (c) "Useful thermal energy" means the verifiable thermal energy used in any viable industrial  
35 or commercial process, heating or cooling application.

36 (8) Notwithstanding the definition of "energy facility" in ORS 469.300 (11)(a)(J), an electric  
37 power generating plant with an average electric generating capacity of less than 35 megawatts  
38 produced from wind energy at a single energy facility or within a single energy generation area may  
39 elect to obtain a site certificate in the manner provided in ORS 469.300 to 469.563, 469.590 to  
40 469.619, 469.930 and 469.992. An election to obtain a site certificate under this subsection shall be  
41 final upon submission of an application for a site certificate.

42 **NOTE:** Section 1047 was deleted. Subsequent sections were not renumbered.

43 **SECTION 1048.** ORS 469.501 is amended to read:

44 469.501. (1) The Energy Facility Siting Council shall adopt standards for the siting, construction,  
45 operation and retirement of facilities. The standards may address but need not be limited to the

1 following subjects:

2 (a) The organizational, managerial and technical expertise of the applicant to construct and  
3 operate the proposed facility.

4 (b) Seismic hazards.

5 (c) Areas designated for protection by the state or federal government, including but not limited  
6 to monuments, wilderness areas, wildlife refuges, scenic waterways and similar areas.

7 (d) The financial ability and qualifications of the applicant.

8 (e) Effects of the facility, taking into account mitigation, on fish and wildlife, including threat-  
9 ened and endangered fish, wildlife or plant species.

10 (f) Impacts of the facility on historic, cultural or archaeological resources listed on, or deter-  
11 mined by the State Historic Preservation Officer to be eligible for listing on, the National Register  
12 of Historic Places or the Oregon State Register of Historic Properties.

13 (g) Protection of public health and safety, including necessary safety devices and procedures.

14 (h) The accumulation, storage, disposal and transportation of nuclear waste.

15 (i) Impacts of the facility on recreation, scenic and aesthetic values.

16 (j) Reduction of solid waste and wastewater generation to the extent reasonably practicable.

17 (k) Ability of the communities in the affected area to provide sewers and sewage treatment,  
18 water, storm water drainage, solid waste management, housing, traffic safety, police and fire pro-  
19 tection, health care and schools.

20 (L) The need for proposed nongenerating facilities as defined in ORS 469.503, consistent with the  
21 state energy policy set forth in ORS 469.010 and 469.310. The council may consider least-cost plans  
22 when adopting a need standard or in determining whether an applicable need standard has been met.  
23 The council shall not adopt a standard requiring a showing of need or cost-effectiveness for gener-  
24 ating facilities as defined in ORS 469.503.

25 (m) Compliance with the statewide planning goals adopted by the [*Land Conservation and De-*  
26 *velopment Commission*] **Oregon Natural Resources Commission** as specified by ORS 469.503.

27 (n) Soil protection.

28 (o) For energy facilities that emit carbon dioxide, the impacts of those emissions on climate  
29 change. For fossil-fueled power plants, as defined in ORS 469.503, the council shall apply a standard  
30 as provided for by ORS 469.503 (2).

31 (2) The council may adopt exemptions from any need standard adopted under subsection (1)(L)  
32 of this section if the exemption is consistent with the state's energy policy set forth in ORS 469.010  
33 and 469.310.

34 (3) The council may issue a site certificate for a facility that does not meet one or more of the  
35 standards adopted under subsection (1) of this section if the council determines that the overall  
36 public benefits of the facility outweigh the damage to the resources protected by the standards the  
37 facility does not meet.

38 (4) Notwithstanding subsection (1) of this section, the council may not impose any standard de-  
39 veloped under subsection (1)(b), (f), (j) or (k) of this section to approve or deny an application for  
40 an energy facility producing power from wind, solar or geothermal energy. However, the council  
41 may, to the extent it determines appropriate, apply any standards adopted under subsection (1)(b),  
42 (f), (j) or (k) of this section to impose conditions on any site certificate issued for any energy facility.

43 **SECTION 1049.** ORS 469.503 is amended to read:

44 469.503. In order to issue a site certificate, the Energy Facility Siting Council shall determine  
45 that the preponderance of the evidence on the record supports the following conclusions:

1 (1) The facility complies with the standards adopted by the council pursuant to ORS 469.501 or  
2 the overall public benefits of the facility outweigh the damage to the resources protected by the  
3 standards the facility does not meet.

