6 **418.**

7 **SECTION 2. As used in sections 2 to 8 of this 2011 Act:**

8 (1) "Child" means a child who qualifies for child welfare services provided by the De-
9 partment of Human Services.

10 (2) "Client-focused functional outcome measures" means objective, observable measures
11 of outcomes for services provided to a child and a child's family under sections 2 to 8 of this
12 2011 Act, including but not limited to measures relating to permanency.

17 of this state.

18 (4) "Family" means, at a minimum but not to the exclusion of siblings as defined in ORS
19 419A.004 or other persons living in the same household with a child, the child and:

20 (a) The child's parent as defined in ORS 419A.004;

1 the child's and family's home with a goal of 24-hour on-call support while the child and the
2 child's family engage in family strengthening activities and receive appropriate mental health
3 and addiction treatment and other intensive support interventions.

4 (6) "Juvenile court" means the court having jurisdiction over juvenile matters in the
5 county.

7 scribed in section 4 of this 2011 Act.

8 (8) "Reasonable efforts" means the reasonable efforts taken or to be taken, or if the In-
9 dian Child Welfare Act applies, active efforts taken or to be taken, by the Department of
10 Human Services to prevent or eliminate the need for removal of a child from the child's
11 home or, if the child has already been removed from the child's home, the reasonable or
12 active efforts taken or to be taken to make it possible for the child to safely return home.

13 **SECTION 3.** The Legislative Assembly finds that:

14 (1) There is growing empirical evidence that severe trauma may result when children are
15 removed from their families, and that this trauma may give rise to negative outcomes that
16 last a lifetime, cause intergenerational patterns of addiction, abuse and neglect, and give rise
17 to disrupted and broken families.

18 (2) Improving permanency outcomes for children is best accomplished by providing ser-
19 vices that allow children to remain with their families and in their homes when appropriate
20 and safe.

21 (3) Allowing families to remain intact while parents undergo mental health or addiction
22 treatment, take steps to move out of poverty by obtaining employment and housing or re-
23 ceive family strengthening services preserves child-parent bonds with improved outcomes for
24 children and families and positive long-term societal effects.

25 (4) When placement in foster or substitute care outside the home must occur, this can
26 be less traumatic and of shorter duration with the provision of family-focused treatment and
27 services, and the provision of routine family contact and visitation as frequently as is ap-
28 propriate. After children are returned to the family, they should receive continuing services
29 to ensure safety and stabilization.

30 (5) Children should receive continuing services sufficient to achieve stabilization after
31 returning to the community.

32 (6) A new systemwide model for providing child welfare services should be adopted that
33 provides services and supports that have proved effective in keeping children safely with
34 their parents, that reduces children's risk of future entry into the criminal justice and child
35 welfare systems, that lowers the risk of intergenerational abuse and that decreases the as-
36 sociated human and economic costs.

37 (7) The efficacy of programs that allow families to remain together or that assist families
38 with reunification has been demonstrated by pilot programs, including one that has operated
39 in Jackson County since 2007 and other national best practice models.

40 (8) Foster care savings that are reinvested can enhance and expand child welfare ser-
41 vices.

42 (9) Housing is essential to the safe reduction of the number of children in foster care.
43 Partnerships between affordable housing providers and nonprofit service agencies must be
44 formed where possible. Tenancy requirements and exclusion criteria related to criminal,
45 credit and tenant histories, particularly when associated with substance abuse, must be re-

1 evaluated and modified where possible.

2 **SECTION 4. (1) By October 1, 2012, and to the extent practicable using available re-**
3 **sources, the Department of Human Services and county partners shall implement Strength-**
4 **ening, Preserving and Reunifying Families programs as described in this section. County**
5 **partners are encouraged to form collaborations with programs to design, oversee and par-**
6 **ticipate in program development and implementation as appropriate. The department shall**
7 **be the lead agency in efforts undertaken pursuant to this section, but all officers, boards,**

16 **and community entities that have been designated by the county partners to coordinate**
17 **services provided under this section.**

18 **(b) A contract entered into under this subsection shall require only those services that**
19 **are reasonably available in the county or region where the program is or will be providing**
20 **services.**

21 **(3) The programs implemented under this section shall provide an array of services, de-**
22 **pending on resources and availability, that may include but is not limited to the following:**

23 **(a) Front end intervention services that include alcohol and drug treatment providers or**
24 **mental health providers accompanying department caseworkers on initial calls and visits in**
25 **response to allegations or reports of abuse or neglect. County partners shall participate in**
26 **assessments to determine the appropriateness and level of program services required for a**
27 **child and the child's family, the creation of safety plans to enable the provision of in-home**
28 **services if appropriate and the development of family preservation and reunification plans for**
29 **presentation to the juvenile court.**

30 **(b) Residential treatment whereby a member of a child's family with care, custody or**

34 **services.**

40 **residential treatment or in lieu of residential treatment, designed specifically for substance-**

43 **activities.**

28 home or the action most likely to make it possible for the child to safely return home.

29 (2) If the department or juvenile court determines that placement of the child and re-

32 possible for the child to safely return home:
