5
6
7
8 **SECTION 1.** ORS 274.040 is amended to read:

9 274.040. (1) Except as provided in ORS 274.043 [(1) to (3)], in ORS 274.085 for leases of
10 submersible lands acquired as an investment for the Common School Fund, in ORS 274.530 (1) for
11 leases of submersible lands of less than one year's duration, in ORS 274.530 (3) for licenses of less
12 than three years' duration and in subsections (2) and (3) of this section, submersible lands owned
13 by the State of Oregon may be leased only to the highest bidder, bidding at least the minimum
14 amount designated by the Department of State Lands under subsection (6) of this section for the
15 lease of any such lands, after being advertised not less than once each week for two successive
16 weeks in one or more newspapers of general circulation in the county in which the lands are situ-
17 ated. However, any owner of lands abutting or fronting on such submersible lands shall have the
18 preference right to lease the lands unless the submersible lands are occupied by a person claiming
19 the right of occupancy under a conveyance recorded before January 1, 1981, from the present owner
20 or predecessor in interest of lands abutting or fronting the submersible lands. If so, the occupant
21 of the submersible lands shall have the preference right to lease the lands. An easement or license
22 related to utility service on the submersible lands does not establish a preference right under this
23 subsection. The lands shall be leased for the amount designated by the department under subsection
24 (6) of this section as the minimum amount for the lease of any such lands. The preference provided
25 in this subsection applies to any lease of submersible land for one year or more offered or issued
26 under ORS 274.530. The preference provided in this subsection does not apply to:

27 (a) Any lease offered or issued by the department under ORS 274.705 to 274.860.

28 (b) **The renewal of an existing lease where the lessee is not in compliance with all the**
29 **terms and conditions of the lease.**

30 (2) Submersible lands owned by the State of Oregon that are determined by the State Land

NOTE: Matter in **boldfaced** type in an amended section is new; matter [*italic and bracketed*] is existing law to be omitted. New sections are in **boldfaced** type.

1 Board to be available for sale may be sold only to the highest bidder, after being advertised not less
 2 than once each week for two successive weeks in one or more newspapers of general circulation in
 3 the county in which the lands are situated. However:

4 (a) No such lands shall be sold for less than for a fair appraised value as determined by an ap-
 5 praiser appointed by the department.

6 (b) All sales of such submersible lands shall be approved by the State Land Board.

7 (c) Any owner of lands abutting or fronting on such submersible lands shall have the preference
 8 right to purchase such lands for the fair appraised value provided that the sale of such lands be

 13 construction, maintenance and operation of any structures or facilities necessary for the use of the
 14 water under the terms of the permit upon payment of just compensation by the grantee.

15 (b) In addition to the authority of the department under paragraph (a) of this subsection to grant
 16 easements over **submerged and** submersible lands, a person holding a water right permit, water
 17 right certificate, proposed or final order approving a water right permit or court decree evidencing
 18 a water right may occupy state-owned **submerged and** submersible lands for the construction,
 19 maintenance and operation of any structure or facility necessary for the use of water if the proposed
 20 use under the permit, certificate, order or decree is for irrigation or domestic use. The department
 21 may not charge for the occupation of state-owned **submerged and** submersible lands pursuant to
 22 this paragraph, nor may the department require that a person obtain written documentation to
 23 substantiate the permission granted under this paragraph. Upon request by the Department of State
 24 Lands, the Water Resources Department shall provide information to the Department of State Lands
 25 regarding any change of use of the water right. A person may continue to occupy state-owned

29 (C) The water is no longer being applied to irrigation or domestic use.

30 (c) An easement or the permission granted under this subsection may not be construed to be a
 31 sale or lease of the **submerged and** submersible lands within the meaning of subsections (1) and (2)
 32 of this section.

33 (d) A person granted an easement or permission to use or occupy state-owned **submerged and**
 34 submersible lands under this subsection shall indemnify and hold harmless the state from all liability
 35 and claims arising from or attributable to the use or occupation.

36 (4) All easements or the permission granted pursuant to subsection (3) of this section shall be

45 (7) For the purpose of sale, the value of state-owned **submerged and** submersible lands shall

1 be determined by an appraiser appointed by the department.

2 (8) The act of any person entering into an agreement with the department under this section
 3 or ORS 274.530 for the lease of **submerged and** submersible lands shall not be considered a waiver
 4 by such person of any claim of ownership in the **submerged and** submersible lands described in the
 5 agreement.