4 (2) If the energy facility is a fossil-fueled power plant, the energy facility complies with any  
5 applicable carbon dioxide emissions standard adopted by the council or enacted by statute. Base  
6 load gas plants shall comply with the standard set forth in subsection (2)(a) of this section. Other  
7 fossil-fueled power plants shall comply with any applicable standard adopted by the council by rule  
8 pursuant to subsection (2)(b) of this section. Subsections (2)(c) and (d) of this section prescribe the  
9 means by which an applicant may comply with the applicable standard.

10 (a) The net carbon dioxide emissions rate of the proposed base load gas plant shall not exceed  
11 0.70 pounds of carbon dioxide emissions per kilowatt hour of net electric power output, with carbon  
12 dioxide emissions and net electric power output measured on a new and clean basis.  
13 Notwithstanding the foregoing, the council may by rule modify the carbon dioxide emissions stand-  
14 ard for base load gas plants if the council finds that the most efficient stand-alone combined cycle,  
15 combustion turbine, natural gas-fired energy facility that is commercially demonstrated and operat-  
16 ing in the United States has a net heat rate of less than 7,200 Btu per kilowatt hour higher heating  
17 value adjusted to ISO conditions. In modifying the carbon dioxide emission standard, the council  
18 shall determine the rate of carbon dioxide emissions per kilowatt hour of net electric output of such  
19 energy facility, adjusted to ISO conditions, and reset the carbon dioxide emissions standard at 17  
20 percent below this rate.

21 (b) The council shall adopt carbon dioxide emissions standards for other types of fossil-fueled  
22 power plants. Such carbon dioxide emissions standards shall be promulgated by rule. In adopting  
23 or amending such carbon dioxide emissions standards, the council shall consider and balance at  
24 least the following principles, the findings on which shall be contained in the rulemaking record:

25 (A) Promote facility fuel efficiency;

26 (B) Promote efficiency in the resource mix;

27 (C) Reduce net carbon dioxide emissions;

28 (D) Promote cogeneration that reduces net carbon dioxide emissions;

29 (E) Promote innovative technologies and creative approaches to mitigating, reducing or avoiding  
30 carbon dioxide emissions;

31 (F) Minimize transaction costs;

32 (G) Include an alternative process that separates decisions on the form and implementation of  
33 offsets from the final decision on granting a site certificate;

34 (H) Allow either the applicant or third parties to implement offsets;

35 (I) Be attainable and economically achievable for various types of power plants;

36 (J) Promote public participation in the selection and review of offsets;

37 (K) Promote prompt implementation of offset projects;

38 (L) Provide for monitoring and evaluation of the performance of offsets; and

39 (M) Promote reliability of the regional electric system.

40 (c) The council shall determine whether the applicable carbon dioxide emissions standard is met  
41 by first determining the gross carbon dioxide emissions that are reasonably likely to result from the  
42 operation of the proposed energy facility. Such determination shall be based on the proposed design  
43 of the energy facility. The council shall adopt site certificate conditions to ensure that the predicted  
44 carbon dioxide emissions are not exceeded on a new and clean basis. For any remaining emissions  
45 reduction necessary to meet the applicable standard, the applicant may elect to use any of subpar-

1 agragraphs (A) to (D) of this paragraph, or any combination thereof. The council shall determine the  
2 amount of carbon dioxide emissions reduction that is reasonably likely to result from the applicant's  
3 offsets and whether the resulting net carbon dioxide emissions meet the applicable carbon dioxide  
4 emissions standard. If the council or a court on judicial review concludes that the applicant has  
5 not demonstrated compliance with the applicable carbon dioxide emissions standard under subpara-  
6 graphs (A), (B) or (D) of this paragraph, or any combination thereof, and the applicant has agreed  
7 to meet the requirements of subparagraph (C) of this paragraph for any deficiency, the council or  
8 a court shall find compliance based on such agreement.

9 (A) The facility will sequentially produce electrical and thermal energy from the same fuel  
10 source, and the thermal energy will be used to displace another source of carbon dioxide emissions  
11 that would have otherwise continued to occur, in which case the council shall adopt site certificate  
12 conditions ensuring that the carbon dioxide emissions reduction will be achieved.

