19 cluding orphan devices [*collected from covered entities the previous calendar year*] **and computer**  
20 **peripherals, as determined by the department.**

21 (b) For each manufacturer except those specified in paragraph (c) of this subsection, determine  
22 the return share and return share by weight for calendar years through 2011 based on the best  
23 available public return share data and public weight data from within the United States for covered  
24 electronic devices from covered entities. For subsequent years, the return share of covered elec-  
25 tronic devices for each manufacturer shall be based on the most recent annual sampling or count  
26 of covered electronic devices. For subsequent years, the total weight in pounds of covered electronic  
27 devices shall be based on the total weight of covered electronic devices, including orphan devices  
28 **and computer peripherals, as**[,] determined by the department.

29 (c) For each manufacturer whose manufacture of covered electronic devices as defined in ORS

31 ORS 459A.305 [(3)(a)(A) and (B)] **(4)(a)(A) and (B)**, determine the return share and return share by  
32 weight based on the total return share and return share by weight determined under paragraph (a)  
33 of this subsection for all manufacturers described in this paragraph, allocated according to each  
34 manufacturer's percentage of the total number of covered electronic devices described in ORS  
35 459A.305 [(3)(a)(C)] **(4)(a)(C)** sold in this state the previous calendar year. The department:

36 (A) May use national market data, retail and manufacturer data, consumer research and other  
37 data to determine the percentages described in this paragraph. The department may also require  
38 that manufacturers submit sales or other data regarding the number of the manufacturer's covered  
39 electronic devices sold in Oregon. Manufacturers must submit any data required by the department  
40 in the format requested by the department.

41 (B) May assess a surcharge to the annual registration fee for manufacturers described in this  
42 paragraph if the department determines that the surcharge is necessary to cover any additional  
43 costs to the department in making the determinations described in this paragraph. The department  
44 must allocate any assessed surcharge to the manufacturer as a percentage of the manufacturer's  
45 return share determined pursuant to this paragraph.

1 (d) By May 1 of each year, provide to each manufacturer that had a return share determined  
2 under this section its return share and its return share by weight for the following year.

7 (b) Utilize environmentally sound management practices to collect, transport and recycle cov-  
8 ered electronic devices;

9 (c) Provide for covered entities, free of charge, convenient and available collection services and  
10 sites for covered electronic devices in both rural and urban areas;

11 (d) Advertise and promote collection opportunities statewide and on a regular basis; and

12 (e) Conduct a statistically significant sampling or actual count of the covered electronic  
13 devices, **except for computer peripherals**, collected and recycled by the state contractor program  
14 during each calendar year using a methodology approved by the department and prepare a report  
15 no later than March 1 of the following calendar year that includes:

16 (A) A list of all brands identified during the sampling or count;

17 (B) The weight of covered electronic devices identified for each brand during the sampling or  
18 count; and

19 (C) The total weight of covered electronic devices, including orphan devices **and computer**  
20 **peripherals**, collected from covered entities in the state by the state contractor program during the  
21 previous calendar year.

22 (5) Determine a manufacturer's annual registration fee for purposes of ORS 459A.315 (2) using  
23 national market data prorated for Oregon based on statewide population.

24 (6) Determine the recycling fee to be paid under ORS 459A.325 by each manufacturer that par-  
25 ticipates in the state contractor program established pursuant to subsection (4) of this section. The  
26 department shall determine the recycling fees based on the manufacturer's annual return share and  
27 return share by weight as determined under subsection (3) of this section.

28 (7) Maintain on its website information on collection opportunities for covered electronic de-  
29 vices, including collection site locations and hours. The information must be made available in a