13 (B) The applicant or a third party will implement particular offsets, in which case the council  
14 may adopt site certificate conditions ensuring that the proposed offsets are implemented but shall  
15 not require that predicted levels of avoidance, displacement or sequestration of carbon dioxide  
16 emissions be achieved. The council shall determine the quantity of carbon dioxide emissions re-  
17 duction that is reasonably likely to result from each of the proposed offsets based on the criteria in  
18 sub-subparagraphs (i) to (iii) of this subparagraph. In making this determination, the council shall  
19 not allow credit for offsets that have already been allocated or awarded credit for carbon dioxide  
20 emissions reduction in another regulatory setting. In addition, the fact that an applicant or other  
21 parties involved with an offset may derive benefits from the offset other than the reduction of car-  
22 bon dioxide emissions is not, by itself, a basis for withholding credit for an offset.

23 (i) The degree of certainty that the predicted quantity of carbon dioxide emissions reduction  
24 will be achieved by the offset;

25 (ii) The ability of the council to determine the actual quantity of carbon dioxide emissions re-  
26 duction resulting from the offset, taking into consideration any proposed measurement, monitoring  
27 and evaluation of mitigation measure performance; and

28 (iii) The extent to which the reduction of carbon dioxide emissions would occur in the absence  
29 of the offsets.

30 (C) The applicant or a third party agrees to provide funds in an amount deemed sufficient to  
31 produce the reduction in carbon dioxide emissions necessary to meet the applicable carbon dioxide  
32 emissions standard, in which case the funds shall be used as specified in paragraph (d) of this sub-  
33 section. Unless modified by the council as provided below, the payment of 57 cents shall be deemed  
34 to result in a reduction of one ton of carbon dioxide emissions. The council shall determine the  
35 offset funds using the monetary offset rate and the level of emissions reduction required to meet the  
36 applicable standard. If a site certificate is approved based on this subparagraph, the council may  
37 not adjust the amount of such offset funds based on the actual performance of offsets. After three  
38 years from June 26, 1997, the council may by rule increase or decrease the monetary offset rate of  
39 57 cents per ton of carbon dioxide emissions. Any change to the monetary offset rate shall be based  
40 on empirical evidence of the cost of carbon dioxide offsets and the council's finding that the stand-  
41 ard will be economically achievable with the modified rate for natural gas-fired power plants. Fol-  
42 lowing the initial three-year period, the council may increase or decrease the monetary offset rate  
43 no more than 50 percent in any two-year period.

44 (D) Any other means that the council adopts by rule for demonstrating compliance with any  
45 applicable carbon dioxide emissions standard.

1 (d) If the applicant elects to meet the applicable carbon dioxide emissions standard in whole or  
2 in part under paragraph (c)(C) of this subsection the applicant shall identify the qualified organiza-  
3 tion. The applicant may identify an organization that has applied for, but has not received, an ex-  
4 emption from federal income taxation, but the council may not find that the organization is a  
5 qualified organization unless the organization is exempt from federal taxation under section 501(c)(3)  
6 of the Internal Revenue Code as amended and in effect on December 31, 1996. The site certificate  
7 holder shall provide a bond or comparable security in a form reasonably acceptable to the council  
8 to ensure the payment of the offset funds and the amount required under subparagraph (A)(ii) of this  
9 paragraph. Such security shall be provided by the date specified in the site certificate, which shall  
10 be no later than the commencement of construction of the facility. The site certificate shall require  
11 that the offset funds be disbursed as specified in subparagraph (A) of this paragraph, unless the  
12 council finds that no qualified organization exists, in which case the site certificate shall require  
13 that the offset funds be disbursed as specified in subparagraph (B) of this paragraph.

14 (A) The site certificate holder shall disburse the offset funds and any other funds required by  
15 sub-subparagraph (ii) of this subparagraph to the qualified organization as follows:

16 (i) When the site certificate holder receives written notice from the qualified organization cer-  
17 tifying that the qualified organization is contractually obligated to pay any funds to implement off-  
18 sets using the offset funds, the site certificate holder shall make the requested amount available to  
19 the qualified organization unless the total of the amount requested and any amounts previously re-  
20 quested exceeds the offset funds, in which case only the remaining amount of the offset funds shall  
21 be made available. The qualified organization shall use at least 80 percent of the offset funds for  
22 contracts to implement offsets. The qualified organization may use up to 20 percent of the offset  
23 funds for monitoring, evaluation, administration and enforcement of contracts to implement offsets.

24 (ii) At the request of the qualified organization and in addition to the offset funds, the site cer-  
25 tificate holder shall pay the qualified organization an amount equal to 10 percent of the first  
26 \$500,000 of the offset funds and 4.286 percent of any offset funds in excess of \$500,000. This amount  
27 shall not be less than \$50,000 unless a lesser amount is specified in the site certificate. This amount  
28 compensates the qualified organization for its costs of selecting offsets and contracting for the im-  
29 plementation of offsets.

30 (iii) Notwithstanding any provision to the contrary, a site certificate holder subject to this sub-  
31 paragraph shall have no obligation with regard to offsets, the offset funds or the funds required by  
32 sub-subparagraph (ii) of this subparagraph other than to make available to the qualified organization  
33 the total amount required under paragraph (c) of this subsection and sub-subparagraph (ii) of this  
34 subparagraph, nor shall any nonperformance, negligence or misconduct on the part of the qualified  
35 organization be a basis for revocation of the site certificate or any other enforcement action by the  
36 council with respect to the site certificate holder.

37 (B) If the council finds there is no qualified organization, the site certificate holder shall select  
38 one or more offsets to be implemented pursuant to criteria established by the council. The site cer-  
39 tificate holder shall give written notice of its selections to the council and to any person requesting  
40 notice. On petition by the State Department of Energy, or by any person adversely affected or  
41 aggrieved by the site certificate holder's selection of offsets, or on the council's own motion, the  
42 council may review such selection. The petition must be received by the council within 30 days of  
43 the date the notice of selection is placed in the United States mail, with first-class postage prepaid.  
44 The council shall approve the site certificate holder's selection unless it finds that the selection is  
45 not consistent with criteria established by the council. The site certificate holder shall contract to

1 implement the selected offsets within 18 months after commencing construction of the facility unless  
2 good cause is shown requiring additional time. The contracts shall obligate the expenditure of at  
3 least 85 percent of the offset funds for the implementation of offsets. No more than 15 percent of the  
4 offset funds may be spent on monitoring, evaluation and enforcement of the contract to implement  
5 the selected offsets. The council's criteria for selection of offsets shall be based on the criteria set  
6 forth in paragraphs (b)(C) and (c)(B) of this subsection and may also consider the costs of particular  
7 types of offsets in relation to the expected benefits of such offsets. The council's criteria shall not  
8 require the site certificate holder to select particular offsets, and shall allow the site certificate  
9 holder a reasonable range of choices in selecting offsets. In addition, notwithstanding any other  
10 provision of this section, the site certificate holder's financial liability for implementation, monitor-  
11 ing, evaluation and enforcement of offsets pursuant to this subsection shall be limited to the amount  
12 of any offset funds not already contractually obligated. Nonperformance, negligence or misconduct  
13 by the entity or entities implementing, monitoring or evaluating the selected offset shall not be a  
14 basis for revocation of the site certificate or any other enforcement action by the council with re-  
15 spect to the site certificate holder.

16 (C) Every qualified organization that has received funds under this paragraph shall, at five-year  
17 intervals beginning on the date of receipt of such funds, provide the council with the information  
18 the council requests about the qualified organization's performance. The council shall evaluate the  
19 information requested and, based on such information, shall make any recommendations to the  
20 Legislative Assembly that the council deems appropriate.

21 (e) As used in this subsection:

22 (A) "Adjusted to ISO conditions" means carbon dioxide emissions and net electric power output  
23 as determined at 59 degrees Fahrenheit, 14.7 pounds per square inch atmospheric pressure and 60  
24 percent humidity.

25 (B) "Base load gas plant" means a generating facility that is fueled by natural gas, except for  
26 periods during which an alternative fuel may be used and when such alternative fuel use shall not  
27 exceed 10 percent of expected fuel use in Btu, higher heating value, on an average annual basis, and  
28 where the applicant requests and the council adopts no condition in the site certificate for the  
29 generating facility that would limit hours of operation other than restrictions on the use of alter-  
30 native fuel. The council shall assume a 100 percent capacity factor for such plants and a 30-year  
31 life for the plants for purposes of determining gross carbon dioxide emissions.

32 (C) "Fossil-fueled power plant" means a generating facility that produces electric power from  
33 natural gas, petroleum, coal or any form of solid, liquid or gaseous fuel derived from such material.

34 (D) "Generating facility" means those energy facilities that are defined in ORS 469.300 (11)(a)(A),  
35 (B) and (D).

36 (E) "Gross carbon dioxide emissions" means the predicted carbon dioxide emissions of the pro-  
37 posed energy facility measured on a new and clean basis.

38 (F) "Net carbon dioxide emissions" means gross carbon dioxide emissions of the proposed energy  
39 facility, less carbon dioxide emissions avoided, displaced or sequestered by any combination of  
40 cogeneration or offsets.

41 (G) "New and clean basis" means the average carbon dioxide emissions rate per hour and net  
42 electric power output of the energy facility, without degradation, as determined by a 100-hour test  
43 at full power completed during the first 12 months of commercial operation of the energy facility,  
44 with the results adjusted for the average annual site condition for temperature, barometric pressure  
45 and relative humidity and use of alternative fuels, and using a rate of 117 pounds of carbon dioxide

1 per million Btu of natural gas fuel and a rate of 161 pounds of carbon dioxide per million Btu of  
2 distillate fuel, if such fuel use is proposed by the applicant. The council may by rule adjust the rate  
3 of pounds of carbon dioxide per million Btu for natural gas or distillate fuel. The council may by  
4 rule set carbon dioxide emissions rates for other fuels.

5 (H) "Nongenerating facility" means those energy facilities that are defined in ORS 469.300  
6 (11)(a)(C) and (E) to (I).

7 (I) "Offset" means an action that will be implemented by the applicant, a third party or through  
8 the qualified organization to avoid, sequester or displace emissions of carbon dioxide.

9 (J) "Offset funds" means the amount of funds determined by the council to satisfy the applicable  
10 carbon dioxide emissions standard pursuant to paragraph (c)(C) of this subsection.

11 (K) "Qualified organization" means an entity that:

12 (i) Is exempt from federal taxation under section 501(c)(3) of the Internal Revenue Code as  
13 amended and in effect on December 31, 1996;

14 (ii) Either is incorporated in the State of Oregon or is a foreign corporation authorized to do  
15 business in the State of Oregon;

16 (iii) Has in effect articles of incorporation that require that offset funds received pursuant to  
17 this section are used for offsets that will result in the direct reduction, elimination, sequestration  
18 or avoidance of carbon dioxide emissions, that require that decisions on the use of such funds are  
19 made by a body composed of seven voting members of which three are appointed by the council,  
20 three are Oregon residents appointed by the Bullitt Foundation or an alternative environmental  
21 nonprofit organization named by the body, and one is appointed by the applicants for site certificates  
22 that are subject to paragraph (d) of this subsection and the holders of such site certificates, and that  
23 require nonvoting membership on the decision-making body for holders of site certificates that have  
24 provided funds not yet disbursed under paragraph (d)(A) of this subsection;

25 (iv) Has made available on an annual basis, beginning after the first year of operation, a signed  
26 opinion of an independent certified public accountant stating that the qualified organization's use  
27 of funds pursuant to this statute conforms with generally accepted accounting procedures except  
28 that the qualified organization shall have one year to conform with generally accepted accounting  
29 principles in the event of a nonconforming audit;

30 (v) Has to the extent applicable, except for good cause, entered into contracts obligating at least  
31 60 percent of the offset funds to implement offsets within two years after the commencement of  
32 construction of the facility; and

33 (vi) Has to the extent applicable, except for good cause, complied with paragraph (d)(A)(i) of this  
34 subsection.

35 (3) Except as provided in ORS 469.504 for land use compliance and except for those statutes and  
36 rules for which the decision on compliance has been delegated by the federal government to a state  
37 agency other than the council, the facility complies with all other Oregon statutes and administra-  
38 tive rules identified in the project order, as amended, as applicable to the issuance of a site certif-  
39 icate for the proposed facility. If compliance with applicable Oregon statutes and administrative  
40 rules, other than those involving federally delegated programs, would result in conflicting conditions  
41 in the site certificate, the council may resolve the conflict consistent with the public interest. A  
42 resolution may not result in the waiver of any applicable state statute.

43 (4) The facility complies with the statewide planning goals adopted by the [*Land Conservation*  
44 *and Development Commission*] **Oregon Natural Resources Commission pursuant to ORS**  
45 **197.230.**

1       **SECTION 1050.** ORS 469.504 is amended to read:

2       469.504. (1) A proposed facility shall be found in compliance with the statewide planning goals  
3 under ORS 469.503 (4) if:

4       (a) The facility has received local land use approval under the acknowledged comprehensive  
5 plan and land use regulations of the affected local government; or

6       (b) The Energy Facility Siting Council determines that:

7       (A) The facility complies with:

8       (i) Applicable substantive criteria from the affected local government's acknowledged compre-  
9 hensive plan and land use regulations that are required by *[the]* statewide planning goals **adopted**  
10 **by the Oregon Natural Resources Commission pursuant to ORS 197.230** and **that are** in effect  
11 on the date the application is submitted[, *and with any Land Conservation and Development Com-*  
12 *mission administrative rules and goals and any land use statutes that apply directly to the facility*  
13 *under ORS 197.646*]; **and**

14       (ii) **Any rules or goals adopted by the commission or land use laws that apply directly to**  
15 **the facility under ORS 197.646;**

16       (B) For an energy facility or a related or supporting facility that must be evaluated against the  
17 applicable substantive criteria pursuant to subsection (5) of this section, that the proposed facility  
18 does not comply with one or more of the applicable substantive criteria but does otherwise comply  
19 with the applicable statewide planning goals, or that an exception to any applicable statewide  
20 planning goal is justified under subsection (2) of this section; or

21       (C) For a facility that the council elects to evaluate against the statewide planning goals pur-  
22 suant to subsection (5) of this section, that the proposed facility complies with the applicable state-  
23 wide planning goals or that an exception to any applicable statewide planning goal is justified under  
24 subsection (2) of this section.

25       (2) The council may find goal compliance for a facility that does not otherwise comply with one  
26 or more statewide planning goals by taking an exception to the applicable goal. Notwithstanding  
27 the requirements of ORS 197.732, the statewide planning goal pertaining to the exception process  
28 or any rules of the *[Land Conservation and Development]* commission pertaining to an exception  
29 process goal, the council may take an exception to a goal if the council finds:

30       (a) The land subject to the exception is physically developed to the extent that the land is no  
31 longer available for uses allowed by the applicable goal;

32       (b) The land subject to the exception is irrevocably committed as described by the rules of the  
33 *[Land Conservation and Development]* commission to uses not allowed by the applicable goal because  
34 existing adjacent uses and other relevant factors make uses allowed by the applicable goal imprac-  
35 ticable; or

36       (c) The following standards are met:

37       (A) Reasons justify why the state policy embodied in the applicable goal should not apply;

38       (B) The significant environmental, economic, social and energy consequences anticipated as a  
39 result of the proposed facility have been identified and adverse impacts will be mitigated in ac-  
40 cordance with rules of the council applicable to the siting of the proposed facility; and

41       (C) The proposed facility is compatible with other adjacent uses or will be made compatible  
42 through measures designed to reduce adverse impacts.

43       (3) If compliance with applicable substantive local criteria and applicable statutes and state  
44 administrative rules would result in conflicting conditions in the site certificate or amended site  
45 certificate, the council shall resolve the conflict consistent with the public interest. A resolution

1 may not result in a waiver of any applicable state statute.

2 (4) An applicant for a site certificate shall elect whether to demonstrate compliance with the  
3 statewide planning goals under subsection (1)(a) or (b) of this section. The applicant shall make the  
4 election on or before the date specified by the council by rule.

5 (5) Upon request by the State Department of Energy, the special advisory group established  
6 under ORS 469.480 shall recommend to the council, within the time stated in the request, the ap-  
7 plicable substantive criteria under subsection (1)(b)(A) of this section. If the special advisory group  
8 does not recommend applicable substantive criteria within the time established in the department's  
9 request, the council may either determine and apply the applicable substantive criteria under sub-  
10 section (1)(b) of this section or determine compliance with the statewide planning goals under sub-  
11 section (1)(b)(B) or (C) of this section. If the special advisory group recommends applicable  
12 substantive criteria for an energy facility described in ORS 469.300 or a related or supporting fa-  
13 cility that does not pass through more than one local government jurisdiction or more than three  
14 zones in any one jurisdiction, the council shall apply the criteria recommended by the special advi-  
15 sory group. If the special advisory group recommends applicable substantive criteria for an energy  
16 facility as defined in ORS 469.300 (11)(a)(C) to (E) or a related or supporting facility that passes  
17 through more than one jurisdiction or more than three zones in any one jurisdiction, the council  
18 shall review the recommended criteria and determine whether to evaluate the proposed facility  
19 against the applicable substantive criteria recommended by the special advisory group, against the  
20 statewide planning goals or against a combination of the applicable substantive criteria and state-  
21 wide planning goals. In making its determination, the council shall consult with the special advisory  
22 group and shall consider:

23 (a) The number of jurisdictions and zones in question;

24 (b) The degree to which the applicable substantive criteria reflect local government consider-  
25 ation of energy facilities in the planning process; and

26 (c) The level of consistency of the applicable substantive criteria from the various zones and  
27 jurisdictions.

28 (6) The council is not subject to ORS 197.180 and a state agency may not require an applicant  
29 for a site certificate to comply with any rules or programs adopted under ORS 197.180.

30 (7) On or before its next periodic review, each affected local government shall amend its com-  
31 prehensive plan and land use regulations as necessary to reflect the decision of the council per-  
32 taining to a site certificate or amended site certificate.

33 (8) Notwithstanding ORS 34.020 or 197.825 or any other provision of law, the affected local  
34 government's land use approval of a proposed facility under subsection (1)(a) of this section and the  
35 special advisory group's recommendation of applicable substantive criteria under subsection (5) of  
36 this section shall be subject to judicial review only as provided in ORS 469.403. If the applicant  
37 elects to comply with subsection (1)(a) of this section, the provisions of this subsection shall apply  
38 only to proposed projects for which the land use approval of the local government occurs after the  
39 date a notice of intent or an application for expedited processing is submitted to the State Depart-  
40 ment of Energy.

41 (9) The State Department of Energy, in cooperation with other state agencies, shall provide, to  
42 the extent possible, technical assistance and information about the siting process to local govern-  
43 ments that request such assistance or that anticipate having a facility proposed in their jurisdiction.

44 **SECTION 1051.** ORS 835.114 is amended to read:

45 835.114. Except as required under ORS 197.180, the Oregon Department of Aviation may not

1 adopt any rules intended primarily to implement ORS chapter 197, 215 or 227. The department shall  
2 comply with the land use planning goals and guidelines adopted under ORS 197.225 and rules  
3 adopted under ORS 197.040. The department may make recommendations to the [*Department of Land*  
4 *Conservation and Development*] **Oregon Department of Natural Resources** regarding land use is-  
5 sues.

6 **SECTION 1052.** ORS 836.608 is amended to read:

7 836.608. (1) The continued operation and vitality of airports registered, licensed or otherwise  
8 recognized by the Department of Transportation on December 31, 1994, is a matter of state concern.

9 (2) A local government shall recognize in its planning documents the location of private-use  
10 airports and privately owned public-use airports not listed under ORS 836.610 (3) if the airport was  
11 the base for three or more aircraft, as shown in the records of the Department of Transportation,  
12 on December 31, 1994. Local planning documents shall establish a boundary showing areas in air-  
13 port ownership, or subject to long-term lease, that are developed or committed to airport uses de-  
14 scribed in ORS 836.616 (2). Areas committed to airport uses shall include those areas identified by  
15 the airport owner that the local government determines can be reasonably expected to be devoted  
16 to airport uses allowed under ORS 836.616 (2).

17 (3)(a) A local government shall not impose limitations on the continued operation of uses de-  
18 scribed in ORS 836.616 (2) that existed at any time during 1996 at an airport described in subsection  
19 (2) of this section. A local government shall allow for the growth of uses described in ORS 836.616  
20 (2) that existed at any time during 1996 at an airport described in subsection (2) of this section. A  
21 local government shall not impose additional limitations on a use approved by the local government  
22 prior to January 1, 1997, for an airport described in subsection (2) of this section. Notwithstanding  
23 subsection (4) of this section, the construction of additional hangars or tie-downs by the owner of  
24 an airport described in subsection (2) of this section, basing additional aircraft and increases in  
25 flight activity shall be permitted at an airport described in subsection (2) of this section.

26 (b) A local government may authorize the establishment of a new use described in ORS 836.616  
27 (2) at an airport described in subsection (2) of this section following a public hearing on the use.  
28 The hearing shall be for the purpose of establishing compliance with adopted clear and objective  
29 standards relating to the compatibility and adequacy of public facilities and services as provided  
30 under subsection (5) of this section. Standards and requirements as adopted by the local government  
31 shall further the policy of ORS 836.600 to the maximum extent practicable.

32 (4) Growth of an existing use on an airport as described in subsection (3)(a) of this section that  
33 requires a building permit shall be allowed as an administrative decision without public hearing  
34 unless the growth:

35 (a) Cannot be supported by existing public facilities and services and transportation systems  
36 authorized by applicable statewide land use planning goals;

37 (b) Forces a significant change or significantly increases the costs of conducting existing uses  
38 on surrounding lands; or

39 (c) Exceeds the standards of ORS 215.296 (1) if the airport is adjacent to land zoned for exclusive  
40 farm use.

41 (5) A local government shall authorize a new use described in subsection (3)(b) of this section  
42 provided the use:

43 (a) Is or will be supported by adequate types and levels of public facilities and services and  
44 transportation systems authorized by applicable statewide land use planning goals;

45 (b) Does not seriously interfere with existing land uses in areas surrounding the airport; and

1 (c) The local government reviews the use under the standards described in ORS 215.296 if the  
2 airport is adjacent to land zoned for exclusive farm use.

3 (6) An applicant for a new use under subsection (5) of this section may demonstrate that the  
4 standards for approval will be satisfied through the imposition of conditions. Any conditions imposed  
5 shall be clear and objective.

6 (7) A local government may adopt standards and requirements for the establishment of new  
7 airports, the expansion of existing airports and the regulation of uses and activities at airports  
8 serving as the base for two or fewer aircraft on December 31, 1994, as shown in the records of the  
9 Department of Transportation. The standards and requirements shall comply with applicable state-  
10 wide land use planning laws.

11 (8) The [*Land Conservation and Development Commission*] **Oregon Natural Resources Com-**  
12 **mission** shall adopt rules regulating the height of structures to protect approach corridors at air-  
13 ports described in subsection (2) of this section and at publicly owned airports that are the base for  
14 two or fewer aircraft.

15 **SECTION 1053.** ORS 836.610 is amended to read:

16 836.610. (1) Local governments shall amend their comprehensive plan and land use regulations  
17 consistent with the rules for airports adopted by the [*Land Conservation and Development Commis-*  
18 *sion*] **Oregon Natural Resources Commission** under ORS 836.616 and 836.619. Airports subject to  
19 the rules shall include:

20 (a) Publicly owned airports registered, licensed or otherwise recognized by the Department of  
21 Transportation on or before December 31, 1994, that in 1994 were the base for three or more air-  
22 craft; and

23 (b) Privately owned public-use airports specifically identified in administrative rules of the  
24 Oregon Department of Aviation that:

25 (A) Provide important links in air traffic in this state;

26 (B) Provide essential safety or emergency services; or

27 (C) Are of economic importance to the county where the airport is located.

28 (2)(a) Local governments shall amend their comprehensive plan and land use regulations as re-  
29 quired under subsection (1) of this section not later than the first periodic review, as described in  
30 ORS 197.628 to 197.650, conducted after the date of the adoption of a list of airports by the Oregon  
31 Department of Aviation under subsection (3) of this section.

32 (b) A state agency or other person may provide funding to a local government to accomplish the  
33 planning requirements of this section earlier than otherwise required under this subsection.

34 (3) The Oregon Department of Aviation by rule shall adopt a list of airports described in sub-
